

MINING, BUSINESS AND STOCKS

DAILY JUDGE ENDS WEEK STRONGER

Advance in Price of This Stock One of the Features of Exchange Transactions.

DAILY AND NEW YORK ACTIVE.

Demand for Tintic Stocks—May Day Attractive—Today's Quotations And Sales.

This has been a fairly good business week on the Mining Exchange, and altogether, 244,065 shares were sold for \$135,377. Daily Judge has enjoyed a healthy advance, and the stock is in demand around \$3.50 a share, with few offers at that price.

The Alta snowdrifts had no serious effect on Columbus Consolidated. The annual meeting will be held next month and until it takes place it is hardly likely there will be any radical advance in the stock.

The closing quotations and sales today were, as follows:

TODAY'S QUOTATIONS.

Table with columns: Stocks, Bid, Asked. Lists various mining stocks like Alex, Bullion, Carissa, etc.

NEVADA STOCKS.

Table with columns: Stocks, Bid, Asked. Lists Nevada stocks like Tonopah, Belmont, etc.

REGULAR CALL SALES.

POLLOCK FOR PRESIDENT.

Stock Exchange Election Today Likely to Result in His Retention.

THE BOSTON CON.

Manager Cates of the Boston Consolidated Mining Company was a visitor at the office of this company today.

Today's Metal Quotations.

Table with columns: Metal, Price. Lists silver, copper, lead, etc.

NEW YORK QUOTATIONS.

Table with columns: Metal, Price. Lists lead, copper, etc.

VALUATIONS ARE BEING MADE FOR THE ADDITION OF THE ORE BLIND AT THE SULLY MINE.

Mr. Cates says he has experienced considerable success in getting consents to keep up regular ore shipments.

TINTIC ORE SHIPMENTS.

What the Mines of Juab County Have Done This Week.

SPECIAL CORRESPONDENCE.

Eureka, Utah, Jan. 26.—The following is the list of shipments made by the Tintic properties for the week ending Jan. 26.

BAMBERGER-DELMAR.

The Bamberger-Delmar Gold Mining Company has in transit \$3,321 worth of bullion, representing the output of that company during the first half of January.

DAVIS ON MANHATTAN.

Nevada Mining Man Speaks of It in Glowing Terms.

Diamondfield Jack Davis and Sheridan B. Baker have just returned from a 10-day trip to Manhattan and brought with them many samples and specimens of ores from the properties in that camp in which they are interested.

Mr. Davis interviewed these gentlemen and interviewed these gentlemen in the most glowing terms and exhibited some remarkable specimens taken from their leases.

Mr. Davis stated that this group had been secured by the Manhattan district and gave it as his opinion that this mountain would prove to be the apex of a majority of the leads in the district and to be the biggest property there on development.

Some remarkable assays have been secured from the outcroppings on the Atlantic and Pacific, running \$100, \$100 and \$100.

In his statements Mr. Davis was corroborated by Mr. Baker, and both gentlemen gave it as their opinion that the Manhattan district had been secured and predicted for it a future as great or even greater than heretofore attained by any district in this state.

The Atlantic and Pacific mountain is located about 900 feet from the famous Stray Dog claim and about 1,500 feet from Union No. 9.

ARIZONA COAL SHORTAGE.

Smelters in Copper Camps Kept in Operation With Difficulty.

Arizona mining camps are suffering from a coal shortage and it is with considerable difficulty that some of the smelters are being kept in operation.

The Bisbee Review says relief cannot be expected from the strain underfoot for months and probably not under six.

It will require that time to return the supplies at the smelters to a safe surplus basis. At Douglas the Calumet & Arizona is in better shape than is the Copper Queen. Both will be in luck, however, if they succeed in getting through.

The serious result to Bisbee is in the fact that the smelter situation makes the important increases in ore production from the mines of the camp, anticipated for the early part of the year, out of the question.

As regards the causes for the scarcity of coal in New Mexico and California, the northwest, middle west and east, together with a rush of grain and industrial freights, are said to be responsible. Hundreds of cars are spotted in New Mexico, loaded and in transit when overtaken by the storms.

However, the coal men of New Mexico, whether justly or unjustly, attribute the cause of the trouble to the difficulty they have had in recent months in securing cars for the transportation of their outputs.

UTAH COPPER.

What President McNeill Had to Say in His Annual Report.

In his report to the stockholders of the Utah Copper company, who met in annual session at Jersey City, N. J., yesterday, President C. M. McNeill stated that the average assay of 1,000 samples, which are so nearly identical with that of the average of the ore sent to the mill during the year that it can be stated that a fair average of the value of all ore developed is 1.28 per cent copper, an 4th average value of gold and silver is .016 and .15 ounces to the ton, respectively.

