

picture (1904) of a boy whistling. This water color elicited splendid criticisms from artists in Paris. Three Boys in oils is another fine composition by the same artist. His new picture comes in the form of "The Young Pioneer," a study of his own life in the woods, with a dead bird by his side. This picture is not so strong when it comes to drawing as the others shown by him.

John Harte shows excellent taste and dexterity in his lake scene and his landscape of Evening Among the Wasatch Mountains is considered by many competent to judge one of the gems of the exhibit.

H. L. A. Culmer has five landscapes entered, two of the best being one of a desert scene painted on the occasion of his recent trip into southwestern Utah, and a small picture adjacent showing the mountains bathed in a sunset glow.

For a young man showing promise Donald Beaudry bids fair to be heard from in art circles here. His study of a flock of sheep grazing on the mountain side is receiving a number of favorable comments.

Dan Weggeland, the pioneer artist, has a new picture, The Pioneers, which is in line with his previous efforts. He also shows a big study of a mountain scene before the picture.

CHINA PAINTING.

Adjacent to the picture gallery is a very interesting and valuable exhibition of china painting, several show cases being devoted to the work of Miss Adah P. Bette, Mrs. Josephine McCaslin and Mrs. E. Cummings. The latter has several pieces of fine china, and her designs are attracting considerable favorable comment. L. Desroff also has a very fine display of pyrography and painted work on wood.

BLIND SEE, DEAF HEAR.

Not the least interesting feature of the exhibition is the work of the pupils of the state school for the deaf and blind under the direction of Prof. Frank M. Briggs. This exhibit, the fair visitor sees the deaf child read and the blind child see. The exhibit is somewhat unfortunate in its location, being situated on the northwest end of the big building with a truck factory on one side and a tenebrous stall on the other. However, handicapped as it is the crowds that have gathered around the exhibit during the past two days are augmented in numbers every five minutes.

The exhibit consists of samples of work of various departments of the institution—hand made shoes from the shoe shop, furniture from the carpenter shop, tools and chains from the blacksmith's shop, a gown from the dress-making class, bottled fruit put up by the domestic science classes, dolls and center pieces, buttoned work, crayon, charcoal and art drawing, showing knit and crochet work by the blind girls, samples of printing from the type department and a map of South America modeled in putty by one of the blind pupils.

Not the least interesting exhibits are two gold medals won by the pupils at the St. Louis world's fair and at the State fair here four years ago.

But essentially the most interesting part of the exhibit to the layman is the daily demonstration which is held during the life of the fair at 11 a. m., 2 p. m., 4 p. m. and 8 p. m. Here may be seen a class of young men and women children speaking plainly enough to be understood by everybody and understanding by reading the lips what the teacher has to say. These little boys read and write as readily as any pupils of their age. They have been in the institution one year and their progress during this time has been marvelous. They greatly pleased President McDonald by speaking in a very clearly his name when it was written upon the blackboard.

BRAINS IN FINGER TIPS.

The class of four blind pupils also give a demonstration consisting of two beginners and two from the eighth grade. These children seem to have grey matter in their finger tips from the manner in which they "see" the raised dots upon the exhibition page with their finger tips. The system of writing and reading is the American Braille. With this system books of all kinds including mathematics, music and classics have been written by United States government and furnished to all institutions for the blind gratis. One of the most wonderful exhibitions given this morning was by Julie McMillan of Detroit, Mich. This young lady took a strange machine, a new Remington typewriter, and wrote a sentence as neatly as the best typist could and in practically the same time.

Another feature of the exhibition will be a duet on the violin and piano between Thomas Biddulph of Hooper, Utah, and Jangle McMillan, as soon as the piano arrives this evening.

In addition to the exhibition on the part of deaf pupils of the sixth and eighth grades on oral and manual work.

From first to last the demonstration impresses the audience with the idea that the state institution at Ogden is in every sense of the word a school and not an asylum, as the heedless often refer to it.

The classes are under the tuition of Miss Francis N. Edgely, who was with the boys and girls at the St. Louis and Portland fairs. Jean Cox and Max W. Woodbury.

On Thursday morning the "babies" will come down from Ogden and show what they can do in the way of reading and writing. The classes are stopping at the Southern hotel here while in the city and are enjoying their stay highly.

LYNCH WILL LEAD THE REPUBLICANS

(Continued from Page 1.)

by Chairman Willard Hanson, was adopted unanimously. It is as follows: The Republican party of Salt Lake in convention assembled, congratulates the people upon their unparalleled victory in state and national affairs and commends and endorses with heartfelt approval the successful and pre-eminent administration of President Roosevelt. We emphasize the principle that municipal government is most successful when in accord with national politics, and believe that our own advancement lies in the greatest extent to which we can secure peace, progress and prosperity, and we pledge the people of Salt Lake that we shall pursue in local affairs the same honest and fearless administration of public affairs that has characterized the national administration of President Roosevelt.

The Republican party has fearlessly met and successfully settled every question with which it has been confronted, and can and will successfully settle every question before the people of Salt Lake at the present time. We believe that the water question is of prime importance to the citizens of Salt Lake, and should not be allowed to degenerate into irrelevant and immaterial issues, which live only in the shadow of the past. In the next decade the population of Salt Lake should be doubled, and the Republican party will continue to aid in the advancement of Salt Lake City, insuring in installing a water system which will supply every want of the city, present and future.

