A committee on resolutions was appointed, with J. Tanner chairman. There was considerable animated discussion over a proposition to add Miss Hillara to the list of the committee on resolutions. She was finally added, but all other women were excluded.

the chief points of distribution is a decidedly unfavorable symptom. Speculations in products might account for the difference at Chicago, Milwaukee, New Orleans and Memphis, but it hardly explains the fact that there is no substantial improvement in the volume of transactions at any of the twelve cities of commerce except at Pittsburg. Prices are higher than they were in August are higher than they were in August last, and from it a corresponding increase in the amounts paid through the banks would appear as if there were no actual decrease in the qualities of goods transferred. Kansas City, a point of distribution rati er than of manufacture, has been growing enormously and absorbing the trade formerly done elsewhere, but the movement at all other trading cities is unsatisfactory, and we suspect that it may prove of considerable disappointment later in the year.
