BATE QUESTION UP IN SENATE.

Mr. Fulton in Making an Explanation of Amendment Precipitates it Unexpectedly.

FLOOR THROUGHOUT.

Problem Discussed Was Whether Congress Has Right to Delegate Its Authority to Fix Rates.

Washington, Jan. 16 .- Unexpectedly the senate today found itself considering the railroad rate question, which was precipitated by Mr. Fulton's taking the floor to make a brief speech in explanation of an amendment offered by him to the Dolliver bill, giving to courts of justice authority to modify orders of the interstate commerce commission imposing an unreasonable rate. He had not proceeded far when he was switched from a general explanation of the terms of the provision to a defense of the principle waich it seeks to establish and a general debate of the bill

Mr. Fulton held the floor throughout, but there were many interruptions and other senators fully shared the time, among them being Messrs. Foraker, spooner, Bailey and Clay. The discussion was listened to very attentively by all me senator new ng in great in-terest that is felt in the subject. The

the right to delegates its authority to fix rates and whether the courts may determine what is a reasonable rate.
Mr. Fuiton contended that the courts
may legitimately exercise this right. Mr. scott made a brief speech in sup-port of the merchant marine bill, and port of the merchant marine bill, and
Mr. Heyburn gave notice that tomorrow he would ask the senate to name a
day for voting on the pure food bill.
Mr. Fulton, in discussing his proposed
amendment to the Doilliver railroad rate
bill said that the provision was intendamendment to the Donyer rainroad rate bill, said that the provision was intend-ed to prevent the enforcement of unjust decrees and argued that as the bill stands now, in case an order should be issued it would be impossible for the commission to change it until after great delay, with consequent great ex-

from Mr. McCumber that he did not a reasonable rate in a given case a mat-

ter for legislation, but rather for ju-dicial defermination.

Mr. Foraker also took the view that such action was necessarily a judicial function, and said that courts fixing such rates should have authority to en-join greater rates than those fixed by them. Mr. Spooner defined the present status to be in accordance with decisions of the supreme court, that the courts had the right to determine what rate was reasonable in designated cases but that the fixing of rates for the fu-ture was necessarily not a judicial func-

Mr. Bailey agreed that the courts had power to enjoin unreasonable rates, whether too high or too low, but urged that no court could go beyond the case in hand and by its decisions make regulations for the control of others than those interested in the given proceed-

Mr. Fulton urged that the courts were daily engaged in fixing future rates and quoted authorities in support of the proposition that the courts may fix reasonable rates and argued that the prependerance of precedents was favor-

able to that position.

Mr. Spooner interrupted Mr. Fulton to say that he had stood with the latter in the opinion that the courts had a right to determine the courts had a right to determine what was a reasonable rate when they had only held a sate not to be unreasonable; and, proceeding, Mr. Fulton said that he was not prepared to say that without some legislation the courts would go to the extent of fixing rates, but that he be-leved that Congress has ample authorily to confer upon them the right to do so in given cases.

He argued that there was no more ex-

ercise of legislative power in fixing a reasonable rate than in determining

an unreasonable rate.
Mr. Spooner asked Mr. Fulton why, if

an unreasonable rate.

Mr. Spooner asked Mr. Fulton why, if the courts are to pass on the question of rates, they should not be asked to do so in the first instance. Why, he asked should a commission intervene?

Mr. Fulton said that he believed the findings of the courts could not be made generally applicable. He thought that the commission would take much work off the hands of the courts.

Mr. Clay suggested that a commission could do the work at much less expense, but Mr. Foraker said that it was proposed to change the law, throwing the responsibility upon the government.

When Mr. Fulton concluded, Mr. Danlel called up the bill providing for the construction of a memorial bridge across the Potomac river at Washington and appropriating \$500,000 for beginning the work, and it was passed.

Mr. Balley gave notice that he would make reply tomorrow to Mr. Spooner's contention as to the authority of the courts in the matter of determining fates, saying that the entire question was involved in that point.

The merchant marine bill was then laid before the senate, and Mr. Gallinger urged early attention to this subject.

Mr. Scott spoke in support of the bill.

Ject.

Mr. Scott spoke in support of the bill.

The pure food bill was then taken up, and a number of committee amendments were agreed to.

Mr. Heyburn gave notice that after the conclusion of the routine business tomorrow he would ask the senate to fix a day for taking a vote on the bill.

At 4:02 p. ro. the senate went into executive session and at 4:10 adjourned.

Gov. Hoch tonight declined to discuss any action that he might take in regard to the result of the investigation.

Former State Treasurer Frank E Grimes issued a statement tonight. absolutely denies any responsibility for the shortage in Oklahoma warrant in-terest, and says he is able to account satisfactorily for all the bond coupon shortages except \$7,215 Mr. Grimes states that he is willing to make good any shortages he was responible for.
