

MINING, BUSINESS AND STOCKS.

DAILY-WEST WAS STRONGER TODAY

Stock Sells Today 45% Cents Above Saturday's Figures.

EAGLE & BLUE BELL ACTIVE

Dexter Advancing—May Day Unchanged—Ben Butler Firmer—Geyer—Marion Traded In.

TODAY'S METALS:

SILVER 61 1/2
LEAD, \$3.87 1/2
CASTING COPPER 15 1/2

A marked advance is recorded today in Daily-West. The first sale was made at \$17.35 which was 25 cents per share higher than Saturday's highest sale. The stock did not stop there, however, but jumped up to \$17.57 1/2, closing a little weaker with \$17.57 bid.

Eagle and Blue Bell was active at prices ranging from \$2 1/2 to \$4 1/2. Geyer-Marion recorded the sale of 1,000 shares at \$4, while Mammoth dropped 100 at \$2.15.

May Day continues stationary around \$9.

Northern Light let go \$3.50 at 1 1/4, while Ben Butler sold at 1 1/4 and closed firm.

Yankee Con. appeared weaker today. Grand Central is firm. Valco is practically unchanged as is Lower Mammoth.

Dexter continues to improve closing today with 97 1/2 bid.

FOR TOMORROW.

Pioneer day will be celebrated at the Salt Palace by special theater performances during the afternoon and evening and the highest bicycle meet of the season at night. The Palace itself, with its beautiful surroundings, miniature railway, and other unexcelled features, will undoubtedly prove to be an alluring sight to the visiting pioneers. Free dancing and band concerts will also be provided.

"A Venetian evening," Lagoon, July 24.

Nothing just as good as MALT-NUTRINE can be found in any drug store for the purposes for which MALT-NUTRINE is prepared. It is superior to all other tonics and no substitute should be accepted. Made by Anheuser-Busch Brewing Ass'n, St. Louis, U. S. A., and sold by all druggists.

CONTRACT FOR NEW ELY MILL

The Mammoth Mill Shows Excellent Extraction.

NEARLY \$9,000 PER WEEK.

Mercur Meeting—Ben Butler Strike—Park City Items—Mining Notes.

The contract to build the new mill for the Ely Mining company at Ely, Nevada, has been let to the Salt Lake Hardware company. The cost of the building and equipment will be \$20,000. The hardware company will furnish all the material necessary for the mill which is to treat 100 tons of ore per day by the cyanide process. The company will undertake the erection of the building and it is expected that four months will witness its completion. Meantime the work of sinking a working shaft is still going forward.

MAMMOTH MILL.

Remarkably Good Success Attending Present Treatment.
The bullion output of the Mammoth mill from the 1st of July up to today amounts to \$14,250 in value. During the same period over \$12,000 worth of concentrates have been sold, which makes the total output of the mill for the past 21 days amount to upwards of \$26,000. The ore being mined is said to be of good grade, but the increase in the value of the mill output as shown by the above figures is said to be largely due to the efforts of Superintendent McIntyre, who has been experimenting for some time past with new methods of treatment. A 25 per cent better extraction is said to be obtained now than has been secured previously.

PARK CITY NOTES.

The California Group—At the Comstock—Ore Shipments.

In its review of the week at Park City the Record says:
The Constellation deal, mentioned last week has not yet been fully settled, though the price and most of the details have been agreed upon. We understand the only point yet to be settled is the amount the lenders are to deposit for first payment. We are unofficially informed that the amount of the loan and bond is \$105,000, though we did not learn how the payments were to be made. Messrs. Thompson, Rookledge and others are making the negotiations for the lenders, and we hope by next week to be able to give full particulars.

Thomas Rosecamp of the California was down from Therman canyon the first of the week. He says there is enough material in sight to run the mill steadily for twelve months. An order for another Huntington and Wilfley table has been placed and will be added to the present equipment of the plant. This will increase the capacity of the plant to fifty tons per day. The ore bins and chutes are all completed and the mine is now in excellent shape for production.

The large boilers at the Massachusetts were inspected this week with a view to their condition, etc., and will soon be put in commission at another point.
James Hickey was down from the Comstock Wednesday. He reports work on the shaft house and other buildings going right along. The new shaft is already down a distance of forty-five feet and sinking quite rapidly. Mr. Hickey will commence timbering this shaft at once.

Hugh Kilkeney of the Little Bell Mining company went down to the metropolis Wednesday. His object is to consult with P. L. Williams president of the company, relative to work of a permanent nature to be done on the Little Bell ground, and which has been outlined. Mr. Kilkeney expects to resume operations here in a very short time, and it is certain no doubt of satisfactory results.

P. H. Lynch left Sunday afternoon for Park City to superintend the erection of a tail for the Century company. It is a well proportioned man, and is a first-class mill man, and is not expected to be of the latter and most approved pattern. Should matters turn out as at present expected, Mr. Lynch will move his family to that district.

ONE SHIPMENTS.

Following are the shipments of ore from the McIntosh sampler for the past week:
Silver King.....1,215,200
Daily-West.....1,381,000
Anchor concentrates.....210,000
Ontario.....302,000
Loring Bros.....35,000
California.....10,000
Total number of pounds.....5,440,200

KLONDIKE GOLD.

Thirty Passengers Arrived on the Steamer Anhur with Fortunes.
A dispatch from Victoria, B. C., states that the steamer Anhur reached there yesterday afternoon, bringing the largest number of rich Klondikers and more gold than has previously arrived from the North this season. There is at least \$1,000,000 in gold dust on board the steamer and ninety passengers, one-third of whom made fortunes in the far North.

