

"WOMAN'S DOCTOR" WON'T "GO BACK"

So Cleveland Officers Will Probably Have to "Take" Him There.

IS A SORT OF DOCTOR PAYNE.

Is Wanted in Ohio for Causing Death Of Miss Celia Ritzer—Will Fight Return.

Expressing but a few days ago a readiness to return to Cleveland, Ohio, where he is wanted to answer to a serious charge, Dr. David P. Maxwell has materially changed his mind and now proposes to fight the attempt being made to take him from this state. Requisition papers have been filed with Gov. Cutler, and a hearing is on this afternoon, to determine whether or not the demand of the Ohio authorities should be honored.

ANOTHER DOCTOR PAYNE.

If the charges against Maxwell are true, it stamps him as being a similar case to that of Dr. Payne of local disrepute. It is alleged in the complaint that Maxwell performed an illegal operation Dec. 26, 1935, upon Celia Ritzer, an unmarried young woman of Cleveland, Ohio. Five days later the victim died, and soon thereafter the physician became a fugitive from justice.

NOT FIRST OFFENSE.

It is said that this is not the doctor's first offense in criminal practice. In 1930 he was convicted upon a similar charge, and was sentenced to imprisonment in the Ohio State prison for seven years, serving his term, and emerging to again follow his unlawful vocation.

OFFICERS ARE HERE.

The officers who came from Ohio to take Maxwell to the place of his wrong doing are Detectives Joseph Bernhard and Sam Rudwick of the Cleveland police department. The gentlemen arrived in Salt Lake on Tuesday night and will return to their homes as soon as they can obtain legal possession of the man wanted. They believe, the fight will be of short duration and will be decided in their favor.

To a "News" representative, Mr. Bernhard stated that this is his first visit to the west, and he is deeply impressed with the greatness and possibilities of the country traversed in coming here. He is particularly pleased with the appearance of Salt Lake, and says that he was most agreeably surprised to find a city so beautiful, and progressive in Utah. Himself and fellow officer are busy taking in the sights hereabouts and are being courteously treated by Chief of Police Sheets and Capt. Burbridge.

Colds Cause Sore Throat.
Laxative Bromo Quinine, the world-wide Cold and Grip remedy, removes the cause. Call for the full name and look for signature of E. W. Grove, Inc.

IN JUDGE DIEHL'S COURT.

Four Men Charged With Robbery Having a Hearing Today.

Edward Smith, sometimes called "Whitey," appeared before Judge C. B. Diehl this morning on a charge preferred against him of having, with others, stolen from one Brigham Davis, eight sacks of lucern seed, valued at \$100. The offense is alleged to have been committed Feb. 28, 1935.

Defendant was represented in court by Attorney Ray Van Cott, who filed a demurrer in the case, on the ground the complaint did not charge a public offense and did not conform to the state statute under which it was preferred. The demurrer was argued by Attorney Van Cott and William Hanson, the latter appearing for the state. Decision on the demurrer was taken under advisement by the court until tomorrow.

The hearing began today of Stephen Olds, James Murre, Frank Gordon and Frank Evans, charged with robbing a brakeman named W. S. Henderson of a watch and a pair of cuff links. Olds is also accused of having on the same night attempted to rob Bartender Frank Connelley of a watch and a pair of cuff links, by holding him up at the point of a revolver.

The four prisoners are being tried together, and are defended by Attorney George C. Buckle. Many witnesses are in attendance, a number of which have already testified, and the case is still in progress.

A GUARANTEED CURE FOR PILES.
Itching, Blind Bleeding, Protruding Piles. Laxative Bromo Quinine, the world-wide cure for PILES. It cures in 4 to 14 days. 6c.

GEOGHEGAN'S SUCCESSOR.

He Has Not Been Named But the Col. Will Not Embarrass Gov. Cutler.

Col. Jos. Geoghegan today had all the affairs of the adjutant-general's office ready to turn over to whoever the governor should designate to serve in his stead, but up to 2 o'clock no order had been issued relieving him from duty. Col. Geoghegan stated that although this was the date mentioned in the letter of resignation, as the latest time he would wish to continue in the service, he had no desire to embarrass the governor by forcing matters, and would continue to serve until the officer should be decided upon whom to recommend as a successor.

