FORTY-SEVENTH CONGRESS.

SENATE.
WASHINGTON, 19.—The Mississippi
and Missouri river improvement
bill was considered. Senator Har-
rison argued at length in favor of
government control of the Missis-
sippi and jurisdiction over improve-
ments of navigation. The uniform
low water depth of 10 feet below St.
Louis would practically bring 14,000
miles of shore of the Mississippi and
tributaries to this water. No other
act of Congress could prove so effec-
tive in the regulation of railroad
charges as competitive improve-
ment in water ways. Deep water
enables us to charter vessels and
use the river. This matter was a
national case. The Mississippi and
tributaries touched 13 states and
three territories, which yielded
most of the grain and cotton of our
country and needed transportation.
He was opposed to the government
spending money on levees, how-
ever. The bill went over.

The agricultural appropriation
bill then passed. It appropriates
\$11,000.

The President's message on the
South American Congress was re-
ferred to the committee on foreign
relations.

The postoffice appropriation bill,
after some discussion regarding dis-
agreements of the conference com-
mittee, was referred to the com-
mittee on appropriations. Adjourned.

AMERICAN.
Silver Certificates.

WASHINGTON, 19.—Representative
Dingley, from the sub-commit-
tee of the House committee on
banking currency, to whom was re-
ferred that portion of the President's
message relating to silver certifi-
cates, and also the pending bill to
regulate the issue of coin certificates,
submitted a report to the full com-
mittee, in which it advocates the
passage of the following bill:

Section 1. That until an interna-
tional agreement on coinage ratio
for the use of silver in full legal
tender, coinage shall be made by
the United States equivalent to that
of standard silver. Silver
certificates authorized by the act of
Feb. 23, 1875, shall be suspended;
Provided, the silver certificates now
outstanding may, from time to time
as paid into the Treasury, be re-
issued on the deposit of standard
silver dollars.

Sec. 2. Until the above mentioned
equivalence is secured, the Secretary
of the Treasury will cause to be
collected only such a number of stan-
dard silver dollars as may be re-
quired for actual circulation, in lieu of
the minimum coinage provided by said
act.

Cutting Down the Bills.
The House committee to audit
the expenses of President Garfield's
illness made a report and it was re-
ferred to the committee of the whole.
It allows Mrs. Garfield \$50,000;
more than any amount the Presi-
dent had received for salary; Bliss,
\$35,000; Agnew, \$15,000; Hamilton,
\$15,000; Rayburn, \$10,000; Mrs. Ed-
son, \$10,000; Grant, \$5,000; the Sec-
retary of the Navy, \$1,835; Ed-
ward Spear, \$1,835; C. N. Jones, of
Elberon, \$1,000; and other amounts
varying from 50 cents to \$1,000. It
relieves Barnes with the rank of
Major-General and authorizes the
promotion of Woodward to the rank
and pay of Lieutenant-Colonel.

The President.
The question of the power
of the President to employ a
posse of constables to suppress the
cowboys in Arizona is now under
consideration by the Attorney-Gen-
eral, and his message on the ques-
tion will be mainly based upon his
conclusions in the premises.

President Arthur gave a reception
last night at the Executive Mansion
to the diplomatic corps and mem-
bers of the House and Senate. The
President was assisted in the recep-
tion by Mrs. Polster, Mrs. Brewster,
Mrs. Fillinghousen, Mrs. Chandler
and Mrs. Teller.

Sargent's Reception.
The wife and daughter of Minis-
ter Sargent held an informal recep-
tion at the Riggs House this after-
noon, which was attended by a
very large number of
distinguished persons prominent in
Washington social and political circles,
who came to bid the Minister
and his family good bye and bon
voyage. They leave Washington on
Monday for Massachusetts, and
sail for Germany on the 29th.

The Stars.
The star cases have been re-
sumed. Williams called on the
government to furnish a bill of par-
ticulars describing all the papers and
petitions alleged to have been for-
gotten. The government refused to
do so, and the court decided on the
request as soon as possible. After
some argument the preference of
Dooley's recognizance was stricken
out, and the case referred to the
court for the arraignment of S. W. Dor-
sey, who pleaded not guilty.

