

NO HOPE OF SAVING THE GEO. FARWELL

Big Steamer, Timber Laden, Will
Most Probably be a To-
tal Loss.

ALL ON BOARD WERE SAVED.

Capt. Chisholm Describes the Storm
As Worst He Has Seen in
Twenty Years.

Norfolk, Va., Oct. 21.—The steamer
George Farwell, timber laden, from
Jacksonville, Fla., for New Haven,
Conn., is ashore off Cape Henry and
probably will be a total loss. All on
board were saved. Capt. J. D. Chisholm
and his crew of 15 men being landed to-
day by the life-saving crews from the
Cape Henry and Virginia Beach sta-
tions.

The steamer, laden with 575,000 feet of
cypress timber, went ashore in a gale,
she left Jacksonville, Fla., Oct. 12. From
the start she encountered heavy head
winds and was forced to go back out of
her course. Capt. Chisholm describes
the storm of Friday as the worst in his
20 years' experience along the Atlantic
coast. Early last evening the crew
sighted Cape Henry light.

At that time a dense fog was gather-
ing. Soon the dense fog and the
noise of the wind and sea prevented
the warning siren at the cape being
heard. Shortly before 8 o'clock the look-
out at Cape Henry life-saving station
saw the steamer's lights close in shore,
and about the same time the Farwell
hit the beach. The life-savers hurried
to the scene. On the second shot from
the line gun, the crew of the steamer
caught the line and before 1 o'clock in
the morning 12 seamen had been hauled
through the surf in the breeches buoy.

There were left aboard only two men,
the first and second officers and the
chief engineer. They landed the
breeches buoy to the mast and refused
to come ashore, so the life-savers had
to stay by on the beach all night. At
daybreak all the baggage of the crew
was hauled ashore, and then the four
men made the journey to land.

The George Farwell was built in 1895
at Maine City, Me., and is owned by
J. C. Turner & Company of New York.

MASKED MEN HANG NEGRO TO TELEGRAPH POLE

Mobile, Ala., Oct. 21.—Robert Clarke,
alias Dan Dove, a negro from Kansas
City, was hanged from a telegraph pole
near the Lucedale & Kansas City railroad
by 300 masked men at an early hour to-
day, after being spirited from the jail
of Jacksonville, Miss.

The negro was arrested late Friday
night by a posse that had followed
him to within two miles of Mobile from
Lucedale, where he had attempted to
assault two white women and had shot
a horse and a small dog. The negro
offered no resistance and was shot in
the shoulder.

Deputy Sheriff Hinton of Lucedale
took the prisoner from the posse and
managed to evade a mob bent upon
lynching him. He placed the negro in
the Lucedale jail and with another
deputy, guarded him until early this
morning, when both fell asleep. When
he awakened the negro was missing.
He was found strung up to a tele-
graph pole a short distance from the
jail. There is no clue to the identity
of any members of the mob.

M. CLEMENEAU HEADS THE NEW FRENCH CABINET.

Paris, Oct. 21.—As was expected, M.
Clemeneau, minister of the interior,
was summoned today to the Elysee pal-
ace, and entrusted with the task of
forming a new ministry. M. Clemeneau
expressed his acceptance and then
drove to the house of M. Sarrien, the
former premier, whom he consulted
with regard to the political situation.
M. Clemeneau then visited M. Ducloux,
president of the senate, with whom
he conferred for a short time. He
then went to the house of M. Bourgeois,
minister of foreign affairs, whom he
urged most pressing to retain his
portfolio. M. Bourgeois was
inflexible in his refusal, pleading ill-
health.

In the afternoon M. Clemeneau held
conferences with his political friends,
including Gen. Picquart, the defender of
Dreyfus, who was restored to the army
and promoted on July 13. M. Clemeneau
declares he has not yet offered any
portfolio, and that he saw Gen.
Picquart only for the purpose of ob-
taining information on certain phases
of the army estimates. It will take
him four days to know his minister,
and another four or five days for the
new ministry to agree on a program.
No appointments are expected until
after M. Clemeneau consults tomorrow
with M. Brisson, president of the
chamber of deputies.

CUBA'S INSANE.

