CASTING COPPER 1514

communications of Business on the exchange was very

fair during the past week considering that mining affairs are somewhat quieter than they were a year or more ago. The sales amounted to \$53,295.64, which represented the sale of 65,516 shares of stock. Several stocks have stiffened up surprisingly during the past week, notable among which is Mercur, which opened on Monday at \$5.75 and went right up to \$6. Sales have since been made as high as \$6.08. The advance is probably owing to the satisfactory working of the ores at the great mill of the Consolidated company.

Mammoth is also much stronger owing to the declaration of the August dividend, payable on the 1st inst. The mine is said to be looking well. Some very good gold and copper ore has been marketed this week from the old work-ings of the Golden King claim. The company has a very healthy treasury balance. It is regarded as very im-probable that the lawsuit between the company and the Grand Central will ome up before next spring. Grand Central has shown itself a lit-

the softer than usual during the past week. May Day has broke from 50, the price at which the first sale was made on Monday and has declined to 45%, the price of the lowest sale today. Before price of the lowest sale today. Before the call closed, however, the stock was braced to 46%. A number of people look for the stock to go lower, but as Manager Hunt reports the mine im-proving it is possible that this expecta-tion may not be realized.

Yankee Con., which was held at 4% on Monday, has advanced to 9% today. Capt. Eagun reports no particular change at the property. Some gold values are obtained but no shipping ore, it is said, has yet been encountered.

Dexter has advanced since the sale of Mr. Larkin's stock and is held today at 87 with 75 bid.

Silver King sold today at \$51.00. An advance was recorded in Joe Bow

ers, which weakened yesterday. It sold today up to 11/4.
Daly-West brought \$18.30 per share and afterwards sold at \$18.25.
Closing quotations were posted as fol-

## ORE SHIPMENTS FROM TINTIC.

Another Strike Has Been Made in the Little Chief.

WORK AT LOWER MAMMOTH

Drift Being Run on the 500 Level in the Bullion-Beck-Men at Solid Muldoon.

Special Correspondence.

Eureka, Aug. 24.-Operations at the Lower Mammoth has been greatly retarded of late, but will be resumed in a few days. Supt. Ball announces that the motor has left Omaha and is expected by any train.

Albert Hagen, the popular business man of Mammoth, has gone to White Pine, Nevada, to superintend the shipping of fifty tons of silver-lead ore from his mining property there, which he expects will net him a handsome

A shipment of fine carloads of ore is being consolidated at Mammoth. Another small strike has been made in the Little Chief, just south of Eureka, and adjoining the Eagle & Blue Bell. In west drift of the property some exrellent looking quartz was broken into Wednesday, and a smaple lot taken to

alt Lake the same day to be tested

The only men working at the Bullion-Beck mine are two shifts of contractors running a drift on the 500 level, and the firemen on top. All of the miners were laid off Monday, and those who re-mained on top have been transfered to the Solid Moultoon claim up the canyon south of the main workings. At the Solid Moultoon good shipping oris being extracted, and several cars will be marketed weekly from that property. The contractors are en-countering every indication of striking a large body of ore on the 500 level in the B. B. The casing to the vein was entered Tuesday. If such is the case nearly the former force will be put to

## AT THE SILVER CORD.

Sinking Has Now Been Resumed With a Buffalo Whim.

At the Silver Cord group of five claims owned by Pine Tree Mining and Milling company and under manage-ment of Major F. A. Grant, result of developments this summer indicates that before snow flies an addition will be made to the list of Bingham's paying mines, says the Bingham Bulletin.
As recorded in the Bulletin, about the first of May the incline sinking on Silver Cord vein at about 180 feet went

into three feet of a fine grade of cop-per. Sinking was continued by hand to 255 feet, attained last week, when a Buffalo whim was put on and sinking resumed. At present depth the pay streak is two feet wide, assays showing 15 per cent copper, small values in gold and silver and a good percentage of iron over silica.

A force of twelve to lifteeen men will now be employed, drifting started right

and left, and as soon as ground can be blocked out, stoping is to begin—the inintime going down to establish another level.

