Last Night's Dispatches.

EASTERN

Wrecked on a Reef.

KEY WEST, 19.—A terrific wind has been blowing here since last night. The steam tug *Godfrey Kiber*, from Philadelphia, went ashore on a reef, and it is feared all hands are lost.

Excitement in Wall Street Subsided.

NEW YORK, 19.—The excitement in Wall Street, occasioned by the rumor of war in Europe, subsided with the close of yesterday's business, and to-day there is comparative quiet. Gold this morning was down to 110½, but it afterwards advanced to 111¾.

The *Evening Post* says private dispatches announce that British consols, which advanced in London early in the day, were afterwards depressed, thus showing an increase of uneasy feeling.

At the Stock Exchange, early this morning, prices were slightly lower than last evening, but all stocks soon became strong, and advanced higher than yesterday. No failures are reported.

Prices showed little alteration at the Cotton Exchange, but the market was very dull.

At the Produce Exchange there was a large number of interested, but not excited, buyers. The market was feverish and excited.

Grain advanced slightly, but its fluctuations were the principal subjects of notice. Heavy transactions were expected.

The Centennial—Combination Day—The Grand Tournament.

PHILADELPHIA, 19.—This is combination day at the Centennial. The day is devoted to Virginia, Maryland, Delaware and the District of Columbia. At 11 a. m. Gov. Cochran, of Delaware, and Gov. Carroll, of Maryland, entered the grounds, each accompanied by his staff, and were escorted to their respective State buildings, where receptions were held.

Fourteen contestants entered for the tournament this afternoon, and much interest is shown in the affair. In addition to the prizes previously offered, a magnificent cup of solid silver, engraved with the imperial Chinese dragon, is offered to the leading knight by Wyum Seeng, the Chinese mandarin, who has been almost continuously at the exhibition since its commencement, and is the fourth man in rank in the Chinese Empire.

The tournament is now in progress. Shortly after one o'clock 205 knights, fully armed and equipped, rode into the grounds and took their position for the contest. Great interest prevails.

The tournament grounds were densely crowded this afternoon. fifteen knights joined in the tilting. A. B. Suit, representing the Union, was the victor, taking eight rings in a possible nine; Chas. White, representing the Centennial, second; Wm. P. Bryan, Connecticut, third; J. N. Barbue, S.C., fourth. The entertainment lasted until five o'clock.

Sound Cars to be Used.

WASHINGTON, 19.—The Treasury Department has issued a circular requiring sound cars to be used in transporting across the continent unappraised merchandise subject to import duty.

Shot Dead—Fell Dead.

NEW ORLEANS, 19.—Benjamin Wallforth was shot dead by Weston Logan, last night.

James Crimere, a well known Italian, fell dead in the street this afternoon.

A Company of Infantry at Calahoy.

CHARLESTON, 19.—A company of the 18th U. S. Infantry proceeded to Coinhoy and encamped at the village, relieving the guard from Charleston, who remained there night and day since Monday last.

Another Man Killed.

COLUMBIA, S.C., 19.—Six whites, returning home from the democratic mass meeting at Edgefield, C.H., near dark, last evening, were fired into by colored men in ambush. One was killed instantly, and another severely wounded. Major Kline and other United States officers, at the request of the whites, went to the spot, and while viewing the body, a white man, sent for a coroner, was also shot from ambush, his leg shattered and his horse wounded. The meeting had been quiet and orderly.

The Society of the Army of the Tennessee.

WASHINGTON, 19.—The Society of the Army of Tennessee, to-day, visited Mount Vernon as guests of the citizens of Washington. A munificent collation was supplied on the boat by a committee of citizens of Washington. On going down and coming up the Potomac River salutes were fired from Fort Washington.

Representatives of the Army of Tennessee were received by the President in the east room of the Executive Mansion this evening. The Marine Band was in attendance, and the reception was one of brilliancy. Mrs. Grant, Mrs. Sartoris, and Mr. Ulysses S. Grant, jr., assisted the President in the ceremonies.

