Probate Judges.

whatever hinders the free and untrammelled expression of the will of the voter at the polls, is wrong, and should not be tolerated. I do not think that the election law of this Territory, now in force, is a good one. Section 5 of an Act entitled, elected by the joint vote of the Legislative "An Act regulating elections," approved January 3d, 1853, provides that "Each elector shall provide himself with a vote containing the names of the persons he wishes elected, and the offices he would have them fill, and present it, neatly foided, to the Judge of the election, who shall their own officers be exercised by the peonumber and deposit it in the ballot box; ple, who are the immediate source of all the Cierk shall then write the name of the elector, and opposite it the number of his vote."

All experience has shown that voting viva voce, or by a numbered ballot, is liable to subject the citizen to a degrading We also need a Statute on descent, and dissurveillance, and prevents that free expression of his will that lies at the very foundation of our system of government. I do not hesitate to say that I am unalterably opposed to all such. They are but the whip which may be used by the strong to drive the weak and compel submission to their wishes. And for the credit of Utah, I urge you to abolish the numbering of the ballot, and give to the people, instead, a secret ballot, the only safeguard of our liberties, making it impossible for one citizen to know how another citizen voted, or to improperly influence his vote. There is now no law fixing the time when the canvass of votes shall be had, and certificates of election issued. Nor is there any provision allowing any other than the Probate Judge, County Clerk, and Selectman, to be present at the counting of the votes.

Section 23, of an Act, entitled, "An Act in relation to the Judiciary," approved January 18th, 1855, provides that "Judges of square. Probate for the several counties shall be Assembly. I recommend the repeal of that Section, and ask that such officers be elected by the people. Many arguments could be advanced in favor of the change, but I deem it unnecessary. The genius of our Government, s) well understood by every citizen, requires that the right to select 30authority, and I would have it so in Utah, so far as it can be done under the act of Congress organizing the Territory.

Permit me, also, to suggest that there is great need of a Probate Practice Act, systematizing the practice in probate business. tribution of the estates of deceased persons.

Branch Mint.

The establishment of a Branch Mint by the General Government at some central point in this Territory, has become an absolute necessity. And I urge you to memorialize Congress upon that subject, and to use all proper means at your command to secure that which is so much needed.

Geological Survey.

Of Utah, so rich in mineral wealth and so full of promise, but little is known in a scientific sense, and I recommend that a Geological Survey of the Territory be authorized, and that an appropriation of money be made, by you, sufficient to meet the ex-penses of the same.

Provo Times, Jan. 7-

FIRST JUDICIAL DISTRICT.

P. H. Emerson, Judge, Preside ing. Tuesday, January 6, 1874.

Court resumed its session at halfed the names of the grand jurors, who answered as follows:

On the cars I learned that the Flagstaff mine, Little Cottonwood, was making arrangements to ship twenty-five tons of ore a day down

There was but little time to devote to looking around Provo, as a start southward had to be made from that point within half an hour after arrival. A glance was sufficient to show, however, that the progress of that city during the past seven years was not a whit behind that made by any other city in the Territory, according to the population at the beginning of the time aforementioned. Besides the enlargement of the borders of the city, numerous large and handsome buildings have taken the place of smaller and less imposing ones. Probably the most creditable of them all, however, is the large wcollen factory, of which the people of Utah county, and especially of Provo, have every reason to be proud. Judge Emerson was holding court in the new Court House Building this morning. He is only engaged in hearing civil cases, which can be disposed of without a traverse jury, the latter having been dis-You have already learned, by empaneled and charged. According to this, his own statement, he must be (an) a pistolic preacher indeed. I have not been able to ascertain whether it be really true that after he gets through spinning such yarns he purposes to strike out the first two letters of his name. In passing through Springville several public and other improvements were noticeable. During a roll book. Attorneys ought to keep brief stop there a jocular incident copies in their own office, as no occurred. A gentleman made a purchase at a store, and the storekeeper, in giving back change, included in it, by way of joke, of course, a bogus five dollar bill. If that storekeeper had ever heard the purchaser lecture on "Finance" he wouldn't have tried that joke. Anyhow, it didn't take. The bill was instantly thrown back and a sickly, kind of Colfaxian smile flitted across the face of the store man. I had the pleasure of meeting with Brother Lyman Woods, of Springville, the well known Indian interpreter. It will be reent part in the council with the Indians in conjunction with General Morrow, General Thurber and others, a little over a year ago.

I suggest to you that a time should be fixed by law for the canvassing of the February 18th, 1870, requires that twovotes, and that any person voted for at thirds of the whole number of Directors of such election shall have the privilege, if he all Corporations organized within the Terso desire, to be present at such counting.

Civil Practice Act.

I think the Civil Practice Act is defective in many respects; and without calling your attention to the many changes need. ed, I suggest that a revision of the same at this session is necessary. And further, I respectfully suggest, that in my judgment, it would be well whenever, on the trial of any action at law in the District Courts, it shall be found to turn on important or doubtful principles of law, to that all Incorporations organized n this authorize a special verdict to be found. And I would also provide that in all cases where the parties agree upon the facts, such agreement, when signed by the parties or their attorneys, shall be made a part of the record; and that all questions of law arising on special verdicts, agreed cases, motions for new trial, and the like, arising | Territory is free from all indebtedness, and in any manner in the District Courts, in law or equity, may be transferred into the Supreme Court for decision, conferring upon the Supreme Court the right to give judgment, remand the cause, or make an which are herewith transmitted. order according to law and justice of the case.

