TODAY'S MONEY MARKET.

New York, Feb. 2.—Money on call, nominal. Time loans, easier; 60 days, 5 per cent; 90 days, 5¼ d63½ per cent; six months, 5½ per cent. Prime mercantile paper. 5¾ @6¼. Sterling exchange, heavy, with ac-tual. business. in bankers' bills, at 4.80.40@4.80.50 for 60 day bills; post-ed rates, 4.82 and 4.86; commercial bills, 4.80@4.80.50 for 60 day bills; post-ed rates, 4.82 and 4.86; commercial bills, 4.80@4.80.50 Bar silver, 69. Mexican dollars, 53¼. Government bonds, steady; railroad bonds, easy.

BANK STATEMENT.

Experimenting with new and untried Dentifrices is dangerous, Keep to SOZODONT, a standard for sixty years. Called "The Honest Dentifrice" because, in all that time no effort has been spared to produce a Dentifrice the teeth require. It purifies

Before Buying

the delay in moving fuel and machin-ery. "A general resumption of the situa-tion discloses a level of prices and a scarcity of supplies that has not exist-ed since the civil war, while there is the additional factor of no element threat-ening weakness, although quotations are conceded to be abnormally high. But, with the production of mills sold so for ahead, there is no interest in new business, and spot stocks are practi-cally nothing, while in many depart-ments no goods will be available for some months.

BUSINESS AT

"Packer hides have again sold at high figures on small lines, but in some sections of the market, notably for country buffs.

"Commodity markets have shown lit-tle activity during the past week and variations in prices were fractional."

New York, Feb. 2.—The statement of the clearing house banks for the week shows that the banks hold \$12,634,100 more than the legal reserve requirements. This is a decrease of \$2,923,700 as compared with last week. The statement follows:

Circulation Decrease Legal tenders Decrease Specie Increase Reserve Decrease Reserve required Increase

partment. Dr. Ebaugh's experiments were con-ducted in the valley on vegetation found in place, not on special speci-mens. It is not held that sulphur dioxide has no detrimental effect upon the vegetation, bat it is practi-cally negligable when compared with the greater damage done by the solid matter ejected from the smelter smoke stacks.

The solid emanations, which do the actual damage, can, however, be re-pressed by the proper construction of fume-arresting devices and the use of high smoke stacks. The real dam-age done is produced by the solid par-ticles settling upon the vegetation, and subsequent rains forming a very errosive solution which attacks the

are done, namely: (One) Smelters should not build too near to each other, as this prevents the air currents from properly mixing with the smelter

smoke stacks. The meeting was held at the Univer-sity of Utah and was attended by a large number of well known mining men and metallurgists. In the dis-cussion following the reading of the paper W. S. Thomas of the Bingham Consolidated stated that the results of his experiments agreed closely to those of the author of the paper which had just been read. Prominent among those who listened to Dr. Ebaugh's lecture were President

Prominent among those who listened to Dr. Ebaugh's lecture were President William G. Sharp of the United States Smelting, Refining & Mining Co., Mr. Frederick Lyon of the Kennet Smelt-ing company, controlled by the United States company, Messrs, G. C. How-ard and B. H. Bennetts of the Ameri-can Smelting & Refining company, Vic-tor C. Helkes of the United States geological survey, and Prof. Moss, formerly of the school of mines of Golden, Colo. The next meeting of the society is

torial in a recent issue of Collier's." said Broker W. H. Tibbals today. "We may ask a few questions. If you bought Red Top stock at 10c per share, bought Red Top stock at 10c per share, offer it back to the seller at 6c per share. He will gladly take it. Have you bought Mohawk at 10c per share? Offer it back to the seller at 20 per cent discount or better. Offer it back to him at a profit of 9,900 per cent, and see how quickly he will take it. Have you bought Boston Con, at \$3.50 to \$5 per share? Offer it back to the seller at this price and see how quickly he will take it. Did you buy Silver King at \$2.50 in 1892? Offer it back to the seller with \$73.33 per share in dividends that it has paid, and see how quickly it will be taken. "These are only a few of the thous-

