The man is wanted on the charge of forg-ery. It is claimed that he swindled a young woman out of \$500. He came to Salt Lake, and when the officers tried to find him, they learned that he had gone to Ogden. Detective Burt went to the Junction City Satur-day afternoon and soon located the man and placed him under arrest. He will be returned to Oregon. Stolen Bicycle Found — Saturday

With Light Employment.

The faculty of the state university announces that that institution will open for instruction September 14, and it it expected that 1,000 college students will register. Of the 1,172 students last year fully two-thrids were of the college grade. This good showing goes in evidence that the state university is gradually assuming the characteristics of the older universities and especially so as the current catalogue shows that four foreign countries and 25 states outside of Utah are represented in the university attendance. Admissions will be held Sept. 9, and 10; registration of students will be gin September 11 and 12.

MAKING PREPARATIONS.

The students of the university are making active preparations for the opening of the school year. At the dormitory many reservations have been made and many of the boarding been made and many of the town of a pho-houses near the school are already fil-ed. According to the number of appli-cations for accommodations there will be an exceptionally large number of down-town students enrolled. Those students who are dependent upon themselves to work their way through school are making plans for the winter. Employment is afforded some in as-sisting the professors and working in the laboratories for which they gener-ally receive 25 cents an hour. The cus-todian has the giving of a number of additional jobs, such as janitor work, gardening and keeping the school prop-erty in repair. It is said that stu-dent help will be used in the lunch room this year and a number of stu-dents will be employed as trainers for athletes. The sugar plumb of the posi-tions sought after by the students is that of watchman, although it is a responsible position it gives the person an opportunity to put most of his time in studying. houses near the school are already fillin studying.

### BUREAU PROPOSITION.

BUREAU PROPOSITION. It has been proposed by the alumni association to establish a bureau which will have in charge the distribution of the work around the school and also secure the co-operation of business houses and families for the employ-ment they can furnish. In addition to improvements which bave been made upon the campus cor-responding improvements have been made on the buildings. The addition which has been made to the gymnas-ium building will be used for locked rooms, both for the boys and girls. The other buildings on the campus have all been thoroughly renovated.

was recovered. Predicts Prosperity—Manager Bur-ton of the Utah Implement-Vehicle company has returned from an ex-tended business trip through the mid-dile east. He found the trade gener-ally in good condition, and was told that the untoward effects of laying off so many hands on account of the panic was minimized by the increased auto-mobile trade taking care of so many of the implement factory mechanics who otherwise would have to remain idle. Mr. Burton looks for a prosper-ous season next year. Porsonal or Social Dor Causes Alarm—A dog left alone

Personal or Social Dog Causes Alarm—A dog left alone in the home of William Birkinshaw, 387 east Fifth South street last night, caused an alarm to be given that robbers were looting the house. Resi-dents saw a suspicious looking char-acter prowling about the neighbor-hood and when they heard the dog barking furiously, they thought a rob-ber was in the house. The police were notified and several bluecoats hurried to the Birkinshaw home in the patrol wagon. They did not find a robber, but found a dog anxious to get out of the house.
