

POISONING OF DR. WM. H. WILSON

Police Theory is That Relative of
Some Woman Treated by
him Sent Poisoned Ale.

WAS CYANIDE OF POTASSIUM.

Doctor's Wife Had Narrow Escape—
He Noticed Peculiar Taste and Told
Her Not to Touch It.

Philadelphia, June 30.—The police hope to make an important move today in the case of Dr. William H. Wilson who died suddenly last Friday night after drinking a bottle of ale and who is believed to have been poisoned. Investigation by the coroner resulted in an expressed opinion that Dr. Wilson was poisoned and that he did not administer the poison himself.

At the North Seventh street house, where Dr. Wilson had lived for 10 years there was no sign indicating that a physician lived there. He did a general practice in the neighborhood, but had patients, said to have been principally women, who would come to his house for his services. The line of practice the doctor had was highly remunerative, for he was quoted as "a good spender" and he had a steam launch and an automobile.

The motive for the supposed murder is supposed to be the fact that Dr. Wilson's medical practice, the theory of the police is that a male friend or relative of a woman who is believed to have died after receiving medical attention at the hands of Dr. Wilson sent the poisoned ale.

Frank Paul, the coroner's detective, left the city today to run out what is considered a "hunch" case. Before leaving he said there was no doubt that the ale contained cyanide of potassium. The ale was delivered by express and it has been traced to a certain place which is now under surveillance.

Dr. Wilson's wife had a narrow escape from death. When Dr. Wilson opened the bottle of ale, he poured half of it in a glass and offered it to Mrs. Wilson. The doctor took the first drink and noticed something peculiar in the taste, told his wife not to touch it. A few minutes later he became ill, and died on the way to a hospital. The day the doctor died, he expressed Dr. Wilson received a letter purporting to have come from a prominent Philadelphia brewing company notifying him that the ale had been sent to him and asking him to try it. Investigation showed that the brewing company does not brew ale.

The police officials have ascertained, they allege, that Dr. Wilson attended during a fatal illness a member of the family of a young man who will be charged with poisoning the doctor. The death, it is alleged, caused the young man to brood until he could no longer contain himself, when he sought to put an end to the physician's practices by sending him poison rather than try to court and have his family history exposed to the world.

Emigration Canyon Resort.

Just 20 minutes from the city, hidden among the mountains. The best of everything. Take the Mt. Olive or Ft. Douglas car. Depot Fifth South and Thirtieth East. Twenty-minute car service. Round trip, 25 cents.

Improved bathing facilities Saltair, 1,200 rooms, water 90 degrees.

A DESPERATE ENCOUNTER.

Constable Wolf of Lovelock Shoots C. R. Webster, Saloon Keeper.

reno, Nev., June 30.—A special from Winnemucca says that Constable Wolf of Lovelock went to that city to arrest C. R. Webster, a saloonkeeper, for a small offense. As Wolf entered the saloon, Webster leveled a gun on the constable. The constable backed out, but returning soon opened fire on Webster, shooting him twice in the back and once in the arm. With the assistance of the day bartender, Wolf was driven from the place after a fusillade of shots. Sheriff Lamb and a posse have gone for Webster and another fight is expected.

PHILIPPINE APPOINTMENTS.

Washington, June 30.—By direction of Secy. Taft, the list of military appointments of the war department today announced the following appointments made by the president:

Vice governor of the Philippine Islands, W. Cameron Forbes, of Massachusetts, now a member of the Philippine commission; to be a member of the Philippine commission and secretary of finance and justice in the Philippines, Gregorio Araneta, of Manila; to be members of the Philippine commission, Newton Gilbert, of Indiana, and Rafael Palma, a native of the Philippine Islands.

Old melody arranged by performer
"Offertory St. Cecilia".....Bach

Considerable annoyance is being caused at the doors, by women insisting on bringing babies with them to the recitals. Of course all such are refused admission, which causes a wait from the mothers. Public notice has been given time and again, that children under 6 years of age will not, under any circumstances be admitted to these organ recitals, as children of that age can not be controlled, and if admitted, their cries would destroy all pleasure in the occasion.

A MILLIONAIRE'S BABY.

attended by the highest priced baby specialist could not be cured of stomach or bowel trouble any quicker or easier than your baby if you give it McGee's Baby Balm. Cures diarrhoea, dysentery and all derangements of the stomach or bowels. Price, 25 cents and 50 cents. For sale by Z. C. M. I. Drug Dept. 113 and 114 South Main St. B.

Finest bathing in the world Saltair.

A Tonic for Debility

A condition of
general debility,
aside from its discomforts, is dangerous, for it is an invitation to every acute disease we meet.

