

## SCHEME TO GET THE MONEY BACK

Railroads Contemplate Raising Minimum Loading Weights of Cars for Greater Revenue.

## TO MEET WAGE INCREASE.

Traffic Men Explain That the Change Is Not Unfair to Shipper—Mentioning on in Chicago.

Chicago, Feb. 6.—The Record-Herald today says: By action taken yesterday the railroads of the United States have paved the way to drag back to their coffers the millions they recently handed out to their employees in the way of increased wages. The shipper will pay a vote to increase the rates on main commodities 10 per cent, by increasing the minimum which is permitted to load into a car is being taken and if this goes into effect millions of dollars will be added yearly to the revenues of the traffic lines. The first active steps were taken yesterday at a meeting held in Chicago, which was attended by the executive officials of railroads east having a total of more than 100,000 miles of lines. The roads initially interested extend throughout the territory east of this city and north of the Ohio river clear to the seaboard and north into Canada.

## INVOLVES BIG AREA.

In this territory freight rates are controlled by the organizations known as the Central Freight association, whose jurisdiction extends to Buffalo and Pittsburgh, and the Truck Line association, whose jurisdiction extends from those cities to the Atlantic ocean. The vote, which is being taken following a recommendation by the two associations, is being fought by a local committee setting for the plan and giving the reasons therefor. It was stated last night that if the plan met with any opposition it would not be carried out.

## ALL CUT AND DRIED.

The meeting which was held yesterday, however, is the outcome of a well-laid plan which originated with the eastern presidents and which was passed on by them to their executive traffic officials for perfecting and placing before the various lines for adoption. If the plan is successful in the east it undoubtedly will be followed by the lines south of the Ohio river, and then by the lines to the Pacific ocean. It is difficult to estimate how much the proposed increase will bring the railroads in added revenue, but the sum will be a large one. Traffic officials, however, state that it will not be sufficient to offset even the increased expense to the railroads occasioned by increased wages, and estimated at between \$100,000,000 and \$150,000,000 annually.

## WHAT RAILROADS SAY.

In explaining the plan, prominent officials last night declared that the railroads did not propose doing anything that was unfair to the shipper or to the public. On the contrary, the increase in the minimum weights allowed in cars will be such as will result in benefits to the entire country, and will give the railroads, in effect, the use of from 20 to 30 per cent. added equipment. This increase in equipment efficiency will be brought about by an increase in the size of the loads in freight cars. Traffic men declare that, despite the fact that the size of freight cars has increased two and even three-fold there has been little or no increase in the minimum weight allowed in a car, while the result is that the shippers have not taken advantage of the added facilities offered them.

## HARRIMAN EXPECTS ORDER.

Pacifics Prepared to Meet Suggestion That They Separate Their Affairs.

New York, Feb. 6.—The Times today says it was learned in banking quarters yesterday that the controlling interests in the Union Pacific are prepared for a recommendation by the interstate commerce commission, after the completion of its hearings in this city, that proceedings be taken to divorce the Union Pacific and Southern Pacific properties. It was also learned that the results of such an outcome have been thoroughly canvassed by those in charge of Union Pacific affairs and arrangements made to meet this contingency. Any legal proceedings brought by the government to compel the Union Pacific to sell the \$200,000,000 of Southern Pacific stock held by it, will be contested up to the supreme court of the United States and no expense will be spared. While the case differs from that of the Northern Securities company and other similar cases, in that the Union Pacific does not hold a majority of \$200,000,000 of Southern Pacific common and preferred stock, and may not end in an adverse decision, yet Union Pacific directors are prepared for that. If such a decision be rendered, the Southern Pacific stock will be sold, but its disposition will in no wise affect the harmonious relations between the two railroads, and Mr. Harriman will control both in James J. Hill controls the Great Northern and Northern Pacific.

## TRAFFIC RESUMED.

Union Pacific Lines Cleared and Park City Branch Again in Shape.