The general opinion of these men, who are actually engaged in mining, is that the output for the year will be \$25,000,000. This large output is accounted for by the fact that just in the month of July is now being taken out in summer as in winter.

A man who went over the creeks to estimate the output said it was hard to make an estimate, as claim-owners refused to give the output for fear that the royalty of 10 per cent will be exacted by the government. Many of the largest claims barely pay expenses, and if they paid a royalty there would be a loss for the year.

There is no case of smallpox in Dawson, but some typhoid. Arrangements for the suppression of disease are the very best.
The American and Canadian boundary commissioners have completed their work above Haines Mission and are now working at White Pass. The Indians have entered protest against the erection of a custom house on the boundary, on the ground that it will restrict their trade with interior Indians.
The courts have decided in favor of

Ben Butler Assays.
At a distance of 30 feet from the end of the 1,00-foot tunnel at the Ben Butler of Lingham several streaks of excellent looking ore has been encountered. A. L. Jacobs has just returned from the property and is much pleased with the outlook. Mr. Jacobs received returns this afternoon from the samples sent to the assay office. These show 2.2 per cent copper, 22.5 per cent lead, 3.2 ounces silver and \$1 in gold per ton.
Superintendent Jacobson reports the property improving today.

The Mercur Meeting.

The shareholders of the Mercur Mining company met on Saturday afternoon according to schedule and adopted the resolution to organize a new company under the laws of New Jersey and to convey the property of the Mercur Mining company to the new corporation. The arrangement of details will delay the consolidation until about August 1st. In the meantime Vice President John Heinrich is authorized to act for the Mercur stockholders in the signing of documents.

MINING NOTES.

The Albino was on the market today with a car of ore.
Supt. P. H. Tallon, of the Joe Bowers of Diamond, is in town.

An important strike is reported in the Centennial-Eureka at Tintic.
A car of ore was on the market today from the Katherine of Stockton.

Five cars of ore were on the market today from the Mammoth of Tintic.
Manager George H. Dorn of the Mercur mine left for that property today.

The Taylor-Brunton sampler reported five cars of ore from Stockton today.
The Utah of Fish Springs has another car of ore on the market today.

Supt. John H. McChrystal of the Goldiva came in from the district today.
A car of ore was on the market today from the Peterson property at Stockton.

The West Morning Glory assessment of one-fourth cent per share became delinquent today.
Victor M. Clement has returned from Montana, where he went last week on mining business.

L. E. Ritter and Claude Wheeler of the South Swansea came down from Brighton today.
Samples of fine quartz carrying values have been received from the R. G. W. Group at Tintic.

Night foreman R. M. Wilkinson of the Mammoth mill came in from Tintic today to spend the 24th.
Five cars of concentrates were reported today from the Ophir Hill property owned by W. A. Clark.

A. W. McCune has returned from a visit to Deer Lodge district and is much pleased with the outlook there.
John T. Cowans is back from the Pony district in Montana, where he is interested in the Old Joe mine.

The Conklin sampler reported five cars of ore from Tintic, two from Stockton, and 1 from Fish Springs today.
S. H. Hickey expects to give an exhibition of a working model of his hydraulic concentrator within the next few days.

A car of ore was reported today from the Joe Bowers of Diamond. A force of fifteen men are busy extracting ore and prospecting on the 400 level.
The Lucky Boy reached the local sampling rooms today with about 200 pounds of cyanides. The chloride plant is also in with a shipment.

E. V. McCune was at the Red Rose Mine Sunday, says the Tintic Miner. The property has been closed down indefinitely, for what reason is unknown.
Word has been received from Delos Lombard of the Ridge & Valley that a change has occurred in the south deluge at between 400 and 500 feet from the shaft. Ledge matter consisting of talc and iron is being encountered.

Tintic Miner: Supt. Ball is extracting some excellent copper ore from the 700-foot level at the Lower Mammoth from a recent strike. The new engine is ready to be run upon its foundation immediately upon the arrival of the motor. The engine will be run by compressed air, the power for the compressor coming from the electric dynamo.

Rawlins (Wyo.) Journal: J. E. Foote and son of Salt Lake spent Monday in the city, leaving Tuesday morning for Wolcott to assist in loading a concentrator which they are shipping into Battle Lake. Mr. Foote has made arrangements for working the Ferris-Hagarty dump and will begin operations as soon as he can get his concentrator at work. He has had the dump tested and says he has the biggest thing in the country. It is his intention to concentrate three tons into one and then ship to the smelter.

"A Venetian evening," Lagoon, July 24.

SOME STOCKS ARE STRONG

St. Paul, Southern Pacific and Others in the List.

Sugar Takes a Drop—Interest Rate is Low—Wheat Goes Down—Live Stock Higher.

New York, July 23.—Wall Street: Declines in American securities in London were ignored here. Pronounced strength was manifested in certain stocks of individual groups. For instance, St. Paul was strong in the grangers, Southern Pacific led the Pacifics, leather the industrials, Tennessee coal the steel group and Metropolitan the traction. Gains reached a point or better. In other stocks there were some sympathetic gains. Sugar did not hold the opening rise of a point and its drop checked the advancing tendency elsewhere. Continued absorption of Tennessee coal carried it up 1/4 and induced a better demand for fuel. A large number of inactive stocks were lifted from 1 to 2 1/2.
Bonds quiet and irregular.

MONEY AND BONDS.

New York, July 23.—Money on call nominally 14 1/2 per cent. Prime mercantile paper, 4 1/2 per cent.
