OGDEN, UTAH, JAN. 31, 1933.

THIS MARRIAGE A FAILURE

Mrs. Lottie Hill of Hooper Sues for Separation and Part of Homestead.

Board of Education Again Defers Matter of Organization of High School Cadets.

Suit for divorce has been filed in the second district court by Lottie Hill of Hooper against John H. Hill, and William Hill. The complaint sets forth that plaintiff and defendant, John H. Hill, were married in Salt Lake City Nov. 27, 1921, and that there is living as issue of said marriage a baby boy. That Jan. 1, 1933, the defendant, John H. Hill, deserted plaintiff and has ever since refused to live with or to provide plaintiff with the common necessities of life. That plaintiff has always conducted herself toward her husband in a proper and devoted manner, that on the 18th day of January, 1933, defendant caused to be published in a paper that plaintiff had left him and he would no longer be responsible for any debts she might incur. That at the time of plaintiff's marriage to her husband, they were given a piece of land in Hooper by William Hill, which they have since occupied as a homestead, but failed to get a deed now residing in Hooper, and that plaintiff desires to be freed of the same. Wherefore plaintiff prays that she be granted a decree of divorce, custody of the minor child and a share of the said homestead. The price paid for the land is valued at \$2,000, and also of her household goods valued at \$200, together with alimony. George Halverson is attorney for plaintiff.

Want Damage Cases Reinstated—Suits for Trespass.

Special Correspondence.

Provo, Utah, Jan. 31.—Alfred W. Wells and Wellington Wood have brought suit in the fourth district court against N. S. Nelson for \$200, for trespass, alleged to have been committed by defendant, grazing 2,700 head of sheep on land belonging to plaintiffs in the county, from Oct. 25 to Nov. 6, of last year.

Arguments were heard last evening by Judge Booth on a motion to vacate order dismissing several cases of the Strawberry Valley Cattle company against a number of defendants who are alleged to have trespassed on lands leased by the plaintiff company for grazing purposes on the Utah Indian reservation. The cases were dismissed last May on motion of defendants, and the motion to vacate the order was made by the plaintiff on the grounds that it had not had sufficient notice of the setting of the cases to appear for trial. Captain Wedgwood appeared for the plaintiff and Sam A. King for the defendant, who opposed the motion. Judge Booth took the matter under advisement.

A Scientific Discovery.

Kodol does for the stomach that which it is unable to do for itself, even when but slightly disordered or over-loaded. Kodol supplies the natural juices of the stomach, and does the work of the stomach, relaxing the nervous tension, while the inflamed muscles of that organ are allowed to rest and heal. Kodol digests the food, and transforms it into all food into rich, red blood. Z. C. M. I. Drug Store, 112-114 Main St.

Special Correspondence.

Eureka, Utah, Jan. 30.—Beverly Harper, of Eureka, has filed suit against the Rio Grande Western railway for \$10,000 for personal injuries. While working for the Eureka Hill Mining company on Dec. 12 last, Mr. Harper was thrown from a moving freight car, which he was running down to an ore chute by the breaking of a brake rod and came being nearly run over and killed; as it was sustained severe injuries, hence the suit.

FILLMORE.

FIRST SLEIGHING OF SEASON.

Diphtheria Abating—District Court Will Sit Feb. 11.

Special Correspondence.

Fillmore City, Millard Co., Jan. 29.—The diphtheria is practically subdued by the district court, which has again resumed their work.

The district court will convene here on the 11th of February. There are several criminal cases on the calendar to be tried, among them being a case of grand larceny, wherein Ed. Emery will be made defendant; he is charged with having stolen a saddle, bridle, shafts and spurs from Charles Fillmore at Burbank and disposed of them in Nevada, where he was arrested and brought back here for trial.

Ex-Sheriff Kelly has moved his family to Deseret, where he will make his home in the future, having purchased the residence of J. B. Mace just west of the store controlled by Dameron & Hawley.

One of the heaviest snowstorms we have had here for years visited our place yesterday. It began snowing early in the morning and was accompanied by a heavy wind, which piled large drifts in the ravines in the mountains. Some time during the night the storm abated and this morning in our streets we had over a foot of snow, which opportunity the boys embraced for a sleighride, the first of the season.

Steps are being taken by our city "dads" towards a city water system, which, if realized, our city will be no more to none for health, purity and beauty. Next after this is an electric lighting plant.

ANNABELLA.

SMALLPOX SITUATION.

Welcome Snow—Home Missionary From Idaho—Births.

Special Correspondence.

Annabella, Sevier Co., Jan. 28.—The wind has been blowing for three days and it brought four inches of snow today, pleasing the farmers very much. We are having quite a time with the snow today. It is the heaviest storm of this winter. The past five days have been springlike and the frost is out of the ground which is in good shape to receive the wetting, which will be a great benefit to this section of the country.

There has not been much sickness here this winter, and our public schools have made the best run in four years past.

The ward organizations are in good running order and peace and happiness generally prevail.

BEAVER.

