THERMOMETER 51° in the shade at clock to-day.

THEATER.-The play of "Fate," perthe most interesting that has been presented there for some time, and is well worth seeing by theatre goers. Its comedy is

seeing by theatre goers. Its comecy is broad and at times almost side-splitting; while its pathos is deep, and occasionally painful. The principal characters of the piece, in the hands of Measrs. Bates, Thorne and Graham, and Misses Walters and Kent, were well suited to and were rendered in the very best style of the re-spective artists. Mr. Dudley and Miss Voeller did well, though the latter fell occasionally into her too usual unfortunate habit, and marred the effect of her acting by her utterly un-English delivery and imace.

grimace. We regret to state that Miss Kent, who by the way played her part in a very nat-ural style, met with an acci-dent between, we believe, the second and third acts, a portion of one of the "sets" falling and striking her on the head, caus-ing temporary insensibility. The lady, however, appeared in the next act, and played her part through. "Fate" will be repeated to-night, and should draw a good house.

We had a pleasant visit last evening from H. H. Savage, who is here in the interest of the firm of Soott & Ovington Brothers, wholesale and retail dealers in crockery, cutlery, glass, &c., West Madison St., Chicago. Mr. Savage is at the Townsend House and purposes remaining in town several days. We also had the plesure of meeting, in company with Mr. H. D. Johnson, B.

FURTHER CORBESPONDENCE FROM

FRANCE Editor Descret News: Hoping that the following extracts of the last communication from my French correspondent will prove acceptable to my home correspondents and to the public in general, please pub-lish them in your paper. It is dated October 28th, 1872.

LOUIS A. BEBTRAND,

Salt Lake City.

DearSir-Your esteemed favor of the ith of last September is lying on my

desk. In reference to to the thirty-five (35) ounces of slikworm eggs of the Japan-ese race, which have been offered to you by a slik-grower of Utah, I feel in-clined to accept them on account of the smallness of the lot. I will test them in my next "early experiments," and then I shall be able to appreciate the quality of the slik they will produce. I do not think that they can beat the su-perior race of silk worms raised by your-self last year. Therefore please advise self last year. Therefore please advise your friend to adopt them at once, and to raise exclusively the same race, that is to say, the large yellow French annuals.

"Fate" will be repeated to-night, and should draw a good house. In BAD CONDITION.—We are informed that a portion of the street a short distance west by south of Jennings' tannery, and directly opposite Bowring's old tannery is in such a bad condition that no teams can pass that way without miring. Cause-Overflowing of water from the sects. PERSONAL.—Bishop W. B. Praston, of Logan, Cache Co., called upon us yester-day; he reports a general time of prosperi-ty in his dlocese. COLD .- We are informed that the weather in Morgan County and some portions of Weber County is excessively cold. The day before yesterday snow was from four to six inches deep at enterprise.

A BAD CROWD .- An excellent opportunity for obtaining a glimpse of the worst element infesting this city was presented in the Court room of the City Hall during

Cameron rape case. It is an old saying FAMILY Theatre, Ban Francisor. that where the carcass is there will the MINING STOCKS. eagles gather, and there was gathered on GROOERIES IN PLAIN, BEAUTIFUL AND ELABORATE STYLES OF WORKMANSHIP, AND п MORNING BOARD. It required no student of physiognomy to see that there were men San Francisco, 10, And General looking crowd. It r: quired no student of physiognomy to see that there were men there, and quite a number of them too, who were hardened in orime, and who would scarcely stop short of the committal of any offence in the calender. The many local attempts at burglary, garrotery, &co., lately, shows that individuals identified with the lawless element are bold and des-perate, as evidenced in the burglarious at-tack on the premises of Mr. Commings last Saturday night and other similar in-stances. Depredations of this kind have commenced unusually early this seeson, which may be taken as an in-dication that the approaching winter will be musually prolific of orime. It is oven now considered to be unsafe for a man to traverse the streets after dark alone, and it is certainly for a woman to do so, if she be unprotected. In view of this women should never go out after dusk, un-less accompanied by a protester, and when a man has occasion to visit unfrequented parts of the city he should keep a sharp look out and be amply prepared to protect himself, allowing no stranger to approach him in a suspicious manner without being called to a hait. People should also take all necessary protective precautions against the visitations at their houses of any of the lawless crowd who seem to be increas-ing in the city, not forgetting fo be ready and willing to give all such visit-ors a hearty, warm and fitting reception if they should happen to put in an appear-ance. It is stated that an individual with whom Mr. Cummings was unacquainted, visited the latter's room on the swith previous to the burglary and stayed, with 1 I SOCIETIS 150 Opbir, 55; 551; 55; 541; 54 90 G & O, 285; 240, b 80; 2871; 2421, 1 RANGE CONT CASTORS MERCHANDISE MODELS MODELS Y 30; 235 175 B & B, 71; 7; 71 35 Bavage, 891; 89; 921 b 30 185 Chollar, 70; 711; 72; 73, b 10 40 H & N, 90; 88, b 3; 87 215 Point, 118; 119; 1191; 1221, b 30; 122; BRE 200 1.8 The total sales of the Mayor Machine are now 0 Which he is determined to sell as cheep as arge Pareliness I'r oar the chespest, believing in small profits and quick sales. Art, Ladies of Olden Time, A Young Lady's Thoughts, and Why Blame the Girls, by A Girl? Well, we don't blame them. In fact we decidedly approve of "A Girl's" sentiments thus expressed, espe-cially these in the last sentence— FURNISHING GOODS SALT LAKE Consisting of the LATEST STYLES OF LADIES' TRIMWED AND UNTRIN-Dealers in the settlements and mining towns wi ! fin ! cially those in the last sentence— "If a young lady is asked to marry, she dare not say 'yes,' for a young man now-a-days can scarcely be met in any position in society but he has a cigar in his month, his face is flushed with wine, and to judge from his manner of deportment, he consid-ers himself superior in every sense of the word to most people, and would not marry a girl whom he thought inferior in the least respect to any one but himself. What reasonable girl feels herself capable of filling the position of wife satisfactorily to such a being, even if ahe did not shrink from his habits of intemperance?
