

TO LIMIT IRISH OBSTRUCTION.

Chamberlain Says Commons Will Adopt Strong Rules.

POLICY AS TO THE BOERS.

Declares the Time Has Come When Measures of Greater Severity May be Necessary.

Edinburgh, Oct. 25.—Mr. Chamberlain, the colonial secretary, addressing more than 8,000 persons in Waverly Market, Edinburgh, announced that the government intended to frame new rules for the house of commons so as to limit Irish obstruction.

"We purpose," he said, "to bring forward rules which shall give to the majority of the commons greater control over its own business and greater control over the men who insult and outrage it, and we shall endeavor to protect the mother of parliaments from those who would destroy her usefulness and reputation."

But this was not the only thing that Mr. Chamberlain declared the government intended to do.

"The present representation of Ireland," he said, "is an abuse and a scandal. No alteration could be made except in immediate anticipation of a general election, and we are not contemplating that. But when we get nearer to the line we shall ask you whether you think Irish representation is so precious to you, is so valuable to the national interests that it is desirable to have it on a scale which gives the Irish a representation enormously exceeding the proportionate representation of Ireland and England."

The colonial secretary went on to point out that on the basis of population Ireland had thirty members, too many in the house of commons, and on the basis of her contributions for imperial purposes, as considered at the time of the union, she had forty to fifty members too many.

"I say that this constitutes an abuse," he continued, "and there is no reason why it should be perpetuated."

In another portion of the speech, which was largely devoted to the Irish question, he observed:

"If these gentlemen who now openly shout for the Mahdi and pray for the Boers, if they had a parliament of their own, if all of the strings of Irish government had been in their hands, if they had the power, is it not certain they would have refused to have paid their contribution to the war, and that would have placed us in a position of embarrassment?"

The relations of the parliamentary opposition with the Irish party, Mr. Chamberlain said, he considered "dangerous to the empire."

In reviewing the war in South Africa, which he declared had been forced upon Great Britain by the Boers, he said the government acknowledged that it had made a mistake as to the time of ending the war and that he admired the tenacity of the Boers, but he insisted that it was the duty of Great Britain to meet this tenacity with equal resolution. Then followed what is regarded as a most important declaration.

"I think the time has come, or is coming," said the colonial secretary, "when measures of greater severity may be necessary and if that time comes we can find precedents for anything we do, in the actions of those nations who now criticize our barbarity and cruelty, but whose examples in Poland, in Bosnia and in the Balkans, and in the Franco-German war, we have never approached."

Footballists Badly Hurt.

McKinney, Texas, Oct. 25.—Fourteen men were painfully bruised and five seriously beaten in a football game in McKinney yesterday afternoon.

The McKinney team and the Sherman, Texas, city team met on the gridiron. Two of the men got into a dispute that developed into a general fight. Bystanders from both cities joined in the affair with clubs, and several men were frightfully beaten.

Roy Rummels and Mansfield of Sherman, and Weedon, Franklin and Guy Rambo of McKinney, were unconscious on the ground. Four others were badly beaten and bruised.

The sheriff arrested both teams and has them now under guard awaiting trial. Rambo, Franklin, Rummels and Mansfield are in a hospital. Rummels is still unconscious.

Strassburg's New History Professor

New York, Oct. 25.—After referring to the recent confirmation by Emperor William of the appointment of Dr. Spahn as professor of history at Strassburg university, the Berlin correspondent of the London Times and the New York Times says the appointment was at first welcomed with enthusiasm by the clericals. They regarded it as a recognition of religious equality in the universities.

Afterward, however, it was discovered that Dr. Spahn became impregnated with liberal ideas during his academic career in Berlin, and that he had been in correspondence with a well-known convert to Protestantism. This has aroused criticism, and it now appears that the vatican has ordered the bishop of Strassburg to forbid Catholics to attend Prof. Spahn's lectures.

Eugene Wall Shot to Death.

San Augustine, Texas, Oct. 25.—Eugene Wall was yesterday shot to death by unknown persons seven miles from here, and the county is greatly excited. Wall is the sixth man to die in the Wall-Brooks feud, and his faction has contributed five victims, two of them sheriffs of the county. Rangers have been ordered to stop any further trouble.

Wall was shot from ambush and fell within a few yards of where his brother was assassinated a few weeks ago.

DEPT. OF THE COLORADO.