N. P. IPSON WINS SUIT.

Now in Possession of the Offices of Assessor and Treasurer.

Special Correspondence.

Beaver, Beaver Co., Jan. 30.—In an able and lengthy opinion handed down today, Judge Marioneau decided in favor of N. P. Ipsen in the cases of the State of Utah ex rel N. P. Ipsen vs. Charles Woodward and John P. Jones, for the possession of the office of county assessor and treasurer. Mr. Ipsen was elected in November to hold both offices, but the old officers wanted to hold over on the pretext that one person could not hold both offices. They will now, however, have to step down and out. Mr. Ipsen took possession of both offices today.

The ejectment suit of William Yardley vs. S. F. Hewett et al. occupied the time of the court all day.

DISTRICT COURT BUSINESS.

Hearing of Irrigation Suits—Beal-Olsen Wedding.

Special Correspondence.

Manti, Cache Co., Jan. 30.—In the district court here yesterday the water case entitled Spring City, a corporation, vs. The Spring City Irrigation company, after the greater portion of the plaintiffs' testimony had been introduced, came to a sudden termination for the time being, upon the discovery being made that a number of interested parties had been inadvertently left out of the pleadings. The case will be taken up again at the adjourned term, commencing on the 5th day of March next.

Another water case is now under consideration by the court, the North Creek Irrigation Co. vs. W. D. Candland et al. This suit is brought to determine the rights and quiet the title of land and water owners in the fields owned by the plaintiff city. It will probably have been disposed of by the end of the week.

Parley Olsen of Provo and Eliza Beal of Emery were yesterday married at the Manti Temple by President J. D. T.

McAllister. A party of young people entertained the happy couple at the home of P. P. Dyreng in the evening.

Intense cold prevails after the recent storms. While this section did not have a heavy fall of snow as other parts of the state this time, the farmers are encouraged as the outlook for the coming season is brighter than for years.

Mr. R. R. Thurman of Provo is attending court here this week.

SMITHFIELD.

IMPROVED TRAIN SERVICE.

Other Changes Suggested—Proposed City Water Works.

Special Correspondence.

Smithfield, Cache Co., Jan. 29.—The proposed change of passenger services on the local O. S. L. train to and from Cache valley points, mentioned in our issue of the 27th, if inaugurated, will be a great relief from the awkward services we have been compelled to put up with for the past 10 years. It will obviate the necessity of putting up two nights in Salt Lake to get one little errand attended to that can be done in a few hours. The change will not only increase the passenger traffic to Salt Lake, and the mail service for business, especially will be greatly improved.

It is to be hoped that another surprise is in store for us in the shape of a connection with the main line on the north, as it is, a trip to Pocatello, 100 miles, means a whole night out.

The lovely fall of snow is the all-consuming topic of the papers of the adjoining counties and states, but if all reports are correct, the snow has fallen, and much dependence to be put in them. The fall is not more than six or seven inches, instead of 20. While in the mountains several feet has fallen, which augurs well for the coming season's crops.

Steps are being taken by our city "dads" towards a city water system, which, if realized, our city will be no more to none for health, purity and beauty. Next after this is an electric lighting plant.

LAKE TOWN.

ABUNDANCE OF SNOW.

Insures Irrigation Water in Bear Lake Watershed.

Special Correspondence.

Lake Town, Utah, Jan. 28.—On account of the incessant rains Laketown was probably at its muddest on Sunday last. The Sunday school, as a consequence, was very meagerly attended, and the afternoon church service there wasn't a woman and but very few men present. But the snow, the beautiful snow, that has fallen on the past couple of days makes us all especially appreciate the farmers and stock raisers. It is 15 inches on the level and the wind that followed must have blown the hollows in the hills pretty full, insuring, we hope, a nice supply of irrigating fluid for the 1933 crops.

A Mr. Nelson from Logan is here buying cattle from some of our farmers.

Mrs. Rufus Humphrey departed for a visit to Boise, Idaho where her husband, one of our former merchants, is located and doing a thriving business.

Joe McGowan of Lake City and Joseph and Martin McGrath of Park City, who have been briefly visiting in Laketown, departed home via Laketown, and will be back in a few days.

Appreciate a U. P. railroad car before they get into one, on this trip.

Until now all the travel has been on wheels this season.

Our business visitors this week were Harry Brown, George Arbuckle and Joseph E. Evans, representing respectively McDonald Candy Co., Z. C. M. I. and Hewitt Bros. of Salt Lake City. Bishop McGowan today remarked that this snowstorm is the greatest since the storm that snowed in David Kimball and company in very early Bear Lake history. He says there must have been at least 24 inches dropped in the past two days.

Leah Earley of Circleville reports at least seven feet of snow in the west side of the mountain. Her reports from South End on the east side of our lake a copious snowfall. This is especially gratifying, as that locality for several recent years, has suffered greatly from drought.

The poor mail carrier has a job on his hands on account of the canyon drift. If our letters don't come in to the second we certainly ought not to complain.
