NEWLANDS WANTS GOVERNMENT AID.

Nevada Senator Surprised Congress Hesitates to Relieve San Francisco.

#### Catastrophe is a National Catastrophe and is Not Purely Local.

San Francisco, June 15 .--- Senator Newlands of Nevada left for Reno today after completing plans for the rebuilding of the Palace hotel on a handsomer scale than the old structure. Before leaving Senator Newlands said: "I am surprised that Congress

should hesitate to relieve in some husiness-like way the homeless of San Francisco. When cholera attacked the people and riaderpest the draft ant-mais of the Philippine Islands, Con-A dispatch from Minsk states that mais of the Philippine Islands, Con-gress did not hesitate to appropriate \$3,000,000, which was used by the Philippine commission in loans to Fill-Thursday and had recalled a haitation pino farmers for the purchase of draft of infantry and several squadrons of animals and agricultural implements. cavalry from their summer catap to "Congress did not hesitate to give strengthen the garrison, but without

Later on it subsidized the sugar industry of Cuba by the reduc-tion of duties to the extent of nearly PR( tion of dulies to the extent at similar sto,000,000 per annum. A similar measure has passed the house in aid of the Philippines. Duties collected at San Francisco on Philippine prod-ucts are now turned over to the Philtopine people for the expenses of gov-ernment. Repeatedly, in aid of the merchant marine, subsidies have been granted, and at the last session a bill passed the senate subsidizing the mer-chant marine to the extent of about \$16,000,000 annually. The president has been potential in most of these matters through vigorous messages forcing the subjects upon the atten-

The nation become a stockhold-er in the St. Louis exposition to the extent of \$5,000,000 and lost its money, and subsequently, when the exposition was in trouble, loaned it \$5,000,000 upon the security of the gate receipts. Part of these things were done in ald of interstate and foreign commerce; others in aid of humanity. It is idle then to talk of this case establishing a precedent. On the contrary Congress is apparently refusing to follow the

precedents already established. "San Francisco is a national port of the greatest importance, both to interstate and foreign commerce. It is a husiness-like thing for the nation to aid in its restoration. Over 200,000 people are without homes and are either in temporary shelter in San Francisco or crowded in neighboring rowns. The business-like thing is to immediately house these people, and the occupations which they represent in temporary structures of wood or cur-rugoted iron, leaving the slow process of permanent construction to take its course through ordinary financial San Francisco are in good condition, but as they are responsible to their depositors on call, they must keep their money in quick assets, not in

The difficulty of the task did not prevent the prosident from re-commending aid to the Cubans or to the Filtpinos or the sudstidy to the merchant marine, or the various reforms which he has so successfully inaugur. ated. # OUT AT BIALYSTOK.

St. Petersburg, June 15.-Disorders appear again to have broken out at Bialystok this afternoon with ever greater fury than characterized Thursday's riots. No dispatches have been received to

night direct from Bialystok, where the telegraph offices are closed, but semiofficial messages from Grodno and Minsk report that the excesses were started again today by the throwing of several bombs. The crowds, according to these dispatches, then opened fire on the police station to which the troops replied, and there was a concommittee. stant interchange of shots between Jews in their houses and soldlers in the streets. The president in his letter says that almost every change in the house amendment was for the worse and inhis judgment "so framed as to minimize the chance of rooting out the evils in the packing houses." In his reply Mr. Wadsworth declares the president is "very, very wrong" in his estimate of the committee's bill, calls attention to provisions in the bill and concludes with an expression of regret that the president should feel justified in Impugning the competency of a committee of the house of representatives. #### PRESIDENT'S LETTER.

The White House, Washington, June 14, 1996.

"My dear Mr. Wadsworth: I have gone over your bill very carefully, and not only obtained a report from Mr. McCabe, as I told you I would, but also obtained a report from Mr. Reynolds on it. I am sorry to say the more closely I investigate your proposed substitute the worse I find it. Almost every change is one for the worse; so that it hardly seems necessary for me to enumerate them. Perhaps the amendment as you have now drafted I is not quite as bad as it was whe on submitted it to me in the fir Instance: but it is very, very bad There seems to be one point in which it is possible that the amendment is even worse than the original amendment, if, as seems likely, there is no provision for making plants accessible at all hours to the inspectors. In any event, 1 am sorry to have to say that this strikes me as an amendment which, no matter how unintentionally is framed so as to minimize the chance of rooting out the evils in the packing business, "Doubtless it suits the packers, who

object to a thorough going inspection, much better than the senate amend-ment and I have no doubt that not only the packers, but their allies in business and those stock growers who are influenced by them, would prefer it. But I am convinced it would, in long run, be a heavy blow to the honest stock raiser and the honest packer to adopt these provisions rather than the far better ones contained in the senate amendment; for as com pared with the senate amer nent this

"I told you on Wednesday night, when I submitted the bill to you, that the packers insisted before our com-mittee on having a rigid inspection law passed. Every one has a hereditary right to a pure blood supply, which insures a strong, healthy body; but how many do we see who have inherited that greatest of all misfortunes, Scrofula, and are struggling under a legacy of disease and suffering? Scrofula is a constitutional trouble handed down from parent to child, a curse from generation to generation as long as the scrofulous matter is allowed to remain in the family blood. As the very. foundation of the blood is diseased we see this awful affliction manifested in many ways, such as enlarged glands or tumors about the neck, which often burst and become discharging ulcers, weak eyes, chronic Catarrh of the head, skin diseases, etc. This blighting disease being so firmly intrenched in the blood often attacks the bones, resulting in White Swelling, or hip disease, while a pallid, waxey appearance of the skin, loss of strength, and often lung affections show that the disease is entirely destroying the rich, nutritive qualities of the blood. There is but one way to cure Scrofula and that is to purify the blood and rid it of the germs of disease, and for this purpose nothing equals S. S. S.
