

MONDAY, TUESDAY, WEDNESDAY.
are good days for advertising in the want
columns of the "News." Other good
days are Thursday, Friday, Saturday.

LAST EDITION.

Pope's Condition Is Very Grave.

His Continued Weakness, Which is Complicated With Functional Disorders, Alarms His Physicians—He is Restless And Drowsy and Falls Asleep Frequently—Realizes His End is Near—Little Hope of His Recovery.

Rome, July 8, 7:15 p. m.—An evening approach, the pope's condition grew alarmingly worse and there is serious fear that he will pass away during the night.

His condition is not improving, as a result of his great prostration and very great weakness. There was no amelioration in the working of the kidneys, which was contrary to expectation after yesterday's operation. Up to 3 p. m. the patient had not passed any urine.

Tonight's bulletin is anxiously awaited, as it is known that it will be issued after a thorough examination and it will be considered a final verdict and also because it will tell the whole truth as the result of criticism of the treatment and the proposal to consult other doctors.

Rome, July 8, 6:45 p. m.—The pope's condition is very grave. His doctors are alarmed at the continued weakness which is complicated by certain functional disorders. His condition is restless and drowsy, frequently falling asleep.

A SUDDEN CALL.

6:25 p. m.—A few moments ago Dr. Mazzoni was suddenly called out of the sick chamber by Cardinal Rampolla and a hurried conversation ensued. This gave rise to all kinds of rumors, but it was soon explained that Cardinal Rampolla had taken upon himself the duty of acting as mouthpiece for some of the intimate friends and relatives of the pope, who suggested the advisability of calling certain other doctors in consultation. Dr. Mazzoni replied that he had not the least objection to such a consultation, but that the symptoms and condition of the pope were so clear and well defined as to leave no doubt as to the diagnosis.

He was therefore unable to see the necessity for the consultation, and his decision has yet been reached about the matter.

MORNING BULLETIN.

Rome, July 8.—The physicians in attendance upon Pope Leo at a quarter to 10 o'clock this morning posted the following bulletin:

"The night passed tranquilly enough, although the pontiff had no restorative sleep. The pulse was frequent but regular. Breathing was as free as last night. The condition of the pope's whole system is such that it is not possible to permit of a long examination, but it seems that the pneumonia tends to subside and that the pleuritic fluid is not re-accumulating. However, the general condition of the pope is such as to transpire, because of the state of depression which at intervals increases. (Signed.)

PRO PONTIFICO INFIRMO.

The churches this morning were more crowded than in the past with people interested for the recovery of the pontiff, repeating the Pro Pontificio Infirmitas. An instance of the strain prevailing among the people is the case of a woman who tried to throw herself into the St. Peter's river and was rescued.

He tried to throw himself from a considerable height but was rescued and taken into custody. The only noticeable thing Pope Leo now seems to prefer is the yolk of an egg mixed with marmalade.

Dr. Mazzoni, shortly after he received the pontiff, said:

"This is the first time since the beginning of my illness that I have had some really peaceful sleep. It is the effect of the operation."

The pope then observed: "There is one thing you will not accomplish—eliminating the yolk of an egg mixed with marmalade."

The most important thing now recommended by Dr. Mazzoni is nourishment for the patient, saying: "Plants need water when dry."

CONSEQUENCE OF OPERATION.

As a consequence of the operation performed yesterday, the pope's condition has improved, but it is not so favorable as it was last night, due to the fact that the operation was not so successful as hoped. The doctors wish, though inflammation of the lungs is decreasing the patient's general condition is not so favorable as it was yesterday. The pope is still very weak and even when he is awake he has lost his power to give the sufferer the relief of tranquility. Besides, what depresses the pope is the difficulty he is experiencing in breathing. At times he appears to be upon the point of strangulation and when his breathing gradually becomes weaker until his heart apparently stops. Another great preoccupation of the doctors is the fear of a pneumonia of the lungs.

HOPE OF RECOVERY SMALL.

The outlook now is that the pope's life may perhaps be prolonged more than could have been expected 36 hours ago, but hopes of his recovery are still very small.

The following particulars were obtained of the doctors visit this morning to the pope:

"Do not feel his holiness?" asked Dr. Mazzoni.

"I do not feel so well. I am weaker," replied the pope.

"Perhaps you did not sleep sufficiently?"

"No," answered the pope. "I was better last night. I am very sorry because today should have been a day of great work."

"Surely," Dr. Mazzoni replied, "his holiness does not intend to work?"