A meeting to decide on this matter will be held Sunday, and in pursuance with the governor's request, a name or a set of names will be submitted to him as desirable appointees in the place of the officers. Two new names have come into the field of those mentioned for the position. One is that of Col. H. M. Lund, the senior line officer, and the other is that of Col. B. Keeler, at present quartermaster-general of the governor's staff.

There are important changes in the guard being worked out in headquarters at present. The fact that horses are rare in Salt Lake for cavalry purposes and that they are plentiful in Bountiful, may result in troop A of this city being transferred to Bountiful, and its present membership transferred to an infantry company, probably taking the name of company E, to preserve the regular order of companies.

Company D of this city has long been a mere skeleton, and it is to be revived by muster out and reorganization as company C. Those of its men who are still active have already been transferred to the new company, and next Friday night a dance is scheduled for the armory, at which company C will be issued into existence.

Company D, however, will not be omitted in future lists of guard organizations, however, as Pleasant Grove has enough men who want to enlist, to form a company, and this command will be organized in early next week as D company.

"The Black Flag on the Big Three"

In Everybody's for March, Lawson says that the petty crimes of the big insurance companies have been revealed and will be stopped; but that the larger stealing—by millions and millions—has been made safer for the grafters than ever.

The only remedy is "to place the company in the hands of men at the coming annual election who will find out how many dollars have been looted, and have them make complete restitution and punishment and after that, an honest organization."

If this is not done, he predicts the insolvency of the "big three" within five years.

Better read what Lawson has to say.

SUMMER SCHOOL AT THE UNIVERSITY

Arrangements for This Feature Were Completed This Morning.

WILL ISSUE CATALOGUES.

It is for Especial Accommodation of Teachers Who Wish to Employ Their Vacations Profitably.

Arrangements for the University of Utah summer school were completed this morning, and catalogues will be issued at once giving complete information for the guidance of those who wish to attend. The summer school last year indicated the way in which Salt Lake is becoming the center of the intermountain country, in that it was attended by students from seven intermountain states, as well as from every Utah county.

The plans this summer are for as complete a course as has ever been offered, designed especially for the accommodation of teachers who wish to employ their vacations profitably. The credits given will be accepted by the state, towards fulfilling the requirements for a diploma or a city teacher's certificate.

The school this year will open June 11, immediately after the close of the regular college work, and will continue until July 20, over a period of six weeks of school work.

The faculty will consist of professors of the university, fifteen of whom are listed to give work, and as far as arranged, the subjects will be as follows:

Prof. Stewart—Normal work, including the regular courses of the normal school; Profs. Merrill and Hartman, physics, college and normal courses; Prof. Ebaugh, chemistry; Prof. Bradford, geology, physical geography, and zoology; Prof. Coray, economics, sociology, and industrial history; Prof. Roylance, history; Prof. Benson, education, school management, and logic; Profs. Gibson and Allen, mathematics, including calculus; Profs. House and Wise, modern languages; Profs. Reynolds and Howells, English; Prof. Evans, a training school course will be given in connection with the summer school.

PLANT BROUGHT BACK.

Davis County Man Charged With Polygamy Is in Jail.

County Attorney L. E. Willey is to have charged to prosecute C. G. Plant in the Davis county case for polygamy after all. Plant arrived in Utah this morning in charge of Sheriff Ware of Davis county and is now lodged in jail at Farmington. It took Sheriff Ware three weeks of work in the California city, to secure the person of his prisoner, as Plant fought the extradition papers through all three of the California cities, carrying the cause to the court of appeals, where it was decided in the sheriff's favor Friday last.

C. G. Plant worked in Farmington in 1904 as a printer and disappeared after trying to secure a divorce from his wife whom he married Dec. 24 of that year. It afterwards developed he had polygamy in California and his arrest for polygamy followed.

