When you want to show others that you have reformed, go home and le' your family get acquainted with the fact. When you want to show yourself at your best, go home and do the act there. Fine Showing Made—At last even-ing's meeting of the Manufacturers and Merchants' association directors the offer of the Utah Light and Railway company to place four are lights in front of the Chamber of Commerce was received. It was shown that the exhibits have practically all been placed in position and the general collection is making a fine showing.

Articles Filed—The East Garfield Land company of this city has filed its articles of incorporation with the county clerk. Its capital stock is \$100,000, divided into shares of the par value of \$1 each. C. N. Strevell is president; J. G. Jacobs, vice presi-dent; J. H. Paterson, secretary and treasurer. Cost of Mailing "News"-People mailing copies of the Christmas News will do well to remember that the will do well to remember that the postage is 9 cents for domestic and 17 cents for foreign points, Canada and Mexico being within the domestic limits. Japanese embezzlers who are wanted in Boxelder county arose yester-The attention of the city council was called last night to the deplorable condition of the streets throughout the city and particularly as to the crossings. A petition to that effect was received from the Retail Butchers' and Grocers' from the Retail Butchers' and Grocers' association of this city and it was asked that the matter be attended to and remedied at once. The petition called particular attention to the bad condition of the crossings of both rail-road and street car tracks and also the practise of those companies of allow-ing cars to stand on crossings for sev-eral days and block traffic. The Utah Gas & Coke company was complained against also for the manner in which it is leaving its excavations after being filled up. Councilman Preece Introduce d a resolution authorizing the street supervisor to employ enough men street supervisor to employ enough men-to clean the streets and crossings. Both his resolution and the petition

DON'T LIKE MAIN STREET.

Wells created somewhat of a stir Wells created somewhat of a stir when he introduced a resolution in-ptructing the city recorder to request the business men on East Temple street to use that name which is the proper one for the street instead of Main street. In support of his resolution he declared that the name East Temple signified something to the people of this city while the name Main street was of no significance whatever and was used in every little country town in the United States. He thought that the business men should use the prop-er name for the street in their advertising. The Dunlap Hat

Fernstrom, Black and Hobday op-posed the resolution and argued that the council could not compel the citi-zens to use the name of East Temple street if they preferred to call it Main. They believed that custom had already changed the name of the street to Main street and it would be impossible

for the council to bring about any change. President Davis called attention to the fact that an ordinance is now pend-ing changing the names of some of the streets of the city and that it would be well to let this matter go over Jan. 7th. until that ordinance is up for consid-eration and then decide what to do. In line with that suggestion the resoluion was laid over to come up with the

ordinance. The mayor's veto of the resolution The mayor's veto of the resolution requiring the owners of private alleys in the business district to pave the same within 30 days from notice or have the alleys closed by the board of health, was received by the council and was amended so as to allow the owners 70 days within which to do the paving, and was sent back to the mayor for reconsideration. ACUMENT OVER PAINT

ARGUMENT OVER PAINT. The matter of having street sprinklers painted before spring was the cause of considerable argument. The sprinkling committee reported in favor of rejecting who offered to paint the wagons at \$18 each, and favored having the work done by the city employes at a cost not to exceed \$23 for each sprinkler. Black objected to the report, and de-clared that the Roche bid should have been accepted. Martin said that the city would not get a good job if the work was awarded to an outsider and work was awarded to an outsider and hence the committee had decided to let the city do it. Crabtree and Black then favored letting the contract to the lowest bidder. Holley thought that the city would get beat any way, and he favored letting the work by contract and it would not amount to so much. The result of the argument was that the matter was referred back to the committee.

Coal Coming In-Coal continues to arrive in this city, 20 cars being re-ceived from Wyoming Sunday, which greatly relieved the local shortage. It is true that the local yards have ex-hausted their reserve supplies, and are dependent on the railroads, but prominent dealars and the sectorate prominent dealers find the railroads are straining every nerve to relieve the situation, and with no heavy storms in immediate prospect, there is no occasion for fright.
