THE BUTLER CAMPAIGN-COLO-

RADO DEMOCRATS.

Chicago, 24.—The rallway problem in the West has finally been solved. At the adjourned session of the general managers of the Western and Southwestern roads, held here this afternoon, the initial proposition to form four pools on the Colorado and Utah business, taking the Missouri river as the dividing line and making two pools east and two pools west of that stream was finally unanimously agreed upon. The action of the conference provides that the rates shall be maintained unitil October 6th, when, provided the agreement is signed by the presidents of the roads, the pools will enter into effect and remain in force until the close of the present year. There appears to be no question but that the pools will receive the sanction of the presidents, and the new combination is already looked upon as a fixed fact. The eneral freight agents of the several lines will meet to-day, to agree upon the tariff, and the celicate duty of arranging the percentage has been referred to John F. McKee, as in the case of the newly formed Nebraska pool. The commissioners for the two pools will be named hereafter. The result will be named hereafter. The result achieved to-day is naturally looked upon as a complete abandonment of the tripartite agreement. As the advantages given under that compact to several of the roads are entirely waived, it divest that combination of the power of making Western rates beyond the Missouri River, and the new compact provides for a pooling of all the Union Pacific business. It is not expected that the formation of the new pools will result in any advance in the published tariff rates, but will simply insure their maintenance and cause a restoration of the tariff rates between here and Southwestern points.

Workester, Mass., 24.—The convention of the People's party was called to order by Col. A. C. Drinkwater, who welcomed the delegation to the dirst convention of the people's party, and the true democratic party of the country. He welcomed all, no matter what their political affiliations might have been, and then alluded to the wonderful campaign made by Butler last year, notwithstanding all opposition was concentrated upon him by the self-constituted leaders of the democratic party, the press and the pulpit. "These self-constituted leaders of the democratic party, the press and the pulpit. "These self-constituted leaders," said Drinkwater, "ask us to follow them this year, when they admit they were wrong last year. It is mere presumption to say to the representatives of the people's party that they are wrong in advocating the election of Butler. We have met to lay the foundation of party that has come to stay, and one which will yet be successful."

It having been announced that Butler would reach Worcester at noon, the convention adjourned to proceed to the depot in a body and escort their candidate to the hall.

Judge McCafferty was unanimously nominated for Governor.

The ticket was completed as follows: Lieut. Governor, John F. Marsh; Secretary of State, Col. John P. Sweeney; Treasurer, Nathaniel Cushing; Attoracy General, Thomas W. Clark.

The platform of this first convention of the People's party found premature publication, and was therefore neither crisp nor fresh when read to the assembled delegates. The platform is in harmony with the declaration of principles made at Indiamapolis, and with the letter of acceptance of General Butler, also with his subsequent speeches. The committee on resolutions however, gave a measure of newness to the original production by adding thereunto the resolution reaffirming the platform of General Butler at Chicago, demanding a law making employers liable for accidents caused by maglect to supply appliances for safety from machinery and from fire; also a resolution demanding the enforcement of the National eight hour law, and the frequent payment of employees by corporations; a resolution demanding the repeal of the tax qualification of the voter, and the repeal of all unjust and unnecessary restrictions in the methods of registration, and the enactment of a compnisory secret ballot law. The convention having finished its work, Butler delivered an address.

Uttca, 24.—When the train entered the depot here, every available spot beside the track and in front of the Baggs Hotel was packed.

When the train stopped at Herkinsore, E. A. Brown introduced Blaine.

At Rome Mr. Prescott, who introduced Garfield four years ago, introduced Blaine. The crowd cheered the candidate again and again. He said: "The day which is now ended, witnessed a degree of enthusiasm in the valley of the; Hudson and in the valley of the; Hudson and in the valley of the Mohawk which I was entirely unprepared to expect, and for the addition which you make to it, I return my sincere thanks. At Syracuse the grand torchlight procession was the climax. When the train arrived most of the clubs were already in line, and the crowd around the depot was great.

Washington, 24.—There is a prospect of serious trouble in this city between resident laborers and a gang of Italian and Hungarian laborers from New York engaged by Thos. The laborers here, principally colored men, have been receiving \$1.50 per day and it is said by them that these imported laborers are only to be paid 75 and 90 cents per day. A gang of 200 foreigners are encamped in Gale's Woods, just outside of the city limits, and employed on the boundary sewer in Washington. The laborers are very indignant over the importation of foreign laborers and are making threats.