At the conclusion of the reception, which was very large, a number of visitors, who had thronged the approach to the Executive Mansion for some time, were admitted, and paid their respects to the President. Among the distinguished military personages at the reception were Gen. Sherman, Gov. Shepperd, Gen. Vanvliet and Brig. Gen. Tom Sweeney, who commanded the division that saved McPherson's left, Gen. Logan and nearly all who have participated in the imposing ceremonies of past years.

WESTERN.

Particulars of the "Rydal Hall" Disaster.

SAN FRANCISCO, 19.—Captain Foster, of the British ship *Rydal Hall*, lost on Tuesday night, near Spanishtown, states that the ship was 1,800 tons burthen, with thirty-three hands, all told. She belonged to the Sun Shipping Company of Liverpool, was an A 1 iron ship, four months out from Cardiff with coal. On Monday they were seventy miles from Fallarones by observations. On Tuesday the weather was thick, and we hove to. All hands remained on deck during the night. She struck about eight p.m. Her bottom was crushed and she rapidly filled. Four seamen, Charles Wilson, George Georger, Geo. White and George Johns attempted to launch the gig, without orders, the boat was swamped and all lost, the sea making a clean breach over the ship. In lowering away the life boat, Hugh Williams, second officer; William Wilson, steward's boy; Keith Selwyn, apprentice; Alexander Barlow, William Baker and James Gomes, seamen, were drowned. They did not attempt to get out any more boats, but stopped on board till the morning, when the crew were taken off by a whale-ship, with great difficulty, owing to the heavy surf. The captain remained on board until four p.m. The ship was then fast becoming a total wreck, was full of water and the deck breaking up. Nothing was saved, not even the ship's papers. The captain attributes the disaster to the current, whose strength was not properly estimated. The ship was valued at £26,000; cargo £4,000; insured.

The Chinese Committee—Hurricane.

The congressional committee, to investigate the Chinese question, has organized, and will begin taking testimony on Saturday next.

A dispatch from Portland, Oregon, says a hurricane passed over the neighboring country on Tuesday afternoon, blowing down trees, houses, and fences, but causing no loss of life.

FOREIGN.

BRITISH AMERICA.

Appointment.

TORONTO, 19.—It is understood that David Mills, member for Bothwell, has been appointed to the vacant seat in the Dominion cabinet in room of Hon. Laird, recently appointed to the lieutenant governorship of the northwest territory.

GERMANY.

The Czar and the Eastern Question.

BERLIN, 19.—The semi-official *North German Gazette*, this evening, announces that it learns from a good source in St. Petersburg, that the Czarowitch will shortly leave Livadia for Vienna, Berlin and London, for the purpose of personally promoting a unanimous action of the great Powers in the interest of a satisfactory solution of the eastern question according to the assurances given in St. Petersburg circles. The Czar still adheres to his resolution not to act singly or abandon his alliance.

GREAT BRITAIN.

The Situation Remarkably Perplexing.

LONDON, 19.—The *Herald's* special says: My predictions, a week ago, that the political crisis was culminating, without assuming peace, are thoroughly vindicated. The present situation is remarkably perplexing. Yesterday's money panic subsided not because of the less probability of an eastern war, but because the calmer judgment is that England won't forcibly intervene, and consequently Turkey must promptly surrender to Russian menace or invasion. Nobody professes certainty about Russia's real purpose or the true intent of other powers. The gravity of the situation is portended by the profound secrecy of the diplomatists. New facts are unattainable, though stockjobbers manufacture abundant canards, against which all should be on their guard. The only thing apparently sure is that the triple alliance has not been renewed, nor is it likely to be. Nevertheless the best impression is that the great Powers will remain passive even if Russia makes war on the Sultan. If the latter persists in rejecting the peace conditions heretofore offered, the political necessity formerly recognized for Turkey's territorial integrity has lost much of its influence. Austria, while nominally favoring the acceptance of Turkey's armistice proposition, carefully avoids committal to its armed support. Italy maintains a similar attitude. If war comes her interests lie with Russia In any event, therefore, the apparent alternatives are a speedy peace or substantially Russia's terms, or a short war between Turkey and Russia and her Servian allies. It remains to be seen whether Russia's mediation after the struggle begins will be sufficient to confine it to the east and not provoke a general war. Herein lies the real anxiety.

An Explanation to be Demanded.