Peculiar to Itself

In combination, proportion and process, Hood's Sarsaparilla is therefore Peculiar to Itself in merit, sales and cures. It is made from the best blood-purifying, alterative and tonic ingredients by such original and peculiar methods as to retain the full medicinal value of each and all.

The severest forms of scrofula, salt rheum, catarrh, rheumatism, dyspepsia, and debility are cured every day by

Hood's Sarsaparilla

Sold by druggists everywhere. Buy it today.

Special. To meet the wishes of those who prefer medicine in tablet form, we are now putting up Hood's Sarsaparilla in chocolate-coated tablets, each containing a full dose of the medicine. By reducing Hood's Sarsaparilla to a solid extract, we have retained in the tablets the curative properties of every medicinal ingredient except the alcohol. Sold by druggists or sent by mail. 100 doses one dollar. C. I. Hood Co., Lowell, Mass.

SETTLERS WANT TROOPS TO STAY.

Proposed Abandonment of Fort Duchesne is Creating Some Alarm Among New-Comers.

INDIANS AND BAD WHISKY.

Fears that Unscrupulous Liquor Dealers Will be the Cause of Grave Trouble.

S. M. Barlow is back from an extended business trip through the Uintah country. When asked the latest news to the proposed abandonment of Fort Duchesne, he doubted very much if that would be done in view of present conditions existing there. Mr. Barlow said the whisky question had come to be a serious one in that section of the country.

There are many new people arriving and locating on their allotments in the reservation, and the local development is at present rapid and promising. Now, if the troops are withdrawn a much needed protection to these settlers will be taken away, and with the number of unscrupulous liquor dealers on the increase, the opportunities for the Indians to get whisky will be almost unlimited, and old settlers there realize full well what the red skin and a bottle of red eye means.

SAMPLE CRAZY INDIAN.

An illustration occurred the other day in one of the towns out there where a big buck tanked up on Paul and then pulling a big .45 revolver dashed up and down the streets on his cayuse banging away at every house he blundered into could make out. That no one was killed was considered a miracle. Sheriff Preece was after this bold bad Indian, at last accounts, but with little probability of finding him.

WRONG OX GORED.

At the same time, if a white man kills an Indian, even in the plainest case of self defense, the other Indians insist that the white man shall be brought to the spot of the killing and shot. This was the case that was being talked about at the time of the killing. The man was shot at Myton, who was at him with a big knife, shot from the hip, and the bullet went through the red skin's heart. The Indians are afraid of soldiers, and were very much surprised when they could be taken away, and had to be hurried on to the military reservation to save his life. The Indians are afraid of soldiers, and were very much surprised when they could be taken away, and had to be hurried on to the military reservation to save his life.

SALE OF WHISKY.

In the village of Myton there are five stores and five saloons, and the whisky sellers have set up tents for the sale of whisky to soldiers within a few feet of the military reservation. In other villages the sale of whisky is the principal factor in the local business, and there are found plenty of unscrupulous men who do not hesitate to sell to the Indians all the whisky they want, and there is not an old inhabitant of that part of the state but who will testify from often and experience that when an Indian has liquor in him, he is as full of meanness as a tarantula, and just about as discriminating as to whom he attacks and what he does generally. With whisky in his hold he becomes a murderous maniac and no one is safe, and the military reservation is in danger. At present there does not appear to be any way to prevent the sale of whisky, and the general feeling is one of great uneasiness among the white citizens.

BAD FOR CURVES AND GRADES.

Mr. Barlow found a great deal of snow in the Uintah country, and the people told him they were having a long, hard winter. There are great hopes for the completion, during the coming spring, of the railroad from Dragoon to Vernal. This will place the center in direct connection with the Denver & Rio Grande road at Mack, and leave Price out in the cold as a shipping point for the Ashley valley. But the railroad over the divide is a terror for grades and curves. Mr. Barlow says over 70 per cent of the line is in curves, the toughest being those known as Mr. Barlow imagined, about 250 degrees. The grades run as high as 7 per cent, requiring the use of Shea engines on the steepest sections of the road.

GOOD SCHEME LAUNCHED.

Housewives to be Informed How to Detect Adulterated Foodstuffs.

