MINING, BUSINESS AND STOCKS.

COLUMBIA MINE OF BINGHAM.

as Produced 350,000 Pounds of Copper Bullion

INCE JANUARY 1ST LAST.

he Average of Crude Ore Shipped Was 25 Per Cent—Concentrates Run Up to 27 Per Cent.

The Columbia mine of Bingham, of hich Frank B. Cook is manager, will ose the year with an enviable record the way of production of copper.

While the balance sheets are yet inmplete and another week yet remains which to get other shipments to marpt, Manager Cook has gone over the ecords sufficiently to arrive at an esmate which can be depended upon as eing very close to what the exact figres will be.

Mr. Cook places the output of copper ullion at 350,000 pounds. The average alue of the crude ore shipped to the nelters runs up to 25 per cent copper nd the concentrates to 27 per cent.

The Columbia is one of the big mines f Bingham. It has not been opened p to the extent of some others, yet is recognized as being one of the gilt dged properties of the camp.

LAST BEFORE CHRISTMAS.

tock Exchange Held Only One Session Today—Trading Light.

Only one session of the Salt Lake tock and Mining exchange was held oday. When this one closed, the brokrs began their holiday vacation, so no ore calls will be held until next Friay. As is always the case just about hristmas time, the market was slugish this morning. Only eight stocks articipated in the doings of the pit. total of 3,750 shares were sold, which rought $10,379.25.

Daly-West seemed to be fairly active nd 175 shares were pulled down at bout the prevailing figures of yesteray. There were a few calls on hand or Daly-Judge; 130 shares were bought t $9.60, followed with 50 more, which ere pulled in at $9.50. Wabash showed weaker tendency and Mammoth paintained itself at yesterday's closing uotations.

The quotations and sales of the day ere as follows:

	Bid.	Asked.

MYSTIC SHRINE ORE.

Supt. Schefski Sends Information of A New Find.

Manager E. W. Young of the Mystic Shrine Mining company, operating at Bingham, is in receipt of information from Supt. Schefski, in which he states that on last Monday he broke into a ne body of shipping ore in the lower cross cut, in the main tunnel. While he thickness of the vein had not been etermined when the superintendent rote, he stated, however, that the full enghth and breadth of the cross cut as in ore. In the same mail which rought the letter to Mr. Young was a mall sample of the ore, which, in appearance is typical of the camp of ingham.

More particulars of the new find will e known this evening when Supt. Schefki will arrive from camp for the purose of staying over Christmas with his mily. He will also bring with him amples which will find their way to the office of some local assayer.

The Mystic Shrine property is located Markham gulch, near the Red Wing, lia Dean, Erie and Ben Butler properties.

THINGS MOVING AT YORK.

Company is Spending $3,000 per Month for Development.

Things are humming out at the York ine of Bingham, where a force of 3 is pushing development and blocking out ore for removal to market next year.

Manager Walter C. Orem, who is back from camp, where he has been on one of his regular inspection trips, is more than pleased with the results of the past few weeks.

Since the installation of machine drills not long ago splendid headway has been made.

The management is spending approximately $3,000 per month in the performance of development work.

IN SNAKE TUNNEL

Of Red Wing Mines Some Good Ore Has Been Found.

The local management of the Red Wing mine of Bingham has reason to feel jubilant over recent developments at that property.

In sinking the winge, from what is termed Snake tunnel, a body of ore has been followed for a distance of 50 feet which varies from 2 to 5 feet in thickness. One foot of this is first class ore. One hundred tons of this grade has been dumped into the bins for shipment to the valley smelters.

MAP OF TONOPAH.

Topographical Party in the Field Taking Observations.

A topographical party sent out by the government is at Tonopah taking observations preparatory to the publishing of a huge map showing the contour of the great gold camp.

In speaking of this work the Tonopah Miner says:

"This map is being made on a scale of 800 feet one inch and covers an area of six square miles, which includes all the large mines. Besides exhibiting all the works of man it will also show all the natural features of the country in plain, hills, mountains, cliffs, rock croppings, natural drainage, etc. In all this information probably the most interesting is the relative heights of prominent peaks about the city, and their absolute elevation. Mount Butler is found to be 7,170 feet above mean sea level, while Mount Oddie is 6,660 feet. The city itself has an elevation approximately 6,100 feet above the same datum."

The work is in charge of W. G. Peters, who performed similar duties for the government last summer near Juneau, Alaska.

DOWN AT PIOCHE.

Active Development Work in Progress at the Menda.

Arthur Murphy, who is connected with the E & F and Manhattan properties of Pioche, is in the city to spend the holiday vacation. He states that the old Nevada camp is in good condition to make a better showing in the way of the production of ores next year.

