

Irrigation Statistics—H. T. Haines, deputy state statistician, is endeavor-ing to obtain the names of irrigation and reservoir companies throughout the state, for the purpose of sending cards to the concerns to secure all the information he can. He desires to know the length of canals, the capacity of the reservoirs, and the number of acres of land under irriga-tion.

Bids Opened-Thirty hids were open-

Mr. Stephen H. Love was recalled to submit some figures in regard to al-leged discriminations in freight rates practised against the shippers of Salt Lake City. Mr. Love suid that he had made comparisons on six roads out of Denver and out of Salt Lake for a dis-tance of 200 miles, and that the differ-ence against' Balt Lake amounted in some instances to 50 per cent. During the testimony of Mr. Love in regard to the passage of the railroad laws by the legislature, the witness

regard to the passage of the railroad laws by the legislature, the witness stated that the understanding existed that the law was simply a codification of the laws already on the statute books. "And the last bill passed, in 1907," said Mr. Love, "permitting the roads to hold the stocks and bonds of other railroads, was also stated by (Mr. Williams, the local attorney for 1910," is well to be too late.

they will not last long. Better make up your mind to buy now! If you put it off it will be too late.

list with Cannon & Cannon. 18 E. S. T.

Bins Opened — Thirly hids were open-ed yesterday afternoon by L. P. Judd, clerk of the board of education, for junitors, and school supplies. It is estimated that the junitors' supplies will reach about \$2,000 while the school supplies will amount to \$10,-600. The bids are being tabulated and will be presented to the board for consideration at its next meet-ine. ing

Bankers to Meet—Frank Knox left today for Briar Cliff Lodge, N. Y., to attend a meeting of the executive committee of the American Bankers' association of which he is a member. The meeting will be held on the 4th and 5th of May. The annual meeting of the association will be held in the fall and will be in session three days. It is to arrange for this session that the committee meets next month.

the committee meets next month. Getting Ready For Scason—The management of Saltair beach resort has just contracted with P. L. Chris-tensen to furnish music for the dances during the coming season with an en-larged orchestra; and next Saturday might. May Day night, Mr. Christen-sen will open the bail with an or-chestra of 15 performers. The con-cert and hippodrome music will be furnished by Held, as during last scason. Rupert Fritz, the manager of the new ship Cafe, is here, and went out to Saltair this morning, to get his bearings. Work is being actively pushed on the new cafe. Good Roads for Parleys—An Im-

pushed on the new cafe.
Good Roads for Parleys—An improvement which was broached in the "New" several years ago, is now being made in Parleys canyon. Road Supervisor Roach is hauling shale from the excavations and dropping it into the wagon wheel ruls along the roadway. This shale is packed down hard by passing teams, and the moisture there sets the shale, so that it acts as a natural cement. The result is that in a few weeks, the wagon tracks will be practically tramways, with wheels running over them as smoothly as over a rail. Tramsters are wondering why this was not done before.
The committee soliciting subscriptions to the capital stock of the Utah Hotel Company. Invite any one destributes the wagon wheel ruls along the roadway. This shale is packed down hard by passing teams, and the moisture there sets the shale, so that it acts as a natural cement. The result is that in a few weeks, the wagon tracks will be practically tramways, with wheels running over them as smoothly as over a rail. Tramsters are wondering why this was not done before. before

Italirond Clerks' Day—The annual exounded to Saltadr of the self-of vierks is set for the evening of Fri-day. May 7, when there will be danc-ing to music from an augmented er-chestra, and special efforts made to make the evening more attractive by an elaboration in the shape of fes-tors of incandescent lights in the partition. The committee of three in clurge of the arrangements will pro-vide plenty of railway conches, headers bequets for the lady stenographers and clerks, and giving special care for their constart and conventione. The first train leaves the city at 8 p. m. One of the committee thinks the badies should be treated to be cream sodas on the trains. It is meetless to add that the indices are entiroly agreeable to this. Railroad Clerks' Day-The annual
