from ex-Senator Edmunds favoring the adoption of such an arondment. The following resolutions were adopted:

Whereas, The "Mormon" leadershave resumed their polygamous practices since statehood was given to Utah and are everywhere justifying these acts of bad faith by the persistent circulation, under the futhority of their Church, of the book of so-cailed "Doctrine and Covenants," wherein the practice of polygamy is enjoined by an alleged diving revelation; and alleged divine revelation; and Whereas, The neighboring States of

Idaho, Wyoming, Colorado and Nevada and the Territories of Arizona and New Mexico are already inoculated with the virus of this evil, which is bound to spread Into other States unless it is

speedily checked; and Whereas, The political influence of the "Mormon" leaders is not only sufscient to prevent the enactment of anti-polygamy laws in the State of Idaho, which came into the Union pledged by its constitution to prohibit polygamy, but even to prevent the enforcement of existing laws in Utah and the other neighboring States; be it hereby Resolved, First-That we carnestly

urge Congress to take prompt action submitting to the several States a constitutional amendment forever prohib-iting the practice of polygamy and polygamous cohabitation in the United States, and all places subject to their

Second—That as a step toward this end, we urge the judiciary committee of the House of Representative, before whom bills are pending for the submission of an amendment prohibiting polygamy and polygamous cohabita-tion, and providing for the disfran-chisement of those who persist in such practices, to give these important measures immediate attention, so as to get their report upon the calendar in ime to insure its consideration during the present session.

EXCITED ABOUT MERCIER. English Press Gets Much Exercised Over the Invasion Talk.

New York, Dec. 6 -- A dispatch to the Tribune from London says: The English press is displaying signs of increased excitement over Gen. Mercier's speech respecting a French invaprestige lost during the Dreyfus trial. The journals can well afford to laugh at it, instead of taking it seriously, since the British government has not shown ureasiness over the various missions of French officers in English ports during the last year. Officers of the French army and navy are constantly talking about the possibility of effecting a landing in England. It is their most interesting technical problem. They have precise information about the defenses of English towns like Dover, Portsmouth and Plymouth, also about the military resources of ports like Liverpool. French officers were secretly occupied for weeks last spring in preparing detailed drawings of the fortifications of Dover and the defenses of Liverpool and other ports, and these plans were filed with the

American Horses Best.

New York, Dec. 6.-A number of Canadian horse experts, mostly veterinarians, have just passed through this city on their way to St. Louis and western points to pass on herds of horses selected by British military agents for use in the Transvaal. One of these experts, Dr. William Darcus Hamilton, who will examine a large number of horses at St. Louis that have been selected for the imperial police, who will patrol the Boer country, said that it was remarkable the satistion American bred horses had given the British military authorities, and that he did not know where his govern-ment would have done if it had not been the dependence that could be put n the American horse market, escially in the west.

"Good horses are scarce in Europe and Asia," he said, "and even then the few that can be procured in those coun-tries cannot be relied upon to do the work required as well as the American bred animal.

Further along the line the train was surded and the coaches searched but no sign of the prisoner was found by the searchers. At various points crowds are collected waiting for the news of the capture of the prisoner by the mob and it is certain that if he should be taken he will be burned alive. This work has been carried on by night as the closing hour. Publicly Discusses the Question of Licensing Saloons, Manila, Dec. 5.-The hall occupied by

the United States commission was crowded today, the occasion being the public discussion of the Manila liquor busine discussion ilicense bill. The section providing for banishing saloons from the Escolta and down-town plazas was strongly critioised. Judge Taft explained that the United States courts had settled the right of the police and the power to limit the sale of liquers and yet the places where they were sold were unlimited. He declared that the condition of the Escolta, owing to the presence of saloons, was disgraceful. The judge admitted that it was a hardship some, but denied that injustice was being done. The licenses expire in January, and the section of the bill requiring removals will take effect in April. The bill provides for a license of 600 pesos semi-annually for a regular saloon; 800 for a theater and 500 for a hotel, besides a bar license. None of these will be allowed to sell a native intoxicant. Places are licensed separately for the latter. They are prohibited from selling to soldiers and Sunday closing is required. But hotels can serve liquors with meals. Licenses are imposed on distillers, brewers and wholesale dealers. The commission has passed an act requiring wholesome food supplies for animals used in transportation, and imposing penalties for cruelty to ani-