Developement work is moving forward, Mr. Murphy says, upon the Menda group, which is held under bond by Clarence K. McCornick and others of this city. The Menda shaft it down to a depth of 600 feet and several crosscuts are being run to prospect the ground thoroughly before the limit of the bond expires.

JUDGE BARTCH LEAVES.

Departs for the Sheba Mine in Humboldt County, Nevada.

Judge Bartch of the state supreme court, who is one of the heaviest shareholders in the Sheba mine of Humboldt county, Nev., left for that property last evening and expects to be absent from the city for a couple of weeks, during which time he will make a thorough inspection of the mine, and also look after the installation of the machinery for the new mill, which has been forwarded to the property from San Francisco.

A letter from Mill Supt. J. T. Kescel, this morning, states that he arrived at the mine several days ago and after looking over the situation has concluded that conditions there are much better than he had anticipated. He is getting things in order for the rapid installation of the mill machinery upon its arrival and expects to have the plant ready for operation within the next 60 days.

Development work is progressing very favorably in the mine. The lower tunnel is completed to a distance of 275 feet. It is figured that it will be necessary to extend it about 60 feet further to catch the main Sheba ledge. This accomplished will give a vertical depth on the ledge of 700 feet.

Rich Carisa Ore.

Two cars of ore from the Carisa mine, Tintic, were settled for yesterday afternoon. The lot bringing the company $4,900. One car contained values of $169 gold, 10 ounces silver and brought $3000. The last car was loaded with copper ore, for which $1,900 was realized.

Ben Luce Returns.

Ben. D. Luce, the well known stock broker, came in last night from a trip to Marysvale, where he is interested in the property of the Mt. Baldy Gold Mining & Milling company, he being the manager. While in camp Mr. Luce let a contract for 100 feet of tunnel work. He is well pleased with the appearance of the property.

MINES OF SILVER CITY.

Salt Lake People Interested in This Idaho Camp.

The inhabitants of Silver City, Idaho, confidently expect to see quite a lively interest taken in the mines of their section by outside capital next year. And everything points that way.

During the past few months, Salt Lake parties have become interested in the district and at least two corporations are in the process of organization by local men who have become attracted to the auriferous veins of that district.

It will be of interest to the many Salt Lake friends of Mr. O. S. Wigglesworth, for a long time a resident of this city, to know that the company with which he became identified last year has made a great success in opening up a group of claims on the famous War Eagle mountain. The company is known as the Addie Consolidated Mining company. Last week the new 100-ton mill was started and is now pounding away regularly. The plant is operated by electricity supplied from the Swan Falls of Snake river, and is a combination amalgamator and concentrator.

NEW YORK METAL PRICES

Cures Burns, Bruises, Cuts, Corns, Sores, Eruptions Salt Rheum, Piles or no pay. 25c at Z. C. M. I. Drug department.

TRANSACTIONS WERE LIGHT.

Small Disposition to Take Stocks At Concessions.

PRICES GENERALLY DOWN.

Buying Movement Culminated When General List Recovered to Yesterday's Final Figures.

New York, Dec. 24.—Light selling orders carried opening prices down generally a small fraction. Business was on a very small scale. There seemed to be no general disposition to take stocks at concessions. Missouri Pacific, Texas & Pacific, Denver & Rio Grande preferred, Great Northern preferred, New York Central, Rock Island, Chicago, Great Western preferred and Tennessee Coal fell a point or more below yesterday's close and numerous other important stocks lost a large fraction. Strength in the local tractions led by Brooklyn Transit rallied the general market but the response was moderate on account of the high rate ruling for call loans. Brooklyn Transit rose over 3, Manhattan 1⅜, Metropolitan Street Railway 1⅜, Sugar 1⅝ and Louisville and Pressed Steel Car about a point over last night. Anaconda lost about 1¾.

Bonds were irregular at noon.

The buying movement culminated when the general list recovered to yesterday's final figures. Trading became almost stagnant but the top level of prices was well maintained all around. St. Joe and Grand Island first preferred fell off 2½ on disappointment over the passing of the dividend.

Fluctuations were few and of little consequence in the afternoon dealings. Brooklyn Transit reacted a point on profit-taking but soon made up the loss and Tennessee Coal recovered an earlier loss of as much. North American rose a point.

MONEY AND BONDS.

Money on call strong at 9@9½ per cent. Prime mercantile paper 5 per cent.

