## AMERICAN.

MILWAUKEE, 10.—Judge P. A. Orton, banker of Darlington, one of the most distinguished members of the Wisconsin bar, has renounced democracy and declared for Garfield. He has a large following in southern Wisconsin.

NEW YORK, 10.—The *World's* Washington correspondent denies the story of Hancock's resignation from the army, adding that the President and all sensible people here understand that were General Hancock to talk of resigning his office he would show an indelicate confidence in his election to the Presidency quite out of keeping with his character.

The weather continues frightfully hot with the thermometer among the nineties. Of course infant mortality is something awful. The telegraph reports New Orleans several degrees cooler.

Charles H. Johnson, a leading flour merchant who has recently returned from the West, said, yesterday, that the indications were that higher prices for flour would prevail for the next 30 days. A large proportion of the winter wheat in the northwest still remained unharvested because of the wet weather, and of that which had been cut only a small amount had been threshed. The kernels were too soft to grind into flour for some time to come.

Secretary Sherman returned from Fire Island yesterday. He spent a portion of the day at the Custom House, and then announced his intention of issuing an order within a few days increasing the compensation of night inspectors at this port and San Francisco from \$2.50 to \$3 per day, under authority of an act recently passed by Congress. The increase is to date from July 1st.

CHICAGO, 10.—The *Tribune's* Washington special says: Schurz announced at the cabinet meeting that he intended to take an active part in the campaign, beginning at Indiana on the eighteenth.

The *Times's* Washington special contains a letter to John H. Ferry, from Hendricks, as follows: I want you to feel that I have no grievances growing out of the Cincinnati convention. The New York delegation assured the delegations from other States that I could not carry New York, and that prevented my support from them. A State which thought I could not carry New York did well not to support me. I shall make every effort for the success of the ticket, as will all my friends in this State. We shall carry Indiana, and make inroads to the republican ranks. The people feel that it is time for a change of administration.

The *Times's* says: The upward sweep in the price of pork has occasioned a lively awakening on change. It has been discovered by capitalists who have sold largely of the product for future deliveries that Messrs. Armour & Co. have hauled of both ends of the string. This enterprising firm it is understood, not only controls the "last pork," but at the Chicago for months to come as well, and is having things pretty much its own way. Of the 200,000 barrels contracted for August, September and October delivery. A profit of from three to four dollars per barrel is supposed to have already accumulated on their meat, and the "deal" has several months yet to run. Whether Armours intend to put on the screws and gobble every thing in sight, or let the speculators down easy, after taking their loose change is a problem for the bears to worry over until the day of settlement is reached. Armour & Co. are also supposed to control the New York market. It is estimated that not less than \$5,000,000 is employed in the "corner."

An army officer stationed at Fort Keogh, now in the city, gives an account of a buffalo hunt which recently took place on and in the Yellowstone. The Indians getting a little short of meat went in pursuit of bison, and finding a herd of 4000 attacked it savagely. The animals became infuriated after awhile and started in a panic for the river, followed by the no less excited red skins. Soon there was an indistinguishable mass of Indians, buffalo and ponies in the stream, and the current being strong, many of each were drowned. It is estimated that thirty savages went down to death, and that ponies and buffaloes almost innumerable met a similar fate.

Mrs. Mary Vankirk, of Milwaukee, arrested on suspicion of having poisoned her step-mother and half brother, has been held to bail in the sum of \$5,000. The chemist who analyzed the stomachs of the woman's alleged victims, testified that he found arsenic in both. Mrs. Vankirk married into a well known family and has hitherto borne an excellent reputation. Her motive is supposed to gain possession of her stepmother's property.

Capt. Stone, of Cincinnati, has received and accepted a proposition from the Chicago Trotting Association, offering a purse of \$1,000 for a match between Maud S. and Trunket, in this city.

PITTSBURG, 10.—This morning at two o'clock, one of the seven boilers in Painter's iron mill, on the south side, exploded with a loud report, killing Fred Grable, the engineer, and Wm. Black, the fireman. Both were buried under the debris and horribly mangled. Grable leaves a family, and Black was only 18 years old. The mill had not started, and there were only three men in the boiler room. The other man escaped. The boiler building used as a boiler house was completely wrecked. The cause is unknown. The fact that 1,000 gallons of water was thrown a long distance, shows that water was plenty. The loss to the building is \$5,000. The coroner is investigating the cause of the explosion.

