You get an entire meal, as well as is served in any first-class hotel, for seventy-five cents.

Appreciating the fact that a majority of the people prefer separate apartments for different purposes (and the immense passenger business of this line warranting it), we are pleased to announce that this Company runs *Pullman Palace Sleeping Cars* for sleeping purposes, and *Palace Dining Cars* for eating purposes only. One other great feature of our Palace Cars is a SMOKING SALOON where you can enjoy your "Havana" at all hours of the day.

Railroads.

BOSTON, 12.—The Union Pacific yesterday gave the following figures: Earnings for October $3,109,506.51, against $3,094,549.09 in Oct., 1881; expenses $1,502,564.20, against $1,414,861.64, and surplus earnings $1,606,945.31, against $1,680,187.46. Ten months' earnings were $25,032,271.11, against $24,748,373.27 during the first ten months of 1881; expenses, $12,963,545.62, against $13,419,359.67, and surplus earnings $12,099,825.49, against $11,322,013.60. These figures are for the entire Union Pacific system.

New York, 12.—A story was told and generally credited at the Windsor Hotel last night, that Vanderbilt had secured a sufficient amount of stock to control the Omaha railroad. The lobby of the hotel was crowded with speculators and brokers, who came to hear the gossip regarding the negotiations to terminate the railroad war in the northwest. There have been many predictions and mysterious sayings during the day, and an apparently well authenticated report is the Northwestern Railroad company and Vanderbilt or his party had advanced a loan of something like 50,000 shares of Omaha common stock, which seemed to those who discussed the report, to verify it.

Indianapolis, 12.—The general freight and passenger agents of all the leading western roads met here this morning to regulate and establish new rates to a large number of western points. The following resolution was adopted:

Resolved, That the secretary of this association be instructed to notify the Pacific Coast lines that from and after January 1, 1883, that all lines running east from Kansas City, Leavenworth, Atchison, St. Joseph, Pacific Junction and Council Bluffs, will demand their proper proportion of the rates, based on second-class rates from said points to all points east thereof, as their portion of the through second and third, or emigrant rates from the Pacific Coast to all points east of the above named points.

The sub-committee in their report recommended that there be no more railroads built in the northwest, and the St. Paul Railroad leave the Omaha territory. Both of these recommendations were accepted. This settles the territorial question. The committee then adjourned till to-morrow, when the question of rates and division of business will be considered. No trouble is anticipated in the adjustment of these differences. Thereby, it is thought, the immediate restoration of rates and the question of division will be arranged without delay. In regard to the rumor that Vanderbilt had bought the controlling interest in the Omaha road, it is believed Marvin Hewitt of the Northwestern, will succeed Porter as President.

Urbana, O., 12.—A misplaced switch caused the fast freight to run upon a siding where two freight trains were standing this morning. Three engines and many cars were badly wrecked.

San Antonio, 12.—The new iron and steel bridge of the Mexican Pacific extension has fallen, while over 100 workmen on it. It is said seven were killed and many wounded.

Galveston, 12.—Another report says five of the injured will die. The bridge was on the Sunset extension of the Southern Pacific, near where the ends of the track are to meet.

Wrecked.

Halifax, 12.—The brigantine *Rebecca Reilly*, ran ashore about 12 miles from this port. Thomas Wallace, seaman, undertook to swim ashore with a line and was dashed against the rocks and drowned. Another seaman was successful in reaching the shore with the line. The remainder of the crew were saved. The men suffered terribly during the cold and stormy night. The storm at Canso last night was very severe. Many vessels dragged their anchors; some went ashore.

The Tariff.

WASHINGTON, 12.—The following is a list of the items approved by the committee: Glue 20 per centum ad valorem; beeswax 20 ad valorem; gelatine and all similar preparations 30 ad valorem; soap, hard and soft, all of which not otherwise specially enumerated and provided for in this act, and Castile soap, two cents per pound; fancy, perfumed and all descriptions of toilet soaps, 15 cents a pound; sponges, 20 per cent. ad valorem. The committee disapproved the Commission's change of the tariff rate on flax seed and linseed oil; which was put at 25 cents per gallon, and restored it to the old rate of 39 cents. The following items were passed for consideration: Glycerine, crude and refined; phosphorous, castor beans, soda and potassia, tartrate or Rochelle salts. The committee considered about two-thirds of the items of schedule "A." They resume work to-morrow.

SPECIAL STAKE MEETINGS.

Dec. 12, 2 p.m.