Sterling exchange steady with actual business in bankers' bills at 4.86¼@4.86⅜ for demand, and at 4.82¾@4.83⅛ for 60 days. Posted rates, 4.84@4.87½; commercial bills, 4.82½@4.83½.

MINING CONCENTRATES.

Four car loads of Stockton ores are in today.

The Grand Central mine of Tintic is in with five cars of ore on today's market.

The Conkling sampler reported the arrival of five cars of ore this morning.

John W. Burton, who has extensive mining interests in Idaho, is expected home today.

A rich strike of silver talc is reported from the Howe-Manhattan property near De Lamar, Ida.

The total tonnage of ore handled by the Conklin sampling works during the year aggregates 20,446 tons.

George B. Earnshaw, the well known mining engineer, departed last night on a professional trip to Arizona.

Taylor and Brunton reported the arrival of 17 cars of ore today, 10 of which came from the mines of Tintic.

Col. N. Treweek, manager of the Wabash mine of Park City, arrived home from the east on a delayed train this morning.

Al Jacobson, superintendent of the Columbus mine at Alta, will arrive in the city today to spend Christmas with his family.

The Sinker Tunnel Mining company, operating in Owyhee county, Ida., recently placed an order for $50,000 worth of machinery.

Emil H. Lundquist, who holds the position of assayer at the Sheba mine, near Mill City, Nevada, is in the city for the holidays.

Fred W. Gerling, a prominent mining man of Silver City, Ida., has undertaken some extensive development work on the Homestake group of claims near that place.

M. J. O'Meara and T. J. Lynch, the big Tonapah operators, have gone on a business trip to St. Louis, where they will be absent about two weeks.

Ben T. Lloyd, manager of the Copper Ranch and Copper Mountain properties of Beaver county, is expected home from the east today.

W. J. Lawrence, manager of the Scottish chief mine of Park City came in from camp last night and reports development work going along all right at that property.

A gold bar valued at $11,800 reached the city yesterday from the Annie Laurie mine, Gold Mountain district. It represented a week's run at that big property.

The Ben Harrison and Stockton Mining companies have taken larger quarters in the Eagle block and now occupy a suit of four rooms.

Reports received from the J. I. C. mine on Bonanza flat, Park City, state that good progress is being made in sinking the main working shaft, which is now down to a depth of 275 feet.

Governor-elect John Sparks of Nevada is in the city on some mining business. The governor owns the Weddekind mine at Reno, said to be one of the best gold producers in the sage brush state.

R. A. Vaughn, a mining engineer of considerable note, has prepared a series of articles treating on the geology of the Tonopah, Nev., district, which will appear in the Miner of that place in the near future.

The owners of the Great Western mine, in the Big Cottonwood district, feel much pleased over the strike of some high grade copper ore in their property. The ore runs from 35 to 40 per cent in the red metal. Senator J. L. Rawlins and David Evans are among the principal shareholders in the mine.

MEDICINAL SPRINGS.

Those in California Equal to the Best in Europe.

How many of those who go to the European springs for their health realize that in the one State of California there are more and a greater variety of medicinal springs than in all the European countries combined? It is a fact, however. There is no disorder for which medicinal waters can afford relief but that finds its natural remedy in California. Every imaginable kind of mineral springs there exists, some hot and others cold. There are splendid swimming lakes of naturally hot medicinal waters of many kinds. As a rule, the yield of water from these California springs is remarkably free, so that no one is stinted. Scores of the more noted are provided with comfortable buildings and every other adjunct for the comfort and cure of invalids, many of them being fashionable resorts for people who really do not need the use of the healing waters. The charges are moderate and the patronage large.

A very important element of the popularity and efficiency of California is the delicious and healing climate. No climate so bland, so generous, so invigorating, can be found of Europe. It is worth something to the mind and the body to be surrounded by fruits and flowers every day in the year, and to be absolutely sure of freedom from malarial poisoning. The climate possibly doubles the healing value of springs which in themselves are the finest and most beneficial in the world.

A variety of California literature attractively illustrated, describing its resources, famous resorts and numerous wonders, also maps and folders showing routes, through trains and other valuable information, may be obtained by addressing D. R. Gray, General Agent Southern Pacific Co., 261 Main St. 10

Best wishes for a Merry Christmas and a Happy New Year for all.

"We're Fast!"
What do we mean? We simply mean this: The running time of the
CHICAGO, MILWAUKEE AND ST. PAUL RAILWAY.
Between Omaha and Chicago is faster than all other lines.
CLAUDE S. WILLIAMS,
Commercial Agent,
Salt Lake City.

TO MAKE A SUCCESS of your holiday baking use the "Riverdale" Flour. It costs no more than poor flour.