NEW YORK, 10.—The *Evening Post's* financial article to-day says it is possible to hear in Wall Street that the entire Northwest has been devastated by various kinds of bugs, by floods, rust, etc., and it is a misfortune, so far as getting at the truth about the crops in the Northwest is concerned, that several speculative cliques in grain and stocks, have their emissaries in the West prepared to send dispatches to suit the position of these cliques on the respective markets. And this is not confined simply to those who are bearing stocks and bulling wheat, but is equally of the other side. What is known and conceded by both sides is that winter wheat has been harvested in good condition and large amount, and that as far North as Chicago or thereabouts, spring wheat has been gathered, and that the yield is large and the quality good. For the Territories North there are probably two weeks in which magnificent laing may be done on both sides before the truth is known.

The *Post* says new mines are being sent here from the West for sale at something like 100 per week. An idea has got abroad that a great demand has been created in New York and Boston for mines, and hundreds of men are industriously prospecting the great mountain ranges of Colorado, Utah, Nevada, California, Montana and Idaho in search of material to supply this supposed want.

To-morrow's *World* will say: Business was dull at the New York Mining Stock Exchange to-day, and after the second call the sales amounted to 33,835 shares, against 43,460 yesterday. Prices were for the most part unchanged at the opening sales, and the market has been irregular.

WASHINGTON, 10.—Secretary Schurz says that orders will be issued immediately to employ all necessary military force to prevent any occupation of the Indian Territory by the Payne expedition or any similar unlawful intruders.

Admiral Ammen and Blanchet, a French engineer, interested in the Nicaragua Inter-ocean canal, called upon the President to-day and addressed him upon the subject. The President in reply stated he was aware of the conflict which occurred in Congress and the partiality shown owing to the special interest involved, but he looked upon the Nicaraguan route as the most available one.

Coinage has been resumed at all the mints recently closed to make the annual examination with the exception of the Philadelphia mint, where some repairs are to be made.

Yesterday in a letter to the Secretary of the Treasury, Judge Lawrence, of Ohio, declined the office of First Comptroller of the Treasury, recently tendered him. This letter was forwarded to Secretary Sherman, who is in New York. It is rumored to-day since the forwarding of the letter of declination, that Judge Lawrence has accepted the position. Nothing has been heard to that effect, however.

The President appointed C. W. Slagle, of Iowa, Z. B. Sturgis, of Indiana, and Auren B. Nichols, of

Pennsylvania, commissioners to examine and report upon 100 miles of railroad constructed by the Northern Pacific Railroad west of Bismarck, Dakota.

CHICAGO, 10.—The much laughed at Commissioner of Agriculture, Le Duc, who has just arrived from the South where he has been experimenting and investigating, states that the question of tea culture in this country is settled. It can and will be raised extensively in the future. In the principal southern Gulf States it can be raised for 30 cents a pound, and sold for 50. Two hundred and fifty pounds can be raised per acre after the plants are well matured, say in the third year, and the profits will be immense. He is thoroughly in earnest over the matter, and is confident that tea raising will become one of the American industries, and that by it we shall in time become largely independent of foreign growers.

MEMPHIS, Tenn., 11.—George Sanford and Richard McKee, both colored, were hanged yesterday at Osceola, Ark., for the murder of Armstrong Penn, colored, on November 22d last.

PITTSBURG, 11.—The shooting match this afternoon between Capt. A. H. Bogardus and George Rimell, of England, for \$500 a side, resulted Bogardus 96 birds out of a possible 100, Rimell 90.

HAVANA, 11.—Advices from Port Au Prince, Hayti, state that a conspiracy in favor of Boyer Cazalais for the Presidency has been discovered. Many conspirators are arrested. Some will be exiled, others executed. A rising is apprehended in Northern Hayti.

NEW YORK, 11.—The weather continues hot with no signs of rain.

There were 134 deaths including 60 children under five on Saturday. The heat continues with no sign of abatement.

There were 12 prostrations and seven deaths by heat in this city yesterday.

The *Tribune's* cable says: It appears that dissensions in the British cabinet are becoming graver than was supposed, the Whig element being dissatisfied with Mr. Gladstone's radical tendencies.

By the refusal of the democrats in Congress to make the necessary appropriations a large number of soldiers or their heirs are kept waiting for small sums due at the close of the war.