The women's auxiliary of the Manufacturers and Merchants' association is planning a book to be spread broadcast over Utah, telling housewives how to detect poor and adulterated food stuffs, extracts, and peppers. State Chemist Harms will be associated with them in the writing of it, and will describe a number of simple tests which housewives can easily apply to goods purchased at the grocery stores to tell whether they are adulterated or not. Gov. Cutler, it is stated, will give \$100 from the contingent fund towards the publication of the pamphlet, which is gotten out in the interests of giving pure foods a chance to be sold alongside of adulterated products which are cheaper in selling price, but often contain harmful ingredients. When whole peppers in the wholesale retail pepper could be bought, recently for eight or nine cents a pound, and in the pamphlet it is proposed to sell by simple tests what proportion of such cheap articles are really genuine.

COACH MADDOCK GOES TO DENVER

University Athletic Director Will Attend Conference on Saturday.

PURPOSE OF THE MEETING

Is to Draw up an Agreement to Govern All Western Athletics in the Leading Colleges.

Jos. Maddock, athletic director of the University of Utah, was selected by the faculty this morning to represent the University at a conference called for Saturday next in Denver, at which an agreement will be drawn up to govern all western athletics in which the leading colleges of Colorado, Utah, New Mexico and Wyoming take part. "The Agricultural college of Utah was not included in the list of schools invited to participate as it was decided that its standing in athletic events did not justify its participation in the conference."

COACH MADDOCK CHOSEN.

The selection of Mr. Maddock was made by the committee on athletics, of which Prof. Byron Cummings is chairman, at a meeting held this morning, following the receipt of an invitation for Utah to send a delegate. Mr. Maddock stated at noon today to the "News" that he would leave tomorrow night for Denver, and would return on Monday.

When asked as to the concessions he would ask in favor of Utah, he said that he was well prepared to outline his policy at present, but that he would try to prevent any rule being passed except in the interests of producing clean, and strictly amateur sports. He thought that a track meet this spring would be provided for at Denver, in which the Utah team would have a chance to participate.

FOUR-YEAR RULE.

Among the questions to be discussed are the four-year rule, the freshman rule, the preparatory rule, and eligibility rules in general. A conference to draw up and revise agreements and to hear complaints will be held every year, and it is probable that Salt Lake will be the next meeting place. In the conference will be representatives from Boulder, Golden, the University of Denver, Colorado college, Colorado Agricultural college, the Greeley Normal school, the University of New Mexico, the University of Wyoming, and the University of Utah, the universities of Idaho and Montana. A number of local representatives on account of their remoteness.

FOR CLEANER SPORT.

The question of having an intercollegiate agreement has long been agitated locally, on account of the fact that Maddock's men were frequently at a disadvantage on account of having to meet teams which played ringers, and were built to win, regardless of whether a player truly represented the school, or was hired to play. It is thought that the conference will do much to bring cleaner sport to the intermountain section.

TRACK WORK BEGINS.

Athletes at University Preparing for Spring Field Events.

Track work at the University of Utah begins in earnest today, following the division of the track men into squads each under a specially qualified leader, who will train the new men for the events in which they are entered. Coach Maddock has selected eight squad captains from the veteran track men, and under their direction about 20 men will be worked down into trim for the state and interstate meets this spring.

The captains chosen are: Sprints, "Fuzzy" Moore; broad jump, Swapp; middle distances, George Brown; long distances, Hunt; hurdles, Russell; high hurdles, Parke; low hurdles, Hunt; pole vault, Russell.

In each squad, the following men will be included: Sprints, Moore, Pitt, Parke, Wilcox, Russell; middle distances, Brown, Swapp, Judd, Scott, and Scranton; long distances, Hume, Judd, Dresser, Hillard, Clayton and Lieberman; hurdles, Parke, Hunt and Bates; weights, Russell, Russell, and Bobbs; jumps, Nielson, Anderson, Swapp and Hedges.

TWO TEAMS NEXT YEAR.

First and Second Football Elevens in The Field.

