

the way of account keeping, the work of the guards, the handling of the prisoners, and the industrial features of the prison life. The daily trial balance is now in force. Under the system made by the clerk, each day showing the financial condition of the penitentiary funds, the funds of the prisoners in the hands of the library, the condition of the library, the condition of the prison, the condition of the prison, etc. In this way strict account is kept of the fiscal affairs of the institution.

He has also increased the industrial activity of the prison inmates. All prisoners, who are not ailing, are compelled to work at some useful occupation six days of the week. All the kitchen and dining room service of the prison, the baking, laundry work, hair-dressing, etc., are done by the prisoners. The electric light plant is run by them. The electric light plant is run by them. The electric light plant is run by them.

The prisoners have also during the past six months done an enormous quantity of work in the improvement of the prison. During the summer months at one time the prisoners had over forty of the prisoners at work as over cutters, preparing stone for the new cell wings, that are now only awaiting the arrival of steel. While awaiting the arrival of steel, the prisoners are building a wall about the woman's ward, just north of the prison, and are erecting a new cell wing for female prisoners within this wall, which will be 81 by 115 feet, and 15 feet high. The plans for the wall and cell wing are both the work of John Frost, the prison architect. It is expected that this wall and cell wing will be completed and ready for occupancy by Jan. 1 next.

Throughout the summer and fall a large force of prisoners have been kept employed in the prison stone quarries, getting out rock for building operations not only for the prison requirements, but also the stone that was used at the Soldiers' Home, in the erection of the new hospital. For this latter work the prison was paid by the state.

**WATER PROBLEM.** One of the most difficult problems confronting the warden throughout the year has been the water supply for the prison. Several years ago when John Halsey was warden, a tunnel was run into the hill east of the prison for about 80 feet, and a fine flow of water developed. Of late years this flow has been diminishing, and last year during the dry season the water supply was very short. An effort was then made by running another tunnel to develop additional flow. This tunnel, Warden Whitney has during the past two months had a large force of prisoners engaged in digging a well near the south boundary of the penitentiary reserve. This well, which is 15 feet in diameter, is now being dug to a depth of 54 feet. The last few feet was in a decomposed granite. An auger hole was bored into this for six feet, and there being no change in the formation, it was decided not to go deeper. At the place where the well was dug, the level of the Boise river bottom is but 32 feet below the surface of the ground. Last week the well was permitted to fill until there was about 25 feet of water, when the being force pump was put in. In an hour and 45 minutes 4,600 gallons was pumped out. At the end of 24 hours the water had regained its original level in the well. The warden has decided to run galleries from near the present bottom of the well for several hundred feet. It is believed that in this way the water bearing gravel zone will be tapped, and the supply in the well probably be increased several fold. An electric pump will then be installed, and the water pumped into a new reservoir near the prison buildings. If this can be done, much of the land owned by the penitentiary can be made productive.

### CAR SHORTAGE HITS FRANKLIN.

**FRANKLIN, Ida., Nov. 23.**—The work on the water system here has been completed as far as the digging of the trenches is concerned, and now everything is tied up pending the arrival of pipe, which has been delayed owing to the prevailing car famine on all railroads.

Fine weather has prevailed during the past few weeks and in consequence the farmers have all been hard at work plowing and putting in fall grain. The beet crop has been hauled and everything is being placed in order for the coming winter, which is heralded by the advance guard of cold, snappy nights. Unless the railroad company gets the quick action there is a chance that some of the families here will suffer should a cold spell strike this place. There is no coal obtainable, and as yet the farmers have had no time to go into the canyons after loads of wood.

Franklin has been practically free from sickness. However, Mrs. William Daines has been ill in body and mind for some time. She was removed to Salt Lake City and later taken to Logan. On her return here, however, she showed no marked improvement. The population was increased by one here last week when Mrs. Lizette Loomis, widow of James Loomis, gave birth to a fine boy.

Among the weddings of the past week were those of Ida Chatterton of this city, and William Gosnell of Preston and Aaron Saxton of Smithfield, and Miss Ida Franklin of Franklin. The contracting parties were married in Logan. The local Sunday school is in a

thriving condition, and every week there is a good showing of teachers and students. One of the features that is enjoyed particularly by the older folks is the normal class, which is a great success.

