PRICE OF GOLD.

Corrected daily by DESERET NATIONAL BANK.

SALT LAKE CITY, April 25, 1873.
Buying at 11⅛ Selling at 11 12½

LOCAL AND OTHER MATTERS.

THERMOMETER 39 degrees F. in the shade, at 1 p. m. to-day. Fine day. Snow disappearing.

AN IMPROVEMENT.—The water sect, on First South Street, from the western termination of Kimball & Lawrence's premises along the block to the market square has been neatly boxed, with good timber, by the storekeepers in that locality, which is quite an improvement.

WEBER COUNTY.—S. S. writes from North Ogden, April 28, 1873, as follows—

"I have again forwarded some new subscriptions to the DESERET News Weekly, which comes to hand regularly, giving universal satisfaction in this vicinity, and is deservedly appreciated by its readers.

"North Ogden is to-day the recipient of a general rain, which gladdens the heart of the farmer and gardener and the public generally.

"The health of the people generally is good, a number of the children have had the measles of late, but now the disease is disappearing, although taken several children, which seemingly we can ill afford to lose, as we have not enough.

"Business is rather dull, which I discover is the case elsewhere at present, notwithstanding the anxiety of the people to be doing something in improvement and making home and country pleasant. The scarcity of money impedes progress in that direction. However hope is large and faith strong, doubt and fear nowhere among us, knowing that right will ultimately triumph."

A SPLENDID BILL.—Mr. Graham has provided a very attractive bill for his benefit on Saturday night. The opening piece will be Tom Taylor's fine three act comedy, "Victims," in which the beneficiare, and Messrs. Cogswell, Thorne and Marden, and Miss A. Adams and Mrs. Alice Clawson will figure conspicuously. Between the pieces Mr. George Teasdale will sing a new and popular song. The concluding part of the entertainment will be the amusing farce of "Brother Bill and Me," in which Mr. Margetts will appear as "Bill" and Mr. Graham as "Ben."

FROST.—There was a touch of frost last night, but it was not sufficiently severe to do permanent injury to the fruit crop, with the exception, probably, of the apricots, the buds of which are proverbially tender and sensitive.

Now that the herctofore thirsty ground is getting a thorough soaking, vegetation generally will be refreshed and will grow vigorously.

FAUREAH.—R. A. Smith writes from Faureah, Kane County, April 12th.

"This settlement is thirty miles north of the ferry which has lately been started on the Colorado. It has been supposed by a great many that we were in Arizona, but Professor Thomassen, who has lately been here, has taken observations and decided that our place is twelve miles north of the southern line of Utah, which leaves us in Kane county.

"The people here are doing very well for the opportunity they have had. We came here last spring, being called by Brother Erastus Snow. We have cleared land, made our water ditches and raised corn enough to last till next harvest, besides feeding the Navajoes, as they pass along. We have also hauled timber and built four hundred rods of fence. A. F. Smithson is Presiding Elder here, and the people are well pleased with him. There are about ten men and eight families here. We have had the home missionaries here once and would like to have them come again."

THE BRITISH MISSION.—A conference was held at Liverpool, March 3d, reported in the *Millennial Star*. Utah Elders present:—James G. Bleak, and George F. Gibbs, from the Liverpool office. Conference presidents: John Neff, Liverpool; S.S. Jones, Sheffield; M. H. Hardy, Leeds; R. A. Box, Manchester.

Traveling Elders—Erastus W. Snow, Birmingham; Junius F. Wells, London.

The assembly was addressed by Elders John Neff, M. H. Hardy, S. S. Jones, R. A. Box, Junius F. Wells, Erastus W. Snow, George F. Gibbs, and James G. Bleak.

The conference consisted of 14 branches, comprising 59 Elders, 10 priests, 9 teachers, 11 deacons, and 230 members, total 328.

THERE ARE dispatches at the Western Union Telegraph Office for Wm. Cary, Wm. Johnson and Mr. Nickalls.

EMIGRATION.—The *Millennial Star* of April 8th says that it is not expected that the first company of emigrating Saints this season will leave Liverpool before the middle of June. Fares probably similar to those of last year.

UTAH COUNTY.—Elder Edward Stevenson handed in the following this morning:

"I was very much interested last Sabbath morning in visiting the American Fork Sabbath School, conducted very ably by Superintendent Pyxman. Three hundred and fifty healthy, well clad juveniles attended it, and there is a corps of competent teachers. A theological class meets in the basement. Excellent order and attention were exhibited, and the spirit of the Lord prevailed. Good results will amply reward the teachers. Two new school houses have quite recently been finished, there being 700 scholars in this small town of 1800 inhabitants.

Immediately after Sabbath School the hall was closely packed, showing the necessity of a larger meeting house, which is in contemplation. We had an excellent meeting, and at half past 2 p. m. Elder Parley P. Pratt occupied a portion of the time.

