#### CALLS HIM ADEPT AT BOLTING

Supporters of Hearst and Hughes Profess Confidence in Outcome of Tuesday's Election.

New York, Oct. 31.-The Bryan Demperatic league of New York tonight ent out an official statement which pays that while it is making every effort to elect the state and local tickets, It is doing all it can do to defeat Mr.

"Mr. Bryan's friends, who are deserting Hearst by the thousands," says the statement, "do not feel that they are losing their party regularity, as they consider Mr. Hearst himself to be the thief adept in the art of bolting."

No voting machines will be used at Tuesday's elections in New York. It had been intended to experiment with a number, but the legal tangle over nominations and the delay in determinnominations and the delay in determining just what names should appear as candidates, made the experiment impracticable. Court contests also delayed the printing of the ballots, and only after the court of appeals decision yesterday could the printers proceed with the work of preparing the 3,000,000; ballots necessary on Tuesday.

With election day less than a week the way, the two candidates for governor of New York are making their last appeals to the ubstate voters, and tomor-

But neither rain nor snow has dampened the enthusiasm of the crowds that have gathered everywhere

to greet them. Today Mr. Hearst began his day's tour from Oswego, where he spoke last night, and his train tonight reached Syracuse. Tomorrow he will close his day at Schnectady, and thence will re-turn to New York City for the final

Mr. Hearst started from Rochester this morning for Niagara Fall. Snow and rain fell all along the line, and his failing voice obliged him to discontinue cutdoor speaking. Tonight he appeared at five meetings at Buffalo, and tomorrow night he will be in New York City. There were several incidents today tanding to accentuate the already intense interest in the outcome of the campaign. In this city the feature of the day was the action of Mr. Hearst in appealing direct to Judge Otto A. Rosalsky of the court of general session to take vigorous measures against the board of elections for their alleged criminal negligence in failing to prethe board of elections for their alleged criminal negligence in failing to prevent the loss of destruction of Independence league nominating petitions. Dist. Atty. Jerome, when Mr. Hearst's request was taid before him, decided that the matter should first be submitted to a magistrate for inquiry.

Mr. Hearst has offered rewards aggregating \$50,000 for the arrest and conviction of persons guilty of election frauds on Nov. 6.

To Mr. Croker's cable Mr. McCarren replied: "Thanks for cablegram. May I use it?" The answer was: "You may publish message."

Supporters of both Mr. Hughes and Mr. Hearst profess confidence in the outcome of next Tuesday's election. William Barnes, Jr., former chairman of the executive committee of the Republican state committee, who, it was said at Republican headquarters, had made a careful study of reports sent by town and county organizations throughout the state estimates that Mr. Hughes will have an upstate plurality

The Independence league gave out a statement tonight concerning Mr. Hearst's campaign upstate, in which it predicts his election.

There is practically no Democratic defection.

Sherman Parker, an Assayer, Shot by James Smith.

Goldfield, Nev., Oct. 31,-Sherman Parker, an assayer, was shot and badly wounded at his place of business on Co-lumbia street at 1:30 o'clock this afternoon by James Smith, an employe. The trouble between the men arose over a sack of high grade ore which had been taken from the office. Parker accused Smith of stealing the ore, which was valued at \$800. Smith denied it and valued at \$800. Smith denied it and the lie was passed, and both men drew guns and began shooting. Smith retreated to the back room of the office and secured a shotgun loaded with buckshot. Parker started to run out the back door and Smith let him have it. The clothes of the injured man were riddled with ballets and he received two serious wounds from which he bied profusely, but was able to walk to his home. Smith secured himself in the back room of the office, but made no resistance when found by the officers and placed under arrest.

#### THE LORDS CHANGE THE EDUCATION BILL

London, Oct. 31,-The house of lords continues to make far-reaching changes in the education bill, and in Liberal cir-cles the opinion is expressed that if the cles the opinion is expressed that if the opposition continues in its present spirit the bill will hardly be recognized when it returns to the house of commons. Clause two of the bill was completed to-night, after radical alterations, mostly by large opposition majorities. There is a distinct atmosphere of tension in the upper house.

It apparently has been determined that the ministry will not tamely submit to the lords. This metemorphosis was indicated by the president of the board of trade, Lloyd George, who, speaking at Spaiding tonight, declared that the work of "reediting" the bill would terminate in a way probably far from agreable to the house of commons. A majority of the peers were endeavoring to establish the principle of compulsory religion, to which the country would not submit.

They would no longer be content, the president of the board of trade said in conclusion, with lessons in class humility.

## S. F. GRAND JURORS.

Inquiry Into Men's Eligibility to Serve Continues.

San Francisco, Oct. 21.—The inquiry into the eligibility of the men called to serve as grand jurors was continued to-day before Superior Judge Graham. Although the crowd in attendance was much less than on previous days, a detail of 40 policemen was present to preserve order. Asst. Dist.-Atty. Heney renewed his objection to George L. Dealey, a saloon-keeper, on the ground that his name was not on the assessment rolls.

S. M. Shortridge, on tehalf of Abraham Ruef, attempted to show that Dealey had paid taxes on personal property, but Heney contended that this did not appear in the records of the tax collector's office, and that these records constituted the best evidence regarding the matter.

Dealey protested against the order of discharge, He said that he had never supported any political party. He de-nied being a slaconkeeper, saying that though he held the lease of a saloon, his business was that of a real estate dealer.

There is strong sentiment—here against claim jumpers and should Latimer be caught it is believed that he will be roughly dealt with. It is believed that Dayls will recover. The new towns at Cottonwood and Dutchman are growing by leaps and bounds. In addition to the various kinds of stores, there are three saloons and gambling places that are running at full blast.

The desert country about Hawthorne is experiencing brisk showers, quite an unusual thing for this time of year.

## BAIT MODUS VIVIENDI.

Newfoundland Government Has Decided to Test Its Validity.

cided to Test Its Validity.

St. Josas. N. F., Oct. 31.—The colonial government has decided to test the validity of the medus vivendi. It issued an official notice today enforcing the bait act, which forbids Newfoundlanders to fish on board foreign vessels within colonial waters, and it intends to prosecute one or more colonial shermen who have been shipped by Americans suiside the three-mile limit after these men have been paid off by the American vessels on which they are serving. After this the supreme court or the privy council will

determine whether or not the modus vivendi overrides colonial enactments. The government further calculates that this threat of prosecution will deter the colonists from going beyond the marine boundary to join American vessels, and the latter will therefore be unable to secure crews to catch herring. As the would nullify the spirit of the modus vivendi, which agrees that noboly be penalized for joining American vessels, it is expected to result in trouble between the cabinets at London and Washington, as the latter probably will demand that Great Britain make 1900d the pledge embodied in the modus vivendi.