On Sunday, the 12th inst., the Elders' quorum was reorganized here, owing to the fact that Elder Charles Monson, the president, had moved away. President Joseph Geddes of Preston and Bishop Pratt were present at the meeting, and the reorganization was effected with Elder John Buckley, as president, and Elder Samuel Hentley and Elder Albert Parkinson, first and second counselors respectively.

### SAD DEATH AT MONTPELIER, IDA.

**MONTPELIER, Idaho, Nov. 22.**—Mrs. Nina V. E. Bagley, wife of Atty. John A. Bagley who died in this city on Saturday, Nov. 11, 1905, was born at Welton, Clinton county, Iowa, on the 13th day of November, 1862. She spent her childhood days in acquiring an education, then this task was completed, she left her home and came west to visit friends and relatives, coming to Montpelier in 1881 and 1882. Having heard a great deal concerning the "Mormons" their faith and practices, she decided to study them that she might be able to judge the people for herself. The result of her investigation was that on the 14th day of November, 1883, she was baptized and confirmed a member of the Church of Jesus Christ of Latter-day Saints, since which she has been a devout and consistent Church member, being an active worker in the auxiliary organizations of her sex. Through complications superinduced by the whooping cough, she was stricken down with a severe illness which lasted for two weeks and resulted in her death as stated. The funeral services were held in the L. D. S. hall, Nov. 15, Bishop W. W. Clark conducting the exercises. The hall was very nicely draped. Sweet and appropriate music was rendered by the choir. The speakers, Bishop W. W. Clark, President William Budge of the stake presidency, and President J. U. Stucki of the High Council, each spoke of the integrity and faithfulness of the deceased and commended her to the bosom of her Father in heaven. She leaves a husband and six children, four daughters and two sons, as well as a host of friends, who sympathize with her bereaved and extend to them their heartfelt sympathies.

At the last meeting of the city council Mayor Williams announced the appointment of Thomas Burke chief of police, which appointment was ratified by the council. Work on the Pacific canal has been

### A DIFFERENCE IN LUNGS.

In the Edinburgh University three human lungs lie side by side. One is of an Eskimo and is snow white. In life, this would be ruddy with rich blood. Another is that of a coal-miner and is black. The other is of a town dweller and is a dirty slate gray, as are the lungs of most city residents. That's why consumption thrives in cities.

One reason why Scott's Emulsion does so much to keep down consumption is because it helps to keep the lungs clean and supplies them with rich, red blood. It makes the lungs germ-resisting. If the body is run down and health is at a low ebb Scott's Emulsion will build it up quickly and permanently.

SCOTT & BOWNE, 409 Pearl Street, New York.

suspended for the winter, much to the regret and disappointment of the farmers who were promised if they would vote to bond the district the work would be pushed with energy, and that the canal would be completed in ample time to furnish water for irrigation the coming season which now, under present operations, will be impossible.

Some time ago the farmers who have been experimenting with the raising of sugar beets during the past season, made a small shipment to a factory for test, they were rather disappointed when the result of the test was received, which showed the beets to contain a very small percentage of saccharine matter. This, however, is very largely due, so it is thought, to the extreme lateness of the planting of the seed and the earliness of harvest.

President William Budge, who was on his way to Salt Lake to confer with the promoters of the sugar industry of Utah and Idaho, called here last Tuesday and took with him another sample of the beets, to have a second test made. These, however, had been left in the ground some four or five weeks after the others were shipped.

The spell of such beautiful weather which Montpelier has enjoyed so long this fall, apparently was broken yesterday afternoon, when a heavy mist began falling as the shades of evening drew on. This was gradually transformed into large flakes of snow, and this morning the earth is covered with a blanket of the beautiful some three inches in thickness.

An early hour this morning the little child of Aldous and Margaret Sorenson Bothe died after an illness of only a few days. It is thought to have been only a severe cold.

The family of James G. Crane, which a few days ago was stricken down with diphtheria, four of them coming down at once, is reported as doing nicely. No further cases have been reported.

