Last Night's Dispatches.

EASTERN.

The American Iron Trade.

PHILADELPHIA, 20.—The annual meeting of the American Iron and Steel Association was held here today, Samuel Reeves President. The Secretary submitted the statistical report, embracing a general revision of the iron trade. It states that the present financial crisis has deranged the whole business, and prices have declined, reaching in some mills, far below the cost of production. At the beginning of November fully one-third of the furnaces and mills were idle, and by the end of the month one-half of the furnaces will be blown out. The rail mills are bare of orders, and the stock of pig iron is accumulating, with no sale at any price. A thousand iron workers are out of work, and those yet employed have accepted a reduction of 15 per cent. Under these circumstances, says the report, it is proper to consider whether it is wise to continue the encouragement of the importation of foreign iron, the duty on which has been twice repealed by Congress in four years. An increase of the duty on pig iron, from $6.30 to $9 per ton, and proportionately on other classes, would be a wise measure of relief by Congress. It is better to have a reduced revenue than cold and hunger in the homes of American workingmen. Resolutions were adopted, attributing the past prospect of the iron trade of this country to the tariff imposed by the government, which has fostered home industry; asking Congress to adopt a financial system adequate to the largely increased and increasing business of the country; declaring that a reduction of ten per cent. of duties by the last Congress was unwise; asking Congress for a reversion of the National Bank system, and means for an adequate supply of currency; declaring that the customs laws should have a uniform construction in all U. S. ports; denouncing free trade in ships, and affirming that the bankrupt law should be so amended as to give three-fourths of the creditors power to control the settlement of the affairs of an insolvent, and to prevent them being thrown into bankruptcy.

Robbery.

BUFFALO, N. Y., 20.—A thief snatched the pocket book of C. Fullinger, an Ohio cattle drover, from the counter of the Marine Bank, containing a check drawn by L. L. Crocker, for six thousand dollars, and valuable papers. All persons are warned against negotiating the check.

Double Suicide.

BOSTON, 20.—While the nurse in the city hospital was suffering from poison, taken with a view of ending her life, Arthur Foster, a young physician, was called to attend her, and prescribed for hysteria. Learning afterwards that the woman had taken poison, and died from its effects, he became so chagrined that he killed himself.

Will Resume Conditionally.

PATERSON, N. J., 20.—The two large locomotive works here have offered to resume work if the late employees will consent to a reduction of wages.

The "Ossipee"

FORTRESS MONROE, 20.—The U. S. steamer *Ossipee*, from New York, passed here this morning, for the Norfolk navy yard.

Blocked by Ice.

WEST TROY, N. Y., 20.—Between Utica and this point there are at least 125 thousand barrels of apples and 75,000 barrels of potatoes, besides nearly 20,000,000 bushels of grain detained by the sudden closing of the canal. The auditor of the canal department has given orders to the superintendent of sections to use every effort to get the boats through.

Decisions Affirmed—Revenue Statistics.

WASHINGTON, 20.—The Secretary of the Interior has affirmed the decision of the Commissioner of the general land office, that no more than one quarter section can be entered by one individual under the act of March 3d, 1873, to encourage the growth of timber. The secretary has also affirmed the decision of Commissioner Drummond, requiring parties to pay a fee of ten dollars for an additional entry under the soldiers' homestead act, of March 2d, 1873, and requiring parties making such additional entry to appear in person at the local office, and make the necessary application and affidavit.

