COUNCIL GAVE JOB TO MORAN

Unanimous Vote Without Even a Motion to Approve the Contracts.

REFUSED TO HEAR PROTEST

From Committee of Citizens in Regard To Second South Street Paving—Communication From Board.

Without even a motion to approve the contracts, and after having refused to hear from a committee of citizens in regard to the Second South street paving, the city council last night by a unanimous vote approved the contracts with P. J. Moran for the paving of First South from West Temple to Third West; Second South from Third to Tenth East; East Temple from Fourth to Ninth South; State from Fourth to Seventh South and Fourth South from West Temple to Second East. The contracts were awarded by the board of public works upon a supplemental bid made by Moran in which he reduced his bid of June 15, by $12,000.

The board of public works in its communication to the council gave a complete history of the advertising, receiving and readvertising for the bids and its final rescinding of its action in the rejection of all bids and the acceptance of Moran's supplemental bid. After the communication from the board had been read by the recorder, Barnes stated that a committee, composed of Henry Cohn, Charles Crane and Isaac Sears, representing more than two-thirds of the property owners on Second South street was present and wished to be heard in regard to paving the street with macadam instead of asphalt and he suggested that Mr. Cohn be allowed the privilege of the floor.

DECLINED TO HEAR.

Black said that he did not see what good they could do now by being heard and Martin objected to the committee of citizens being heard, whereupon President Davis instructed the recorder to proceed with the roll call on the approval of the contracts. Before he had proceeded very far Mulvey took up the cause of the committee and asked as a matter of courtesy that it be heard before the roll call was completed. Martin again objected and the roll was finished and the contracts approved by a unanimous vote. Crabtree and Wells were the only absentees.

SOME POINTED REMARKS.

After he had been refused a hearing by the council, Mr. Crane made some very pointed remarks to the representatives of the press in regard to the action of the council. Among other things he said that Moran was herding the city council just like a bunch of cattle without respect to the rights and interests of the citizens.

OPINION FROM HILES.

An opinion was submitted to the council by City Atty. Ogden Hiles in regard to the duties of the board of public works with regard to reporting its actions to the city council for consideration. As the troubles between the board and the council in regard to that matter has been amicably settled the opinion of the attorney was not read to the council at all.

BID REJECTED.

The board of public works reported that it had rejected the bid of W. B. Black for the construction of the band stand at Liberty park. The amount of the bid was $2,381.80, which was more than $1,300 above the estimated cost of the stand. Hobday moved that the matter be referred back to the board with instructions to solicit bids and report at the next meeting of the council. The motion was carried.

Upon recommendation of the board of public works the council approved the contract with Hanley & Ritchie for macadamizing Sixth East street from South Temple to Third South street. The amount of the contract is $20,919.

MAYOR SENT VETO.

Mayor Thompson's veto to the resolution authorizing the street supervisor to proceed with the work of repairing the asphalt paving throughout the business district was sustained. The mayor objected to the work being done except by the board of public works. The board has already awarded the contract for repairs to P. J. Moran.

WORK OF REPAVING.

The board of public works was instructed to proceed with the work of repaving the intersections of certain streets in the business districts. The intersection at Second South and East Temple streets will be paved with creo-resinate wooden blocks, and the following intersections will be paved with asphalt: First South and East Temple, First South and West Temple, and Second South and West Temple.

An ordinance was introduced decreasing the license for pool and billiard tables from $25 to $10 per annum. After considerable discussion the matter was laid over for one week.

RESOLUTION BY MARTIN.

Martin introduced a resolution which has for its object a check on the horse feed graft by providing that all horses belonging to the heads of departments of the city shall be fed at the city stables. The resolution will be further considered after the street supervisor furnishes an estimate of the cost of providing stable room for the extra horses. The resolution follows in full:

"Resolved, By the city council, that on and after Aug. 1, 1906, all horses, except the horse of the health commissioner, maintained by the city, whether owned by the city or the city officials, be fed and cared for at the expense of the city, and at the city stables, and be it further

"Resolved, That the supervisor of streets be, and he is hereby instructed to make arrangements for the care and feeding of all such horses.

"All resolutions, or parts of resolutions in conflict herewith are hereby repealed to the extent of such conflict."

REGARDING LAND LEASE.

The veto of Mayor Thompson to the lease of city land to the state prison for five years at $100 per year was again laid over to await the action of the state board of corrections in the matter. It was stated that the board will give the council a final decision as to what it proposes to do in regard to paying the city for the water used at the prison on Thursday night and hence no action will be taken on the veto until after that time.

FIREMAN APPOINTED.

A. L. Hensted was appointed as a member of the fire department by Chief Vail to fill a vacancy and the appointment was confirmed by a unanimous vote.

