EVENING NEWS.

PUBLISHED DAILY, SUNDAYS EXCEPTED, AT FOUR O'CLOCK.

DAVID O. CALDER,
EDITOR AND PUBLISHER.

Thursday, - April 29, 1875.

NEWS OF THE DAY.

——The city of Oshkosh, Wis., was the scene of a dreadful disaster last night, fire destroying two thousand residences, a hundred stores, banks and other business buildings, and several million feet of lumber. The burnt district is a mile long and half a mile wide and the worth of the property destroyed is believed to amount to several millions. Two or three lives were lost, and hundreds of women and children are without shelter, their homes and all they possessed having been destroyed. Such a dreadful disaster appeals at once to the sympathies of the nation, and of Christendom, and it is to be hoped that measures for the relief of the distressed will be promptly adopted and that they will meet with a generous response.

——Early this morning a fire broke out at Detroit and, before it was subdued, destroyed property valued at about three hundred and fifty thousand dollars.

——The Emma mining suit has been transferred to the United States Circuit Court, on petition of the defendants.

——Mrs. Conway, an actress in the east, is dead.

——Miss Ida, daughter of the late Horace Greeley, is to be married in a day or two.

——A summary of news from China and Japan appears in to-day's paper.

——An Oregon importer applies to the U. S. Treasury Department, for the free entry of a cargo of Sandwich Islands sugar; but as the treaty is not yet law, he is informed that its benefits can not be enjoyed.

——The charges of perjury against King, of Minnesota, in connection with the P. M. S. S. subsidy, were under investigation yesterday by the Grand Jury of the District of Columbia.

——Ex-Senator Schurz has had another grand dinner given to him; the givers this time were leading German citizens of New York, and the affair came off last night at the Delmonico.

——A match for a thousand dollars and the billiard championship has been won by Garnier.

——Bismarck seems to be all but irresistible. His designs on Belgium have now a prospect of success. It is said that the train is laid to effect the downfall of the present ministry, and the return to power of the liberals, who promise to pass laws to suppress the publication, in Belgium, of views unfavorable to German ecclesiastical policy. This is the substance of a telegram sent to New York by the *Herald's* cable special. If true, liberty of the press will soon be a thing unknown in Belgium, and that power will be but a catspaw in the hands of the Prussian premier.

——The clerks in the U. S. Treasury Department are forbidden, under pain of dismissal, to give information in respect to vacancies therein.

——The blockade on the U. P. is over, and trains are now running regularly between Omaha and San Francisco.

——In a speech by John Bright, at Birmingham, last night, he said it was ridiculous for the U. S. to invite foreign manufacturers to compete at the Centennial, when they were prevented doing so in American markets by a protective tariff; and, in accordance with the views expressed by Mr. Bright some of the manufacturers of the country have already expressed their intention not to be exhibitors.

——Sir G. Pigott, formerly Baron of the Exchequer, and Lord Hobart, governor of the Presidency of Madras, East Indies, are dead.

——The people of Gratz, at which place Don Alphonso, brother of Don Carlos, now resides, yesterday made an attack upon his residence, and the police had to be called upon to protect it and its inmates.

——The Captain-General of Cuba offers a pardon to all insurgents who will surrender before the 30th of May next.

——The Prussian government has commenced legal proceedings to remove the Prince Bishop of Breslau, for a violation of the ecclesiastical laws.

——The miners of Charleroi, Belgium, are rioting.

——A salute of twenty-one guns has been fired in honor of the German fleet from the fortifications at Guetaria, thus terminating the *Gustav* difficulty.

——Two colored women—mother and daughter—have been murdered at Detroit, when found, their bodies were hacked to pieces with an axe. The husband of one of them is supposed to be the murderer.

NEWS NOTES.

Big Cow, one of the sub-chiefs of the Arapahoe tribe of Indians, stands seven feet high in his moccasins.

The two largest mixed colleges in the country are Oberlin and Michigan University. Of the 1,330 students at Oberlin 633 are women, of the 1,191 at Michigan University 100 are women.

The severe Winter at the North has driven the crows into the Shenandoah (Virginia) Valley in such numbers that the farmers have been obliged to house their corn unshucked, to save the crop. The country has been covered with crows, and thousands upon thousands of crows have starved to death, while myriads have had their eyes picked out while yet alive by their greedy fellows.

The dramatic authors of France have been invited by M. Michaelis to contest for prizes to be awarded for the best play, the subject of which shall be inspired by the approaching centennial anniversary of American Independence. The generous aid given to us by France during the revolution must also be remembered and recalled by the competing dramatists. The successful author will be rewarded by a gift of 5,000 francs, a gold medal valued at 1,000 francs, and a work in bronze, representing the principal sciences, valued at 4,000 francs.