"Certainly," answered the pope. "I have many things to do, but I am afraid I have not the strength."

Both the doctors and the pope realized the point of the necessity of

rest, urging him not to place obstacles in the way of his recovery.

"I shall do as you wish," said the pope, in conclusion, with a sigh of resignation.

After his holiness expressed a desire to rise, the pontiff walked a few steps to his arm chair, repeating now and then "I am weaker, I am weaker."

Part of the work referred to by the pope was to receive a message from the Madonna of the Cervini, whose feast begins today. The pope is a very devoted venerator of this Madonna, always carrying her scapular about his neck.

The intense anxiety regarding the pontiff's condition which is felt throughout the Italian states is shown by the receipt of a very large number of telegrams from eminent American prelates and lay Catholics in America, making anxious inquiries and expressing the hope that the prayers for his recovery will be answered.

HE IS VERY SENSITIVE.

Dr. Mazzoni, speaking about the pope this afternoon, remarked: "It has always been said that Pope Leo has shown a degree of extraordinary resistance to disease of the constitution, which is little known, enjoys the absolute harmony of all his organs and the physical, moral and intellectual qualities, which is the real cause of his great resistance to illness. Notwithstanding his advanced age and his present weakness, the pope has a constitution capable of enabling him to recover."

The difficulties and delicate situation are created by the reality of the pope. He is a very sensitive man and a person to whom a simple ailment of coffee causes great suffering for about three hours. Three years ago, when I operated on him for a kidney stone, he did not suffer, but in reality, he did suffer intensely.

"He would take yesterday from the hours may gather again and another operation may be necessary, but I hope not. Some of the liquid may remain and often the little which is left is spontaneously absorbed, which may be the case with the pontiff."

TELEGRAMS FROM KINGS.

Rome, July 8.—The arrival of telegrams from all parts of the world addressed to the pontiff has been so numerous that the minister of posts and telegraphs has been obliged to refuse to accept any more. The telegrams of the kings and queens, besides establishing a special service in the transmission, delivering it to the pope's apartments, and from the emperor to dispatches to and from the Vatican.

Emperor William, King Edward, King Leopold, King Alfonso and the queen have all sent telegrams. Emperor Francis Joseph, the king of Saxony and King Carlos of Portugal make frequent inquiries by telegraph as to the condition of Pope Leo.

THE POLITICAL SITUATION.

Although Pope Leo is one of the best loved of the people, the political situation is now that while there is one party which would do anything possible to have him longer, there is another party which thinks a change in the papacy would bring about their interests, as well as those of the church. The former party is composed of all the friends of those who are now in power and who have secured the best position as well as financially. These understand that the change may mean practically nothing for them.

The other party is composed of all those who have been kept in the background and whose only hope is in a new administration. In the presence of a change in the papacy, this party is now generally bringing a change in all the great departments, including the papal secretary of state and the papal treasury.

The change in the papacy is a change in the papal secretary of state and the papal treasury.

papal government which necessitates his attendance under the circumstances. His action is quite independent of the French government, which has not contemplated the exercise of any influence over the conclave.

Many people continue to call and pray for the pope are offered hourly in the chapel. Madame Loubet again called today.

LOUBET PROCEEDS TO WINDSOR CASTLE.

London, July 8.—Although President Loubet did not leave until late after midnight, he rose at the customary hour, 6:30 a. m., and started on another long day's functions at about 9 o'clock, when, accompanied by Foreign Minister Del Caste, ambassador Cambon and his suite, the president proceeded to visit Windsor castle. He traveled in the king's train, and was met at the railway station by the mayor and corporation of Windsor, who welcomed him to the royal borough. The president drove to the castle, escorted by the royal guard, and inspected both the state and private apartments and visited the museum at Frogmore, where Mr. Loubet deposited a wreath on Queen Victoria's tomb. The president subsequently returned to London.

King Edward, Queen Alexandra, President Loubet, the Prime and Princess of Wales, the Duke and Duchess of Cornwall, Foreign Minister Del Caste, ambassador Cambon and others proceeded to Aldershot this afternoon for the purpose of reviewing the first army corps.

On their arrival at Farnborough, the party drove to the review plain, where King Edward in a field marshal's uniform, and wearing the ribbon of the Legion of Honor, mounted a charger and preceded by a carriage, in which President Loubet and Queen Alexandra were seated, drove to the pavilion. From this point they witnessed the review of 16,000 troops of all arms, which was the first time since the war that the king had seen a military review.