Gov. Magoon Visits National Asylum
And Finds Horrible State of Affairs.

Havana, Oct. 21.—Gov. Magoon vis-
ited the national insane asylum this
afternoon and discovered a deplorable
state of affairs there. One thousand
six hundred and sixty persons of both
sexes are crowded into filthy and de-
tached buildings with a capacity of
400 persons only. They are sleeping
on broken cots, relics of the last Ameri-
can occupation. Congress made an
appropriation to enlarge the asylum,
but the money was never expended.
The conditions today are very little
better than under Spanish control. Gov.
Magoon will take steps to erect ad-
ditional buildings and remedy the abuses.

SHE DIED OF POISON.

New York, Oct. 22.—Believing there
was something unusual in the death
of Mrs. Margaret Nary at her home,
Coroner Schwabacher ordered the
police to make an investigation. He also
ordered an autopsy and an analysis of
the woman's stomach. The coroner,
after he and his physicians, Dr. Curtin,
had made an investigation, said that
Mrs. Nary undoubtedly had died from
some poison. Mrs. Nary lived with
her mother, Mrs. Annie Sheridan, and
husband, George Nary.

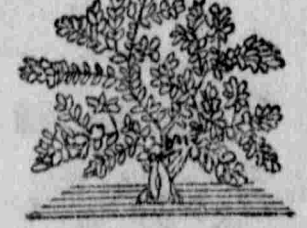

TINWARE ADVANCED.

New York, Oct. 22.—The American can
company has made a substantial advance
in the price of most of its products be-
cause of the advance in raw materials.
This announcement is made by the
authority of a representative of the com-
pany, printed in the journal of Commerce
today.

"Goods made from tin plate, which
include products of the American (an im-
portant) tin can company, are in the
line of trade have been materially ad-
vanced because of the increased cost of
tin plate and also tin and tin lead. It
is from the two tin products that solder
is made for the manufacture of cans. This
applies to every kind of tinware, such
as cans, which have not yet been de-
finitely announced, as the season does
not begin until Jan. 1. In some cases the
advance is equal to 25 per cent."

Small Pills. Small Dose, Small Price.

San Francisco, Cal.

BUOY MESSAGE ARRIVES FROM BALDWIN-ZEIGLER EX.

Buffalo, N. Y., Oct. 21.—The buoy
messages sent adrift from Franz Josef-
land by the Baldwin-Zeigler polar ex-
pedition in 1901, have been found and
forwarded to Evelyn B. Baldwin of
Kansas, the founder of the expedition,
who is now in this city. The messages
were picked up on July 10, 1906, on Mot-
sen Island by Capt. Stronstrom of the
Aretie whaler Gottfried and forwarded
to the state department by a United
States consul. They were mailed to
Mr. Baldwin from Washington and de-
livered to him today. The messages are
typewritten on film paper and show the
effects of their journey in the Arctic
ice. The messages were an appeal for
a supply of coal, the lack of which
forced the expedition to turn back.

STRICK FLOATING MINE.

London, Oct. 21.—A dispatch received
here from Vladivostok by Lloyd's agency,
says the Russian wooden coasting
steamer Wapargan struck a floating
mine and foundered on Oct. 20. Some
of her passengers and crew were saved,
but 180 persons were drowned.

OIL PRODUCTION, 1905.

Washington, Oct. 21.—During the
year 1905 the oil fields of the United
States produced 134,715,580 barrels of
petroleum, as against 117,060,000 bar-
rels in 1904. The increase in production
in 1904, according to a report issued to-
day by the United States geological
survey, was greater by 17,655,580 bar-
rels than the production in any pre-
vious year, although the value of the
oil produced was \$17,918,056 less than
that of 1904. During 1905 there was a
notable increase of development in the
mid-continent oil fields and the com-
pletion of a new line from Humboldt,
Kan., to Whiting, Ind., marked an im-
portant step in the transportation of oil.

NORTHERN PACIFIC WRECK.