### SOME ACCIDENTS AT BYRON, IDAHO.

**Special Correspondence.** **BYRON, Idaho, Nov. 21.**—While out in the lavas some 15 miles north of this place after a load of wood, Ernest Anderson was thrown from his wagon upon the rocks and suffered several cuts and bruises on the head and one arm. Fortunately no bones were broken. The bruises on his arm, however, were so severe that bandaging with splints was necessary.

Mrs. Ruth McBride, who for some months past has been visiting her daughters, met with a painful accident here on the 15th inst. She accidentally stumbled over a board while walking around the premises of her daughter, Mrs. C. J. Christensen. She caught the force of the fall with her left hand and both bones of the wrist were broken. Dr. Mitchell of Bluffdale was summoned and set the bones of the injured member, and she is resting quite easily. Mrs. McBride's home is at Hyrum, Utah, she is 71 years of age, and but for this accident would have returned home Nov. 17.

Eugene Liljenquist late of Hyrum, Utah, and Miss Lilly England of this place were united in marriage at the Logan Temple on the 15th inst., and a reception was given them by their friends and relatives upon their arrival here, at the home of the bride's parents, Mrs. and Mr. John England. Mr. and Mrs. Liljenquist intend making this place their future home.

### WEEKLY BUDGET FROM OAKLEY.

**Special Correspondence.** **OAKLEY, Carls Co., Ida., Nov. 22.**—Thanks to the good Providence, the long dry spell has been largely broken. During Sunday night there has been about 12 inches of the "beautiful" snow, with strong indications of more to come.

Dr. Emerson of this place is down with a bad case of erysipelas, supposed to have been taken by inoculation from one of the two cases that the doctor has been treating here. Dr. R. T. Story of Albion was called over yesterday to attend Dr. Emerson and some of his patients.

L. V. Robbins of the Snake river Improvement company returned home today, after a week's sojourn in Salt Lake City.

Jacob Dayley, who has been seriously ill with erysipelas, is gradually recovering.

Wm. T. Jack has returned from a trip to Wood River, Idaho Falls and Salt Lake City.

Frank Morgan of Heyburn passed through here today with his wife and child, to make their home on the new homestead.

Bishop D. H. Togn of Grouse Creek, Utah, has been spending several days at Oakley.

There is every prospect of a cool and foggy day in this valley, and unless the Short Line people will come to the relief with cars for the coal companies' use, there will be some suffering.

### ONE FOOT OF SNOW FALLS AT NEELEY.

**Special Correspondence.** **NEELEY, Oneida Co., Ida., Nov. 24.**—Sunday night there was a heavy snow fall and it snowed all next day, so that the snow on the level must have been nearly a foot deep. Monday night the wind blew almost a gale and the snow drifted high in some places. It was several feet deep. Notwithstanding the difficulty of traveling under such circumstances, school

was in session, as usual, though with a smaller attendance. Such a severe snow storm, so early in the season, is recorded as very unusual for this part of Idaho. A company of men from Idaho Falls was traveling to Twin Falls with the intention of settling there. They arrived at Neeley Sunday night, and on account of the storm did not continue their journey until Tuesday.

Monday William Morgan, Sr., had his arm broken. He was driving an empty hay frame when it struck a log, and Mr. Morgan was thrown down, through the hay frame to the ground. The wheels of the wagon passed over one of his legs, which was not injured, but in the fall, one of his arms was broken.

The coal famine remains unbroken. "Uncle" John Calvert has been obliged to use sagebrush as fuel. The nearest wood is a distance of 12 miles, which makes it a difficult and expensive thing for persons not owning a team to obtain wood.

Mildred Palmer is suffering with spinal meningitis and the doctor gives the family of the little girl no hope that she can live.

The family of Mr. Ellis has moved to American Falls, where they have just built a house. Mr. Ellis is working on the canal.

### PARIS GLORIES IN A NEW BANK.

**Special Correspondence.** **PARIS, Ida., Nov. 23.**—The Bear Lake State bank opened its doors here this month, and is doing a lively business. James R. Shepherd, one of the most successful business men here, is president; A. K. Steunenberg of Caldwell, this state, a man well known and connected with several other banking establishments, is vice president; and Will H. Young of Vale, Or., also a very competent man, is cashier. The directors are A. K. Steunenberg, Judge Alfred Budge, James R. Shepherd, William Budge, William L. Rich, E. M. Pugmire and Christian Wallentine. The capital stock is \$25,000. The building is a two-story brick, 40x60 feet, situated in the central part of the town, and fronting Main street. It has a very fine appearance and lends an air of dignity and enterprise to the city.