The appointments of F. L. Hansing as clerk of the board of health and J. E. Flynn as fumigator were confirmed by the council upon motion of Hobday.

The waterworks committee reported in favor of the proposition of John W. Arnup to paint all of the fire hydrants in the city at a cost of 35 cents each. The report was adopted.

Upon recommendation of the park keeper the chief of police was instructed to see that automobiles are kept off of the narrow side drives in Liberty Park and are restricted to the wide main drives.

The fire played an odd trick, wiping out nearly everything down town but our factory, warehouses and the demand for high-grade goods.

THE GOLDEN GATE BRAND---A little thing to ask for but a great thing to get.

J. A. FOLGER & CO. Cor. Howard and Spear Sts. San Francisco

CLEMENTS R. HORSLEY.

Who died in this city yesterday, was born Dec. 1, 1847, in Soham, Cambridgeshire, England. Emigrated from England in 1855, resided in Boston, Mass., until 1861, when he came to Utah by ox-team, in Capt. Horn's company, arriving in Salt Lake City on Sept. 16, 1861. He apprenticed himself to the late John Squires to learn the barber trade. The shop was located in the old adobe building opposite the Beehive House, where the Holmes' dwelling now stand. He lived with the Brigham Young family for a number of years at the Bee Hive House. He was called on a mission to help build up St. George in southern Utah in 1867; while there he followed the trade of barbering, and was private barber to President Erastus Snow, in all his travels. He was released from his mission in 1872, and returned to Salt Lake City, where he followed his trade. He was head usher at the Salt Lake Theater for a number of years, and was also an active member in the Volunteer Fire Department, from 1875 until the regular paid department was organized. He was a patient sufferer for a number of years. He never complained and always hoped for the best. He was attended to during his long illness by his loving daughter, Mrs. Nettie D. Knowlton, at her residence, 261 Fourth street, where every kindness and attention was given to him. He leaves two daughters, Mrs. Knowlton and Mrs. Hattie H. McDuff, also two brothers, Mr. William Horsley of Brigham City, and Harry Horsley of Salt Lake City.

OUTING TOMORROW.

Millers and Grain Dealers to Give Car Load of Flour.

Tomorrow the millers and grain dealers of Salt Lake have their annual outing at Lagoon. This year the event promises to be larger than usual as the grain people and millers are more united than heretofore. To add interest to the day, a carload of flour has been split up into all conceivable kinds of prizes. The list is as follows:

For the largest family at Lagoon this day, 200 pounds of high patent flour.

For the family having the largest number of girls (boys barred), 200 pounds of high patent flour.

For the oldest couple on the grounds (ages combined), 200 pounds of high patent flour.

For the family having the largest number of boys (girls barred), 200 pounds of high patent flour.

For the best-looking baby under 1 year, 100 pounds of high patent flour.

For boys' race (under 10 years), fifty pounds of high patent flour.

For girls' race (under 10 years), fifty pounds of high patent flour.

For women's race (any age), fifty pounds high patent flour.

For the best waltzing couple at Lagoon, 100 pounds of high patent flour; second prize, fifty pounds.

To each of the first six ladies who shoot the chutes without screaming or without the exclamation of "Ah!" fifty pounds of high patent flour.

To the prettiest girl from Salt Lake, 100 pounds of high patent flour.

For the best girl from Ogden, 100 pounds of high patent flour.

For the man catching the most fish at the Lagoon pond between 5 and 6 o'clock, 100 pounds of high patent flour; second prize, fifty pounds. All fish caught in this contest to be the property of the committee.

To the first person climbing the greasy pole, 100 pounds of high patent flour.

For the first prize in the boat race, 100 pounds of high patent flour; second prize, fifty pounds.

For the best swimmer, 200 pounds of high patent flour; second prize, 100 pounds. Competitors to furnish bathing suits.

For the first couple to be married on this day at Lagoon resort at 6 p. m., 500 pounds of high patent flour.

The committee who has the affair in charge is composed of A. Vogeler, chairman; E. E. Rich, Bailey & Sons, Miller commission house and Turner Bros. Co. All members will be barred from all contests.

TEMPLE NOTICES.

The Salt Lake temple will close Friday evening, June 29 and reopen, Tuesday, Aug. 7, 1906.

JOSEPH F. SMITH, President.

The St. George temple will close its doors on Friday, June 29, and will not reopen again until Tuesday, Aug. 28, 1906. DAVID H. CANNON, President.

A Life Problem

Hurry, Hard, Nervous Brain Work

may do **No Harm** or **Terrible Injury**

It all depends on **Food** and the mental condition

If you find yourself growing weak, or some stomach or any other trouble is setting in, it's a sure sign you are using up more more gray matter than the food replaces.