Everett, Wash., Oct. 21.—Sikymosh
passenger local, west-bound, and Great
Northern, east-bound, freight, came to-
gether in a head-on collision this morn-
ing near Monroe, killing Freight En-
gineer J. E. Hudson, Freight Fireman
A. W. Restell and Pat Sheridan, and
injuring Passenger Engineer George
Lawrence and Conductor Weitzel. It
is alleged the wreck was caused by the
freight not leaving Monroe on time.
Several freight cars were demolished.

PRESBYTERIAN CELEBRATION.

Second Oldest Church of That Denom-
ination in America Holds One.

New York, Oct. 22.—The Scotch Pres-
byterian church at Ninety-sixth street
and Central Park West, the second old-
est church of the denomination in the
country, celebrated yesterday its One
Hundred and fiftieth anniversary. The
first church was a very small struc-
ture on Cedar street, which was re-
placed in 1768, by a larger building. This
building was used as a barracks by the
British troops during the revolution.
The third building was at Cross-
by and Grand streets, and in 1845 the
congregation moved to Fourteenth
street. The present building, at Ninety-
sixth street, was built by Dr. Briggs
and dedicated in 1854. The present building
was put up in 1894.

CORALS ARE PRECIOUS STONES.

New York, Oct. 22.—To have precious
coral classified in the tariff as a pre-
cious stone is the object of a move-
ment started recently by a number of
prominent importing firms. There has
been this year a notable revival of the
use of fine coral for jewelry, and ef-
forts are now being made to build up a
coral carving industry in New York.
any portfolio, and that he saw Gen.
Picquart only for the purpose of ob-
taining information on certain phases
of the army estimates. It will take
him four days to know his minister,
and another four or five days for the
new ministry to agree on a program.
No appointments are expected until
after M. Clemeneau consults tomorrow
with M. Brisson, president of the
chamber of deputies.

INDUSTRIAL STOCKS.

Their Listing Shows What a Revolu-
tion Has Taken Place.

New York, Oct. 22.—The Journal of
Commerce says that the revolution that
has taken place in the industrial sys-
tem of this country during the last two
decades is strikingly illustrated by the
increase in the amount of industrial
stocks listed on the New York Stock
exchange. The increase in the regu-
larly listed department in 20 years is placed
at 565 per cent, and in 19 years 219 per
cent. The total industrial capital in the
listed and unlisted departments of
the stock exchange today is fully \$1,
002,948,000, which represents approxi-
mately 43 per cent of the grand total
listed, the railroad securities amounting
to about \$5,530,000,000. The grand total
is thus \$6,532,948,000.

SHE DIED OF POISON.

New York, Oct. 22.—Believing there
was something unusual in the death
of Mrs. Margaret Nary at her home,
Coroner Schwabacher ordered the
police to make an investigation. He also
ordered an autopsy and an analysis of
the woman's stomach. The coroner,
after he and his physicians, Dr. Curtin,
had made an investigation, said that
Mrs. Nary undoubtedly had died from
some poison. Mrs. Nary lived with
her mother, Mrs. Annie Sheridan, and
husband, George Nary.

TINWARE ADVANCED.

New York, Oct. 22.—The American can
company has made a substantial advance
in the price of most of its products be-
cause of the advance in raw materials.
This announcement is made by the
authority of a representative of the com-
pany, printed in the journal of Commerce
today.

"Goods made from tin plate, which
include products of the American (an im-
portant) tin can company, are in the
line of trade have been materially ad-
vanced because of the increased cost of
tin plate and also tin and tin lead. It

SNOW FALLING IN COLORADO

Has Been Falling for Twenty-four
Hours Almost Inces-
santly.

BIG STORM IN NEW MEXICO.

They State Has the Worst Blizzard
Since the Famous One of
1882.

Denver, Oct. 21.—A general storm pre-
vailed along the eastern slope of the
Rocky mountains from Wyoming to
New Mexico today. Snow has been
falling in Colorado almost incessantly
for the past 24 hours and still continues
tonight. Suburban electric lines have
operated with difficulty and railroads
have experienced delay in running of
trains. As yet no serious results are
reported in this section, but from Al-
buquerque, N. M., comes a report of
considerable property damage there
from high winds. The sudden drop-
ping of the temperature accompanied
by blizzard conditions in northern New
Mexico has caused heavy losses to the
sheep raising industry, if rumor is cor-
rect.