A special from Rome says. Cardinal Antonelli's secretary has apologized to the Spanish ambassador for the discourtesy shown him by the committee which superintended the reception of the Spanish pilgrims by the Pope, on Monday last, in refusing to admit him and his attaches; but the ambassador having telegraphed an account of the affair to Madrid, has received instructions to demand an explanation from the Holy See.

Collision.

A collision occurred to-day, off Flushing, between the steamers *Switzerland*, from New York, and the *Grebe*, from Liverpool. The latter was sunk. The *Switzerland* has two holes in her bow, above water line She is otherwise uninjured.

AUSTRIA.

Will not Accept an Armistice.

VIENNA, 19.—The *Tagblatt* announces that Servia and Montenegro have resolved to accept no armistice.

The Protestants in Spain Appeal to Lord Derby.

The missionary societies connected with Spain sent an address to Lord Derby representing to him the dangers to which Protestants in Spain were exposed in consequence of the intolerance of the clergy and the authorities, and suggesting that he should invite the co-operation of other powers, especially Germany and the United States, to protest against the continued persecution of Protestants, and to afford them protection.

In reply, Lord Derby says: Our minister at Madrid is taking such steps as he properly can to induce the Spanish Government to put a lenient construction on the eleventh article of the constitution, so as to secure full and religious liberty to Protestants in Spain.

SMALL-POX.

THOSE wishing a preventive can get the same at Dr. Crockwell and Son's Peoples Drug Store, No. 29, 1st South St. as they have the latest homeopathic remedies to prevent small-pox. If it does not prevent as recommended, it is certain to make the attack much lighter.

They have also the specifics that the Doctor used in his family in 1873, that worked wonders in preventing the worst forms of the dreadful disease, and some from taking it at all who even sleeped with those that were sick.

AN ORDINANCE

In Relation to the Salt Lake City Waterworks and the Supply of Water from the Main Pipes, and for Other Purposes.

SECTION 1.—Be it ordained by the City Council of Salt Lake City, that the Water-works constructed by the Corporation to supply Salt Lake City with water from City Creek Cañon, shall be designated and known as the Salt Lake City Water-works; they shall be the property of said city, and shall be under the sole and exclusive control of the City Council, who may from time to time direct the construction of such reservoirs, water tanks, water mains, service pipes and fire hydrants as the necessities of the inhabitants of the city may require. The City Council shall also appoint a Superintendent of Water-works, an Assessor of Water Rates, and such other officers as may be necessary to carry on the works. All officers so appointed shall hold office during the pleasure of said Council.

SEC. 2.—The Superintendent of Water-works shall, under the direction of the City Council, have charge of the reservoirs, water tanks, water mains, fire hydrants, and all the machinery and appurtenances appertaining to the Water-works. He shall have the direction of the laying of water mains, and putting in of service pipes, and the regulation of the water supply to fire hydrants and to all consumers. Said Water Superintendent, before entering upon the duties of his office, shall take an oath of office and give bonds, with approved security, to Salt Lake City, in the penal sum of $5,000, conditioned for the faithful performance of his duties. He shall report to the City Council quarterly, or oftener if required, his doings as Superintendent, the condition of the Water-works, and make such suggestions as the nature of the service may require.

SEC. 3.—All hydrants shall be under the control of, and shall be kept in repair by the Superintendent of the Water-works, and in case of fire or fires the Fire Department and such others as the City Council shall authorize, shall have free access to said hydrants. No other person shall open or operate any fire hydrant, or attempt to draw water therefrom.

SEC. 4.—Any person who shall wilfully or carelessly run a vehicle against a fire hydrant, or otherwise wilfully or carelessly injure the same, or draw, or attempt to draw water therefrom, shall be subject to a fine of not exceeding one hundred dollars, and be liable for all damages done to said hydrant.

SEC. 5.—Wrenches for fire hydrants shall be furnished by order of the City Council to the Fire Department, for their use, and to such other persons as may be deemed proper by the Council, and any officer or member of the Fire Department, or other person having charge of one or more of said wrenches, who shall permit the same to be taken from their place of deposit, or to be used for any other purpose than those authorized by the City Council, shall be liable to a fine of not exceeding fifty dollars for each offense.