The Saints of this Stake again convened.

The 8th, 11th, 12th, 13th, 14th, 15th and 16th Quorums of Elders were then reported respectively by presiding officers. The reports being similar to those of the Quorums previously represented.

President Wilford Woodruff in listening to the reports given to-day, was reminded of the parable of the ten Virgins. He felt that the time had come for the Priesthood either to magnify their callings or repudiate them, for if there ever was a time when the Priesthood should be faithful, it was the present. They possessed the keys and authority to minister in the ordinances of the Gospel for the living and the dead, and such men had too much to do to lend themselves to evil practices. The Priesthood should be clothed upon with the spirit of revelation to direct them in the performance of their duties. It was important that all should be faithful in attending their meetings and in the performance of all other duties, for this work did not devolve alone upon the leaders of the Church, but each one had a work to perform. Those who had passed through the early scenes of our history as a people were passing away, and it was important that the Priesthood should qualify themselves to carry on the work. He felt especially impressed with the importance of building temples that ordinances for themselves and thousands of those who have passed away without an opportunity of receiving the Gospel might be performed. He feared that we did not realize the importance of our callings. The power of God that would exist in the last days would be manifested through the Priesthood. Joseph was endowed with the spirit of his calling which was also enjoyed by those who succeed him. The Priesthood should be selected from those whose lives were devoted to the building up of the kingdom. He illustrated the mournful condition of those who denied the faith after once partaking of the spirit of life, while there were no happier people on earth than those who were faithful, no matter what their circumstances were, this was exemplified in the indifference that was manifested concerning the efforts that were made to destroy this people. He felt that there would be an awakening among the people and that the work of God would increase until it prevailed in the earth.

President Joseph F. Smith said: There was sufficient authority and power in those assembled to accomplish the work of God in the earth, if all were faithful, both in bearing the Gospel tidings to the nations and in the performance of the duties devolving upon them at home. He feared however that there were many who were indifferent and careless in regard to their duties and who instead of being teachers and leaders, needed to repent of their own sins. There were examples set by men of years that were a disgrace to their callings. Men would be held accountable for the examples they set. We all had weaknesses and hence should be charitable to our brethren and seek rather to aid and strengthen than to crush them, and if we could by such a course induce the erring one to reform we would save our brother. This was the way Presidents should deal with those over whom they presided, especially would this apply to the young and thoughtless who might not otherwise be wickedly inclined. Their judgments should be appealed to in kindness and patience that perchance they may be won from their evil ways, for it was better to suffer much wrong than to cast off one that might be reclaimed, for there were times when even merited harshness would drive a young man away and set his heart against the work. But he could not understand how men of experience who held the Priesthood and visited dens of vice could claim to possess the favor of heaven, such persons should be dealt with and shown that these things cannot be countenanced by the Lord or His Priesthood. There might be some excuse for the young but even with them there was a time when patience would cease to be a virtue.

FROM

COL. L. T. FOSTER,

Youngstown, Ohio, May 10th, 1880.

DR. B. J. KENDALL & CO., Gents:—I had a very valuable Hambletonian colt that I prized very highly, he had a large bone spavin on one joint and a small one on the other which made him very lame; I had him under the charge of two veterinary surgeons which failed to cure him. I saw one day reading the advertisement of Kendall's Spavin Cure in the *Chicago Express*. I determined at once to try it and got our druggists here to send for it, they ordered three bottles; I took them all and thought I would give it a thorough trial, I used it according to directions and the fourth day the colt ceased to be lame and the lumps have disappeared. I used but one bottle and the colt's limbs are as free from lumps and as smooth as any horse in the state. He is entirely cured. The cure was so remarkable that I let two of my neighbors have the remaining two bottles who are now using it. Very respectfully,

L. T. FOSTER.

Kendall's Spavin Cure

Is sure in its effects, mild in its actions as it does not blister, yet it is penetrating and powerful to reach every deep seated pain or to remove any bony growth or other enlargements, such as spavins, splints, curbs, ringbone, callous, or any lameness and all enlargements of the joints or limbs, or for rheumatism in man or for any purpose for which a liniment is used for man or beast. It is now known to be the best liniment for man ever used, acting mildly and yet certainly in its effects.

Send address for illustrated circular which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success to our knowledge, for beast as well as man.

Price $1. per bottle, or six bottles for $5. All Druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors, DR. B. J. KENDALL & CO., Enosburgh Falls, Vt.
