

ness, principally the result of climatizing influences that operate to a greater or less extent upon all the emigrants.

Those of the brethren who came out last year are now completely climatized, and are looking hale and hearty, feeling well and getting into a position to accomplish the object of their gathering together.

The town of Manassa has changed very much for the better since one year ago, it, at that time, being destitute of inhabitants, and not a furrow plowed. To-day some 30 or 40 houses have been erected and now occupied by the Saints, a good hewn log school house put up, and a school in session the greater part of the winter, a Sunday school organized, and regular meetings held.

During the greater part of the winter the people have been able to procure employment at fair wages, and at this time the demand for laborers is greater than the supply.

Our Mexican friends have in many instances come to us to secure renters for their farms, furnishing lands, seed, teams, houses, and in many instances cows to milk, and giving half; thus the way is opened up for the people who come unprepared to purchase and go to farming immediately, for them to raise a crop, and during the summer find time to get out their building material and erect houses.

The Saints express themselves as satisfied with the country and the general advantages it presents. The character of the soil has proven to be good. During the past winter but four snows fell, and the heaviest to the depth of only four inches. Fire wood can be obtained in from four to six miles; good saw timber from sixteen to twenty, and in great abundance; water is plenty and easy of access, and of a good quality; wells require to be dug from fifteen to twenty-five feet deep. There is excellent clay for brick, and an abundance of stone; extensive hay fields can be found on the La Hora, some eight to ten miles from the settlements, with good meadow lands adjacent to town, only requiring a fence and irrigation.

Small grain of all kinds will do well here. Potatoes, cabbage, carrots, beets, onions, peas, beans, etc., will all produce finely. The brethren are preparing to test a number of varieties of fruit, and I am satisfied will be able to make a success of it.

There is an abundance of land for all who desire to come, that can be obtained on reasonable terms, both from the State and general government.

Wheat is worth \$1.25 per bushel, bacon from 9 to 11 cents, beef from 7 to 12, according to quality. Dry goods, hardware and groceries do not vary but little from Salt Lake markets. A co-operative store on a small scale has been started at Manassa, so arranged as to increase its stock in the future.

Homes can be obtained here by those who desire to build up the kingdom of God, and do good. A cordial welcome will be extended to those who come with the sanction of the authorities of the Church, bringing with them their recommendations from their presiding officers.

I start for the States in the morning to bring out the next company of Saints. With prayers for the prosperity of Zion,

Very truly your brother,
JOHN MORGAN.

A gentleman not extremely given to piety, was dismayed by being asked to say grace at a strange table. To refuse and explain would be embarrassing; to comply would be equally so; but he chose the latter, and started off briskly enough with, "Oh, Lord, bless this table." Just here, being unused to the business, he nearly broke down, but by a gigantic effort pulled through with, "World without end, yours, respectfully, amen."

It was a table d'hôte at Boulogne. An Englishman, a very bumptious individual, was accompanied by a lady, and sitting opposite to them was a young German, on whose fingers were a number of massive rings. After gazing in a most persistent manner at him, the Englishman, addressing his companion in a loud tone, said: "I hate to see a man with rings on his fingers!" The German replied to this with a supercilious sort of sneer, so the Englishman "went for" him again, and said in a still louder tone: "Do you know what I would do with a ring if I had one?" Before the lady could reply, and to the great amusement of all who heard it, the German broke in: "Vare it in your nose!"

Swallowing

POISON

Spurts of disgusting mucus from the nostrils or upon the tongue, Watery Eyes, Snuffles, Buzzing in the Ears, Deafness, Crackling sensations in the Head, Intermittent Pains over the Eyes, Fœtid Breath, Nasal Twang, Scabs in the Nostrils and Tickling in the Throat are

SIGNS OF CATARRH.

No other such loathsome, treacherous and undermining malady curses mankind. One-fifth of our Children die of diseases generated by its infectious Poison, and one-fourth of living men and women drag out miserable existences from the same cause. While asleep, the impurities in the nostrils are necessarily swallowed into the stomach and inhaled into the lungs to poison every part of the system.

Dr. Wei De Meyer's Catarrh Cure absorbs the purulent virus and kills the seeds of poison in the farthest parts of the system. It will not only relieve, but certainly cure Catarrh at any stage. It is the only remedy which in our judgment, has ever yet really cured a case of Chronic Catarrh.

Cured! Cured! Cured! Cured!

G. G. PRESBURY, Prop. West End Hotel, Long Branch, cured of 20 years Chronic Catarrh.

J. D. McDONALD, 710 Broadway, N. Y., (Sister-in-law) cured of 40 years Chronic Catarrh.

MRS. JOHN DOUGHTY, Fishkill, N. Y., cured of 8 years Chronic Catarrh.

MRS. JACOB SWARTZ, JR., 200 Warren St., Jersey City, cured of 15 years Chronic Catarrh.

etc. etc. etc. etc. etc.

Wei De Meyer's Catarrh Cure is the most important medical discovery since vaccination. It is sold by all Druggists, or delivered by D. B. DEXTER & Co., 46 Dey St., N. Y., at \$1.50 a package. To Clubs, six packages for \$7.50. Dr. Wei De Meyer's Treatise is sent free to anybody.