The report of the Commissioner of Internal Revenue shows the aggregated receipts from all sources for the year, ending June last, exclusive of the direct tax upon lands and the duty upon the capital, circulation and deposits of National Banks, was $114,075,456. The amount includes the sum refunded and allowed on drawbacks. The total amount of drawbacks was $52,306 on spirits, tobacco and general merchandise; there were refunded for taxes illegally assessed and collected $618,667. The receipts from several sources relating to distilled spirits were for the year 1872, $49,475,516, for 1873, $57,099,371. The increase in the receipts for the gallon tax on distilled spirits was $10,013,276; from the special tax of rectifiers and dealers in liquor $1,094,264. A part of this increase was, however, offset by the loss of nearly four hundred thousand dollars, during the past year by the reduction in the value of stamps from 15 to 10 cents each; and by a further loss of a little over eight millions by the repeal of certain acts relating to spirits, leaving a balance of more than twenty-five hundred thousand dollars as the increase of receipts from all sources relating to spirits. The production of spirits during the fiscal year, which ended June 30, 1873, from materials other than fruit, 68,236,567 gallons; total products from fruit, 2,914,800. The tax collected on spirits withdrawn from warehouses during the fiscal year of 1872 was $32,459,235; during the fiscal year 1873, $41,102,921. The tax on spirits withdrawn for export during the fiscal year 1873 was $1,851,041; the tax receipts on imitation wines, during the year ending June 30, 1873, $183,551; on fermented liquors, at a dollar per barrel, for the year 1872 and 73, $8,009,989, and $8,910,823 respectively. The total receipts from tobacco for the fiscal year ending June 30, 1873, $34,386,308. Compared with the total receipts for the fiscal year ending June 30, 1872, there was a decrease in the collection on manufactured tobacco of all descriptions of $1,172,917; there was an increase in the total receipts from the manufacture and sale of tobacco, snuff and cigars, all their forms, over receipts from the same sources for the preceding fiscal year of $856,132. One hundred and sixteen millions, four hundred and fifty thousand, nine hundred and thirty-four pounds are given as the actual product of tye year, so far as such products have been reported, showing an increase over the annual production reported for the preceding fiscal year of 9,180,979 pounds. The number of cigars, cheroots, etc, on which taxes were collected, during the fiscal year ending June 30, 1873, was 1,807,134,646, showing ann excess over the number reported for the preceeding year of 277,328,674. There was an increase of 544,064 pounds of exported tobacco during the last fiscal year. The aggregate receipts for the last fiscal year exceeded the commissioner's estimate by $4,075,456. The estimated total receipts for the fiscal year will be a hundred million. The plan adopted of abolishing the offices of assessors and assistant assessors reduced the expenses $1,062,827 lower than estimated under the eighty-districts plan, and one million and sixty thousand dollars lower than the appropriation for 1873 under the old system. The estimates for the fiscal year 1873 show a further reduction of $9,478, or $1,069,458 less than the appropriation for the fiscal year 1873, and $1,072,285 less than the estimate for 1874 on the eighty-district plan. The commissioner recommends that collectors' salaries be fixed at amounts ranging from twenty-five hundred dollars to five thousand, and supervisors' salaries at four thousand dollars per annum, and he repeats his suggestions contained in his report of Nov. 21, 1871, that section 44 of the act of July 20, 1868, be amended, by making the minimum penalty smaller, such penalty being now a fine of not less than a thousand dollars, with not less than six months imprisonment. The commissioner recommends legislation limiting the time to July 1st, 1874, within which documentary stamps, issued under schedule, of a greater denomination than two cents, may be presented for redemption. The report concludes with the suggestion made in the last annual report, that the amendments of June 6th, 1872, to section 59 of the act of July 20, 1868, relating to the special taxes on dealers in liquors, should be made more explicit.

Clearing House Meeting.

NEW YORK, 20.—The Clearing House meeting, to-day, lasted three hours, and the discussion was quite warm. A motion was made to lay the report of the committee of nine on the table, which was voted down, fifty ayes to eight nays. It was moved that the report be postponed for sixty days, which was rejected by a vote of forty to eighteen. Vall, of the Bank of Commerce, then formally withdrew from the meeting, and was followed by the representatives of the Metropolitan, Grocers' and the State of New York Banks. All of the above banks are opposed to the reform measures. Afterwards the representatives of the Fourth National, Mercantile and New York banks left the meeting, in consequence of business at their respective banking houses. Then each bank was called upon for an expression of opinion. A vote was taken on the report as a whole, which stood seventeen nays to forty-three ayes for amendments. The articles of the association were then taken up separately for amendment, but from numbers one to nineteen inclusive were passed over. Article twenty was amended so as to read as follows — "No member of the Clearing House Association shall be allowed to redeem the checks of any association, corporation, firm or individual, excepting upon a regularly incorporated bank located in the cities of New York, Brooklyn, Jersey City and Hoboken, which banks shall be subject to an examination of their condition by a committee of the Clearing House whenever deemed necessary." Section three of Article 22 was amended so as to read as follows—"That it will not receive upon deposit, as cash, from dealers, checks drawn otherwise than upon banks which are members of the association, or upon such regularly incorporated banks, as heretofore provided by article 20." A motion was made to allow three per cent interest on deposits, which was voted down by a large majority. Article 25 was stricken out, as the National Bank law provides for the necessary reserve. The feeling was very strong against the certification of facts and paying interest on deposits. The banks will meet again on Tuesday next, to finally dispose of the report.

Benj Warner, a curbstone broker, was to-day arrested for having $37,500 in United States bonds in his possession, supposed to be a portion of those stolen two years ago from Loyazo, the treasurer of the Cuban Junta. Warner states that he received the bonds from one Andrew J. Parker, who has also been arrested.

WESTERN.

The "Sunrise" Case—Arson—Fire in Eureka—Earthquake.

SAN FRANCISCO, 20.—The testimony in the United States Circuit Court, in the case of Harris, mate of the *Sunrise*, was concluded this evening; the arguments will commence to-morrow. Captain Clark testified for the prisoner, denying, in toto, the greater portion of the testimony of the sailors about the cruelties practiced on board the vessel.

The son of sheriff Morse, of Oakland, is accused of arson, for setting fire to and destroying McClure's Military Academy at that place a few weeks since; Morse arrested his son himself on a warrant. The boy had been a student in the academy.

An entire block in the town of Eureka, Nevada, was burned today; loss $30,000. The Eureka *Sentinel* office was destroyed.

There was a slight shock of earthquake in this city last night.

CANADA.

Obstructed by Ice.

QUEBEC, 20.—A number of tugboats with barges and schooners in tow, for Montreal, had to return on account of the large quantity of ice.
