

MANURE FOR THE GARDEN

and, finally, to a Child.—Harvesting
—Fruit Products, Etc.

Hyrum Ellis, the 14-month-old son of Joel E. and Mary Johnson, was injured at Meach Creek, A. T., on Monday, the 5th inst., while the father and sister children were all at meeting. The mother, while attending to the domestic duties, gave the little one a piece of bread and butter and sat him on the porch. Missing the child soon afterwards, Mrs. Johnson began to search and around the neighbors were called. This resulted in the finding of the dead boy about two miles away from the house floating down a small but swift stream of water. The father and sister John E. and Mary Johnson arrived with them in their bereaved grief.

On the other hand, operation here is profitable in mining and logging. The strata under and near the surface are abundant in coal and timber. We are beginning to see the application of modern machinery to the agriculture and other fruits. Future prospects are very bright. All we need now is a north and south railroad, so that we could exchange our fine early fruit, and our northern grain for products. We also have (as a community) about the same amount of land, on average, that is vigorously utilized; so you see we are leading about ten times the number of settlers than most country the country.

Our water supply has been better than for many past, and we would not be in such a position of such a position. There is plenty of water, and the amount of land that is not well attended to. The facilities for the country are, as yet, hard to come by.

There has been hundreds of acres of planted trees planted out this season. We advise those who are seeking future homes to visit this locality and see what they have never seen before.

F. C. J.

SALT RIVER VALLEY, A. T., MAR. 1921.

SEQUEL TO A FAMILY ROW.

**The Wife of a Sporting Man Attempts
suicide by Taking Morphine.**

Last evening the police were called upon to arrest a shouting MAN, Miss Wilton, and his wife on a charge of disturbing the peace, they having engaged in a family quarrel. They got home and thus secured their liberty. About two hours afterwards a telephone message was received at the police station stating that the woman had attempted suicide by using her knife. It was found that the woman's words were much out of danger. The transferred parties are all quiet regarding the matter and cannot be argued to be in any danger. Miss Wilton was a close friend of Mary Chalmers, a woman who committed suicide. Handling two weeks ago and that two friends had been in the hospital together but that the former's course failed.

Chart Notes.

In the Third District court yesterday afternoon, Nicholas Greenleaf was convicted on a charge of adultery with Kate Houts. Sentence will be passed on the 25th inst.

John Richardson, the man who assaulted Adams, the colored bookbinder, was taken before Commissioner Green yesterday afternoon, under warrant, pled guilty, and was fined \$200. This case arose out of a "riotous" which was reported yesterday's News, and which resulted in the conflict over being held to await the trial of a woman.

Little Carter was filing a supplementary complaint in her divorce against her husband, Charles

The small clothing store of Washburn, on Second South Street, has been attacked for the sum of \$130. The instance of Samuel Kolbe, Main Street. Deputy Sheriff Lee remains at present in charge of the establishment.

Business is brisk just now in all parts. Even the United States Customhouse are having a rushing time. The charge against E. C. Cronin, Franklin, has been discontinued on the motion of the assistant prosecuting attorney.

Irrigation Company.
The Denver River Irrigation company has filed articles of incorporation

ject of the company is to carry on and conduct the business of appropriating water, and buying and selling water-rights, building dams and canals, acquiring rights of way through canals, and excavating, widening and deepening canals, and affixing land and doing everything connected with a general irrigation business. The general office is located at Milford, Beaver county, and the superintendence and the number of subdivisions for hy such are as follows: James H. Farber, 2nd, W. J. Keenan, 3rd, B. B. McFarland, 4th, A. C. Farber, 5th, M. B. McFarland, 6th, A. C. Farber, 7th, W. B. McFarland, 8th, W. B. McFarland, 9th, W. B. McFarland, 10th, W. B. McFarland, 11th, W. B. McFarland, 12th, W. B. Death of Mrs. Maxwell.
The death of Mrs. Maxwell, wife of the late General Maxwell, who formerly United States Marshal of the Territory, died in this city at 1:30 p.m. evening. She was the daughter of Dr. A. L. and Mary Woodworth Hagaman, and was thirty-three years of age at the time of her demise. She was an invalid for many years. Her husband was a cultured lady-like woman, well known and much respected, and many friends will mourn her death. Funeral services will be held at 2 p.m. Tuesday.

Sooty Killed by a mouse.
A four-year-old son of William Burns, of Lancaster, is lying in an unconscious condition through an attack on him by a rooster. While handling pet one, the rooster flew upon him, striking a number of ugly holes in left temple, which lacerated gravely. Child became seriously ill, and is now convalescing with blood poisoning.—*Harrisburg Ledger*.

GETTING ALONG WITH ONE SERVANT

[illegible][illegible]

In fact, I shouldn't be at all surprised if after the lunch clothes are washed, the stained handkerchiefs and napkins. My domestic and myself are in perfect harmony, at least as if we were sisters. We like each other, the result is we work together. You've an idea how much housework can be thrown off when you

Use of Colored Glass. There has been an intense development in modern architecture that which has taken place in the manufacture and use of colored glass windows. Although perhaps few stained glass windows are used, formerly their quality has greatly improved. There is a distinct movement toward the softer colors and more simple forms. Designs of flowers prevail in domestic architecture, while figures

principally imported in children's
beds. Painted glass windows, instead
of the lead sash, are in much demand,
as well as the drawn glass windows.

MANURE FOR THE GARDEN

[illegible]

per cent of difference, but the most reliable thing, so that it would be safe to use it in large quantities, for what is not as dense, even into plant structure will gradually through the soil and be lost. The recommended method is the application of over 100 pounds to 150 pounds per acre, repeated at intervals of about weeks. If, however, you wish to be spraying it, smaller it over the ground, the foliage of plants is dry, it is safe to scratch the leaves off, it will better, apply just before or during rain, when it will be dissolved and tied into the soil and, after, after the land in solution is a and generally less your most mode of action.

[illegible]

approximate. A ton contains only 10 pounds of nitrogen, 60 pounds of phosphoric acid, and 40 pounds of potash. When mixed and composted with manure it increases the component of nitrogen of this ratio, therefore it is excellent. Growers who keep stock should feed continuously. It should feed steadily, in increase of flesh and improvement of manure. Where it is sold, on account of distance from source of supply and transportation, it is sold at a high price. It cannot be used much as often, comparatively low price, and it can be used in place of the other components.

Potash in any special form is never needed for the crops on any

arden and, since stable composites of the average high grade complete lack supply an abundance, and of excess of it to the crop already. In forest thing it is with peaty and soils. These have already an abundance of the nitrogenous element, which is in hard combination, and in an unavailable form. On the hand the mineral elements are supplied. Stable humus would comparatively large amount of it at great expense in the above stage, and but small quantities
