FOREIGNA

London, 26.—Gladstone has written the following letter to the Chronicle:

"It is not my custom to comment on the statements made by hostile newspapers, but having a sincere respect for the Chronicle! would call attention to the allegation made by it in a leader that I have heretofore taught that home rule in Ireland would be the source of Imperial danger. I will not challenge the proof of the assertion which was doubtless made in good faith, but it is entirely an error. I have always asked for an explanation of the meaning of home rule, in order to make clear the question whether or not it would be a source of danger. We have now learned the demand of Ireland from five-sixths of her chosen representatives. Such flome Rule, in the language of my address of September last; is the source, not of danger, but of strength. The danger, if any, lies in refusing it." Good, Clean Cotton Rags

It is stated that some of the officers now stationed in Ireland have applied to the War Office for transfer to India lest they be called upon to serve against the people of Ulster.

A dispatch from Lieks, in Galicia, reports that the town is on fire, and three-fourths of it has already been destroyed.

Soon after the City of New York arrived in San Francisco form Hongkong April 17; and Yokohama, Captain Searle was interviewed by Detective Glennon regarding Ang Tal Duck, the fugitive murderer of Jesse Wickersham and his wife. Captain Searle stated that the Mongol and all his effects were surrendered to him by the Japanese officials at Yokohama, and he in turn surrendered Duck to the British authorities at Hongkong. After the steamer left Yokohama lie murderer attempted to starve himself to death, and he positively refused to take any food. As a last resource, and to prevent him from killing himself. Duck was informed that he was only to be taken to Hongkong. When the heathen was told that he was not to be returned to California he made up for the time he lost in starving himself, and when the other passengers saw him eating they feared a famine, as his appetite appeared to be insatiable. At Hong Kong Duck was taken in charge by the British authorities, to be detained until the arrival of Detective Cox and S. P. Weston, who are armed with the necessary requisition papers for his return here. Captain Searle was informed just before leaving Hong Kong that the murderer was seeking to starve himself to death in the jall, and it is feared that he may thus succeed in defeating the ends of justice.

Inspector Cradock, on the arrival of the City of New Fork this afternoon, arrested a Chinaman named Ang Tal Duck, who is accused of the murder of Captain Wickersham and his wife in the United States. The perpetrator of the dastardly deed was a cook in the service of Captain Wickersham, and the allegation is that be, in the Captains's absence bound and outraged his wife and then shot her, completing his villainy by shooting the Captain, on his return. The murderer escaped to Sau Francisco, and was supposed to have taken ship there for Japan or Hongkong. On the details of the horrifile Crime reaching the capital of the West, the Chinese in that city subscribed \$1,000 to sid in the capture of the criminal. The news was cabled to Japan, and on the arrival of the Rio de Janeiro at that port a Chinaman answering to the description given was arrested on