Next year Utah is to have two full football teams in the field, each with its own playing schedule. This was determined upon at a meeting of the athletic committee of the faculty today, and it was further decided to appoint a manager for the second eleven at the same time a manager to the first eleven is chosen. The second team will try to arrange games with the Salt Lake High School, the Ogden High School, the Logan second team, the Albany Normal School of Idaho, the Foothill Academy, and other secondary educational institutions.

CHARGES AGAINST HALVERSON

District Attorney Directly Accused of Dereliction of Duty.

(Special to the "News.") Ogden, Feb. 28.—An accusation and citation was filed this afternoon against District Attorney George Halverson, charging him with dereliction of duty and the failure to file information against three criminals who had been bound over to appear before the district court within the 30 days prescribed by law.

The papers were filed by Atty. R. S. Parnsworth and bore the signature of Henry Westler, the father of the young man who, it is believed, was found murdered in this city some six years ago, and whose murderers were never brought to justice.

The three cases cited are those of Joseph Kendall, who was convicted of murder; Ed Daly, charged with perjury and eventually discharged; and Mike Berlin, charged with extortion and who eventually skipped his bonds.

LATE LOCALS.

Will Return Tomorrow—Surveyor General and Mrs. Hall will return tomorrow morning, from an extended visit to southern California.

Will Meet Tonight—The committee on teachers and school work of the board of education will meet tonight at 7:30 o'clock in the office of President O. W. Moyle.

Injured Man Improving—Thomas Gray, the laborer who was buried alive yesterday morning, after being entombed in a hard work, is steadily improving, but has a very sore side, and swollen legs.

Free Phones Tendered—The See America League office in Salt Lake has been tendered the free use of the Rocky Mountain Bell telephone lines in Utah, Idaho, Wyoming and Montana.

Mayor Approves Lease—The lease between Salt Lake City and the Utah Amalgamated Copper company, whereby the latter secures a two years' lease on the old Pascoe lime quarry just north of the Warm Springs, has been approved by Mayor Thompson.

Persell in Court—Harry Persell was before United States Commissioner Charles Baldwin today, and was bound over in the sum of \$300, to appear at the April term of the circuit court. Young Persell is but 13 years of age, and is accused of robbing the mail box of Auerbach's store, at the postoffice.

Will Punish Offenders—City Humane Officer Herlinger states that he will rigidly enforce the humane ordinances of the city in the future. He has been lenient with the violators of the ordinance the past few months but from now on any one caught mistreating dumb animals will be prosecuted to the full extent of the law.

Mr. and Mrs. Hall Home—Mr. and Mrs. L. E. Hall have returned from Los Angeles, bringing with them Mrs. Hall's mother, Mrs. Hood, who is also mother of Chief Engineer Hood of the Southern Pacific. Mrs. Hood is in better health, and it is hoped that the change of altitude and climate will have a favorable effect on her.

Five More Tonight—The Elks will brand five mavericks tonight, and preparations have been completed for a very successful and very enjoyable evening. In the club house, ladies' night. Arrangements have been made with the Frer-er Brothers to furnish a musical entertainment between the dancing, and Secy. Raybould has outlined a very pleasant program.

Student Seriously Ill—James Adamson, the youngest son of Mr. Andrew Adamson, a prominent business man, is seriously ill with appendicitis at his home and is closely attended by Drs. Worthington and Paul. Hopes are entertained for his ultimate recovery although his condition is very serious. He is a student of the University of Utah and is highly esteemed by all who know him.

More Snow Coming—The weather map today, shows the approach of a snow storm with a low barometric area covering the entire country west of the 95th meridian, and with the coming on of a cold front from the northwest. Western Wyoming. Nearly three inches of snow fell at Pocatello last night, and it has been storming at Boise. The mercury has been falling rapidly today, with a cold wind blowing from the northwest.

University Chronicle Out—The Chronicle appeared at the University of Utah campus this morning, and proved to be an exceptionally meritorious number. A well drawn cover design in green, with a red "U" in the center, attracted attention, while humorous takeoffs on the recent jury in the case of the University of Utah, and other items of local interest are prominent. An editorial discussed rather freely the faculty policy of handling student affairs.