The fledgling academy is just receiving students for its winter and mission courses. The enrollment has gone up to about 150, and still others are coming. Search-Light No. 5, the academy's paper, is just off the press.

Of late the weather has been ideal, but a storm is now threatening, and snow is expected soon.

### HAPPENINGS IN MALAD CITY, IDA.

**Special Correspondence.** **MALAD CITY, Nov. 22.**—The funeral services over the remains of Mrs. Mary Grimley of Cherry Creek were held at that place Saturday, Mrs. Grimley was born in Varteg, Monmouthshire, South Wales, Nov. 20, 1828. In 1858 she emigrated to Salt Lake City, where she moved to Cherry Creek, Idaho, where she since resided.

The deceased was a true and faithful Latter-day Saint, having joined the Church when but eight years old, and remaining firm to the last. She leaves two sons and a host of friends to mourn her loss. She was patient and kind, loving and true.

On Sunday the remains of P. O. Brantzen were taken to their last resting place. For months he had been confined to his bed, and had suffered greatly. For a number of years he has conducted a shoemaker shop in Malad, where he did excellent work. He leaves a large family and a host of friends to mourn his demise.

The home of Mr. and Mrs. Joseph Thomas of Malad was made sad by the death of their three-year-old son Earl, who died Sunday, after suffering a great deal. The funeral services were held yesterday from the family residence. The sorrowing family have the sympathy of the entire community in the loss of their loved one.

No race suicide at Malad! Seven babies were blessed last Friday, and two more youngsters have made their appearance this week at the homes of Mr. and Mrs. Edward Owens, and John W. Lusk.

Today Malad has been treated to a fine spring shower, with no prospect of nightly continuation.

The happiest man in town is Judge Samuel D. Davis, who succeeded in leading to the hymenal altar Miss Goddard of Salt Lake City. The marriage took place at the Temple last Wednesday. Theirs proved a conference courtship, for it was at the October feast the lovers first met, and a case of "love at first sight" was the result.

After their bridal tour the wedded pair will return to Malad to live.

**Counterfeiting the Genuine.** Foley & Co., Chicago, originated Honey and Tar as a throat and lung remedy, and on account of the great merit and popularity of Foley's Honey and Tar many imitations are offered for the genuine. Ask for FOLEY'S Honey and Tar and refuse any substitute offered as no other preparation will give the same satisfaction. It is mildly laxative. It contains no opiates and is safe for children and delicate persons. For sale by F. J. Hill Drug Co.

### "DRUNKENNESS"

CIGARETTE AND TOBACCO HABITS CURED BY

### TRIB

"TRIB" makes men look like men, act like men, appear to others as men, and feel like men. Its action is easy and simple. After taking "TRIB" a few days a wonderful change will be noted, the craving for liquor and tobacco will leave you. It will soon be next to impossible for you to use either, the appetite improves and you relish your food; refreshing sleep ensues and the alcoholic and nicotine poisons soon leave the system. Examine the bath water after having taken "TRIB" a few days, and you will see a little of how "TRIB" cleans the system. After taking treatment with "TRIB" the condition of your body and system is like that of a child, pure and clean. The action of your stomach, heart and lungs will improve after the first few doses of "TRIB" have been taken. You are making no mistake, if in need of a cure, in getting a treatment of "TRIB." We will give you an absolute guarantee with each treatment. Price \$12.50—a full 4 weeks' treatment and a guaranteed cure.

# PEOPLE OF SALT LAKE CITY

## A PROCLAMATION BY DRUEHL & FRANKEN.

Whereas, the people of our city have been led to purchase so-called remedies from which they have received no benefit whatever, and having thus wasted so much hard-earned money, it has come to pass that they knew not what to believe.

Inasmuch as this unsatisfactory state of affairs now exists, know, therefore, all persons who are in need of a medicine for any of the following ailments, that we will supply them with Vinol, our Cod Liver preparation made without oil, on a positive guarantee that if it does not succeed in benefiting them, we will refund the entire amount of money they have laid out on the medicine.