SEC. 6.—Whenever any person desires to obtain a supply of water from the City Water-works, he shall make application therefor, verbally or in writing, to the Mayor and sign an agreement that he will be governed by such rules and regulations not inconsistent with this ordinance as may be prescribed by the Mayor for the control of the water supply; said application must state the location, kind of building, number of rooms, and the entire area of grounds to be supplied, and fully and truly state the purposes for which the water is to be used; and upon notification from the Mayor, the Superintendent of Water works is authorized to extend, at the expense of the city, the service pipe to the inside line of the curb stone, or to within sixteen feet of the property line, at the point most convenient for supplying the premises of the applicant.

SEC. 7.—When application is made by a tenant, it must be accompanied by the signature of the owner of the building or grounds consenting to and authorizing the introduction of water into such premises, and expressly agreeing to the rules and regulations embodied in the application and to the provisions of this ordinance.

SEC. 8.—To each service pipe there shall be attached, at the curb, a stop-cock and key box, which shall be paid for by the consumer, and be under the exclusive control of the Superintendent.

SEC. 9.—All service and other pipes used underground shall be of cast iron, extra strong lead or tin-lined lead, and laid not less than four feet below the surface, and all pipes for water supply, whether inside or outside, shall be of sufficient strength to stand the water pressure, and all such work, alterations or extensions thereof must be done to the acceptance of the superintendent. But no extension of a consumer's attachment shall be made without first obtaining a license therefor.

SEC. 10.—If any water consumer shall permit any person from other premises, or any unauthorized person, to use or obtain water from said consumer's premises or water fixtures, whether inside or outside of his building, the supply of water may be cut off and the amount paid forfeited.

SEC. 11.—All persons taking the water shall keep their service pipes, connections, and other water apparatus in good repair and protected from frost at their own expense, but no person, except under the direction of the Superintendent, shall be allowed to dig into the street, or sidewalk, for the purpose of laying, removing or repairing any service pipe.

SEC. 12.—If any consumer shall waste any water, or allow it to be wasted by negligence, such as imperfect stops or valves or leaky joints or pipes, or allowing tanks to leak or to overflow, or wastefully run it through basins or other apparatus, or use the water for purposes other than stated in the application and license, or in violation of the rules and regulations for controling the water supply, and the provisions of this ordinance, the water may be cut off from such consumer, and all payments forfeited, unless such person shall promptly pay such additional charges as may be imposed.

SEC. 13.—Whoever, by himself, family, servants or agents, shall use the water coming through the water mains without first obtaining a license therefor, or shall without authority open any stopcock, valve or other fixture attached to the system of water supply, or shall in anywise injure, deface or impair any part, or any appurtenance of the Water-works, or shall cast anything into any reservoir or tank of the said works, shall be fined not exceeding one hundred dollars for each offense, or by imprisonment not exceeding six months, or by both fine and imprisonment.

SEC. 14.—If any person, after the water has been turned off from his premises, for account of non-payment of dues, or violation of the rules and regulations pertaining to the water supply, shall turn the water on again, or use, or allow the water to be used without authority, he shall be fined not exceeding fifty dollars for each offense.

SEC. 15.—Fountains and sprinklers for lawns, gardens, yards or sidewalks shall not be operated during a fire. No fountain attachment shall be greater than half an inch in diameter. There shall be a stop-cock to each fountain attachment, which shall be under the control of the Superintendent.

SEC. 16.—Sprinklers for lawns, gardens, yards and sidewalks must be used only for the purpose expressed in the license; and no sprinkler shall be used for sprinkling the street outside of the sidewalk, unless such privilege is included in the license and paid for accordingly. Sidewalks, windows and fronts shall not be sprinkled except between the hours of 6 and 9 a.m., 1 and 2, and 6 and 8 p.m. No nozzle for sprinkling shall be larger than one-fourth inch in diameter, and no license for a sprinkler shall be issued except in connection with other water service.

SEC. 17.—Sprinkling wagons and wagons for the delivery or sale of water must be filled from hydrants erected for that purpose, and shall be regulated and controlled by the superintendent.