#### AMENDS ITS ARTICLES. Ophir Mining Company Increases Capital Stock to \$1,000,000.

The Ophir Mining and Milling com-pany, by Richard J. Evans, president, and F. H. Lathrop, secretary, filed an mendment to its corporation articles oday, increasing its capital stock from \$300,000 to \$1,000,000, and the unmber of shares of stock from 300,000 to \$1,000,000 of the par value of \$1 each.

### ITEMS FROM BINGHAM.

Baltimore Long Tunnel-To Tap Fire King Vein-West Mountain Placer.

In its review of the week, the Bingham Bulletin says:
A change is talked of for the Frisco, which, if effected, will employ a considerable force on development work.
R. J. C. Craze last Friday marketed two carloads of good-pay carbonate ore from the Dunston & Craze Neptune

Dewey mill was this week running on dump ore from the Silver Hill Niagara) and Sampson & Sherman's

There are good prospects that ground will soon be broken on Baltimere long unnnel, beginning on Baltimore group n Pine canyon and following the Tooele divide southerly to Highland Boy country. It is a feasible project, and crossing, as it will, a number of noted mineral veins, will no doubt prove an important and profitable investment.

The Shawmut mill was running very smoothly, this week in overy part, but

smoothly this week in every part, but owing to the excessively dry season its water supply is short and but little has been accomplished. The defect will be remedied tomorrow, when 600 feet of boxes having been laid, an abundant supply will be obtained from Carr fork There will then be nothing to

work is progressing in the long St. Joe tunnel ultimately to tap Joe tunner urbinately to tap Fire King vein and cut under old workings upwards of 700 feet. The Fire King about 1877 shipped hundreds of tons of ore that is said to have netted \$50 per ton. A piece of crystalized lead aken the other day from an old stope (ssayed 41 per cent lead) 24 ounces fiver and \$1.74 in gold. The ore body seen going down from drift but can-ot be followed without pumping and Manager Hasbrouck confident the Fire King will prove the of the most valuable of St. Joe coup. Six months or more will be

equired to reach vein by lower tun-Last Wednesday at West Mountain placer operations were suspended, the in, and consequently better opportunity stormed, and the workings are ties to look and gain information.

THE WASHINGTON TO THE WASHING now flooded. The reason assigned is the giving out of the new pump in lower (Butter) shaft, but this mishap was probably "the straw that broke the camel's back," as from start to finish the history of the West Mountain has presented a series of mishaps and discouragements that required nerve to surmount and have had to be roundly paid for. It is not befleved here that the suspension is more than temporary and confidence is expressed that by the middle of September the camel's back will be repaired and a fresh start made. fresh start made

## AT THE FORTUNE.

High Grade Copper Ore Uncovered in the Mine This Week.

Manager Elmer Hill of the Fortune group at Bingham reports a very en-couraging condition at the mine. In running the Freedom tunnel to connect with a upraise from the lower or Conertion tunnel now extended some 500 eet. Manager Hill has just encountered a rive Lody of copper ore running from 15 to 20 per cent A contract was signed yesterday be-

tween the management and the Lead Mining company for the construction of 3,500 feet of tramway to connect with the Dalton & Lurk.

#### The Red Wing Mill.

From September 1st Red Wing mill operated as a custom concentrator George Forrester, who will sample, assay and buy ores in connection. The plant meantime will be overhauled and put in first-class condition. Mr. Forresr is the expert who last year made aborate tests at Murkham (now Red ling) mill on Boston Consolidated ere, and afterwards on mineralized porphy-ry from Wall-De Lumar property. He has just completed the erection of large concentrator in Idaho, and in this connection is recommended for knowing how to build an up-to-date mill and then knowing how to run it. Red Wing plant under his direction, should com-mand a large business. Bingham

#### The Highland Boy.

The Boston News Bureau has the following to say of the Utah Consolidated company, operating the Highland

Boy at Bingham:

We understand that on April 1, last, the Utah Consolidated Gold Mining company had a clean sheet, that is, it owed no money, had no had contracts and no complications of any sort. Since April 1 the company has earned net April 1 the company has earned net between \$50,000 and \$60,000 per month. The company is doubling the capacity of its smelter at an estimated gost of \$200,000, which the net profits of the ast four months should provide With this increased capacity it is be-Heved the company can earn about \$125,000 per month net, or \$1,750,000 per annum, equal to nearly \$6 per share upon the stock.

