the czar "reciprocated the national sen-timent toward him and cherished real regard and reverence for our beloved The Times also says: "The czar has exhibited consistent attachment to the cause of peace. ## PRICE OF BEETS RAISED.

Utah Sugar Company Fixes the New Rate at \$4.75 a Ton.

Manager Cutler Will Go to Sanpete and Sevier to Look Into the Possibilities for a Factory There.

At a meeting of the board of directors of the Utah Sugar company held at the office of President George Q. Cannon this merning, several steps were taken which will be of interest to the many people of this State who are concerned in the sugar beet industry. Manager Thomas R. Cutler made the usual monthly reports to the board, and stated that the factory would close down for the season about December 1st; 48,000 tons of beets had been received up to yesterday, and 38,898 tons had been cut. The prospects were that the tonnage would run slightly over 50,-900, and the total amount of sugar turned out would be about 11,000,000 rounds.

The board made a decision which will beet growers of the State, in deciding year 25 cents a ton, paying \$4.75 instead of \$4.50. The feeling of the board was that while the results of the year would not be as large as had been ar theipated fast spring, owing to the drouth-which had been the severest known in twenty-five years, still the greatest amount of the suffering had been borne by the farmers, and the crease in the price was unanimously voted. As before, the rate per ton will be paid on beets averaging 14 per cent

Manager Culler also read several let-ters which had been received from Bishop Madsen of Gunnison, drawing on to the advantages which ex isted in Sanpete and Sevier counties for the location of a sugar factory there. Mr. Cutler stated that while the amount of beets received from those localities this year had been small, the quality had been satisfactory. Bishop Mad-sen's letters stated that several conentions of farmers had been called in Sinpete and Sevier countles for tide month, and Mr. Cutier was invited to meet with them. The sense of the board was that Mr. Cutler should attend the conven-tions, with a view to looking into the possibilities of establishing a sugar facvided that the farmers furnished a suf-ficient amount of beets during 1901 to warrant its erection, Mr. Cutler will accordingly spend several days meeting with the people in those countles, to ascertain what acreage of beets can be pledged for next season, and what the sentiments of the people are regarding