that it has paid, and see how quickly it will be taken. "These are only a few of the thous-ands of illustrations that may be cited. I am not denying that there are some cases where prospect stocks have been sold and the money spent in the de-velopment without results. The fact still stands, however, that mining pays better than banking and the advice of Cecil Rhodes is good. His recom-mendation was, 'Buy a good mining stock: buy it low; when it has made an improbable advance, sell it; buy an-other good stock, pursue this policy, and before you dream of it, you will find your dollars have increased into thousands, and during all the time your dividends have been in any other investment that you could have made."

EASTERN MARKET GOSSIP.

The following market gossip is fur-nished by Badger Bros., brokers, today

The following market gossip is fur-nished by Badger Bros., brokers, today over their private wire system: Boston, Mass., Feb. 2.-Dick says: The market was steady to firm, news was scarce and there was little feature. It looks to us as though prices would improve next week owing to apparent im provement in sentiment. New York, Feb. 2.-After a rather sharp break at the opening in sym-pathy with London, the market became quiet and strong, rallying steadily to the closing. The improvement was not checked by an unfavorable bank state-ment which showed an increase of nearly \$12,000,000 in loans and a de-crease of nearly \$3,000,000 in surplus re-serve. Very little attention was given to the Japanese war talk in the morn-ing papers. The best rallies were in Union Pacific, Reading and Smelters. There was no news beyond the bank statement. The recovery seemed to be due largely to covering of shorts by professionals. The tone at the close was firm although final prices were somewhat below the best of the day. 75 05 1/2

done by smelter products to vegetation is due to the solid emanations from the smoke stacks of the smelters, ra-ther than the sulphur dioxide, as is and has been the common opinion held by many people, included among which are soveral of the prominent members of the United States Agricultural de-

plants. Smelting and agriculture may be carried on in the same district, ac-cording to Dr. Ebaugh, if three things

PASES (Two) The construction of proper fine-dust-arresting devices. (Three) The construction of high smoke stacks.

The solid emanations, which do the

errosive solution, which attacks the

NO MERGER HERE.

What Messrs. Kearns and Keith Say About Silver King and Daly West.

The following dispatch from New York appeared in this morning's Trib-une and was probably inspired by the owners of that paper, who also direct the management of the Silver King

mine. "Thomas Kearns and David Keith were seen tonight and asked concern-ing statements published by the Sait Lake Herald in regard to a proposed merger of certain interests at Park

merger of certain interests at rank City. "Both of them denied emphatically that the Silver King or any of its re-cent purchases of other properties at Park City will eb absorbed. "There is absolutely no foundation for the story that the Ontario and Daly West of the Guggenheim inter-ests will absorb all or any of the Sil-

Daly West of the Guggenneum inter-ests will absorb all or any of the Sil-ver King holdings. "Asked about any new smalting in-terests in the field in connection with hte Cole or Ryan interests, both de-elined to make a statement. It is re-ported here, however, that the Cole and Heinze interests have joined in an interests have pointed in an issue that may control many interests in Utah, outside of and independent of the Guggenheim interests.

of the Guggenheim interests. "Judging from the present operations and fall of the American Smelting stock, there may be a strong computy organized to oppose the great combi-nation at an early date. "Many believe here that it would be better for all mining interests should an organization be effected sufficiently powerful to combat the American Smelting company. It is pointed out that the tremendous resources of Utah and Nevada afford a field for the sucthat the tremendous resources of Otan and Nevada afford a field for the suc-cessful operation of two or more big smelting concerns, and to this end it is believed to be to the interests of the stockholders of the Silver King properties to encourage the bringing of new smelting capital into the field. Heinze has demonstrated with won-dardd belium in fibration way and Heinze has demonstrated with won-derful ability in a financial way, and has been so successful in both mining and smelting that his great knowledge and wealth, coupled with the abilities of his associates, will make his influ-ence felt, should he enter the Utih and Nevada field as a fival of the American Smelting commany." American Smelting company.