ECONOMY PLEDGED.

The Republican party has always safeguarded the people's interests and in all municipal improvements will see to it that not one dollar of the people's money shall be diverted from the purpose for which it was intended. We will, judicious and economical expenditure shall characterize the same, and maintain further, that the labor on all municipal work shall be performed by the best available men, and that the labor shall be adequately compensated.

We denounce as unjust and outrageous the present wasteful and extravagant administration, which, in spite of the thousands of dollars expended, has failed to bring about any real improvement in the city. We have no objection to the expenditure of the money. Sidewalks and sewers have been paved on paper, and other imaginary improvements made between the intervals of strife in the street department, while the people are being taxed to maintain its incompetency.

We commend the efficiency of the police department, which, under Republican guidance, has attained a standard of excellence before unknown in the history of the city.

FAVOR A "SQUARE DEAL."

The Republican party has always stood for fairness and justice to all men, honesty and integrity in all things municipal and national, and a "square deal" to every man.

Believing that the Republican party of Lincoln, McKinley and Roosevelt is great enough to solve every question of local or national importance, we deplore every effort to divide the party, and we oppose every measure which has for its purpose the severing of party ties and the alignment of citizens along other than political lines.

THERE WERE TWO SLATES.

There were two slates before the convention, at the head of both, however, is the name of Chief of Police William J. Lynch. The one slate was headed by the name of William J. Lynch, and the other is a mixture of both "Mormons" and Gentiles.

The non-"Mormon" ticket presents the following candidates: Recorder, F. C. Horth; treasurer, W. H. Hutchinson; auditor, W. E. Vigus.

The other ticket substitutes C. S. Buckwalter for recorder, W. J. Beattie for treasurer, Charles Sturges for auditor, and it also endorses W. R. Hutchinson for attorney.

CRAZY TITING RESOLUTION.

On the reading of the resolutions, Wiley L. Brown submitted an amendment, which the chairman of the committee on resolutions refused to read, as it was not germane to the matter under consideration. A motion to refer the amendment to the committee was voted down, and Mr. Brown was permitted to read his own amendment, which he did, after several attempts to rule the gentleman out of order.

After the reading of the amendment, Harry Joseph moved that it be referred to the "last session of the Legislature." This was ruled out of order, and on the question of the amendment, which also tabled the resolutions. After considerable discussion the latter were taken from the table and adopted as above stated.

BROWN'S AMENDMENT.

Mr. Brown's amendment is as follows: Be it resolved by the Republicans of Salt Lake City, That we are unalterably opposed to the payment of titling fees of any kind, and that we will not pay for services rendered to the public or supplies furnished for the public whilst such fund or funds remain in the possession of or are subject to control by the city of Salt Lake. We pledge the nominees of this convention, if elected, and all officers and employees of this city elected or appointed in future by the Republican party to abstain from paying titling fees out of any and every such fund whilst in their possession or under their control; and we further pledge the Republican party if elected and given the power to do so to reduce the salaries of all officers and employees of said city 10 per cent in all instances where no inhibition from doing so by law.

NOMINATION FOR MAYOR.

Nominations for mayor being declared in order, Willard Hanson took the floor and in a neat speech, placed in nomination "that fearless, honest, straightforward Republican, William J. Lynch." The nomination was received with cheers.

Jake Greenwald in seconding the nomination of Chief Lynch, made some pointed reference to Thomas Weir, the chairman of the American convention, who was received with much laughter and applause by the delegates.

He said in part: "I take great pleasure in seconding the nomination of Wm. J. Lynch for mayor. I have known him ever since he was a boy, and he has been a man of the highest character and integrity. He is the only man who has ever brought harmony into the police department of this city. When he was elected he will still be at the head of the police department and will be at the head of the city administration."

LYNCH BY ACCLAMATION.

On motion of John A. Houghton the rules were suspended and Mr. Lynch was nominated by acclamation. Fred Price moved that a committee of two be appointed to escort Mr.

Lynch to the platform. Messrs. Price and Joseph were appointed as such committee.

After a selection by the band J. J. Meyer moved that nominating speeches be limited to three minutes and seconding speeches to a minute and a half. This was carried.

MR. LYNCH SPEAKS.

Mr. Lynch was next brought to the stage, and amid great enthusiasm thanked the convention for the honor conferred, and predicted a glorious victory on Nov. 7.

NOMINATIONS FOR AUDITOR.

Col. M. M. Kaighn presented the name of W. E. Vigus for city auditor, and H. S. Tanner nominated Charles Cottrell.

VIGUS WINS.

W. E. Vigus was nominated for auditor on the first ballot by a vote of 2834 to 2533 for Cottrell.

FOR CITY ATTORNEY.

For city attorney Wm. McRae nominated W. R. Hutchinson, while William Clegg named P. W. L. Stevens.

Before the Thirtieth district Wm. Clegg withdrew the name of Mr. Wm. Stevens and moved that the nomination of Mr. Hutchinson be made unanimous. The motion carried. When the counting ceased Hutchinson had 306 votes to 49 for Stevens.

FOR CITY RECORDER.

C. S. Buckwalter and J. C. Barthel were named, the former by E. A. Leatherwood and the latter by Judge Diehl.

On the first ballot Calvin S. Buckwalter secured the nomination, the vote being 334 to 104.
