ing Editorial Appearing in  
The Latter.

## HIGH TIME TO STOP LIBEL.

False Impressions Created and Circu-  
lated by the Salt Lake Tribune—  
Does Untold Damage to Utah.

Ogden Standard—This paper approves  
every word in the following editorial  
from the Provo Enquirer:

"It is time that a concerted effort be  
made by the State press of Utah to  
counteract the libelous and false im-  
pressions that the Salt Lake Tribune  
is causing to be scattered throughout  
the land. It is cause for laughter to  
those who understand conditions here,  
but the slush served up so luridly  
every morning is not intended for  
home consumption. It is intended to  
bring Utah and her people into disre-  
pute. By 'people' we do not mean  
Mormons, but every citizen in our  
fair state. Every man, woman and  
child living within the borders of Utah  
is injured, injured as citizens of the  
United States, injured as men and wo-  
men, injured morally, injured finan-  
cially.

"Have you discovered a rich pros-  
pect, and want eastern capital to come  
in and help develop it; is it likely to  
while the Tribune keeps up its tirade?  
Are you an inventor without money  
to perfect your machine; will Mr. A.  
of New York, help you when he thinks  
his money is controlled by the greedy  
monster that the Tribune represents  
the Mormon Church to be? Have you  
a right to a waterfall that you wish  
to turn into electricity; will men of  
wealth come in and aid you when it is  
represented by the Tribune that no one  
can do business in the State without  
the consent of Joseph F. Smith? No,  
they will not, and no matter what your  
business is, you are handicapped by the  
lying misrepresentation of the Tribune.  
"We know these charges are false,  
you know they are false and the Tri-  
bune, with double-dyed perfidy knows,  
better than anybody, they are false.  
This being the case, is it not time that  
something was done to counteract,  
in the minds of the business men of the  
nation, the false and detrimental im-  
pressions that are going out to them?"

This is not a Church fight. It is a  
man, a powerful attack, in the name of  
religion, but back of it is nothing but  
the basest kind of trickery and deceit  
and a resort to old prejudices in order  
to cover up the true aims and draw  
to the support of the agitators that  
element of the state lacking full con-  
fidence in those who are high in au-  
thority.

We would be satisfied to remain silent  
and allow the disturbers of Utah's  
peace to howl themselves hoarse with  
low invective were we not convinced  
that the crusade is making for the de-  
struction of the business of this section  
and dependent on business prosperity.  
That which makes for the undoing of  
our industrial welfare tends to an in-  
stability that must eventually reach  
every home in Ogden and in Utah.

If there were a great principle in-  
volved, and espousing that principle  
were men of clean lives, we could offer  
in sacrifice fortune and home, and in-  
tegrity and other misfortunes, and draw  
the hope of successfully combatting  
wrong, but to suffer those ills for no  
other purpose than to help a couple of  
scholars vent a spite and a couple of  
editors of a newspaper, is a shameful  
thing. The nation purists and leaders  
in reform in Utah, is an ignominy we  
must submit to without voicing a  
protest, and in doing so we are not  
yet for or against.

The hypocrisy of the men at the  
head of the agitation is seen in every  
line of their writings. There are col-  
umns of stuff given to the public that  
is meant to prove naughting, but is well  
received on the outside. There is a  
story of a "boy-cott" that is false, but  
it makes good material with which to  
entertain those who are not aware of  
the untruths back of it; there is a  
story of a hardware man run out of  
Ogden by threats, but not a word of  
truth to it, and it, too, makes sensa-  
tional reading for the gullible in some  
other part of the state; there is a story  
of a man in business in Ogden who  
has thrown his lot with the sensational-  
ist, and it pictures him as "Napoleon  
of Finance," or something greater, and  
though he is an estimable gentleman,  
the write-up makes him appear in a  
most ridiculous light to his familiars,  
and it, too, makes a good story for  
the purpose of duping the ignorant  
people into thinking that one of the greatest men  
of modern times had sanctioned the  
vulgar pretenses and sham designs of  
Utah's conspirators.