#### MINING NOTES.

L. E. Riter has returned from a trip to Yellowstone Park.

The Eureka Hill reached the market today with six cars of crude ore. The Taylor-Brunton sampler reported 12 cars of ore from Tintic today. The Swansea of Tintic was on the market today with six cars of ore.

Manager Pat Ryan of the Golden Star reached town today from Colora-The Mammoth of Tintic sent \$2,900

worth of buillon to Kansas City to-Col. O. P. Posey of the Binghan

Copper and Gold Mining company has returned to the city. Claude Wheeler is up from the South Swansea and reports the new shaft down about 625 feet.

Streaks of quartz and decomposed lime are reported to be encountered in the R. G. W. by Supt. Barnett. The Murray (Ida.) Sun reports a rich discovery of copper in the new Goldback shaft on the Butte placer a quarter of a mile east of town.

John T. Cowan reports the new mill in Pony district, Mont., doing fine work. About 30 tons of ore are being milled daily. The concentrates run about \$60 per ton.

Considerable comment has been considerable comment has been caused by the publication of the de-linquent notices of the Homestake, Four Aces, Galena and Bullion-Beck Tunnel, now appearing in the "News." The date of sale is advertised for Sept. 10th, Sept. 7th, Sept. 10, and Sept. 5th, respectively.

5th, respectively. Hailey Times: C. W. Courtney, su-perintendent of the Liberal and Mag-gle May group of twelve claims in gle May group of twelve claims in Little Smoky, came in yesterday after two loads of supplies. Fuel and supplies for at least twenty men will be laid in this fall. The company's main veln is eighteen feet wide, and carries ore assaying from \$\$ to \$56, with an average of \$11.90 to the ton. Mr. Courtney says that the property is the biggest proposition in the country.

Hailey Times: The Tiptop, owned by John Q. Packard of Salt Lake, is now a mine. It has passed the prospecting stage. With the use of machine drills the Tiptop has been added to the list of our permanent producers. Once the mill is again started up, it will not stop running day or night for many years, excepting for a few hours at a time, and for slight, it necessary re-

### THEY GOT OFF LIGHTLY.

A couple of months ago J. R. Smith, who runs a flour mill in the southeast. ern part of the city, had stolen from his place a three-wheel pipe cutter, and a die. Yesterday deputy Sheriff Ben Har-ries recovered the stolen property and also located the men who plundered the mill. When confronted by Mr. Smith, the fellows confessed their guilt and upon their promising not to steal again they were allowed to depart in peace, much to the chagrin of Harries, who wanted to give them a spin in the rotary at the county jail.

Sky Not Cloudless. New York, Aug. 24.—R. G. Dun & o.'s Weekly Review of Trade will say:

New York, Aug. 24.—13. G. Dun & Co.'s Weekly Review of Trade will say: The sky is not cloudless, but there has been no backward movement of business this week. The chief drawback of the week has been the intense heat in some sections of the West, which was more efficient in retarding business than the lower temperature East, which is stimulating it.

Crop advices continue as cheerful as at any time lately, and the labor situ-

will be willing to place orders for the ensuing year's supplies.

## COMMERCIAL STOCKS.

Local stocks have again shown

spurt of activity, due largely to the fact that the September dividends are heaving in sight. There has been a strong quest for both Ogden and Lehi gar, with little or none to be found, thi stands at \$15.15 bid, the highest gure yet reached. A fair amount of ther stocks has changed hands, though Broker Cutler states that the demand till largely exceeds the supply. Folowing are the latest quotations: Itah Sugar Co......... Why! Of course you have heard of Why! Of course you have heard of the Burlington. Everybody has, nevertheless you will be surprised when you see the train, it's a wonder, and that dinner is immense, the meals cannot be excelled, the neatness of the napery, courteous waiters, cleanliness and service in general are appetizers. The improvements in track have made the Burlington almost noiseless. You can sleep in a sleeper, dine in a diner, smoke in a smoker, read in a library car and recline in a reclining chair car all under one roof. And to make this whole train go the Burlington have the largest engines in the West. They are as high as a house, as fast as a whirlwind, and weigh 114 tons each. You should so over this road to see and ride behind one of those monsters.

Two trains a day from Denver to the
