Alaska

Washirgton, Oct. 17.- Gen, Frederick Funston, ir his report on the department of the Columbia, gives a general review of the conditions existing in the department which includes the Pacific northwest and Alacka. As the result of a personal tour of Alacka during the summer Gen. Fun-ston suggests that a different station be found for the troops at Valdez because a mounch 2,000 feet high lies just south of the post which shuts off the sun for a large perion of the day. At Fört Eg-bert, which is near the Arctle circle, he found that the officers had a cultivated garden in which they raised their own vegetables. He says that the question of maintaining all the military posts in Alaska is one "requiring more knowledge of the policy and intentions of the govern-ment than is vouchsafed a department commander before it can be inteiligently dealt with." At four of the posts on the military telegraph line all the available force is needed to maintain the line. He recommends that Fort Davis, near Daw son, be abandoned as militia is not needed there. The people of the community, numbering about 19,00, are not urbulent, and most of them in case of necessity could be called upon to support the civil terms of the signal corps which has con-structed the military telegraph line in Alaska. Gen Funston recommends that a large

by law, except in a case of emergency when such notice may be waived. It was contended by Mr. Allison that this is certainly an emergency case, because Mr. Robertsen's life is in danger every moment, for the prisoners who were implicated in the break have threatened his life and will do him bodily harm at the first opportunity. While he doubted that the board could grant a pardon forthwith, he contended that it could grant a parole and then take final action on the application for pardon at its next meeting.

PROTECTION PROMISED.

Acting Warden Wright was present and was interrogated by the members of the board as to the situation and as to his ability to give Robertson proper protection. Mr. Wright stated that there is some danger of harm to Rob-rition but that he could protect him by keeping him in close confinement. H that the note of warning was left in Robertson's cell was written by one of the latter's riends on the outside and not by one of the convicts. He refused to give the name of the party who wrote it. In inswer to a question put by Gov. Wells stated that Robertson could be made trusty outside the prison walls, which would be a safe place for him and that would guarantee Robertson' fore the next meeting of the board when the pardon will be acted upon.

FULL PARDON NEXT MONTH.

In view of that statement the board refused to take any action upon the at this meeting, but it is very vident that Robertson will be made trusty outside the walls and will be tranted a full pardon at the meeting of the board on Nov. 21.

Loofbourow appeared be the board in behalf of Maxwell, who also rendered valuable assistance to the prison authorities, Maxwell's application for commutation of sentence was submitted to the board last month its consideration in executive ses was continued until today. Judge fourow asked that in view of Maxwell's conduct, that the board act fa-forably upon the cummutation and make it such that it will practically issount to a pardon.