In Colorado the storm extended to the
western slope. In every valley around
Buenos Vista the snow reached two feet
deep on the level, and in the mountains
throughout the state the snow varied
from two to five feet in depth. Twenty-
two inches of snow has fallen at Flor-
issant by nightfall. Apple orchards in
this section from which the crop has
most instances had not yet been gathered,
will suffer considerably. The trees are
heavily loaded with fruit and the ad-
ditional weight of heavy wet snow is
causing them to break down. The roof
of one of the buildings at the cement
works at Portland gave way from the
weight of snow upon it, but no one was
hurt.

In northern Colorado the snow is 20
inches deep and should a freeze follow
the storm considerable loss will result
to the potato crop.

Wyoming reports a general storm
which has played havoc with wire com-
munication and is interrupting railroad
traffic. Several minor wrecks have oc-
curred. Livestock reports indicate with-
in damage from the cold. Train service in
all directions is delayed from four to
ten hours. The storm, though abated
somewhat, still continued at midnight.

WORST STORM IN MANY YEARS.

Albuquerque, N. M., Oct. 21.—The
worst blizzard since the great storm of
1882 is general throughout New Mexico
today. A high wind is bringing a
general fall of sleet and snow through-
out the Grand valley and reports indi-
cate that the losses to sheepgrowers
will be very heavy.

The storm began here about 7 o'clock
Saturday morning with a high wind
which rapidly increased in velocity un-
til by 9 o'clock the gale had reached
the proportion of a cyclone. The sleet
and dust which developed in the
rain and with the rapidly falling
temperature, into sleet and snow. To-
night the snow is falling in blinding
drifts and making reports indicate that
it is much more severe in the country.
Telegraph and telephone service is al-
most completely shut off and railroad
traffic is delayed. Some minor damage
has been done in Albuquerque, Las
Vegas, Socorro, and smaller towns south
of Albuquerque.

GET-RICH-QUICK-KING.

E. J. Carpenter Died in a Dark and
Chilly Cell.

Chicago, Oct. 22.—Dying in a dark
cell at the Stanton avenue police sta-
tion, E. J. Carpenter, said to have been
a prince of "get-rich-quick" swindlers,
left behind him friends who protested
indignantly yesterday that he should
have been taken to his dwelling or to a
hospital.

Carpenter was arrested near his
boardinghouse by Policemen J. E. Sul-
livan, who charged him with drunken-
ness. The prisoner said he was 70,
that he had been in the business of
morphine, and was walking it off.
At the station Carpenter appeared
dazed and the desk sergeant said drugs
or liquor might have caused his condi-
tion. He died a few hours later.

Carpenter came to the notice of the
police about two years ago, when com-
plaints against him began to come in.
These were made by a man named
Robert and Fred J. Todd, who was
arrested on Dec. 2, 1905, but the
case against him was dismissed. On
Aug. 2 he was arrested again on com-
plaint of Frank McCuddy, and to-
gether with E. C. Hunsinger, Martin
Roban and Fred J. Todd, was held to
the grand jury.

According to McCuddy, Carpenter and
Talmadge had agreed to build a large
cruiser, and Carpenter had had an
option for \$1,000,000. McCuddy said he
put up \$7,500, but heard nothing of the
bonds.

Talmadge, Roban and Todd were ar-
rested soon afterwards, and together
with Carpenter were indicted by the
July grand jury on a charge of swind-
ling. Carpenter was arrested early in
August, and was held on bail. Soon
afterwards, it is said, he began to drink.
He pawned his overcoat, his watch, his
cuff buttons and nearly everything else
he had for \$50, the police said, and
he had got drunk on the last cent when
Policeman Sullivan met him.

MAGAZINE FOR THE BLIND.

Mrs. William Zeigler Will Establish
One to be Issued Monthly.

New York, Oct. 22.—Announcement was
made today that Mrs. William Zeigler,
Augusta, Ga., who has been blind since
she was a child, has decided to publish a
monthly magazine for the blind. It will be printed
in raised characters, and the afflicted ones
will be able to read by touch, and be
distributed without cost to all sight-
less ones in the United States so far as
they can be found. Mrs. Zeigler's enter-
prise will be the first periodical to enter
its peculiar field.

