DESERET EVENING NEWS.
Saturday. . . . November 14, 1868.

LOCAL AND OTHER MATTERS.

CORRESPONDENTS writing for publication are requested to write on one side of the paper only. No notice can be taken of anonymous communications. Correspondents' names must in every instance accompany their communications, not necessarily for publication, but as a guarantee of reliability.

THEATRICAL.—There was excellent playing last night in "Mathilde." Madame Scheller's impersonation of the title role was chaste and finished in the extreme. Mr. McKenzie's Berthold was carefully and well played; Mr. Hardies Tannenhoff was a fine piece of acting; and Mrs. Clawson's Gertrude was rendered with a nice vein of humor that made the hard-hearted old lady quite enjoyable.

In the farce Mr. Margetts as Nobbs had it his own way, and the other characters were excellently rendered by Messrs. Lindsay and Graham, Mrs. Woodmansee and Mrs. Romney.

CHARITABLE.—Last night we saw a paper signed by a great many respectable names, with amounts appended which have been subscribed for the purpose of buying a cork leg for John P. Thacker, whose leg had to be amputated in March last. Mr. Thacker, who was a hard working, industrious man, while irrigating when warm was seized with a painful malady in the right leg, through standing in the cold water. An abcess commenced at the bone, and amputation at last was found necessary. He is a worthy man, and a deserving subject of relief, and we hope he may soon be placed in possession of sufficient funds to procure the leg, and again be in a position to provide for himself and family.

GOODS IN.—There is a chance of some of our merchants having their depleted stocks renewed soon, as we noticed yesterday evening a train arriving, belonging to H. P. Kimball, Esq., freighted with some 30,000 lbs. of goods for Messrs. Kimball & Lawrence.

CLEARED UP.—The cloudiness of yesterday has cleared away, a slight sprinkle last night being all the deposit it made. To-day the sun has been shining with warmth and brilliancy, as if Winter had postponed operations for an indefinite period.

THE CONCERT.—This evening Madame Parepa Rosa, having recovered from her indisposition, will make her first appearance in this city. By the published programme we see she will appear in four pieces. Herr Rosa will give some violin solos; Mr. Brookhouse Bowler will appear in three pieces; and Signor Ferranti in four. The programme consists of twelve selections, six in each part. The Theatre Orchestra plays at the concert; and Mr Pratt is the accompanist. There is no doubt of the house being crowded.

CO-OPERATIVE.—Yesterday evening we saw the first of a series of signs which will be placed over those stores the owners of which are shareholders in the Co-operative mercantile association lately organized. The sign is over the store of Eldredge and Clawson, and is artistically painted. It is the work of Midgley & Evans; "Holiness to the Lord" occupying the top of the sign, arching an all-seeing eye; and underneath "Zion's Co-operative Mercantile Institution."

LARCENY.—James Galloway was arrested to-day, chsrged with larceny, and was to be examined at 4 o'clock this afternoon.

A SUGGESTION.—When this city was laid out in ten acre blocks, of eight lots to the block containing an acre and a quarter each, there was a beginning made for one of the healthiest, most beautiful and most delightful cities in the world. With a house on each lot, standing back a moderate distance from the street, flower beds and blooming parterres filling the space between; with beautiful streamlets sparkling and bubbling down by each broad sidewalk, under the umbrageous shelter of over-arching shade trees; with orchards of luscious fruit surrounding all, and health and beauty on every hand, globe. Some conception may be formed of what it would have been had the plan now sketched been adhered to, by what it is with that plan departed from and altered. A business centre has grown up; and in other parts of the city a variety of causes have conduced to the breaking up of lots, building houses closer together, and having the original intention of buildings being placed a distance from the street considerably modified. But with the growth of our business centre another consideration springs up, which will force itself more and more upon the attention of the public. Our blocks are large—it is exactly half a mile around one—and people in a hurry dislike very much to travel a quarter of a mile when going half the distance would suffice, for this is a fast age. Hence the consideration arises of having closely built blocks bisected by passages leading between opposite sides. In a sanitary point of view, also, the subject ought to have much weight. There should be communication with the rear of stores, hotels, and similar places, and this can scarcely be afforded to each place separately where street frontage becomes so valuable as it has already done on our principal business street. A variety of reasons demand that such communication should exist. And as business and population increase these reasons will grow weightier. Sweepings, accumulations from unpacking goods, night soil, and other things will require to be removed regularly and often, that the evils to which they would give rise may be avoided. We would recommend the matter to the consideration o our City Fathers, confident that their wisdom will comprehend the whole subject and that they will deal with it in a proper manner.