After the king had inspected the troops, the infantry marched past in column, the cavalry followed in a similar manner, and the review ended with a salute. Massed bands played "God Save the King" and the "Marseillaise."

On returning to the railway station, the party traversed a long avenue formed of 115 field and siege guns. The review attracted great crowds of spectators, who gave the members of the party a splendid reception.

SUDEBAKER BROS. FIRE.

Their Carriage and Wagon Depository in San Francisco Burned.

San Francisco, July 8.—The big carriage and wagon depository of Studebaker Brothers, on the corner of Market and Fifth streets, was destroyed by fire this morning. The four-story and basement brick structure was completely gutted. The walls remain standing, but the interior is a mass of ruins. The fire started in a storage room, which is almost a total loss. All that was saved was in a recently erected annex to the main building. It is estimated that the loss to the firm is \$200,000, partly covered by insurance.

The fire was discovered by a passing policeman and a general alarm was sounded. The flames ran up an extensive stock, which is almost a total loss. The fire was discovered by a passing policeman and a general alarm was sounded. The flames ran up an extensive stock, which is almost a total loss.

Boise Has a Double Tragedy

John Mitchell Shoots His Wife and Thens Turn the Gun on Himself—Both are Dangerously Wounded, the Latter, it is Believed, Fatally—Family Troubles Said to be the Cause of the Tragedy.

(Special to the "News.")

Boise, Ida., July 8.—About 7 o'clock this morning John Mitchell, an old and respected citizen of this community, shot his wife through the head and then committed suicide. Mitchell and his wife have been having considerable trouble of late, owing largely, it is believed, to Mitchell's rather violent temper. Lately she had him arrested for assault for knocking her down, but the trouble was patched up, and Mitchell went away but returned and yesterday

bought a revolver at a hardware store. This morning he began shooting at her, the bullet striking her just below the left eye. She fell and he fired another shot, but missed. Then the neighbors started to interfere and Mitchell turned the gun on them, but without effect. He then went up stairs and shot himself in the right temple. There is no hope of his recovery, and he is now practically dying. Mrs. Mitchell's wound is not believed to be fatal, although it is serious. The immediate cause which led to the double tragedy are not yet known.

BOISE'S ELECTION SQUABBLE.

Democrats Apply for a Writ of Mandate Compelling City Clerk Perkins to Place the Names of Their Fusion Candidates on the Official Ballot—Conflicts With the Law.

(Special to the "News.")

Boise, Ida., July 8.—Judge Stewart of the district court this morning heard arguments upon application of the Democrats for a writ of mandate compelling City Clerk Dean Perkins to place the names of the Democrats upon the official ballot for the coming election. Under the provisions of the law passed by the last legislature with a view to preventing fusion, it is illegal for one name to appear twice on a ballot, and, acting on this law, the city clerk refused to permit the names of a portion of the Democratic head, as they had been previously named by the Union Citizens' convention.

The Democratic contention is that this provision of the statutes is unconstitutional as it abrogates the political powers and privileges of the people to name whatever party candidates they desire, and also that the law was passed in an improper manner by the legislature. The order was issued to show cause why the writ should not issue, returnable tomorrow morning.

A BAD IDAHO ROAD HOUSE.

John Dobbins, Sugar Factory Employee, Was Murdered There—Citizens Aroused and They Will Raze it to the Ground Unless County Commissioners Close It.

(Special to the "News.")

Idaho Falls, July 8.—Citizens are aroused here to a high pitch over the murder of John Dobbins, an aged employee of the new sugar factory. Official inquiry develops the fact that he was killed at the road house, about a mile from town, and that his companion, P. J. McHenry, committed the deed. McHenry has been heard from at Dobbins' death, where he was one of the men who were with him on his trip, however, and it is believed that he will be apprehended.

The Road House in question is a veritable den of iniquity and numerous questionable deeds have been committed within its precincts. The murder of Dobbins is simply a culmination of events. Conservative citizens said today that unless the place was permanently closed by the city, they would raze it to the ground. They believe that they would take the matter in their own hands and raze it to the ground. It is entirely probable that the city will take action to close the place, but it is believed that the citizens will take the matter in their own hands and raze it to the ground.

"JIM WAS JUSTIFIED," SHE SAID.

Confession of Mrs. Stewart, Who Was Probably Fatally Shot by Her Suicide Husband at Idaho Falls—Lingering at Death's Door She Says, "I Was Untrue to Him."