"In the evening I attended a special meeting at Lehi, at which Elder Milo Andrus was present and occupied part of the time. The people are enjoying a good lively spirit, and are looking well to their agricultural affairs. But the cold April weather, without its showers, is a great anxiety to the husbandman, as much of the small grain will not spring up, but the heavy south wind that blew a gale yesterday (Monday) brought a shower with some snow, and this morning satisfaction is given by the ground being covered with snow. Part of the apricots are killed by frost."

FATAL ACCIDENT AT ALTA.—The following dispatch was received by Deseret Telegraph, this morning:

ALTA, 30.

A serious accident occurred at the Prince of Wales mine, Big Cottonwood, last evening, at eight o'clock, resulting in the death of John Jeffrey, and very serious injury to James Glasson. The day shift fired a blast about five p.m. yesterday. Only half of the charge of giant powder exploding, they fired again, and supposed that the remainder of the charge blew away in a seam. The shift then changed, and the night man concluded to drill the hole deeper, and the first stroke resulted in an explosion, which threw a piece of rock against Jeffrey, fracturing the pubis. Another large portion of rock struck him on the knee, and below it, fracturing the thigh and bones of the leg. The right hand was badly crushed. He died about an hour after receiving the injury. Glasson is badly bruised and cut about the face and neck; he loses one finger and has an ugly cut on the left arm. There is not the slightest blame attached to any one.

SMALLPOX.—It is supposed that smallpox is in the family of Mr. C. H. Bassett, Fourteenth Ward, the person said to be attacked being a son of that gentleman, aged about twenty. The quarantine physician visited the patient this morning, and says he will be able to decide definitely by to-morrow whether the affliction is smallpox or not.

SALE A COLT.—Thomas Todd, stole a coat this morning, from a deaf and dumb Scandinavian, for which he was fined $25, which he will work out on the public works at a dollar a day.

MINERAL.—We were called upon the other day by Messrs. Davis and J. R. Nichols. The first named gentleman is from Pittsburg, Penn., and was formerly engaged extensively in the manufacturp of glass. A little over two years and a half ago he commenced operations in the iron business, and set to work to demonstrate a theory enunciated by a Mr. Blair, who contended that iron could be separated from the other ingredients of the ore without the aid of a blast furnace, &c., and without the loss of any of the metal, during the reduction. Mr. Davis informs us that he has demonstrated the correctness of the theory by producing a kind of iron sponge, which is a perfectly neutral iron, is tougher and more ductile than Russia iron, and is worth about $15 a ton more, for all general purposes, than that made by the old process, and it costs about $25 a ton less to produce it. The advantages claimed for this method of manufacturing are numerous, and if they extend as far as claimed, it is likely that the system will, in course of time, become universal.

Mr. Davis states that in producing the results indicated above he has not himself as the track of a process by which he mak with similar advantages, iron ores in which are precious metals—gold, silver, &c. In the system of separating the pure iron from foreign ingredients besides abstract per centage of the metal is lost, and he claims that he can do the same with all ther ores.

We notice [illegible] purposes entering upon the business here, treating ores in which are traces of precious metals, and if his expectations are realized he will, in due time, commence the manufacture of iron in this Territory.

It is very desirable that this latter branch should be extensively entered into, and, we should judge, it presents a splendid field for investment by capitalists. The iron ore, which abounds in various parts of Utah, is of a very rich quality, and in or near several places where huge deposits of it exist coal has also been found. This important branch of industry, if commenced and prosecuted on a large scale, would prove incalculably beneficial to the citizens of the Territory. The time will probably come when the making of iron will be chief among the manufacturing industries of Utah.

Previous to leaving Pittsburg, Mr. Davis sold out to his partner in the iron business, with the understanding that he had the privilege of using all the information which the firm had about metallurgy that was applicable to the treatment of precious metal ores.

Mr. Nichols is establishing a fine reputation for superior treatment of Utah ores. His works and office are on the site of Jennings's old Tannery, Fifteenth Ward.

A most astonishing mountain monster is frightening Shelton District, North Carolina, out of its senses. One horror-stricken individual who has seen the beast describes it as being as to size an ox, as to its horns an elk, as to the mane and head a lion, as to tail a horse, as to eyes a panther, while its voice is a mixture of low, roar, neigh and growls. This agreeable quadruped, it is suspected, is also burglarious, and the inhabitants are fortifying their houses against a night attack by the miscellaneous compilation.

DIED.

At Fountain Green, on the 14th of April, at five minutes past 10 o'clock a. m., of consumption, JAMES WARREN BOENELL.