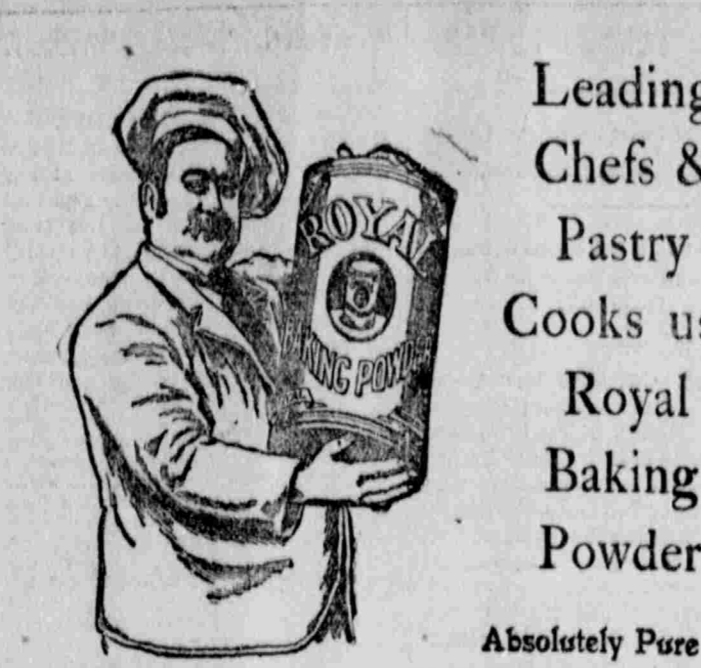

All Plans for Movement of Troops Ordered Stopped.

Denver, Colo., Oct. 25.—The News this morning says:

Telegraphic orders have been received at headquarters of the department of the Colorado in this city directing that all movements of troops in the department be stopped and that all plans for movements be held in abeyance. The orders came from Gen. Merriam, the department head, who is in Washington in consultation with the commander of the army.

He says that a general movement of troops in the department of the Colorado is about to be ordered. Officers are wholly at sea as to the meaning of the change of program.

It is thought that possibly the great majority of the 3,000 men in the department will be sent east to take the places of the men ordered to the Philippines.

MOVEMENTS OF THE BRIGANDS.

Band That Captured Miss Stone Said to Have Dissolved.

THREE WATCH PRISONERS Are in Wooded recesses of Jetepe—Views of Bulgarian Minister of the Interior.

New York, Oct. 25.—Three reports, each corroborative of the others, have been received from widely different sources concerning the movements of the brigands who hold Miss Stone and Mme. Tsiska captives, according to the Sofia correspondent of the World.

One is that the band, which consisted of eighteen men, has been dissolved in the mountains near Jetepe and that fifteen of the members have returned to their homes. The remaining three members are said to have been made custodians of the prisoners and it is claimed that they are holding them in the wooded recesses of Jetepe, which is in Turkey, about twenty miles from the Bulgarian frontier.

Another version of the situation is that because of the early and heavy fall of snow in the mountains the brigands and their prisoners have come down toward the mountains and are now located near Nevrekup, in the foothills of the mountains, in which Jetepe is located. The third report comes from Constantinople and is to the effect that communication has been opened with the brigands from a point in Turkish territory.

BULGARIAN MINISTER'S VIEWS.

New York, Oct. 25.—The minister of the Interior, Sarakoff, of Bulgaria, has made the following statement to the Sofia correspondent of the Journal and Advertiser concerning the case of Miss Stone:

"If I could send my troops across the Turkish border, I would find Miss Stone in two days. I have just received word from our troops that Miss Stone is not on Bulgarian territory. We have three military cordons moving toward the frontier and on the frontier itself I have placed military guard. If the brigands were on our territory the cordons would certainly find them. Ours and the Turkish troops are now searching in the Perin mountains, where, unlike Bulgaria proper, there are no villages and only a few scattered houses in the mountains. If my troops find the brigands we will make short work of them."

ORDNANCE BOARD REPORT Will Urge Congress to Make Liberal Appropriation for Ammunition.

Washington, Oct. 25.—The army board of ordnance and fortifications, headed by Lieut. Gen. Miles has submitted to the war department for transmission to Congress its report for the eight months ended June 30, 1901. The board asks for an appropriation of \$200,000 to carry on its work during the coming year. It had a balance of \$399,682 on hand on June 30 last. The board urges upon Congress the importance of

EGZEMA'S ITCH IS TORTURE.

Eczema is caused by an acid humor in the blood coming in contact with the skin and producing great redness and inflammation; little pustular eruptions form and discharge a thin, sticky fluid, which dries and scales off; sometimes the skin is hard, dry and fissured. Eczema in any form is a tormenting, stubborn disease, and the itching and burning at times are almost unbearable; the acid burning humor seems to ooze out and set the skin on fire. Salves, washes and other external applications do any real good, for as long as the poison remains in the blood it will keep the skin irritated.