To all of us there has come some  
evidence such as the above of the de-  
ception that is being practised. Where  
there is such bold trickery and effort-  
ing there can be but little honor and  
to good, and against the whole gang of  
malcontents, distorters and imposters  
there should be a pronounced unity of  
action on the part of the people whose  
welfare is thus jeopardized.

## FOR ROWING EXERCISE.

Machines for This Purpose to be In-  
stalled by the Y. M. C. A.

The placing of rowing machines in  
the Y. M. C. A. gymnasium is occa-  
sioning a hopeful speculation on the  
part of local former oarsmen who be-  
lieve that the installation of hydraulic  
machines in the gymnasium would be  
very much appreciated by Salt Lake  
young men interested in that form of  
exercise. The ingenuity of inventors  
has developed the apparatus that is  
obtaining on the water, even as that  
flattering of the oar. The machine  
pair row, and with four of the shape of  
a row, the full ensemble of an eight  
oared crew is obtained. The cost per  
machine is \$27.50, or \$250, less a pos-  
sible take off from the list price, for  
light oared outfit.

Lovers of this form of exercise  
hope that sufficient interest may be  
taken in it here to ensure a donation  
of two machines at least. The ex-  
ercise of rowing with the sliding seats  
brings into play every muscle in the  
body, and stimulates, builds up the vi-

## TEA

Was ever a wicked man  
or woman especially fond of  
tea, do you think?

The Commercial club meeting last  
night, to consider with Mr. Marsh the  
Goldfield freight hauling scheme, de-  
veloped that Salt Lake merchants for  
the most part are a little timid, ap-  
prehensive that there may be some  
word of an Africaner in the cord of  
wool that they cannot exactly under-  
stand. However, Mr. Marsh's explana-  
tions were frank and easily understood,  
and it was brought out that Salt Lake  
is 320 miles from Calliente, and Los  
Angeles is 453 miles distant, leaving a  
margin of distance of 133 miles in favor  
of Salt Lake. Mr. Marsh submitted a  
plan for organizing a forwarding com-  
pany with \$20,000 capital, he to take  
half the stock and the Utah jobbers the  
other. He said that the expense of a  
round trip consuming 15 days, would be  
\$141 for a six-horse team, and the earn-  
ings of the trip for the outgoing, \$270,  
leaving a net profit of \$129 per trip, with  
the chance of return freight such as  
ores, etc., not calculated.

Mr. Marsh explained again, that the  
pains he had been in laying out the  
freighting route, procuring stations  
and getting the proposition into work-

ing shape, and expressed surprise that  
comparatively so little enthusiasm had  
been aroused in this city in the mat-  
ter of getting the trade of southern  
Nevada for Utah jobbers. He showed  
a guarantee from the traffic department  
of the Salt Lake Route to deliver freight  
at Calliente within 36 hours of its pass-  
ing any Utah common point, and that  
he could deliver it to Goldfield in eight  
days thereafter, but had inserted the  
15-day clause to cover possible emer-  
gencies.

The meeting ended in the appointment  
of another committee to consider in  
detail the route with Mr. Marsh today,  
and report to another meeting at the  
Commercial club this evening. The com-  
mittee consists of G. R. Cleveland, E.  
S. McCarthy and C. W. Hartley. Mr.  
Strevell of the Strevell-Paterson com-  
pany is enthusiastic in this matter, and  
said that his firm had already profited  
largely by going into the southern Ne-  
vada territory.

# WAR VETERANS GUARD AGAINST CATARRHAL ILLS BY TAKING PE-RU-NA.

## Recommends Per-na to Catarrh Sufferers.

Mr. Ed. T. Wolfe, Mena, Ark., Dept. Commander G. A. R., Arkansas, writes from the Pension Office, Washington, D. C., as follows:

"Having used Per-na for some time, I have much confidence in it as a specific for catarrh of the head, also as a tonic when run down by hard work. I can cheerfully recommend it to all suffering with that disease."

## Finds Per-na a Good Tonic.

Col. B. F. Bingham, Senior Vice-Commander, Dept. of Potomac, G. A. R., in a letter from 110 Maryland avenue, N. E., Washington, D. C., writes:

"I have used your Per-na medicine during the past year. I am now using the second bottle. From experience I find it to be an excellent remedy, and its use has been beneficial to me. I can safely recommend it as a good tonic medicine for coughs and colds."