He was confined to his bed four weeks, gradually wasted away and died without a struggle. He was born January 6, 1808, and baptized December 25, 1847; emigrated from England, January, 1849, and came to Council Bluffs, where he stayed one year. He came on to Salt Lake City and stayed there one year, after which he was sent, by President Young, to Iron County. He labored on the Iron Works, built a grist mill, in connection with Erastus Snow, at Cedar City, labored hard to help to build Cedar City and the Iron Works, for a number of years. When the Iron Works stopped he moved north; labored at Camp Floyd, on the mail route, for two years. He then settled at Nephi; which place he left and came here in 1867. Early in the Spring of that year he joined with Samuel Jewkes and built a saw mill, which has been in operation nearly five years. He also built and remodeled several grist mills in the county, and nearly completed putting in the machinery for a grist mill in connection with the saw mill here. His funeral took place on the 15th of April at 4 o'clock, p. m. Nearly all the citizens attended his funeral. He leaves a family.—COR.

At Kamas, Summit Co., Nov. 23, 1872, of disease of the heart, PHILIP HARRETT, aged 53 years, 1 month and 5 days.

At Kamas, Summit Co., April 17, 1873, of inflammation of the bowels, AMELIA JANE MARRETT; aged 18 years, 2 months and 15 days.

At Monroe, Sevier County, March 19, of rheumatic fever, MOSES, son of Henry D. and Almira Ann Gifford; aged ten years, one month and eight days.

At Ovid, Rich Co., Idaho, April 21st, BOLETTO JOHANSEN.

She was 59 years old, born in Bakebolty, Sjilland, Denmark, in 1813, was baptized into the Church of Jesus Christ of Latter-day Saints in 1862, and emigrated to Utah in 1863. She died faithful and true to the gospel.—COR.

OUR FATHER'S HOUSE—THE UNWRITTEN WORD.
BY DANIEL MARCH, D. D.—*Author of Night Scenes in the Bible.*

THIS Earth is one of the Mansions of OUR FATHER'S HOUSE, and all the forms and forces of the physical universe are revelations of God's UNWRITTEN WORD. The author, in this new volume, goes from room to room in the great house that God has built, showing us the riches and splendors stowed in every department, making the whole journey of the happy walk of children with their Father—now out into open fields, listening to the singing birds, the whispering winds and murmuring forests; looking with ceaseless delight on green landscapes and grazing flocks; on beautiful flowers and springing grass, gazing with awe at the wonders of the mighty deeps, walking beneath the shade of ancient mountains and climbing sacred heights. Wondering at the great Earth wheel turning beneath our feet, watching the storm with cloud on cloud in billowy darkness rolled, lightnings answered in thundering voices, and again the beautiful bows hung out on the retiring cloth.

God All in All.

Cure for All!—Never Despair!
E. L. PLANT.
Bronchitis, Diptheria, Coughs, Colds, and all Derangements of the Throat and Chest.

In any of the above diseases, immediate and permanent relief is obtained by diligently rubbing this Ointment thoroughly twice a day upon the neck, chest and back, and in all stages of influenza, settled coughs, and wheezing at the chest, the same treatment may be followed with efficiency and safety.

Bad Legs, Bad Breasts, Old Sores, Wounds, and Ulcers.

By rubbing this Ointment perseveringly upon and around the affected parts twice a day it will penetrate to the tissues beneath, and exert the most beneficial influence; the inflammation soon diminishes, the pain becomes less intolerable, the matter thickens, and a cure is rapidly effected. In all long standing cases Plant's Pills should also be taken, as they greatly assist in expelling all depraved matter from the body.

Skin Diseases of all Kinds.

In this class of complaints, no matter the age, the sex, the place, or under what name the disease may be classified, immediate ease, and ultimate cure, may with certainty be promised, if this Ointment be assiduously rubbed upon the part affected, while Plant's Pills are taken in appropriate doses to purify the blood.

Gout, Rheumatism and Glandular Swellings.

Every one suffering from these excruciating complaints should have recourse to these purifying remedies, as they have rescued thousands from a life of torture, after all other means had failed to give them relief. The Ointment and Pills used conjointly will act so searchingly and certainly, as to effect cures in the most hopeless cases.

Both the Ointment and Pills should be used in the following Complaints:

Bad Legs, Bad Breasts, Blood Poisons, Cancers, Chapped Hands, Contracted and Stiff Joints, Corns (soft), Fistulas, Gout, Glandular Swellings, Lumbago, Piles, Rheumatism, Scalds, Sciatica, Scrofula, Sore Throats, Skin Diseases, Scurvy, Sore Heads, Tumours, Ulcers, Wounds.

The Ointment and Pills are sold at Professor Plant's.

The Ointment is sold in pots at $1 and $2; the smallest Pot of Ointment is the cheapest, as it goes further. Pills, 25 cents per box. Full directions are affixed to each Pot and Box.