How correct it? Change diet.

Quit Coffee Entirely.

Breakfast on

A little Fruit.
A dish of GRAPE-NUTS and cream.
A soft-boiled Egg, Toast, and
A cup of POSTUM---HOT.

There you are, nourished and happy until lunch time, and sure that you have the food the life forces use to fully rebuild the waste in gray matter in nerves and brain.

"There's a Reason." Prove it.

Grape-Nuts

M. & M. WORKERS AFTER NEW IDEAS

Inaugurate a System of Monthly Meetings Where They May Be Heard.

WANT LOWER PRICED COAL.

Think Small Consumers Should Have It to Encourage Storage for Winter—President's Report.

The get acquainted idea as applied to Utah commercial and manufacturing men, received a new impetus last night at the semi-annual meeting of the Merchants and Manufacturers' association. It was decided to have all of the members get acquainted with all the ideas of all the other members on the question of making a greater Salt Lake and a greater Utah.

To carry out this plan a system of monthly "testimony" meetings was inaugurated. On the third Monday of each month hereafter the association will call its members together, and the freedom of the floor will be given anyone with an idea. Last night someone reported that the dealers are being allowed 50 cents per ton as a storage rate for coal bought in summer.

Today a committee of the association is going after the coal men, asking that this reduction be allowed the small consumers, as an inducement to have them store up coal in summer against the coming of the winter famine.

Someone else reported that he did not like the dust covered streets and ragged looking paving, and today a committee is at work with the Civic League, offering the moral support of the association to any movement tending to better Salt Lake roads.

The session of the merchants and manufacturers was held last night to hear the semi-annual report of President Hewlett, and to plan for the future of the association. About 100 members were present and an interesting social program was rendered, including light refreshments and cigars.

The principal matter discussed was the necessity of building interurban railroads into the great farming sections of which Salt Lake is the natural center, and thus connecting Salt Lake more securely with her suburban areas. A committee consisting of D. O. Willey, C. O. Harris, A. H. Cook, H. A. McCollem and E. J. Alexander was appointed to look into the matter of interurban roads, and report at the next meeting.

Treasurer C. O. Harris reported that on June 30, there was $924.11 net balance in the treasury, and President Helwett delivered the following general report:

PRESIDENT HEWLETT'S REPORT.

"The Manufacturers & Merchants' association was organized Dec. 1, 1905—a little over six months ago, and today it has a membership of 361, which embraces the manufacturers, wholesalers and many of the retail merchants of the state, and it is being supported by all the people of Utah.

"The association was formed to stimulate business; increase the number of factories; encourage those which were already established to broaden out, build up, increase their capacity and add to the number of their employes. It is well known that the communities in the manufacturing centers are the most prosperous, and a keen necessity was felt in our midst for more big factories, and larger and steadier pay rolls.

"It was also desired to unite the different sections of the state by bringing the people into closer business relations, and to help the people of one section to build up all other sections by using the products which they produced. The need was felt of arousing, at home and abroad, a greater interest in Utah's unbounded resources, industries, and the natural advantages which she enjoys by reason of her splendid location, making her the great distributing and manufacturing center of the intermountain country, so that our own people would be encouraged to support our manufacturers and home merchants, and give Utah goods the preference when quality and prices were equal; and that desirable people would be induced to make their homes with us, and capitalists invest their money in our state.

RESULTS ARE SATISFACTORY.

"Many things had to be done to bring about these desired results, and although we have hardly commenced to do the big things yet, so much has already been accomplished that we are encouraged beyond our most sanguine expectations.

"At the outset it was observed that in order to successfully compete with the outside, it would be necessary to obtain better freight rates, and have a traffic manager, who was thoroughly acquainted with freight problems. The association was fortunate when it secured Orvin Morris for traffic manager, and through the good work of Mr. Morris, and the members of the association, a number of concessions have already been secured, and more will doubtless be made in the future.

WOMEN DO GOOD WORK.

"The women have become interested in our association, and have done some splendid work. They have organized an auxiliary organization, and have organized the women in 10 other counties.

"Surrounding towns have partaken of the spirit of the movement and we have organized business men's clubs in Murray, Sandy, and other towns in the southern part of Salt Lake county.

"Through our efforts several new factories have been started and are now in successful operation, and we are corresponding with people who are contemplating investing their money here, and the outlook for a number of new factories in the near future. Many have been established a long time have recently increased their capacity and are employing more hands, other factories which we can name on application, were about to close down, or were contemplating moving to some other state, but they have decided to remain here and remain open, and they are prospering and giving employment to many people.

WHAT CITY NEEDS MOST.