Deeds.

I call your attention to the fact that there is not now, nor has there ever been, any satisfactory statute in this Territory regulating conveyancing; no law prescribing how a deed shall be executed, nor requiring the registration of the same. Thus leaving the entire real estate transactions of the Territory in that anomalous condition which must necessarily result in much confusion and vexatious litigation ask that you appropriate a sum of money in the future. I cannot urge you too sufficient to enable them to make such prestrongly to give this matter, so important paration as will reflect credit upon the peoto every citizen, so necessary to our future weal, your early attention.

Incorporations.

Section 1, of an Act entitled "An Act providing for Incorporating Associations, for Mining, Manufacturing, Commercial, and other Industrial pursuits," approved ritory shall be residents of the Territory. Capitalists, from all parts of the Republic, are making investments in our midst, for mining, manufacturing and other purposes; and in the organization of Companies, under the law as it now stands, they are compelled to select a majority of their Directors from person, residents here, who not have moved it. A Mr. Roberts have no personal interest whatever in the enterprise over which they are to exercise control. The effect of such a law is to prevent capital from coming to the Territory. I hope that it may be repealed. Before dismissing this subject I would also suggest Territory be required to file their Articles of Incorporation in the office of the Secretary of the Territory.

Finance.

I am happy to be able to communicate to you that the financial condition of the Territory is all that can be desired. The now has a balance in the Treasury of \$35,-655.47.

For a more detailed statement I refer you to the Reports of the Treasurer and Auditor of Public Accounts, copies of

Centennial Celebration.

The United States Centennial Commission, by a circular, issued Nov. 12, 1873, invited each State and Territory to appoint a Board of Managers to act in conjunction with the Centennial Commissioners of the several States and Territories, in making preparation for a proper representation at the Centennial Celebration of American Independence, to be holden in the city of Philadelphia, in the year 1876.

The suggestion is a good one, and I recommend that such Board be created, and accomplished. Miss Barrett was

Last night two boys, who are well known, but whose names are withheld for the present, took some telegraph wire and bent it over a narrow foot bridge spanning the main water ditch, a block west of the Enterprise office. This was secured on each side of the bridge by long iron spikes, so that a very heavy force coming against it would was passing over the bridge about ten o'clock last night, and of course not seeing the trap, was tripped up and fell with great violence on the bridge, but caught himself before losing his balance. On arising he commenced to tear up the contri- cer. vance, when the two boys, who had been skulking in the shadow of Mr. Farnsworth's house, began throwing stones at him, which causes it to appear that they meant the snare for him. If a child had been passing over the bridge, it must inevitably have been drowned, as the water is quite deep and very swift. These embryo ruffians had better be warned in time; as it is, a good cow-hide might help them considerably.

Statute of Frauds.

In this connection I call your attention to the fact that we have no Statute of Frauds. We need such a Statute, and I cannot refrain from expressing the hope that you will meet this public want without delay.

Marriage.

In my message to the Legislative Assem- | that in the end much good may be done. bly, at its session in 1872, I urged that body to enact a law upon the subject of Marriage; but I regret to say that nothing was done. There is now no one in this Territory authorized by law to unite persons in wedlock. That there should be is apparent to all. And I recommend that all ministers of the gospel, regularly ordained as such, and all Judges of he Courts of Record, and all Justices of the Peace, be authorized by law to pronounce the marriage ceremony. The marriage relation lies at the foundation of all good society; and I doubt not that you will agree with me, that all rights, incident to that sacred relation, should be clearly defined and firmly established by a plain and positive Statute, and I hope that it will be done at this session. While I do not wish to present to you, in detail, the many features that should be contained in the law, you will permit me to suggest, that in my judgment, a marriage license should be required of all persons before they can be united in wedlock, which license shall be issued by the County Clerk of the County in which the parties reside, requiring such Clerk to keep a record of all such licenses issued by him. I would also require all persons uniting parties in wedlock to furnish the County Clerk with a pertificate of such marriage, to be recorded by him in a book kept for that purpose. And it would be well to make it a crime for any person to unite parties in marriage who have not first procured license there-IOF. **Rights of Married Persons**,

Section 4, of an Act, entitled An Act to protect the Hights of Married Persons, approved February 16, 1872, declares that "The right of dowry shall not exist in this Territory." I approved that Bill; but after due reflection, I am satisfied that in so doing I make a mistake. And I recommend that that portion of the act referred to be repealed at this session.

ple of the Territory.

Conclusion.

It is impossible for me at this time to present to you, in detail, all the legislation which is needed in the Territory; but it is your duty to extend a helping hand. And, in conclusion, permit me to express the hope that a spirit of harmony and good will may preside over all your deliberations; that prudence and sound judgment back were terribly scorched, and may characterize your legislation; and