Walter G. Helmes, who has been long
interested in work for the blind and
through whom Mrs. Zeigler had her rat-

ing called to the mind for putting
together their paper, will put the
magazine under way. It has engaged
the services of a writer, and the nature
of the magazine should be such that
people who are blind and who are not
able to read by sight, should be able to
read by touch. "New York point" or
"Braille" as the magazine will be printed
in both.

Mrs. Zeigler's magazine will contain
stories of the news of the day, fiction,
special articles dealing with the blind,
people particularly, an industrial de-
partment wherein blind people may find
information as to the lines of work
which they are engaged and a correspond-
ence department.

SHAW AT THE WHITE HOUSE.

Washington, Oct. 21.—Secy. Shaw
arrived in Washington today for a con-
ference with the president. He will leave
for New York tonight and tomorrow
he will deliver a political address at
New Rochelle, New York.

Speaking of the political situation,
the secretary said he had not made up
his mind whether any assistance from
the treasury was necessary. He was
rather inclined to believe, he said, that
it was not, but he would keep in touch
with the situation and act in accordance
with his judgment as the conditions
seemed to warrant.

Secy. Shaw had a conference with
the president tonight. He called on
the White House by appointment at
9 o'clock.

LET A GREAT POSTERITY.

New York, Oct. 22.—Mrs. Lydia W.
Clark died at Victoria, N. J., on Friday.
She was 92 years of age. Her descend-
ants, 2 children, 21 grandchildren, 32 great
grandchildren and 9 great great grand-
children, were exactly equal in number
to the years of her age.

ATTEMPTED ELECTION FRAUD.

New York, Oct. 22.—A remarkable at-
tempt at election fraud developed yester-
day, when James Haggerty, a 19-
year-old boy, was arraigned charged
with having registered illegally 11
times. He was held in \$5,000 bail.

Haggerty, said to have been a widely
known boy, in each instance gave the
surname Haggerty, but used a variety
of first names. It is alleged that he
confessed. He mentioned no party
accomplishes, it is said, and gave the
impression that he acted on his own re-
sponsibility, looking for a market.

A MOST WORTHY ARTICLE.

When an article has been on the market
for years and sells for every year,
it is a most worthy article. Such is
Ballard's Horehound Syrup. It
positively cures coughs and all pul-
monary troubles. It is a most worthy
article. Such is Ballard's Horehound Syrup. I know
it has saved my children from many sick-
nesses. It is a most worthy article. Such is
Ballard's Horehound Syrup. I know it has
saved my children from many sicknesses.
It is a most worthy article. Such is
Ballard's Horehound Syrup. I know it has
saved my children from many sicknesses.

Dyspepsia is our national ailment.
Burdock Blood Bitters is the national
cure for it. It strengthens stomach
action, promotes the flow of diges-
tive juices, purifies the blood, builds
you up.

DIED OF STRANGULATION.

Isaac Wolf, Known as Newsboy's
Friend Found Dead in Bed.

Chicago, Oct. 22.—Isaac Wolf, head of a
large clothing company, was found dead
in his bed yesterday in his residence. He
had died of a contraction of the windpipe
which caused strangulation. He was 54
years old. Mr. Wolf had for the past
25 years been known as the "newsboy's
friend." Every day he gave a newsboy's
dinner. From unpretentious beginnings
there were 500 ragged and hungry little
boys seated at the dinner-table. He had
grown to one of increasing importance
numerically considered. Last year 10,000
newsboys were fed at the dinner-table.
Every one considered Mr. Wolf as
his personal friend and the clothing mer-
chant encouraged this feeling. Many of
them had been to previous dinners given
by the man who in his boyhood had been
a newsboy himself. There were 250 tur-
keys and many other good things. The
expense was \$5,000.

DIED IN HER HUNDRETH YEAR.

New York, Oct. 22.—Mrs. Johanna B.
Dempsy died yesterday in Bayonne, N. J.
in her one hundredth year. She was the
oldest woman in that city and one of the
oldest in Hudson county. Her death fol-
lowed an accident a week ago when she
tripped over a rug and broke her leg.
