It is well known that the Erie Railway Company has for a number of years provided a commodious passenger boat, fitted especially for the transfer of its emigrant passengers and luggage direct from Castle Garden to their depot, from which trains depart for the Westthus effectually protecting those "consigned to their care" from unauthorized persons or outside influence, while passing through New York.

To afford similar protection to second and third class passengers from the West, going to New York, or passing through New York as route to Europe, they have now arranged for a SPECIAL OMNI-BUS TRANSFER, starting from under cover of their Jersey City Depot, (the arriving place of may be consigned-hus affording co I-m from con act with the "sharpem'who reak Is prey upon strangers arriving in a great city. THE DAUSMAN & DRUMMOND TOBACCO COMPANY'S @CROSS-BAR

TRADE MARK-Stamped on Each Plug.

THIS 16 ounce army pound is marked into 16 equal spaces (1|x1|) each space representing an ounce. It being justly divided, the consumer is satisfied with his allottment and the retailer knows that he has given neither too much We are already opening some of the newest and nor too little; as he is liable to do where the lump is not so marked. This lump also renders it unnecessary for the retailer to have more than one package of Tobacco open at a time, as he can accurately cut any size lump needed from a 12 ounce lump down to a single thick pocket piece. It is the only plug of Tobacco marked for the benefit of the dealer and consumer. All others marked with tin, wood, leather, or other tags, or in any other manner are solely for the bene-

fit of the manufacturer. It saves interest, as a single package gives the dealer the sizes he requires, it is not necessary to keep six or eight

open at a time as is usually the case. The manufacturer is able to make a better chew in pound lump than in a smaller one for the same money. No loss can accrue from change of styles or variation in prices Most dealers know by bitter experience how great an advantage this is. It is manufactured with the utmost care and each plug is perfect in chew and style.