## A Word in Favor of Per-na.

D. W. Glassie, Atty., former Commander Department of the Tennessee G. A. R., in a letter from Stewart Bldg., 402 6th street, N. W., Washington, D. C., writes:

"I have used Per-na off and on during the past year, and find it an excellent tonic, as well as a relief for catarrh and hay fever. I have discovered no harmful effects or results, and can honestly say a good word in its favor."

## Stomach and Kidneys Affected.

Capt. K. Esweld, company B, 21st Michigan V. L., No. 39, Hermitage street, Grand Rapids, Mich., writes:

"I felt with advancing years that my vigor failed me, and fear of poisoning my system with noxious medicines prevented my taking anything for it, until, noting the effect Per-na had on several of my comrades, I made up my mind it would be good for me."

"I suffered for years from effects of la grippe, which seemed to settle in my stomach and kidneys."

"Five bottles of Per-na made a new man of me."

"I wish that I had known of Per-na years ago, and then it would have saved me much suffering."

## An Aggravated Case of Nasal Catarrh.

Mr. Theodore F. Lang, 2305 Barclay street, Baltimore, Md., is Commander of the G. A. R. of Maryland. He writes:

"It is a special pleasure to me to recommend Per-na to all who may be afflicted with that most annoying and dangerous disease, catarrh."

"Mine was an aggravated case of nasal catarrh of several years standing, growing more intense each year, notwithstanding treatment by skilled physicians, and the use of the entire catalogue of advertised 'sure cures'."

"I have taken six bottles of Per-na and I confidently believe my cure is permanent."

"Let the afflicted proclaim with me, 'Eureka!'"

It is no wonder then that the war veterans have fixed upon Per-na as a remedy.

It is more universally applicable to such cases than any other remedy known. Per-na is a remedy for climatic diseases.

It is an internal, systematic catarrh remedy, and therefore is valuable for all climatic diseases.

For free medical advice, write to Dr. S. B. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

## IS THIS SENATOR WALTON?

Humorous and High Colored Story of A Utah Mormon from Maine.

As State Senator Wesley K. Walton has a family somewhat of the description named in the following humorous and highly colored article from the Worcester Telegram, some of his Salt Lake friends are wondering whether he is the man mentioned. This is what the paper says of him or some other famous Utah citizen:

"Diversity of life possible even to Mormons is illustrated by the history of a man who went from Maine 33 years ago to die of lung trouble. Last year he was 64 years old, he was the captain and pitcher of a baseball team which won the championship of the Utah county in which he lives, and the other eight players on the team are his sons. They are preparing to repeat the same feat at the game this year, and there are three more sons old enough to fill in on the team when the regulars are disabled. The victories of the ball team were celebrated by a ball, and the music was furnished by the band led by the former Maine man, and the other musicians are all his sons. The family belongs to the Mormon Church. The veteran pitcher says the bracing mountain air cured him, but he has been for years in the political battles of the Mormons, with the same old Republicanism that he learned in Maine, and though having only one wife, he remains in the Church, which does not interfere with his business of raising stock and maintaining his family of 13 children."

## GOLDFIELD BUSINESS.

Salt Lake Merchants a Little Slow in Taking Hold of It.

The Commercial club meeting last night, to consider with Mr. Marsh the Goldfield freight hauling scheme, developed that Salt Lake merchants for the most part are a little timid, apprehensive that there may be some word of an Africaner in the cord of wool that they cannot exactly understand. However, Mr. Marsh's explanations were frank and easily understood, and it was brought out that Salt Lake is 320 miles from Calliente, and Los Angeles is 453 miles distant, leaving a margin of distance of 133 miles in favor of Salt Lake. Mr. Marsh submitted a plan for organizing a forwarding company with \$20,000 capital, he to take half the stock and the Utah jobbers the other. ## M'CLELLAN AND DOUGALL.

Two Salt Lake Artists Please Deaver By Their Excellent Work.