Banquet at Alta Club—The out of town officials of the Rocky Mountain Bell Telephone company who have been attending the annual meeting, returned home this morning, prepared to carry out the operations, and improvements generally outlined at the meeting. The banquet given last night, by General Manager Murray at the Alta club was a very enjoyable function, and included the directors and heads of departments as guests.

Big Bank Clearing Gains—Today's local bank clearings amounted to \$376,548.49 as against \$458,396.77 for the same day last year. The clearing for the month of February, 1935, amounted to \$2,323,733.31 as against \$1,954,885.54 for the month of February last year. This is an increase of \$368,847.77, the size of which will be apt to attract attention, and is tangible evidence of the remarkable increase of business in this city.

Thompson Is Complacent—E. D. R. Thompson is inclined to make merry over the special dispatches of the morning, which seem to cast a shadow over the probability of the proposed Utah local land office. He remarked this noon that he has a recent letter from Senator Sutherland entirely favorable to his appointment, and making no reference to any possible obstacles. Mr. Thompson says he has no fear as to the outcome, and believes that he will be appointed Register. Mr. Hobbs says he knows nothing whatever of the reported hitch in the proceedings, and sees nothing to indicate what the original plan will be carried out.

WEATHER REPORT

Record at the local office of the weather bureau for the 24 hours ending at 5 a. m. today:

Barometer reading at 6 a. m. 30.15 inches; temperature at 6 a. m. 49 degrees; maximum, 56; minimum, 40; mean, 48, which is 11 degrees above normal. Precipitation since the first of the month, 1.58 inch, which is .39 inch above the normal.

Accumulated excess in precipitation since Jan. 1, 34 inch.

Relative humidity 44 per cent.

FORECAST TILL 6 P. M. THURSDAY.

Local forecast for Salt Lake City and vicinity:

Rain or snow and much colder tonight and Thursday.

IF DREAMS WERE SOLD.

If dreams were sold in exchange for gold, I'd buy a dream of thee. Your eyes of blue, with love so true, And looking up to me. Your tender smile and maiden voice. For which I'd give my gold—And love so true I'd give you. If dreams were sold!

If dreams were sold in exchange for gold, My purse I'd empty, dear. Even though I knew the shadow of you Only would come to me. And the echoed voice would be my choice In exchange for my gold; I would deem it a happy dream If dreams were sold!

If dreams were sold in exchange for gold, Happiness I'd buy. Though far away I'd dream some day That your love would light your eye, And the love would be done for me. The love that a new, yet old, And the dream of you may yet come true, The dream that's last! —Earle E. Griggs.

BRIDAL LORE.

A January bride will be a prudent housekeeper and very good tempered. A February bride will be a humane and affectionate wife and tender mother.

A March bride will be a frivolous chatterbox, somewhat given to quarreling.

An April bride will be inconstant, not very intelligent, but fairly good looking.

A May bride will be handsome, amiable and likely to be happy.

A June bride will be impetuous and generous.

A July bride will be handsome and smart, but a trifle quick tempered.

An August bride will be amiable and practical.

A September bride will be discreet, affable and much liked.

An October bride will be pretty, coquettish, loving, but jealous.

A November bride will be liberal, kind, but of a wild disposition.

A December bride will be well proportioned, fond of novelty, entertaining, but extravagant.

FIREPLACE MOTTOES.

There was once a man who had the following motto carved over his fireplace: "I have had many troubles in my life, and most of them never happened." It was certainly a motto to set people thinking.

Over the fireplace in Mark Twain's home in Connecticut is this inscription: "The ornament of a house is the guests who frequent it."

A certain young couple checked many a garrulous tongue by putting above their living room fireplace the words, "In this room speak ill of none."

Here are a few other mottoes which will serve for hall, library or chimney corner:

"A man's home is his castle."

"East or west, home's best."

"Old wood to burn, old friends to trust, old books to read."

CHEAP CUSHIONS.

A very good substitute for down or feathers in cushions is found in the cork dust used for packing fruit, principally grapes, from abroad. This can be bought quite inexpensively from grocers and fruiters, for when the fruit is unpacked they have no further use for it.