The first train to be taken out of Ogden east over the Union Pacific since the land slide of Sunday afternoon near Gate Station in Weber canyon, was No. 2 overland limited, which left Ogden shortly after 6 o'clock last evening. The second train, No. 4, left at 10 o'clock last evening. Since then a number of trains have been taken out over the line.

The slide was much larger than was

At first reported and the damage done to the Union Pacific track was much greater. Instead of the railroad company being able to get the track repaired in 24 hours, as was at first thought, it took more than double that length of time to get it back into shape so that any kind of a train could be taken over with safety. A large force of men was kept continuously at work until the line was repaired, as the delay caused was a heavy loss to the railroad company both in the freight and passenger departments. For two days little or no freight was pulled into the Ogden yards, and the freight business along the line has been greatly congested as a result.

The Rio Grande is making no promises as to when its Heber line through Provo canyon will be straightened out. Local officials can offer no further information than the fact that work of repair is being carried ahead as rapidly as possible. The company expects to have its Park City line opened this afternoon. The train which leaves here at 8:15 o'clock every morning, arriving at Park City at 10:10 o'clock was sent out from this city as it was thought it could be carried through some time near noon. If this can be done the trip to Park City will be made to carry the Park City, Heber, Charleston and Kamas mail through for distribution at Park City. The mail for Heber and surrounding towns is usually carried to Heber and there distributed. Park City and surrounding towns got no mail at all yesterday. If the train can be carried through today it will be brought right back to this city to bring delayed mail and passengers to this city.

## WATERLOO SCHOOL IN GREAT DANGER

Roof of Fine Building Destroyed By Fire This Afternoon.

The Waterloo school, situated on Third East between Tenth and Eleventh South, was threatened with destruction by fire this afternoon. Latest advice is to the effect that the fire is confined to the upper story and the roof is practically gone.

Two hundred children were in their class rooms when the outbreak was discovered but all left the building in an orderly fashion under the rules governing the fire drill. No one was hurt.

The alarm was turned in to headquarters at 2:15 and No. 4 truck and No. 1 hose wagon with four horses attached started out on the long run through the mud.

At 2:40 word was received that the fire was under control.

By 3 o'clock the fire was out and the firemen were on their way back to headquarters.

The damage was solely confined to the roof.

There are 200 pupils at the school and the principal is Miss Grace Frost.

## NETHERSOLE'S THREE HOMES.

Something of the Possessions of the Eminent English Actress.

Not very many women of the dramatic profession can lay claim to owning three homes. Olga Nethersole, the eminent actress, however, is one of the few exceptional ones who can do so. Her city house and most important home is in London at No. 5 Norfolk street, quite near the American embassy. Since she purchased this house, several years ago, it is now worth five or six times the amount she paid for it. The house is situated in one of the best portions of the great city.

In one of the most delightful rural districts of Suffolk, England, Miss Nethersole owns a small farm upon which stands a comfortable country house. Here she rears dogs, grows Jersey cows and flowers. Her blooded dogs are the talk of the neighborhood. She keeps on this farm three fox-terriers, a couple of English bull-dogs and three Scotch collies, that are prize winners. During the months of Miss Nethersole's absence from the "farm" down in Suffolk, it was managed by an old English farmer and his wife. During the present tour of the west, Miss Nethersole has made some close observations as to the life and sheep raising and it is her intention to go into this business of a limited scale on her farm in England. Nestled romantically on the shores of

the Bay of Biscay and almost under the shadow of the Pyrenees mountains is Miss Nethersole's pretty summer-home-by-the-sea, called "Villa Lou Basque." She purchased this house a little over a year ago. It is an old castle built by the famous Basques several centuries ago. The house was modernized considerably last winter and is now very attractive. Biarritz, where the villa is located, was, in recent years, become one of the choicest watering places on the west coast of France. It is only a two hours' automobile ride over the Pyrenees to San Sebastian, where King Alfonso and his queen bride spent a portion of their honeymoon the past summer. Miss Nethersole, supported by Frank Mills and her London company, will play an engagement of eight performances at the Salt Lake Theater, beginning Monday evening next, during which time she will present the following repertoire: On Monday and Saturday evenings and at the Wednesday and Saturday matinees, "Sapho"; Tuesday evening, "The Song of the Lark"; Wednesday evening, "Adrienne Lecocq"; Thursday evening, "Carmen"; Friday evening, "The Labyrinth."