The Chinamen, who walk over bridges built two thousand years ago, who cultivated the cotton plant centuries before this country was heard of, and who fed silkworms before King Soloman built his throne, have fifty thousand square miles around Shanghai, which are called the Garden of China, and which have been tilled by countless generations. This area is as large as New York and Pennsylvania combined; is all meadow land, raised but a few feet above the river—lakes, rivers, canals—a complete network of water communication; the land under the highest tilth; three crops a year harvested; population so dense that, wherever you look, you see men and woman in blue pants and blouses so numerous that you fancy some fair or muster coming off, and all hands have turned out for a happy day.

THE MONTANA TERRITORIAL RAILROAD CONVENTION.

THE Delegates to the Montana Railroad Convention assembled in the Court House at Helena, April 21, at 12 m.

The first day W. L. Irvine, of Deer Lodge, was elected President, and A. H. Beattie Secretary.

The President appointed Cornelius Hedges, J. J. Davis, W. J. McCormick, R. S. Ford, J. R. Weston and Granville Stuart a committee on credentials, and the Convention adjourned.

The Convention re-assembled at 2 p.m., when the Committee on Credentials reported in favor of the following apportionment of delegates, based upon one delegate to sixty-five votes in each county—

"Lewis and Clarke county 30 delegates, Deer Lodge 25, Jefferson 11, Gallatin 10, Missoula 9, Meagher 9, Choteau 3.

The committee also reported the following delegates entitled to seats in the convention—

"Lewis and Clarke County—A. J. Davis, B. H. Tatem, J. F. Wilson, J. Largent, H. R. Comly, D. C. Corbin, M. Bullard, W. K. Roberts, A. Sands, C. Hedges, T. S. Lowry, R. Lawrence.

"Choteau County — Robert S. Ford.

"Missoula county—W. J. McCormick.

"Gallatin county—J. V. Bogert, F. D. Pease, Geo. D. Thomas, V. A. Cockrill, C. L. Clark, J. J. Davis, L. M. Howell, R. P. Vivion.

"Jefferson county—J. R. Weston, G. W. McCauley, H. M. Hill, J. G. Sanders, Hiram Cook, C. W. Higley, Fred. Dell, Jas. S. Smith, T. M. Slosson, G. W. Crane.

"Deer Lodge County—Granville Stuart, W. L. Irvine."

The same committee was requested to report on the order of business, and the convention adjourned until the next day.

Madison, Beaverhead, and Meagher counties were not represented.

On the second day (April 22) Granville Stuart, of Deer Lodge, was elected President, and Capt. Hiram Cook, of Jefferson county, and Harry R. Comly, of Lewis and Clark, Vice Presidents; J. V. Bogert, of Gallatin, Secretary, and A. H. Beattie, of Lewis and Clark, Assistant Secretary.

The following gentlemen were selected as a Committee on Resolutions—William L. Irvine, Robert S. Ford, J. G. Sanders, J. V. Bogert, James Maulden, W. J. McCormick, B. H. Tatem.

Resolutions to gather and compile statistics of the respective counties of the Territory, for publication, and to send to railroad companies, with invitations of proposals for building a road into Montana; that the Northern Pacific R. R. would best accommodate Montana, and should have the first hearing, and to wait till July for such propositions; were offered and referred.

The following, offered by Harry R. Comly, were adopted—

"*Whereas*, While we have an abiding faith, founded upon experience and knowledge of the mineral, agricultural and other resources of our Territory, in its ultimate development into a rich and powerful section of our common country, and of its eventually assuming that importance in our republic which its position on the line of the future highway of the nations from East to West would seem to indicate, and while we believe that alone and unaided these resources and our position will in the future develop us into a rich and powerful State, yet recognizing the fact that without availing ourselves of the means of enlightened inventions and discovery, and by adhering to and relying entirely upon our own capital, labor and resources, our progress must necessarily be slow and our hopes of success indefinitely deferred; and whereas, we believe that the enterprise, vigor and indomitable energy of our people demand something more than a tacit acceptance of the present condition of things, and prefer active effort to old fashioned slow progress; Therefore be it

"*Resolved*, that, in the opinion of this Convention, the time has come when active exertions should be made to connect the Territory of Montana with the rest of the world by railroad communication, and, with this end in view, we invite the co-operation of all classes, sections and communities.

"*Resolved*, That we believe that the speedy construction of a railroad connecting us with the marts of the world by means of a reasonable appropriation on the part of the Territory for that purpose, is preferable under the present circumstances to masterly inactivity on the one side, or undue excitement or extravagance on the other.