President's Message.
The following message was sent
to Congress to-day:
"I send you a copy of the circular
of invitation extended to the Presi-
dent of the United States, and of the
other countries of North and
South America, to participate in a
general Congress, to be held in
Washington, on the 23rd of Novem-
ber next, for the purpose of consid-
ering and discussing methods to
prevent war between Chili and Peru
which would militate against the
happy results which might other-
wise be expected from such an
assembly. The differences indi-
cated are such as exist between Chili
and Peru, between Mexico and
Guatemala, and between the States
of Central America. I was hopeful
that these differences would disap-
pear before the time fixed for the
Congress. The hope has not been
realized. I have observed that the
authority of the President to con-
vene such a Congress has been
questioned. I beg to leave to state
that the Constitution confers upon
the President, by and with the ad-
vice of the Government and the
consent of the Senate, to make treat-
ies, and that this provision con-
fers the power to take all the requisite
measures to initiate them, and to
draw upon the President for a
conference with the several commis-
sioners or delegates of other nations.
The Congress contemplated by the
invitation could only effect any
valuable result by its conclusions
eventually taking the form of a treaty
of peace between the States repre-
sented. Besides the invitation to the
States of North and South

America were merely the prelimi-
nary act of which the constitution-
ality or want of it, can hardly be
affirmed. It has been suggested that
while an International Congress
would have no power to effect the
treaty, it is important to be dis-
cussed, still Congress might be unwill-
ing to subject the existing treaty
rights of the United States on the
subject to the cloud and rendered
uncertain by the expression of opin-
ion of a Congress composed largely
of interested parties. I am glad to
have it in my power to refer to the
Congress of the United States as I
do now to suggest an International
Congress, and that I may thus be
informed of its views, which it will
be my pleasure to carry out. A
quarry having been made by some of
the public invited whether it is
intended this International Congress
shall convene here, at a date as
early as convenient, inform me by re-
solution or otherwise of its opinion in
the premises. My address will be in
harmony with such expression. Fair
(Signed) CHESTER A. ARTHUR.

Alaska.
WASHINGTON, 19.—The House
committee on Territories agreed to
report favorably to the House the
bill providing for the organization of
the judicial district of Alaska and
the establishment of civil govern-
ment.

Coming.
SAN FRANCISCO, 19.—The City of
Sydney brought about 300 passen-
gers, nearly half of whom are Mor-
mon converts en route to Salt Lake
City. They are mostly Danes and
Norwegians. Many were refused
passage from Auckland on account
of the lack of accommodations.

St. Joseph, 19.—Intelligence has
been received here of a terrible af-
fair at Barnard, 30 miles from here.
A tramp murdered a man named
Alkire, the last night, in cold blood.
The citizen turned out and ran the
tramp to cover, and found him
sheltered securely in a lot of cord-
wood where he could not be got at.
They finally determined to blaze
him out. The lot was filled with petro-
leum was placed against the barri-
cade followed by lighted cotton. The
heat ultimately forced the tramp
out, and on his appearance he was
ridged with bullets, 15 holes being
found in him. No papers, letters or
anything leading to his identi-
fication were found. It is thought
he was insane.

Governor Crittenden and the Fords.
ST. LOUIS, 19.—Robert Ford, the
slayer of Jesse James, was taken to
Richmond, Ray County, this morn-
ing, to await the action of the au-
thorities on the charge of killing
Wood Hite, one of the outlaw gang.
The Ford boys assert the governor
promised them immunity of all
past crimes, but to a Post-Dispatch
reporter Crittenden indignantly
denies this. He would not say, how-
ever, he might not pardon them.
The governor says he be-
lieves Frank James is dead.

FOREIGN.
The Sea of Sahara.

PARIS, 19.—The Cabinet Council
approved the scheme of De Lesseps
for cutting a canal through the neck
of land dividing the Gulf of Gabes
from the Mediterranean Sea. The
part of the desert of Sahara in the
south of Tunisia. It is expected the
sea will by virtue of this cutting
open more fill up the Sahara desert.
The political advantages to be ob-
tained by the scheme will be the
isolation of Tunis and Algeria by cre-
ating a water barrier between them
and Tripoli. The cost of the canal
is estimated at 65,000,000 francs.

OTTAWA, 19.—In the House of
Commons, Sir Charles Tupper moved
the second reading of the bill au-
thorizing the construction of the
Canadian Pacific Railway through
some other than Yellow Head Pass.
In the course of his explanations of
this policy, he stated a more ad-
vantageous passage through the Rocky
Mountains by the Kicking Horse
Pass. It is expected that the road
from Prince Arthur's Landing will
be completed by July next
and five hundred miles laid
in a direct westerly line, the coming
season. When the road is com-
pleted the distance from Montreal to
Vancouver will be 2,350 miles;
while from New York to San Fran-
cisco, via the Central and Union
Pacific roads by the shortest possible
route is 3,331, and the distance from
Vancouver to Yokohama will be
1,075 miles shorter via the Cana-
dian Pacific than via New York and
San Francisco.