Prof. John J. McClellan and Hugh W. Dougall returned from Denver and Colorado Springs last midnight. Their concerts in both cities were largely attended and filled with warm welcome for the Salt Lake artists. Concerning the Denver engagement on Tuesday night the Republican says: "John McClellan, organist at the 'Mormon' Tabernacle in Salt Lake City, gave a recital at the Central Presbyterian church last evening which proved a rare treat to the large audience that had gathered to hear him. Sweet by the hands of a master the keys of the fine organ were responsive, and there rolled from the throbbing pipes a flood of melodious sound such as has seldom filled the great auditorium of this popular edifice. Through it all the people sat attentive and expectant, well rewarded for their attendance."

Mr. McClellan is a young man in years, but he is one of the great organists of this country. The instrument in the Tabernacle is one of the largest and most effective in the land. The instrument in Central church is also quite worthy of the attention of the great musician who played it last evening. Whether it was the delicate flute-like piping of an andante or the swell-

## BOUNTY PAYMENTS.

Attorney General Holds That Old Law Is Still Operative.

Attorney-General Breeden has rendered an opinion at the request of State Auditor Edwards in which he holds that the Legislature cannot by resolution suspend the operation of a statute. Hence the resolution adopted by the recent Legislature, instructing the county clerk not to issue any more bounty certificates under the old law and until the new law goes into effect on May 9, is of no effect at all. The opinion follows in full: Hon. J. A. Edwards, State Auditor, City—Sir: Replying to your communication of recent date, in which you ask my opinion respecting your duty relative to the "house concurrent resolution No. 1, instructing the state auditor county clerk in the state to at once discontinue the issuance of any further certificates as provided by chapter 137, laws of Utah, 1903, and chap. 48, laws of Utah, 1905." The Legislature, which passed this concurrent resolution having completed its duties has adjourned and is now a thing of the past. The two chapters of the laws of this state referred to in the said resolution relate to state bounties for the destruction of certain wild animals. When the said concurrent resolution was passed and referred to in the two chapters referred to in the said laws of this state and were still in force. The passage of this resolution by the Legislature could not operate as a repeal of chapters 137 and 48, and the Legislature

possessing no constitutional authority to suspend statutes, the resolution could have no binding effect upon your actions in the premises.

However, the Legislature acted wisely in passing said resolution under the circumstances of the existence of a conspiracy by designing men to defraud the state through the imperfections of chapters 137 and 48, and your action in complying with the request of the Legislature was entirely proper and highly commendable.

The promptness of the Legislature and yourself, no doubt, had a wholesome effect in putting a stop to what is known as "bounty frauds." As above stated the Legislature has no authority to suspend a statute, and as the law amending or repealing chapters 137 and 48 does not go into operation until May 9, 1905, the two chapters still remain the law of the state, and are now in full force and effect.

With these observations you are advised that it is your duty to advise the various county clerks in the state to continue to operate under the provisions of chapter 137 of the session laws of Utah of 1903, until May 9, 1905, when the new law goes into operation, and to issue bounty certificates to those legally entitled thereto. I am truly, M. A. BREEDEN.

Attorney-General.

## ARBOR DAY PROGRAM.

Superintendent Nelson Offers Suggestion to School Principals.

A program appropriate to Arbor day has been outlined by State Supt. of Schools Nelson as a suggestion to the principals of the schools throughout the state. The program follows:

Song—By the School Reading the Governor's Proclamation Song—By the School

How We Propose to Spend Arbor Day—By the School

Teacher Trees: (a) As Related to Beauty; (b) As Related to Wealth.

Spring Song.

Recitation, "Lost: Three Little Robins."

Report on what has been done in past year to observe Arbor day and to improve the school grounds.

Lesson on Utah Trees—By Teacher and Class

Patriotic Song—By the School

Quotations appropriate to the day—By Children

The Birds of Our Hills and Valleys—By a Member of the School Board

Short Address.

The Planting of Trees, etc.

A fearful fate.

It is a fearful fate to have to endure the terrible torture of Piles. "I can truthfully say," writes Harry Colson, of Masonville, Ia., "that for Blind, Bleeding, Itching and Protruding Piles, Buckle's Arnica Salve, is the best cure made." Also best for cuts, burns and injuries. 25c at Z. C. M. I. Drug Dept.