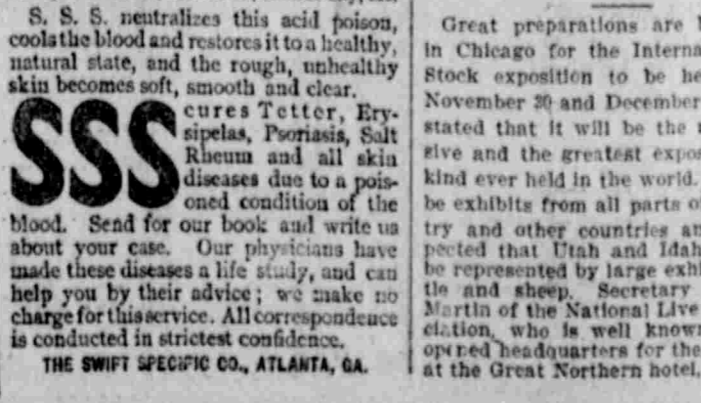

BAD FORM OF TETTER.

"For three years I had Tetter on my hands, which caused them to swell to twice their natural size. Part of the time the disease was in the form of running sores, very painful, and causing much discomfort. Your doctor said the Tetter had progressed too far to be cured, and they could do nothing for me. I took only three bottles of S. S. S. and was completely cured. This was fifteen years ago, and I have never since seen any sign of my old trouble."—Mrs. J. B. JACKSON, 1414 McGee St., Kansas City, Mo.

SSS

S. S. S. neutralizes this acid poison, cools the blood and restores it to healthy natural state, and the rough, unhealthy skin becomes soft, smooth and clear. It cures Tetter, Erysipelas, Psoriasis, Salt Rheum and all skin diseases due to a poisoned condition of the blood. Send for our book and write us about your case. Our physicians have made these diseases a life study, and can help you by their advice; we make no charge for this advice. All correspondence is conducted in strict confidence.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

THE HOLIDAY TRADE OPENS.

Opening Transactions in Fancy Goods Unusually Early.

COMMODITY PRICES FIRM.

Jobbers Urgently Asking Prompt Delivery—Foreign Buying Continues Heavy.

New York, Oct. 25.—R. G. Dun & Co.'s Weekly Review of Trade tomorrow will say: "Jobbers are still urgently asking prompt deliveries by manufacturers of staple lines, while opening transactions in fancy goods for the holidays are unusually early, showing that dealers anticipate a large trade. Prices of commodities trade firm and collections are satisfactory, even southern payments coming forward promptly, now that the tardy cotton crop has begun to move freely."

"Each week the situation as to iron and steel becomes more encouraging, orders now running to the middle of 1903 in many products. Despite the extensive addition to productive capacity last year, there is still much work in progress or preparation, promising many new plants ready to start next year. The feature of the week was the placing of enormous orders for steel rails, practically assuring another record-breaking output. Other railroad supplies are also in great demand."

"Trig iron reflects the brisk movement in finished products and higher prices are anticipated. It is worthy of note that the domestic situation is not called to stimulate export trade, and the loss of much foreign business may be directly attributed to the strike, which put the mills so far behind on home needs."

"Coke ovens are active and the output is large, but lack of cars and motive power restricts shipments. Coal deliveries are similarly retarded, the coalers being often unable to fill more than a small proportion of their orders."

"Foreign buying is also heavy, exports for the week (including flour) amounting to \$494,988 bushels, against \$543,460 bushels last year, and \$188,492 bushels in 1899. There is also a tendency to hold back for still higher prices, as indicated by western receipts of only 6,182,338 bushels against 8,411,067 bushels a year ago."

"Failures for the week numbered in the United States, 240, against 205 last year, and 23 in Canada, against 28 last year."

IN A RUNAWAY CAR.

Messrs. McViehe, Weller and White Hurt on Dalton & Lark Tramway.

There was quite a serious accident on the tramway grade of the Dalton & Lark mine yesterday afternoon, and that it was not a fatality is a matter of marvel. The victims were Messrs. O. E. Weller and Director E. L. White, of the Bingham Consolidated Mining company, and Captain Dugan McViehe, the company's engineer. They were descending the grade in a car when the brake failed to hold and the car went down the incline free and gathering momentum every moment. On reaching the first curve the car capsize and the three occupants were thrown to the ground with considerable violence. Mr. Weller received perhaps the severest injuries. Besides an ugly scalp wound, which had to be sewed up, he sustained a number of bruises which will keep him in the hospital a few days. Mr. McViehe also received a scalp wound which required several stitches to close.

The injured men were attended by Dr. Hooper, who held that the severer of them was hurt seriously and only a complete recovery was a matter of only a day or two.

Mr. Weller is at the Holy Cross hospital recovering rapidly.

We aim to please you both in quality and price on pure, wholesome foods. A trial will surely convince you; 63 East ST. HELENA SANITARIUM FOOD CO.

GREAT EVENT FOR ELKS.

Committees Appointed in Butte to Arrange for Reception.

The Butte lodge of Elks is already taking steps to organize an excursion next August to Salt Lake City to attend the grand lodge meeting, says the

QUIT WHITE BREAD.