There is no one medicine that will cure everything, but there are some we know to be honest, reliable and of great curative value. Such is VINOL; it is not a patent or secret medicine,—everything in it is plainly printed on the label. We are familiar with every particle of it, and know that it should be a blessing to all persons who have troubles herein-after described; and, unlike other medicines, it will cost absolutely nothing if it produces no benefit.

Could any offer be more fair than this? You are ill; we offer you medicine which we believe in our hearts will be a blessing to you, and if it is not we will return to you every penny you paid us. Is there anyone foolish enough not to accept this offer? If you are ill and need such a medicine you owe it to your family, to your friends, and yourself to try VINOL, which we give you our pledge is a genuine Cod Liver preparation made from fresh Cod's Livers.

Do you think we could afford to lend our name to its praises, as we have been doing in the newspapers, if we did not know VINOL to be an honest and unusually valuable remedy for the ills for which it is prescribed? We certainly could not; we therefore ask you, our neighbors, friends and acquaintances, to accept our assurances that this is a genuine offer, and that any and all persons who need a medicine of this character should feel a sense of security in our offer.

**All Run Down—No Appetite.** If you feel all worn out, have very little appetite, and not much sleep, caused by over-work or sickness, try VINOL on our guarantee.

**Debilitated—All Tired Out.** Why drag out an existence without life or ambition. It is not natural to feel continually tired. We guarantee VINOL will bring life, strength and vigor to the debilitated. If you do not feel well try VINOL. If it does not help you, your money will be refunded.

**Gain Flesh—Get Strong.** You can get fat without taking disagreeable Cod Liver Oil. Fat taken into the system does not create fat. We believe VINOL will create flesh quicker than any preparation containing grease. We have proved in many cases that VINOL quickly creates strength. Try it on our guarantee.

**Indigestion—Dyspepsia.** Only those who actually suffer know its terrors, for them life is robbed of all joy. It produces many serious complications and entitles the entire system. Relief only comes when a scientific remedy enables the stomach to properly assimilate food. There is no medicine that will do this so successfully as VINOL. Try it on our guarantee.

**Old People—Weak People** need a strengthening and invigorating re-builder. VINOL is of exceptional value in such cases. We guarantee it to give strength and health to those who are weak and debilitated, from disease or old age. Try it on our guarantee.

**Pale Women—Pale Children** need a tonic-reconstructor that will create flesh and make pure red blood. Pale, haggard faces show that the blood is poor and thin, and also indicates imperfect digestion. VINOL will correct such troubles as sure as the sun shines. Children love VINOL, it is so delicious. Try it on our guarantee.

**Bronchitis—Sore Lungs** often end fatally unless specially cared for in its early stages. There is no medicine more valuable for restoring health to the throat and lungs than VINOL. Try it on our guarantee.

**Nervousness—Irritability.** Diseased nerves are due to over-work, insufficient nourishment or slow breaking down of general health. We guarantee VINOL to permanently and effectually remove nerve affections; it actually rebuilds the entire body. Try it on our guarantee.

**Chronic Colds—Hacking Cough.** Sure signs of danger ahead. One might as well commit suicide as to let them go unchecked. VINOL is the very medicine needed. Unlike other Cod Liver preparations, it does not upset the stomach, and is delicious to the taste. Try it on our guarantee.

**Nursing Mothers—Weak Mothers.** If women with nursing babies who have difficulty in keeping up their health and strength would take VINOL, we know positively that the best results would be obtained. You know the life and future development of the child depends upon proper nourishment.

We stake our reputation on this offer being genuine. You will absolutely be under no obligation to us whatever, if after you have given VINOL a fair trial for any of the above ailments and have not received any benefit; you have only to tell us so, and we will return the entire amount of money you have paid us.

You see our faith in VINOL, and you must admit that we know something about medicine; therefore, when we tell you that VINOL is the most valuable Cod Liver preparation we have ever known, and a wonderful tonic-reconstructor and re-builder of strength, appetite and health, at the same time delicious to taste, we are not unreasonable to expect you to believe us.

**DRUEHL & FRANKEN, Druggists.**