Mr. John F. Williams, of 911 Lincoln St., Anderson, Ind., says: "I was run down and suffered a great deal from sick headaches and pains in the back. My stomach was weak, appetite poor and complexion sallow. I had night-sweats, which so weakened me, that I had little interest in my work. I tried several doctors but got no better and remained in this condition until I read about Dr. Williams' Pink Pills and started to take them. I got so much relief from the first few boxes that I used them until I was entirely cured."

Dr. Williams' PINK PILLS
build up the blood and make you strong, hungry and energetic.

At all druggists or direct from
Dr. Williams Medicine Co., Schenectady, N. Y.
50 cents per box; six boxes \$2.50

HARRY THAW'S MENTAL CONDITION

Albany, N. Y., June 30.—Dr. Albert W. Ferris, president of the commission in lunacy, in a statement made public today on the mental condition of Harry K. Thaw, says: "There are some differences as to the form of Thaw's insanity, but those who have studied his case agree that he is of unstable condition, and the past shows that he is homicidal." Dr. Ferris says that "for the safety of the community, patients with Mr. Thaw's unfortunate hereditary taint, with his long history of mental alienation, and with his instability of mental poise and demonstrated homicidal impulse, should be cared for in a hospital for people of his mental class, and the community should not be subjected to the risk of experiments entered upon from sentimental reasons."

"Matteawan is not a penal institution," says the statement, in part. "Unfortunate sick people who are cared for in that hospital are not punished. The institution was established for the care of the insane committed on orders of courts of criminal jurisdiction for persons convicted of petty crimes or misdemeanors (not felons) becoming insane while undergoing sentence, and also for patients exhibiting criminal tendencies who cannot be cared for with safety in other state hospitals."

"The term, 'brain storm' is not scientific nor elegant, and should not be used in connection with insane cases. The outbreaks of ungovernable fury, or the intervals during which a patient suffering from periodical insanity yields to his impulse, come without premonitory symptoms and at varying periods."

Dr. Ferris expressed himself as pleased with the decision of Supreme Court Justice Dowling, denying the application to have Thaw committed elsewhere than to Matteawan. He declares that Thaw's experts at his second trial "proved to the satisfaction of Justice Dowling apparently that Thaw was afflicted with an ailment that will not terminate in recovery. They laid a foundation for the belief that he is a permanent victim of periodical insanity." According to their convincing arguments and history, he may recover from isolated attacks and re-enter the normal state, but unfortunately, the slightest moral cause will reproduce the disease."

TROOPS ENFORCE NEUTRALITY LAWS

Uprising in Mexico Has Compelled War Department to Take Decisive Measures.

OUTBREAK IS SPREADING.

Garrison at Palomas, Chihuahua, Attacked by Band of Fifty Men, Who Were Repulsed.

Washington, June 30.—American military forces are now in service for the enforcement of the neutrality laws along the Mexican border.

Gen. Meyer, commanding the department of Texas, has reported to the war department that directions already have been given for the dispatch of four troops of cavalry from posts in his department to Del Rio. As to other points he will be guided by his conferences with the civil officials.

The employment of American troops for this purpose, by the way, is almost without precedent in recent years and the civil officials of the war department as well as the attorney general himself have been obliged to give close study to the question of the violation of the immigration or health inspection law. So it will be a delicate task for the army officers who are charged with the duty of policing this international boundary line to avert clashes with the civil courts if they undertake to make promiscuous arrests of persons fleeing from Mexico into the United States. The military forces were held during the day by the officials of the state and war departments, and Senor Godoy, the Mexican chargé at Washington, also had a thorough discussion of the situation with Acting Secy. of State Bacon. Atty.-Gen. Bonaparte, whose department is cooperating in the efforts of the United States to see that strict neutrality is observed, was at the war department and had talks with Secy. Taft and with Gen. Bell, chief of staff of the army. All the agencies of the government are now at work along the same lines in the effort to prevent any substantial aid being given to the Mexicans from sympathizers across the border.

OUTBREAK SPREADS.

El Paso, Texas, June 30.—The first revolutionary outbreak in the republic of Mexico beyond the borders of Coahuila occurred this morning at 4 o'clock when the United States army at Palomas, Chihuahua, 70 miles west of this city, was attacked by a band of 50 men who were repulsed with a loss of one killed and one wounded.

There were 14 guards stationed at the Mexican post when the attacking party surprised the town. Most of the guards were armed with rifles and some with shotguns and many were thrown at the headquarters of the officers.

According to a dispatch received here from Columbus, N. M., across the river from Palomas, Juan Correon, the Mexican general, has arrived there from Palomas bearing dispatches to his government concerning the attack. It became known when a boy was thrown into the telegraph office, thus shutting off communication with outside points. In the fight, which followed, several hundred shots were fired and many houses were thrown at the headquarters of the officers.