The bride wore a gown of white orphee with trimmings of lace and a wreath of daisies was on her head. She wore a pearl necklace the gift of the groom, and carried a bouquet of bride's roses and lilacs of the valley. The bridesmaid, Miss Ethel Paul, wore a dainty gown of white gingham and carried pink carnations. Dr. S. L. Paul was best man. The host and hostess were assisted by Mrs. Douglass and Miss Douglass of Springfield, Mrs. J. M. Dart, Mrs. Edwin Kimball, Mrs. M. M. Johnson and Mrs. A. S. Martin. In the dining room Mrs. H. S. Knight presided, assisted by Misses Douglass, Florence Robbins, Emma Douglass, Beatrice Wilkenson and Helen Critzer. ## LOOKS BLACK FOR SALVER OF VOSS

Witnesses for State in Murder Trial of A. T. Day Submit Their Stories.

## SHOT WITHOUT ANY WARNING.

Franklin Avenue's Colored Folk Attend Hearing—Case is Strong For Prosecution.

The work of securing a jury in the murder case of the state against A. T. Day, colored, was completed in Judge Armstrong's court yesterday afternoon, and the state introduced several witnesses during the afternoon session. During the forenoon today three witnesses were examined and their evidence was very strong against the defendant. The victim of Day's gun was Horace H. Voss, a leading colored man of this city, and the scene of the shooting was in a roominghouse at 49 Franklin avenue.

Two eye witnesses to the shooting were examined by Dist. Atty. Loobow yesterday afternoon. They are Joseph Weir, a room mate of Day's, and Mrs. Sally Yarbber. Both testified that Voss was sitting in the room talking to them when Day suddenly entered and without a word of warning shot him. Weir attempted to take the gun away from Day and followed him out of the room. Weir was in the crowd which chased Day, threatening to lynch him.

## STORIES ARE IDENTICAL.

Weir said that the trouble arose over Voss repudiating Day because he severely beat up Edward, an old colored man on the day previous. He and Day had started up town the morning after and they met Voss, who then repudiated Day for his action. Day then entered around and went back to his room and got a gun which he showed to Weir after they entered a saloon up town. Weir returned to his room and was talking with Voss and Mrs. Yarbber when the shooting occurred. Mrs. Yarbber told practically the same story of the manner in which Day shot Voss. J. D. H. McAllister, deputy county surveyor, was placed on the witness stand and exhibited a plot of the house where the shooting occurred and gave the distances and dimensions required by the district attorney, W. A. Wright, deputy clerk of the criminal division of the city court, was called to the witness stand and identified the gun which had been taken from Day at the police station after his arrest.

## DAY MADE THREATS.

Mrs. Mary Edwards, the wife of the old man whom Day had assaulted, testified that Day threatened to kill her husband and that Voss scored Day for treating the old man in such a manner and told him he ought to be ashamed of himself. Morris Riley, a bartender at the saloon at 212 State street, testified that on the day of the shooting, Day asked him for a gun and he also heard Day tell another negro that he would kill the white man, evidently meaning Voss.

Joseph Weir, Jr., testified that he saw Day coming from Third South and Main to Third Street and State with a gun in his hands after he had shot Voss. He also heard Mrs. Voss cry out that Day had killed her husband. The witnesses for the state were cross-examined by Atty. W. W. Little and W. J. Dunn for the defense but their evidence was not shaken in the least. The jurors who are serving on the case are: Herman Campbell, J. H. Hill, Andrew Joynt, Peter Adamson, D. E. Jones, J. H. Vincent, Royal Bateman, J. H. Walker, D. B. Richards, C. M. Bacon, W. B. Armstrong and C. J. Oberg.