Could Not Get Through From It.

An Episcopalian minister of Ellenville, N. Y., who is interested not only in the spiritual welfare of his congregation, but in their physical well-being also, says, "I can now do an immense amount of work and feel no fatigue for the reason that I am using Grape-Nuts breakfast food and have quit coffee entirely and am using Postum Food Coffee."

"Myself and family are all greatly improved in health. We have already abandoned the use of white bread. Upwards of twenty-five persons have changed their diet on my recommendation. It is gladly given, because I know, from personal experience, whereof I speak."

It is a well known fact that white bread is almost entirely composed of starch and this is difficult of digestion by many people, particularly those who have weak intestinal digestion. The result of the use of much white bread is a lack of brain and nerve power to do mental work and it also creates intestinal troubles, because the excess of starch ferments in the intestines and makes the conditions in the bowels the growth of microbes; whereas Grape-Nuts breakfast food contains the necessary starch, but in a predigested form. That is, it is transformed into grape sugar in the process of manufacture, and delivered in the packages, ready to eat, and in such shape that it is immediately assimilated without hard work of the digestive organs.

The food also contains the delicate particles of phosphate of potash which, combined with Albumen, is used by nature to make the gray matter that must be in the cells of the brain and the nerve centers throughout the body, in order to give strength and ability to stand long and continuous work. Both the Postum Food Coffee and Grape-Nuts are sold by all first-class grocers.

LARGEST OF ITS KIND.

Live Stock Exposition in Chicago Under International Association.

Great preparations are being made in Chicago for the International Live Stock exposition to be held between November 30 and December 7, and it is stated that it will be the most extensive and the greatest exposition of its kind ever held in the world. There will be exhibits from all parts of this country and other countries and it is expected that Utah and Idaho will be represented by large exhibits of catle and sheep. Secretary Charles P. Martin of the National Live Stock association, who is well known here, has opened headquarters for the association at the Great Northern hotel, Chicago.

KIDNEY TROUBLE CURED

A Member of the U. S. Census Department Gives Pe-ru-na Great Praise,

Hon. Edward G. Wade, District Enumerator, Assistant Special Agent of the Statistical Department of the United States Census, is a prominent member of the Foresters of America. In a letter written from 700 Bush Street, San Francisco, Cal., he says:

"I am gratified to note that Peru-na is so widely known, as it is a medicine that deserves a world-wide reputation for merits. I suffered often and on for years with kidney troubles and nervous disorders; had many doctors prescribe for me, but received no last-

ing benefit except from the use of Peru-na. May success attend you." EDWARD G. WADE.

A man who has suffered for years and years with kidney trouble and nervous disorders, had tried doctor after doctor without benefit, and finally tries Peru-na and receives a permanent cure, such a man ought to recommend Peru-na. He certainly would be a curious individual if he did not do so.

Yet the fear of notoriety and the prejudice against proprietary remedies keep many men from recommending Peru-na, even when they have been practically

snatched from the grave by using it. Yet in spite of all these things, men of high and low station are enthusiastically praising Peru-na in public print and private conversation.

Hon. Edward G. Wade, of the United States Census Department, is one of the men in high station who believes that the whole world ought to know the virtues of Peru-na. Having been cured himself his gratitude is so great that he is willing to use every honorable means to let others know it. No other remedy in the world is making such a multitude of different cures.

W. C. Hamilton, Sergeant Thirty-seventh U. S. Volunteer Infantry, Spanish-American War, 231 New High Street, Los Angeles, Cal., writes:

"When I returned from the army I was nearly dead with bladder and kidney trouble. I considered myself a wreck for life, and as I have seen so many soldiers whose health was forever ruined, life looked pretty dark to me. Our Colonel had in the meantime been using Peru-na for a similar trouble and it seemed to help him and I was willing to try it. Thank God that I did. It slowly brought me back to life and health. I have been well now for over a year and I would not exchange my health for all the wealth you could offer me. I am a great believer in Peru-na and have good reason to be."—W. C. Hamilton.

President Louisiana Commercial Club. Hon. William Watson Washburn, President of the Louisiana Commercial Club, and a very well-known man of New Orleans, La., writes from 637 Canal street:

"I am satisfied that there is not a finer medicine placed before the public today than Peru-na. I have been troubled for nearly twelve years with kidney and liver trouble, and at times I have been a pretty sick man unable to attend to my duties. I had about made up my mind that no medicine could help me when one of your booklets was brought to my office which I read in a leisure hour. I then decided to give Peru-na a trial and found that I had at last secured the right medicine for me. For two months I used it faithfully and then felt so well I was like a young man once more. This was over a year ago and I have not had any trouble since. Although I am in the seventies I feel better and more active than I did thirty years ago."—W. Washburn.

If you do not derive prompt and satisfactory results from the use of Peru-na, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.