Owing to the fact that the bombs were of inferior quality, they were unable to throw them away before they exploded, thus saving the building and their own lives. The fight lasted one hour, after which the attacking party fled to the mountains west of Palomas. One man was killed, but it seems that he was a non-combatant.

One revolutionist was seriously wounded and captured. He speaks good English, and the Mexican authorities think he is a native of New Mexico.

This idea is confirmed by the report of the section foreman from Minibros seven miles west of here, to the effect that a band of from 30 to 50 men assembled there yesterday. They would not allow him to leave the yards during the day. They had two large bundles of rifles, and bought provisions. They left Minibros station on the El Paso & Southwestern, about midnight last night.

UNION PACIFIC HAS ORDERED WORK AGAIN

Omaha, June 30.—Official announcement was made by Vice President Mohler, that extension work on the Harriman lines will begin July 1, where

it was stopped several months ago because of financial distress which threatened the company. Work will begin on the Athol hill cut-off in Colorado and extension of the branch line up the North Platte river from North Platte to North Fort. Large gangs of men have been sent to both places and will begin work at once. Work on the Athol-Borte cut-off was so percent completed when work was stopped but the North Platte extension was only fairly started. The work will be completed within a few months.

BOOTH COMPANY GUILTY.

Chicago, June 30.—A Booth & Co. one of the largest concerns dealing in fish and oysters in the west, pleaded guilty today to having accepted rebates from railroad companies. An indictment against the company was returned a year ago.

SEX OF INFANTS.

Control of It a Practical Proposition, Says Dr. Frank Kraft.

Cleveland, O., June 30.—Control of the sex of infants is a practical proposition, according to Dr. Frank Kraft of the American Institute of homeopathy. Dr. Kraft says he has discovered a new principle, but has shown the practical application of an organization with the evolution theory. The principle, he says, is based on the law of the survival of the fittest. Kraft makes these declarations in a book just off the press. It is well known to scientists, asserts the author, that savage races and races which exist where the conditions of life are hardest produce a preponderance of male children. From this fact he deduces that nature recognizes in the female the weaker sex. Thus, he says, in times of plenty, females are likely to predominate. Some thinkers on the subject even go so far as to state that the hard times produce male children.

BUILDING COLLAPSES
MANY PEOPLE KILLED

Minneapolis, Minn., June 30.—While a crew of men late this afternoon was tearing down and moving a large livery stable on Seventh street between Hennipen and Nicollet avenues, the building suddenly collapsed, burying a large number of men in the ruins. Several dead have been taken out and it is believed that at least 25 perished.

PRESIDENT AND FAMILY.

They Enjoyed a Regular Old Fashioned Picnic in the Woods.

Oyster Bay, June 30.—President Roosevelt and his family today enjoyed a real old-fashioned picnic in the woods at the water's edge on Lloyd Neck, a peninsula on the north shore of Long Island sound.

Early in the day the president, with one of his boys, started in a row boat from the Spring Harbor side of his grounds and rowed the entire distance, about three miles, to the picnic grounds.

Mrs. Roosevelt and the rest of the children went around Cove Neck in the yacht Sybil, taking along provisions for a day's outing. It always is with great pleasure that the president goes on these outings, and the children and Mrs. Roosevelt enjoy them equally as well.

Pure Maple

We are the largest buyers—so we are told—of Vermont Maple Syrup. All our wheat is cooked in it before it is flaked.

Our object is that incomparable flavor. To make **Maple-Flake** the most delicious—as it is the most digestible—of all cereal foods.

Taste is of tremendous importance.

With children for instance. The food that is best for them often needs to be forced on them. But they beg for Maple-Flake. Was there ever a child who did not like maple sugar?

The more **Maple-Flake** a child eats the less it will eat of food not so good.

Wheat is the perfect food. But wheat, in most forms, is only partly digestible.

It consists largely of starch. And starch, to be digestible, must be made soluble. The particles must be separated so the digestive juices can get to them.

That requires a process of 96 hours, and **Maple-Flake** alone employs it.

Our wheat is steam-cooked for six hours; then cured. Then flaked so thin that the full heat of our ovens gets to each atom. Then the flakes are toasted for 30 minutes in a heat of 400 degrees.

This process is expensive, but we know it to be essential. The result is, every granule of starch is separated. Every atom is made digestible. The food is all food.

That is why **Maple-Flake** is the most economical food, though a package costs 15 cents. The cream costs no more than on 10-cent foods, and cream is the main expense.

So please don't go without the food that you like best, thinking to save five cents.
