

EX-POLICEMAN ASSASSINATED.

Lyte Gregory Murdered in Cold Blood in the Streets of Denver.

PERPETRATORS ARE UNKNOWN.

He Was Accused of Having Been One of the Men Who Assaulted Committee Wardjon.

Most people don't eat too much—according to their appetites. The trouble is that appetite (in these cultivated days) is no longer the trustworthy guide it was designed to be.

The beauty of "FORCE" is that it fits any appetite, and makes digestion wait upon it.

It "FORCE" simply made people happy, nothing more. It would be a power for good, energetic, useful—millions of them—think how it is pushing the world ahead.

LATIN AMERICAN COUNTRIES UNEASY

Republic of Panama Seeking for an Investment of Nine Million Dollars.

Special Correspondence.

Washington, May 12.—There is deep unrest among Latin-American countries. Brazil is squaring off to Peru, Peru is arming against Chile, while Guatemala and Salvador are straining to get at one another.

It is extremely doubtful, however, whether such an issue would be recognized by any of the South American republics except the two at issue, according to a representative of South American countries in Washington.

The police now believe that two men participated in the shooting of Gregory. It develops that the only four shots fired, but the condition of Gregory's body leads to the conviction that a shotgun loaded with heavy shot was used.

Gregory had served the mines association both at Idaho Springs and Cripple Creek since the strike of metal-ferrous miners in Colorado.

WARE EXPLAINS PENSION ORDER Eugene Ware, commissioner of pensions, in explanation of the order which is known in a pension bureau as order "7" relating to the adjudication of pension claims under the act of June 27, 1890, that when a claimant has passed the age of 62 years he is disabled one half in ability to perform manual labor and is entitled to be rated at \$8 per month; after 65 years at \$8 per month; after 70 years at \$10 per month, and after 75 years at \$12 per month, has issued a general order relative to the interpretation of this order, having excited so much controversy during the closing days of Congress.

but simply operates as a rule of evidence for the guidance of his bureau. The order extends the act of June 27, 1890 to those persons who have reached the age of 62 years and upwards upon the theory that a man is not as capable of performing manual labor at 62 years as he is at 60 and that the increase in years decreases his capability to perform manual labor.

A pensioner receiving a smaller rating under the new law than he is entitled to under the act of June 27, 1890, and acts amendatory thereto, may elect according to the interpretation placed upon order "7" which bids fair to increase such pensions up to the age limit if the pensions already allowed should be below the amount stipulated in the order.

Neither will the order benefit acting assistants or contract surgeons, provost marshals, deputy provost-marshals, or enrolling officers who may be ordered during the war of the rebellion for the reason that such persons are not pensionable under the provisions of the act of June 27, 1890, which is the basis for the now famous order which went into effect on April 15.

Christianity in Japan. London, May 15.—The Telegraph's Tokyo correspondent cables the following under yesterday's date:

A great religious meeting promoted by influential men was held in the park today to determine the question of founding in Japan a church of the Protestant character, but on independent lines. Leading men consider that the time has arrived to adopt the elements approved by the majority of civilized nations. An edict establishing a national church is not improbable.

Railway Employees' Convention. San Francisco, May 15.—The second biennial convention of the United Brotherhood of Carpenters and Joiners of America, which has been holding its sessions here during the last week, closed its meetings at 11:30 p. m. Saturday night.

Cured His Mother of Rheumatism. "My mother has been a sufferer for many years with rheumatism," says W. H. Howard, of Husband, Pa. "At times she was unable to move at all, while at other times she was able to walk. I presented her with a bottle of Chamberlain's Pain Balm and after a few applications she decided it was the most wonderful pain reliever she had ever tried. In fact, she is never without it now and is at all times able to walk. An occasional application of Pain Balm keeps away the pain that she was formerly troubled with." For sale by all druggists.

SUMMER RHEUMATISM

The idea that Rheumatism is strictly a winter disease, that comes from exposure or cold, is wrong; a spell of indigestion, torpidity of the liver, inactive state of the kidneys, or sudden cooling of the body when over-heated, being frequent causes of an attack. Rheumatism is due to an over-acid condition of the blood and bad circulation. As it flows through the body the blood deposits an acid corrosive sediment in the joints and muscles, and the circulation grows sluggish because of the constant accumulation of acid impurities, and when the system is in such condition Rheumatism is liable to come out at any time, winter or summer. It is hastened and provoked by exposure to cold, damp air, sudden cooling of the body when over-heated, a bad spell of indigestion, or anything that is calculated to further derange and depress the system; but these are only exciting and not the real cause of Rheumatism. It is in the blood, and when this vital fluid becomes overcharged with the acid impurities and is running riot in the veins, an attack is sure to come, whether in summer time or the cold, bleak days of winter. You are a slave to pain as long as the blood is tainted with acid. Liniments and plasters are helpful and useful, but it takes something away this demon of pain. S. S. S. goes to the seat of the trouble, enters the circulation, neutralizes and filters out of the blood the acid poisons. It enriches and strengthens the weak, diseased blood; the general health improves under its tonic effect, and when rich, pure blood begins to circulate through the stiff joints and sore, tender muscles, pains and aches vanish, and the longed-for relief comes to the nervous, pained, tortured sufferers. S. S. S. contains no minerals, but is guaranteed purely vegetable. Write us if in need of medical advice, which is given without charge. Our book on Rheumatism, telling of the different forms and varieties of this pain-racking disease, is mailed free.

NO USE FOR CRUTCHES. I had an attack of Sciatic Rheumatism in its worst form. The pain was so intense I became completely prostrated. Having heard S. S. S. recommended for Rheumatism, I decided to give it a trial, and after I had taken a few bottles I was able to hobble around on crutches, and very soon had no use for them at all. S. S. S. having cured me sound and well. All the distressing pains have left me, my appetite has returned, and I am happy to be again restored to perfect health.