"*Resolved*, That the people of Montana should not, in offering its assistance to such an enterprise, restrict such offer to any particular road or roads, but that a wise discrimination would dictate the policy of receiving propositions from all, and in acting upon them, choose that proposition which should combine with certainty of construction the elements of speed in completion, and cheapness in cost to the Territory, and at the same time would accommodate the greatest number of localities, or in other words, would conform to that grand old doctrine of producing the greatest good to the greatest number."

The committee on Resolutions reported the following—

"*Resolved*, That it is the sense of the people of the Territory of Montana that the construction of the Northern Pacific Railroad from Bismarck to the western settlements of the Territory would accommodate the commercial, mining and agricultural interests of every section, and without injury to any.

"*Resolved*, That a committee of one from each county, selected by the Delegates of the counties represented, be appointed to carry into effect the matters and things set forth in the 2d resolution, [concerning conferring with R. R. companies, etc.] said Committee to report to the Convention recommended, upon the call of the Chairman of this Convention.

"*Resolved*, That it shall be the duty of the above Committee to compile the statistics and information obtained for use in correspondence with the different railroads and men, and that the same be furnished for publication to the newspapers of the Territory.

"*Resolved*, That it is the true interest of the Territory to have railroad communication with the outside world at as early a day as possible, with due regard to the expense to the Territory, and that the road which will do this is the one which the people of the Territory can most sensibly aid to the extent of their ability.

"*Resolved*, That it is the sense of this Convention, seeking early and cheap communication with the outside world, that the navigable waters of the Territory, more especially the Missouri and Yellowstone rivers, should be made the subject of special attention, and urged upon the attention of the General Government by memorial, and the services of our Delegate be invoked to that end."

J. V. Bogert, I. I. Lewis, W. G. McCormick, Jas. Maulden, W. L. Irvine, Granville Stuart, and R. S. Ford were appointed a committee of correspondence, and to gather necessary statistics and information.

It was resolved that the Convention consider the advisability of building a railroad from Benton to Helena.

LET ANOTHER FELLOW IN.—Now there are to be feminine fellows as well as masculine fellows. The Royal Anthropological Society of Great Britain and Ireland recently voted to admit women to become Fellows of the Society, being the first instance of the kind in the United Kingdom, although in France some years ago a kindred society accorded a similar privilege. The debate on the question of their admission took largely a physiological turn, with photographic illustrations of the human form divine. The admission of woman, it was urged, involved the necessity of expurgating some needful subjects, or wounding womanly delicacy. On the other side, it was maintained that such an objection was trivial and false, and that if either sex was morally impedified by the discussions and illustrations it was the masculine. Huxley, Lubbock, Galten and other of the most eminent members favored the side of the women. One distinguished absentee expressed doubts by letter as to the propriety of the measure, but concluded by proposing his own wife as a candidate for admission.

CAPITAL A DRUG AT SIX PER CENT.—The Philadelphia *Times* of April 19 says—

"Capital is not worth more than six per cent. to day, for it does not command more, and is a drug on the streets at that rate for entirely safe investments."

Quite a number of people in this city and Territory would be pleased to obtain capital at six per cent. on entirely safe investments.

TO-DAY'S DISPATCHES.

EASTERN.

Mrs. Conway—Miss Greeley to be Married.

NEW YORK, 29.—Mrs. Conway, the actress, who died last night, was a daughter of the Rev. Crocker, of Litchfield, Conn., and sister to Mrs. D. P. Bowers.

Horace Greeley's daughter Ida is to be married on Saturday morning, to Colonel Nicholas Smith, of Covington, Kentucky, by Cardinal McCloskey.

The Emma Mining Suit.

The suit of the Emma Silver Mining Co. against Trenor W. Park and others has been transferred to the United States circuit court on petition of the defendants, who stated that their co-defendant Stewart had not been served, that the plaintiff is an English corporation, and that the claim in the suit is for five million dollars.

Cardinal McCloskey will, to-day, unite in marriage General Adam Badeau, United States Consul at London, and Miss Mary Elize Niles, daughter of the late minister to Italy.

$350,000 Fire.

DETROIT, 29.—At 3.40 this morning a fire broke out in the factory of the Weber Furniture Co., on High and Montcalm Streets, and consumed the factory together with ten or twelve dwellings adjoining on Montcalm and John R. streets; loss on the factory building $200,000, machinery, stock and outbuilding $100,000; the estimated loss on the dwellings and their contents is $30,000 to $50,000.

