

thermometer registering from 100 to 110 degrees in the shade, it makes labor rather trying and severe. The second crop of lucerne is mostly very heavy, the first cutting being seriously damaged by late frost. Barley and wheat will probably be an average crop, and in bulk considerable for a small settlement. Our fruit crop is a complete failure, with the exception of a few grapes being killed by late frost. The loss of our fruit crop will be a serious loss to the people of Washington, being a source of cash revenue; said revenue being very limited in this part of the country for some time past, which has been seriously felt by business firms and the people generally. In the meantime the people are patient and doing the best they can under the circumstances, and I have every reason to believe are fully alive to the signs of the times, and are fully prepared and determined to meet the issues of the hour in a political point of view by every man and woman entitled to vote, faithfully performing that duty in the interest of the community at large.

Our Sunday School is in good condition, and other local institutions, our Bishop endeavoring by his presence and counsel to aid and encourage the same.

The Fourth of July was celebrated in the usual manner, by the people of Washington.

In the short space of a few days, Mill Creek, in Washington has been the scene of two heavy floods descending from the Pine Valley Mountain, the first carrying away a portion of the factory reservoir; and whilst in the act of repairing the same a second flood rushed down with terrific force, destroying their labor and seriously damaging the reservoir and causing other wash-outs below.

#### ANOTHER LIFE SAVED.

Mrs. Harriet Cummings, of Cincinnati writes: Early last winter my daughter was attacked with a severe cold which settled on her lungs. We tried several medicines, none of which seemed to do her any good, but she continued to get worse, and finally raised large amounts of blood from her lungs. We called a family physician, but he failed to do her any good. We then called on a physician—a most skillful professor in one of our colleges—he said that she could not get well. At this a friend who had been cured by Dr. Wm. Hall's Balsam for the Lungs, advised me to give it a trial. We then got a bottle, and before she had used it all up she began to improve, and by the use of three bottles was entirely cured.

#### TO THE TRESHER MEN!

You must put in your orders soon for the Case Agitators to get them this year, as the supply is likely to be exhausted early, as it was last year.

The record stands thus: We sold 20 in 1891, 33 in 1892 and we already have 35 orders for this year.

Send in your orders or you will be too late.

Don't let any man deceive you by the assertion that he has nearly as good a machine as the Agitator. The Agitator, as is well known, will out-thresh them all and clean and save every kernel.

## THE OSBORNE NO. 11 TWINE BINDER

## VICTORIOUS FARMERS OF THE ROCKY MOUNTAINS!

(Special to the DESERET EVENING NEWS of July 3rd, 1893.)  
**Trial of a Twine Binder.**

Yesterday afternoon there was an exhibition of the Osborne Twine Binder, on the farm of Mr. John Briggs, in Sugar House Ward. The main points of excellence claimed by the company for this machine are, its simplicity, ease of draft and management, perfect binding, power to elevate and the width of cut, the smallest machine having a six foot blade, while the largest one's blades are ten feet long.

The machine did excellent work, binding equally firm and even in long and short grain and not missing a single bundle. Notwithstanding the fact that the grain was green and heavy, the elevator did perfect work, and the grain was bound so tight that it was next to impossible to shake the bundle out. Considering the inexperience of the driver and team the acre of grain was cut in a notably short time and to the satisfaction of all present. A number of local farmers who were present gave Mr. Mellor, the manager, a testimonial to that effect.

JULY, 2nd, 1893.

We, the undersigned, having witnessed the cutting and binding of about one acre of heavy green wheat, on the farm of John Briggs, near Salt Lake City, by an OSBORNE, No. 11, TWINE BINDER, certify that it did the work to our entire satisfaction, and did not miss a bundle.

Joseph Barton, Amos S. Gabbott, Isaac Barton, W. F. Handley, H. P. Trim, C. I. Handly, J. Gibson, Jas. Siddoway, G. W. Brown, S. P. Trim, T. Reich, I. A. E. Lyon, Jas. Johnson, Jacob Johnson, D. Reich, Jno. Briggs and O. S. Hardy.

WEST JORDAN, July 5th, 1893.

Messrs. D. M. Osborne & Co., Salt Lake City:

GENTLEMEN:—The new No. 11 Twine Binder purchased of you this season, was started on my farm to-day in ripe rye, cutting and binding to my entire satisfaction. The draft is light, it misses no bundles, and is the simplest and most perfect self binder I ever saw. I would recommend all farmers in want of binders to purchase the Osborne No. 11.

THOS. ROBINSON.