At the bureau of vital statistics, 135 deaths were reported as having occurred within the 24 hours ending at noon yesterday, including 76 deaths of children, who died from the effects of the heat.

Beecher, yesterday, in his sermon, bidding his congregation farewell before leaving for the White Mountains, denied the story of the New York papers that he had abandoned the orthodox faith, he announced himself a believer in the inspiration of the Bible, accepted the doctrine of the trinity, and said, "From out the subtle ties and purities mediaval and modern theologians, I believe in the sublime simplicity of the Apostle's creed, (which he repeated to his congregation). If I am a heretic, I am a heretic after the pattern of the early church."

Rev. T. De Witt Talmage will pass his vacation in Colorado.

Wm. H. English, democratic nominee for Vice-President, arrived in this city last night, from Indiana, accompanied by his son, who acts as his secretary. Austin H. Brown, representative of Indiana, on the democratic national committee and Oscar B. Hord, and Senator McDonald accompanied the party as far as Washington, D. C., where he stopped to transact some private business, but will come on here to-morrow. Mr. English refused to be interviewed last night, but sent word to the reporters he had no plans laid out, nor did he know how long he would remain in the city.

News has been received from the west coast of Africa that trade has been greatly interfered with by the withdrawal from circulation on the gold coast of all American dollars. The governor has gone to Lagos to try to settle the difficulties.

Letters received at Gibraltar from Morocco report that the Imperial troops pursued the rebels to the mountains, where the latter being reinforced turned on their pursuers and completely routed them. The rebels captured the camp of the Imperial commander-in-chief and were destroying crops near Alcaassar.

St. Louis, 12.—The scheme to settle on government lands in the Indian Territory is gaining strength daily, and quite a boom in its favor is being started here. T. S. Crad-

dock, a lawyer, and one of the company who came here a few days ago to work up the scheme, has received telegrams from places in Illinois, stating that a number of persons will be here Monday ready to go to the Territory. Advices are also received from western Kansas that hundreds of families who have suffered from drought in that country are on their way to Oklahoma. A letter has been received from H. L. Hill, an old scout, who was with Capt. Payne last spring, in which he says the party which left Wichita, Kas., last Sunday, arrived safely at their old headquarters, and found the corn and vegetables planted in the spring, in fine condition. Jack Bottle, a scout, from Texas, was found there, and he stated that a thousand men from Texas would be in the Territory in 10 days. Hill wrote from Arkansas City at which point he telegraphed to numerous parties along the Atchison, Topeka and Santa Fe and Kansas Pacific R. R., to push on at once. It looks as though the invasion of the Territory would be formidable, and that if the military are instructed to eject the intruders there will be a conflict.

Two more bodies (men) were recovered to-day from the wreck of the steamer *Narragansett*, lying in Cold Spring harbor.

Hon. Marshal Jewell, chairman, accompanied by Hon. Stephen W. Dorsey, secretary of the Republican National Committee, left New York last evening for Mentor, Ohio, to consult with Gen. Garfield on the approaching political campaign.

Secretary Sherman was at Ocean Grove, N. J. to-day.

CINCINNATI, 12.—A large meeting was held last night in the Music Hall to ratify the nomination of Hancock and English. W. S. Groesbeck, Geo. H. Pendleton, Durben Ward, Sam F. Carey, Sam Hunt, John A. Follett and others made addresses.

WASHINGTON, 12.—Owing to the small appropriations by Congress for the government printing office for the current fiscal year, the discharge of 25 of the present force now on duty will be necessary on the first of August.

NORTH ADAMS, Mass., 12.—Six feet of water, this morning is reported in the Hoosac Tunnel owing to the overflow of the mountain brooks. A washout occurred near Zoai Station, four miles from the east end of the tunnel, and delayed trains since last evening. The road will probably be clear early to-morrow. The damage is small.

PETERSBURG, Va., 12.—The protracted drought has rendered the water reservoir insufficient to supply more than half the city and last night the water was turned from the canal to meet the deficiency. Supplying the city with water from the canal will probably cause several mills here to cease operations.