"What we seem to need is more capital, or rather the capital which we have already should be invested in work-giving, dividend-paying factories. When a bank or trust company commences business everybody seems ready to quickly buy up all the stock, but when a factory is suggested, everybody seems to draw back, and hesitate about investing in the enterprise.

"The correspondence relating to the establishment of new factories has covered a wide field, taking in drug manufacturing and proprietary medicine business, breakfast foods, cereals, foundries, furniture, envelopes, glassware, bottles, decanters, woolen goods, wool scouring plants, tanneries, starch factories, packing-house products, and many others. In all 3,500 letters have been written and mailed. Inquiries averaging 100 per month have been sent out. A total of 6,500 pieces of mail have been sent from the office since the association was first formed.

"Some time ago the parcels post bill was before Congress. There was a very determined effort on the part of many people to have it passed at this session, and had it become a law it would have meant untold injury to the west, and would have built up the big mail order houses of the great eastern centers at the expense of the western merchants. Under its provision 25 cents would pay the cost of delivering 11 pounds of merchandise, and this would mean ruination to hundreds of western merchants.

"Our association took the matter up promptly with our representative and senators, and the matter has been postponed for this session at least.

TO HEAD OFF COAL FAMINE.

"During the coal famine last winter our business houses as well as our residences suffered for want of coal, and in a number of cases the larger factories were almost compelled to close down entirely. To remedy this evil the association influenced the big coal companies to make a storage concession of 50 cents per ton, and this will do much to alleviate suffering next winter. However, it will not be unwise for those who can do so to put in a supply of coal during the summer months that will carry them through the cold months of winter.

"Although we have a splendid exhibit room, and some fine displays, we feel that the greatest good can be accomplished by uniting the displays of the different organizations of the state, and making one large exhibit. To this end we have met with the D. A. & M. society and the Real Estate Man's association, and a consolidation of the exhibits of these associations is one of the probabilities of the near future.

"The newspapers have given us their loyal support. We appreciate their fine work and realize that had we not had their assistance we could not have accomplished what we have.

HOME PRODUCTS.

"We are preparing a little pamphlet on the industries of Utah, which will contain a list of names of members of the association. This little book will go into every home, so that the people will be informed as to the goods which we are producing here, and know the people who are making or selling them. We have also issued official stamps for Utah goods, which have been tested and found of high quality. The manufacturers who have not already obtained them, can get them by having their products tested, and then applying to the association for stamps. The stamps have been made in two sizes, and the goods bearing them are recommended to the consumers by the association.

"Special mention should be made of Gordon H. Place, our manager, who has been alive and active from the first, and whose excellent publicity work is especially worthy of commendation.

"The following are the present officers and directors: President, Orson H. Hewlett, of Hewlett Bros.' company; vice president, George S. McAllister, foreman Z. C. M. I. factories; secretary, Nephi L. Morris, manager Elias Morris & Sons company; treasurer, C. O. Harris, representative B. F. Kierulff company. Directors: Geo. Austin, agricultural superintendent Utah Sugar company; Wm. Bowen, local manager Crane company; Albert Fisher, proprietor Fisher Brewing company; Wm. Lambert, Lambert Paper company; L. R. Martineau, vice president W. A. Nelden Drug company; O. R. Meredith, trunk manufacturer; Theodore Nystrom, manager Taylor-Armstrong Lumber company; John Montgomery, commercial agent Utah Light & Railway company; J. R. Valentine, president and superintendent Utah Bedding & Manufacturing company; Geo. A. Whittaker, Whittaker & Dallas. The employes of the association are: Orvin Morris, traffic manager; Gordon H. Place, manager and assistant secretary.

"These men are all working hard and are fully alive to the needs of the association, and if the members and directors will all work in harmony, we will make Utah the leading industrial center of the intermountain country."

PROTECT PROPRIETARY MEDICINES.

Did ever occur to you that promrietary medicines are a blessing to mankind generally? The good ones have long continued sale; the poor ones have short life and soon leave the market.

If we had to depend entirely upon physicians and druggists it would be expensive and very inconvenient at times, especially in the country and at night when neither could be conveniently reached. For nearly forty years Boschee's German Syrup has been used in many families, and thousands of lives of adults and children have been saved by its use, when it was impossible to reach a physician. German Syrup is the best household remedy for cough, colds, throat and lung trouble. It quickly relieves the hacking cough, loosens the phlegm, and brings sound and refreshing sleep. Twenty-five and seventy-five cents. Get a copy of Green's Prize Almanac. At all druggists.

REAL ESTATE DAY.

Saltair, June 28th

Over 250 prizes. Tickets 25c each. For sale by all members of the association, and at headquarters, 15 West Second South.
