sides.

Howe, Idaho. Oct. 26 .- At a meeting held of miners Oct. 25, the new mining district situated on what is called South Creek. In the range of mountains east of Little Lost river, this camp was organized and given the name of Wilber, in honor of L. D. Wil-ber of Pocatello, who is the oldest man

her of Pocatello, who is the oldest man in the camp. W. O. Young, of Bryan, Idaho, was recommended to the county recorder of Blaine county for the appointment of deputy recorder of the district Andrew Dome being the first man of recent date to prospect the district and locate blabbs to the new district and locate claims in the new district; it will bear his name and hereafter known as

the Dome mining district. The ore produced thus far consists of copper, silver and lead, some of it carrying very high values, assays going as high as 1,000 a ton being obtained. There are at present some 20 locators in the district. Some of the claims in the northern part of the district, situ-ated on Pass Creek, have been worked for a number of years and are owned by eastern capitalists. The southern part of the district is comparatively new, that is, on South Creek, at the

and several cabins are under course of construction and will be completed in the near future. The work of develop-

ment will continue through the winter.

of hardy prospectors, the vanguard of Nevada's enterprise, each an advocate of the doctrine that every man is the President William B. Mucklow of the Majestic Copper company's properties is expected to arrive shortly after elecuchitect of his own fortune, assembled

under che desert's open sky and or-ganized the Goldfield mining district. How well that little band builded is Capt. Duncan McVichle, manager of the Bingham Con., has gone to Chicago and Boston to confer with Bingham porne out by the number of teams that daily move the tons of precious ores toward the smelters and by the modern stockholders.

Senator Wolcott of Colorado and par-ty concluded not to visit the Cactus mine in Beaver county and departed city of 5,000 people that now breaks the monotony of the desrt, around which the report of exploding gasoline, as it shoots into action the pistons of many engines, has taken the place of the for the east last night.

The Yankee Consolidated Mining company of Tintic closed the month with the shipment of 20 cars of ore to the valley smelters. elping of the coyote. On that day A. D. Myers of Combination fame was

elected president and Claude M. Smith, now the majority owner of the Velvet, was elected recorder and secretary. It The Alaska Treadwell mines have nald in less than 15 years a total of 111.5 per cent on a capitalization of \$5,000,000. This was done from ore asis quite probable that never in mining history have mining claims increased in price so rapidly during the first year saying from \$1.88 to \$1.49 to the ton. of a camp's existence as in Goldfield, and it is also probable that no other

Mike Fitzgerald, a well known Utah camp has ever experienced so little lawlessnes and so much good feeling. miner, has returned from a month's trip to Tonopah and Goldfield. He says working men should keep away from those places at the present time, as there are more men in the camps han there is work.

"hight drops her sable mantle down" on the first chapter of the life of Gold-James Johnson of Bingham will soon have a shipment of ore on the market. Manager H. S. Joseph is inspecting the Silver Shield at Bingham today. field there stands out pre-eminently as silent sentrics of the night the Combination, January, Jumbo, Florence, Sandstorm, Velvet, Lone Star, SI, Ives, Tonopah Club and Quartzite, glant shippers which are nursing into matur-ity a hundred infants of their own kind. He was accompanied to camp by Solon spire, the latter manages the Silver Bell mine at Park City. some of which may die, but many of which will spring into the first rank,

Ore shipments from Park City during the past week, as reported by the Rec-ord were as follows: Daly-West, 2.511,-000 pounds; Kearns-Keith, 170,000; Cre ole, 50,000; American Flag, 40,000; Clegg lease, 80,000; Ontario, 250,000; Sliver King, 1,353,100, Total pounds, 4,454,100.

D. H. McMillan, the Pennsylvania oil expert who recently arrived for the purpose of inspecting the Uintah resercation region has completed his mis-sion and has returned to the city greatsion and pas returned to the cry great-ly pleased with the possibilities of the country. The geological conditions, he states could not be better for the ex-istence of off. The Pittsburg-Salt Lake Oil company, which he represents, is advised associates that he has encoun-tered about three fest of chloride ore going to do some work there.

Arrangements are being made at the Daly-West for the installation of air hammer rock drills. The unachine is virtually a hand drill, which is operated by compressed air instead of the usual hammer. One of these machines, op-trated by a single man, can do the

work of four men working double-handed, so that an idea of the saving handed, so that in idea of the saving in time and expense effected by their use may be gained. They are now be-ing tried in the mine as an experiment and are working perfectly, so that the new drills will be installed permanently in the near future .- Park Record.