CHICAGO, 12.—The *Inter-Ocean's* Washington special says: The Attorney-General, speaking of the accounts received of the state of the republican party in the South, says, that they do not harmonize with the information he has received through the officers of his department. He believes that it is the determination of the democratic leaders there not to permit the republicans to organize nor to conduct an active campaign in any of the States of the South, except Virginia. In the latter State he says local political issues will afford the republicans an opportunity to take part in the campaign, but there is no use disguising the fact that in the other States, the democrats, by their usual schemes of intimidation and violence propose to have a clean field. He does not expect to be able to appoint any marshals of election in those States for notice has been served that anyone accepting such an appointment will do so at their peril. The democrats, therefore, are thus early preparing the way for a solid South in support of their nominee and the law officer of the government admits himself absolutely powerless to enforce the election laws in at least 10 States, in some of which there is an admitted republican majority, on account of the convention of partisan leaders to override the political rights of citizens, who differ with them in opinion. The Government sees no way to assert its authority in the absence of active public sentiment in its support, and therefore in the coming election will be compelled to see the laws trampled under foot with impunity and a mockery of an election enacted, unrebuked and unchastised, unless an outraged public sentiment in the free north should hurl this party of rebellion and disobedience

of law unto oblivion by the supreme power and majesty of the people who are above and superior to the domination of the control of the agencies which manipulate the shape southern politics.

Judge Porter, republican candidate for Governor of Indiana, leaves for the canvass to-morrow evening. He will be met by a delegation and a special train at Pittsburgh and will proceed to Indianapolis, where he speaks on the 14th. He feels confident of success and thinks the republicans have never had so good a prospect of success in Indiana this year. The Germans are generally dissatisfied with the democratic decision throwing the election to October against the will of the people, and the Irish Americans show an inclination to vote the public ticket in unusual numbers.

An appeal for money is made by the *Washington Gazette* the bon organ, which solicits contributions, averaging five dollars from three hundred thousand confederate soldiers and an amount from the democratic soldiers who fought on the other. In this way it is expected about 500,000 can be raised for campaign purposes.

It is stated in a Washington patch that documents are now course of preparation and shortly be published officially to prove the truth of the statement that Hancock entered into a conspiracy with Fitz John Porter and other democratic generals to remove the McClellan from command of the army of the Potomac and to depose President Lincoln and Secretary Stanton.

The weather the past four days has been unusually warm, the thermometer registering daily above 90. To-day it appears will be the warmest of the series, and an occasional cooling breeze alone prevents mercurial sunstrokes.

Reports are received of heavy and damaging storms in Wisconsin, Michigan, although the injury confined chiefly to crops, which represented as having suffered some sections in both States.

BYERS, Col., 11.—This evening at nine o'clock, an unknown tramp about 30 years old, came to the spot, and while engaged in conversation, suddenly drew a large blued knife and gave John Green a blow over the eye, cut John McGlynn's bowels came out, and stabbed Frank McCracken, the telegraph operator, probably fatally in the left side. McCracken ran across the street followed by the tramp who was shot dead by the constable. The tramp cannot be identified, is supposed to be a maniac.

## FOREIGN.

LONDON, 10.—A Dublin special says: A large case of rifles has been seized at Woolown, near Loughrea. The rifles were the property of peasants, but were addressed to the landlords, who knew nothing of them.

Husni Pasha has been appointed Turkish minister of war, replacing Osmani Pasha. Several important changes have been made in the staff.

At a meeting of the trustees of the Duchess of Marlborough relief fund, very encouraging reports of an improved condition in the west of Ireland were given. By registrar general read returns for the last 10 years showing that there was nothing remarkable in the prevalence of fever in Swinford, District which is epidemic.

Lord Rosberry (liberal) is mentioned as Marquis of Lansdowne's successor to the under secretaryship for India.

LONDON, 10.—A dispatch says: Each arrondissement will do all that it can independently of the Municipal Council. Private subscriptions will pay for the fireworks and gas. The greatest festive splendors will be at the east end, where the Place du Chateau Dean will be transformed into a kind of national altar. A pyramid covered with turf will be built over the foundation on a spot, and on the summit will be placed the cast of Morice's colossal statue of the republic. The height from the base of the pyramid to the crown of the statue will be over 100 feet. Around the pyramid, the shields of the city and the national flag. The outer rows of masts will serve to connect the festoons of lights numbering 6,000 gas jets while the light will be projected the figure of Liberty on the summit. All the eastern boulevards and avenues will be bright as day. The monster orchestra in the garden