(Special to the "News.")

Idaho Falls, July 8.—Mrs. Stewart, who was probably fatally shot by her suicide husband at Idaho Falls yesterday morning, is still lingering at death's door. The doctor says she has about an even chance for recovery, though friends do not share the same opinion. They believe that there is little hope for her. The unfortunate woman is apparently of the same opinion; and realizing the seriousness of her condition and that death may come at any time she regrets exceedingly the deplorable affair. She has confessed that she is guilty of violating her marriage vows and said:

"Jim was justified. I was untrue to him and he should be blamed. It was my fault. I am very sorry, and my fate should be a warning to other women."

The woman whose name is associated with Mrs. Stewart's death is J. W. Thomas, and not Thompson as given yesterday. He says he is wrongly accused. Mrs. Stewart has not yet stated who "the man in the car" was. The body of the suicide is yet undisposed of. His aged mother reached here today from Leth and his brother, John, came in on the same train from Garland. They will make arrangements for the funeral during the afternoon.

BODY OF A MAN.

Clas: Watch kept for it Below International Bridge at Buffalo.

Buffalo, N. Y., July 8.—A close watch is being kept along the river below the international bridge for the reappearance of the body of a man, now believed to be Ed Deleahanty, the famous baseball player, who fell through the open draw of the bridge last Thursday night. The body was not seen until the body of a man, now believed to be Ed Deleahanty, the famous baseball player, who fell through the open draw of the bridge last Thursday night. The body was not seen until the body of a man, now believed to be Ed Deleahanty, the famous baseball player, who fell through the open draw of the bridge last Thursday night.

Philadelphia Boat Lanceshire.

Manchester, England, July 8.—The Philadelphia cricket team left the Lancashire eleven today by nine o'clock. The score was 34 off one wicket down in the visitors' second inning.

Gold for Europe.

New York, July 8.—Gold to the amount of \$1,500,000 has been shipped to Paris tomorrow. Lazard Freres will ship \$1,000,000.

New York to Get Hardest Hands.

Bison, Kan., July 8.—Forty farmers stopped a Missouri Pacific train here last night and went through it, searching for harvest hands. The train crew, however, does not stop here and the farmers flagged it by means of a lantern wrapped in a red handkerchief. They then searched the train for harvest hands and found none. The train was then allowed to proceed.

Empire Struck Flier.

New York, July 8.—Empire Sheridan, who struck Right Fielder Green of the Chicago "White Stockings" during the game yesterday, in court today explained that Green had used insulting language. Sheridan was discharged.

NEGROES AT AUCTION.

Sold for Harvest Hands in Russell, Kansas.

Topeka, Kan., July 8.—A dispatch to the State Journal from Russell says two negroes were bid off on the auction block for harvest hands Tuesday afternoon.

noon. They were John and Harper Porter and known as good workers. The bidding was spirited, starting with \$2.50 per day. August Reinhardt finally secured them on a bid of \$3.25 per day. Adam Bender was the auctioneer.

At Victoria, B. C., another colored man asked for bids for a hand who would pitch to the stack all of the grain one header could cut. On this condition the negro brought \$5 per day bid.

Naval Academy Candidates Pass.

Annapolis, Md., July 8.—Twenty-six additional candidates for the naval academy have passed the mental and physical examinations and have been admitted as midshipmen. This brings the number of members of the "gold" class up to 237 with about 15 more to be heard from. Among the additional candidates who have passed are: C. C. Kravok, Iowa; H. T. Kays, Arizona; J. H. Knapp, Missouri; C. M. Kenyon, California; Joseph Baer, Missouri; R. B. Horner, Colorado.

TROOPS CONTROL IN EVANSVILLE.

Evansville, Ind., July 8.—The city passed a quiet night with 400 soldiers camped around the courthouse and jail and in the park. Not a gun was fired and no street gatherings were seen. Governor McKee is practically in control of the city. Troops will be held here, it is believed, until tomorrow night or Friday morning. The Evansville company will be relieved today. When this company scatters to the homes of its members, some trouble is feared in individual cases, due to the feeling against the troops. The general feeling of business interests and influential citizens is that the soldiers in firing into the mob did what was necessary.

Business is practically suspended, all saloons are closed and several factories have shut down. The first of the victims will be buried this afternoon. Five funerals will be held tomorrow. It is believed there will be three other deaths, at least, making the total dead 12 or more. The effect of the funerals is dreaded and another outbreak is feared.