One of the most appalling tragedies ever committed in this city was brought to light last evening. Two colored women, a mother and daughter, the former named Elizabeth Thomas, the latter Harriet Fisher, were found dead in their beds, in a small house on the west side of Hastings St., their bodies chopped and hacked with an axe almost beyond the semblance of human beings. Suspicion points to John Thomas, husband of the first named victim, a colored barber 62 years old; he has been arrested.

The Calamity at Oshkosh.

CHICAGO, 29.—A special from Oshkosh gives the following account of the fire there yesterday: It broke out in the saw mill of Morgan & Bro's., on the north side of the river. The buildings were as dry as tinder, and filled with the most combustible materials, and in an incredibly short time they were enveloped in flames. Neighboring lumber piles caught and the fire spread with lightning-like rapidity up Sawdust Avenue, sweeping everything before it. A dozen saw and shingle mills, with all the lumber piled around them, soon succumbed to its fury. By this time it was found impossible to check the work of destruction, the fire being fanned by a brisk wind, which was heightened by the heat. The small residence of the operators at the mills seemed only to whet the appetite of the fire fiend. The families fled in blank dismay before its approach, scarcely finding time to save a few articles of clothing. They surrendered everything, well knowing the hopelessness of any attempt to save their worldly goods in face of such a storm of fire. The firemen for a time fought bravely in the face of terrible odds, to stay the progress of the fire, but they were driven back step by step. One after another of the business buildings on Main St. was licked up by the insatiate fire. From Algoma to Ceape Sts. all the principal dry goods stores, banks, hotels and newspaper offices went down before the resistless hurricane. Merchants had time to save but little, for facilities for transportation to a place of safety were limited. A few succeeded in carrying a few loads of their most valuable wares away from the track of the fire, but by far the greater number lost all. The Beckwith House and Adams House, two hotels of large capacity, finely furnished with all the modern improvements, were destroyed in almost a twinkling, nothing worth mentioning being saved, and the newspaper and telegraph offices shared the fate of the surrounding buildings. The *Northwestern* office, owned by Allen and Hicks, a daily paper, and filled with all facilities for publication and for the execution of job work, was destroyed, nothing was saved. The *Times*, a sprightly weekly published by W. D. Ferdinandez, had also all the conveniences of a first-class office. Three men are reported killed, but so great is the confusion that it is impossible to ascertain their names. Rumors of further loss of life are prevalent about the streets, but your correspondent cannot trace them to any reliable source. Quite a number of persons, however, have been badly injured, some being run over in the streets by wagons, and several by other causes. None of the injured, as far as can be ascertained, will die from their wounds. It is impossible at this hour to even estimate the losses. Over 2,000 residences, 100 stores, hotels, banks, the opera house, a valuable structure costing nearly $100,000, a score of saw and shingle mills, besides an incalculable quantity of lumber have been destroyed. The loss upon the whole cannot fall short of $2,000,000, while it may reach double that amount. The scene in the city baffle description. Everything is confusion worse confounded. Hundreds of families are homeless, and women and children are lying about the streets or roaming around in search of a place of shelter from the chilly night air. The heavens are lit up with a lurid glare of fire, which is yet burning fiercely within the limits to which it has been confined. The fire began at the corner of Pine and Marion Sts., and spread east and northeast, through Hancock, Pearl, Warren and High Sts., destroying the depots of the St. Paul railway, and proceeding to Main St., where the principal business houses are located, and extending on the north line of the above limits southeasterly, across 5th Waugoo and Otter Sts., to Ceape St., the south line being the river, with the exception of a block or two at the foot of Main St. A gang of desperadoes are prowling about, seeking whom they can plunder. They have succeeded in spreading the greatest terror, and the citizens are organizing for mutual protection. The police are powerless, for their number is small and their discipline in this time of emergency exceedingly lax. Fears of outrage are felt on every hand, but some of the plunderers may decorate a lamp post before long if they allow themselves to be caught by an indignant populace.

Voted to Resume Work.

WILKESBARRE, Pa., 29. — The miners at Swerar's works, yesterday, voted to resume work when the basis of 1874 is granted.

FOREIGN.

GREAT BRITAIN.

Don Alphonso—Will Send No Carpets to Philadelphia.

LONDON, 29.—A special dispatch from Gratz to the *Daily News* says that Don Alfonso was insulted and beaten by rioters, and the police had to clear the streets with bayonets.

At a meeting of the town council of Kidderminster yesterday, the secretary of the Carpet Manufacturers' Association stated that the carpet manufacturers generally throughout the kingdom had decided not to send their products to the Philadelphia exhibition because of the existence of a prohibitory tariff, and that a memorial to this effect would be forwarded to the British minister at Washington.