"It will be remembered," said Mr. McNeill, "that the mill in the first instance was erected and has been used largely as an experimental plant for the purpose of determining the most economical and feasible plan to be followed in the larger operations of the company, which are now under full progress.

"The various and extensive experiments necessary to be conducted to a considerable extent with the continuous operation of the mill, and therefore reduced the actual number of tons treated considerably below the maximum capacity of the plant, but all of these experiments and the resulting expenditures have been made, as before stated, with the idea of directing the company in the construction of its new plant and, from the results already obtained from the practical operation of the company's present mill, we are justified in stating that the first unit of 2,000 tons per day of the new mill will be able to produce copper at 30 per cent."

BUTLER-LIBERAL WILL ASSESS.

Directors Will Meet Next Monday To Call on Shareholders For \$10,000.

COMPANY'S INDEBTEDNESS.

It Amounts to About \$6,000—New Management Will Continue Development.

A meeting of the directors of the Butler-Liberal Mining company has been called for next Monday, at which time an assessment of 2 cents a share will be levied on the capital stock of the corporation, which, if all collected, will bring into the treasury about \$10,000.

The company, at the time the control passed into the hands of Walter C. Orem and associates had an indebtedness of about \$6,000. There being no other means of raising the money necessary to pay this off and it being the purpose of the new management to keep development work going, an assessment was necessarily resorted to.

The action to be taken by the board of directors has not been unexpected.

The Butler-Liberal mine is located in Marckham gulch in Bingham, and joins sidelines with the New Lead Wing property, which is being developed under the direction of the Utah Development company.

BOSTON STOCKS.

James A. Pollock & Co., furnished the following quotations from Boston today:

Table with columns: Stock, Bid, Asked. Lists Boston stocks like Bingham, Con. Merc., etc.

NEVADA STOCKS.

James A. Pollock & Co., brokers, reported the following quotations from San Francisco today:

Table with columns: Stock, Bid, Asked. Lists Nevada stocks like Tonopah, Belmont, etc.

CONCENTRATES.

W. V. Rice is in Boston on mining business.

Supt. Percy Williams of the Eagle & Blue Bell mine came up from Tintic this morning.

The Pioneer sampling works had 2 cars from Bingham, 2 from Nevada and 1 from Stockton today.

The annual stockholders' meeting of the West Quincy Mining company has been called for March 15.

At the T. & B. sampling works 2 cars of ore from Bingham, 6 from Tintic and 3 from Nevada were received.

The ore and bullion settlements reported late yesterday were as follows: Crude ore and concentrate, \$26,760; base bullion, \$41,300.

H. B. Cole of the brokerage firm of Child, Cole & Company, departed this afternoon on a trip to Goldfield and Tonopah. He expects to go over the new Manhattan district before returning.

Reports coming from the Silver Shield and Carissa properties in Bingham and Tintic are of a very satisfactory nature to those concerned in the management of those properties.

A report from the Silver King Consolidated last night indicated continued improvement in the physical condition of that property. The showing in the bottom of the shaft is encouraging indeed.

STOCKS WANTED.

3,000 shares Independent Telephone Co. at 20 cents.

34 shares Con. Wagon & Machine Co. preferred at \$12.00.

30 shares Con. Wagon & Machine Co. common at \$102.00.

OTTO O. OBLAD & CO.

Stocks wanted: 3,000 shares Independent Telephone Co. at 20 cents.

MARKET UP TO ALL TO PIECES.

Opening Dealings Active, Prices Going Above Last Night's Level.

THEN CAME LIQUIDATION.

Was in Reading Which Weakened Everything—Closing Decidedly Weak And Irregular.

New York, Jan. 27.—Opening dealings in the stock market were very active and carried prices above last night's level with but few exceptions among the important stocks.

Successful efforts to put on Ontario & Western Metropolitan Street Railway and Locomotive, were interrupted by an immense volume of liquidation on Reading which weakened the entire market.

SECRETARY TINGEY ON CONTINENTAL.

Makes Statement Concerning Local Life Insurance Company Now Under Investigation.

BELIEVES IT IS ALL RIGHT.

Examination of its Books and Affairs Made at Instance of President Tyce, Now Absent.

In view of the fact that there has been some local agitation in this city recently in regard to the operations of the Continental Life Insurance & Investment company, a local organization in which the standing of the company has been questioned, the "News" today received from Secretary of State Tingeey, insurance commissioner of the state, official information on the subject which also contains a statement as to what action, if any, he would take towards investigating its affairs.

Owing to the absence from the state of Mr. Tyce, the president of the Continental Life Insurance & Investment company, the secretary of the state, Mr. Tingeey, has been requested to investigate its affairs.

Mr. Tingeey has been requested to investigate its affairs, and he has been requested to investigate its affairs.