SEC. 18.—Steam boilers will not be allowed to fill from the pipes direct, but must be provided with a tank and supplied therefrom.

SEC. 19.—Watering troughs for animals will not be allowed a constant flow of water, but will only be allowed to use such quantity as will supply the actual wants of the stock having access thereto. Neither will continuous streams of water be permitted to flow from hydrants, faucets or stops over washbasins, water-closets, or urinals, or from any aparatus for drawing water.

SEC. 20.—Free access shall at all ordinary hours be allowed to the Superintendent or other authorized persons to all places supplied with water, to examine the apparatus, the amount used and the manner of using water, and any consumer violating any of the rules and regulations controlling the water supply shall forfeit all payments made and the right to the use of the water.

SEC. 21.—The City Corporation shall not be held liable for damage to any consumer by reason of a stoppage or interruption of his water supply, caused by scarcity of water, accidents to the works or mains, alterations, additions, repairs, or other unavoidable cause, beyond a *pro rata* reduction on his license during such stoppage.

SEC. 22.—No telegraph post, hitching or other post shall be put down or set within four feet of any water service pipe, nor within six feet of any main pipe, except on a written permit from the Superintendent.

SEC. 23.—Wherever the water mains are laid, no persons shall be allowed to convey the waters of City Creek from any ditch or place by private pipes for fountains, mechanical or other purposes, except the ordinary irrigation of lots, under direction of the Watermaster, nor shall said waters be hereafter diverted from the ordinary irrigation ditches for the supply of steam boilers or other mechanism, and all resolutions, ordinances and permits allowing any person to convey the waters of City Creek, or any part thereof, from the ordinary ditches by pipes for any use or purpose whatever, wherever the water mains are laid, are hereby repealed.

SEC. 24.—It shall be the duty of the Assessor of water rates to ascertain by measurement, or estimate, as near as practicable, the amount of water used by each water taker; and he shall make an equitable assessment thereon, based upon the rate of ten cents for each one thousand gallons; and no person shall have the water conducted to their premises without paying five dollars per annum. If they consume more than the worth of five dollars they shall pay at the above mentioned rates. Said assessment shall be made for a term commencing from the time the water is turned on to the premises and ending on the 31st day of March, 1877, and thenceforth quarterly. The Assessor shall make prompt returns of his doings to the City Recorder who shall charge to each person the amount assessed against him, which amount shall be payable on demand and be collected and paid into the City Treasury in the same manner as license fees are collected and paid in.

SEC. 25.—Any person violating any of the provisions of this ordinance, where the penalty is not herein otherwise provided, shall, on conviction, be liable to a fine not exceeding fifty dollars for each offense.

SEC. 26.—Nothing herein contained shall prohibit the City Council from amending, altering or adding to the provisions of this ordinance in relation to the water supply or the rules and regulations which may be adopted in conformity therewith; *Provided*, that no alteration in water rates shall apply to any license issued or contract made with a consumer under this ordinance, until after the expiration of such license or contract.

SEC. 27.—All ordinances or parts of ordinances conflicting with the provisions of this ordinance are hereby repealed.

Passed October 3d, 1876.

FERAMORZ LITTLE,
Mayor.

TERRITORY OF UTAH, } ss.
SALT LAKE CITY, }

This certifies that the foregoing is a true copy of an ordinance entitled "An ordinance in relation to the Salt Lake City Water works, and the supply of water from the main pipes, and for other purposes," passed by the City Council of Salt Lake City, the 3rd day of October, A. D. 1876, as appears on record at my office.

(L. S.) As witness my hand and the corporate seal of Salt Lake City, this 11th day of October, A. D. 1876.

JOHN T. CAINE,
City Recorder.

TARRANT'S SELTZER APERIENT

Any one can take

TARRANT'S SELTZER APERIENT.

It is most agreeable to the taste. Some medicines are really offensive, and the stomach rejects them. This can be taken by children. It will purge gently, cure constitutional costiveness; eradicate affections of the liver; remove healthily the cause of rheumatism; brace up the nervous system, without creating nausea or vomiting. In a word, this aperient is Nature's remedy, prepared in the alembic of the earth for the cure of man.

SOLD BY ALL DRUGGISTS.