It would appear from the foregoing that the deal which was pending prior to the filing of the \$900,000 suit, in which James McGregor appeared as plaintiff, and which has since been disposed of by compromise, has been

Few people here have ever thought for a minute that there would be an amalgamation of the Silver King, Daly West, and mines in Park City operated under the direction of the management of the latter. It would not be surpris-ing, however, to hear of the Daly Judge finally finding its way into some one of the combinations.

UTAH APEX CONTRACT.

Bingham Company Will Send Ore to Ogden to be Smelted.

The management of the Utah Apex Mining company has closed a contract with the Utah Smelting company to deliver 15.900 tons of ore to its smelter near Ogden, for treatment. The con-tract stipulates that the rate of deliv-ery shall be no less than 2,000 tons montify. montilay.

the society t The next meeting The next meeting of the society is to be held on the first Friday in March, when a paper on the "Feeding Tests With Smelter Blighted Material," is to be given by Prof. Merrill, formerly of the Agricultural college of Utah. of the Agricultural conege of Utan. Mr. Crismon of the firm of Crismon & Nichols will also give a paper at that time upon the "Classification of Igneous Rocks."

AFER MORE COPPER.

American Smelting Interests After Ground Near Battle Mountain.

Ground Near Battle Mountain. According to late reports from Ely, the Guggenheims, or American smelt-ing interests, have been attracted by the great copper belt about six miles south of Battle Mountain, and are now negotiating for the sale of the entire group of 21 claims, belonging to New-ton Boyd, Thomas Rockhill and W. H. Bray. C. J. Palmer, a representative of the semelter magnates, has just re-turned to New York after having made a thorough examination of the velns and development work that has been accomplished. His report is being anx-iously awalted by those who are in-terested in the future of that part of tho state. state.

OFFICERS CHOSEN.

Butte & London Shareholders Select Officers for Next Year.

Buile, Mont., Feb. 2.—The Buile and London Copper Development company the controlling interest of which is held by the Venture company of Lonthe controlling interest of which is held by the Venture company of Lon-don, England, held its annual meeting of directors in this city yesterday afternoon, when Theodore Brantly, chief justice of Montana, was re-elected president; James H. Lynch, vice president; A. A. McMillan, treas-ner, and W. E. Reynolds, secretary, Frederick W. Parks of London repre-sents the interests of the Venture company heading the directorate. Other directors are, W. W. McDowell, James A. Talbot, Senator E. J. Ander-son, Fred Whitesides, G. W. Stapleton, and C. J. Kelly. The Butte and London enjoys the distinction of sinking one of the larg-est shafts in the northwest, a three compartment affair, 1,060 feet deep, on territory adjacent to the North Butte company.

ders and offerings were light. May open- ed % to % higher at 75% to 78% sold at 75% 07%, and declined to 75% 07%. The cold weather which strengthened the wheat market had the opposite effect on corn. It was estimated that the move- ment would be largely increased by the hardening of the roads and that the amount of contract corn would be in- creased by the low temperature. May corn opened 1% higher at 46% to 46% and sold at 46%. The oats market was quiet and steady. May opened unchanged to a shade higher a 5-cent decline in live hogs. May pork opened different 1,25% lard was 5 cents higher at 1,25% lard was 5 cents higher at 9,85, and ribs were 5 cents higher at 9,85, Cash: Wheat-No. 2 red, 76%; No. 3 hard, 55% No. 3 spring, 74% 202 cont-No. 2, 27% No. 3 fard, 79% No. 3 spring, 74% 202 conte-No. 2, 27% No. 3 fard, 5% 0ats-No. 2, 27% No. 3 fard, 5% 0ats-No. 2, 27% No. 3 fard, 5% 0ats-No. 2, 27% No. 3 fard, 76% No. 3 spring, 74% 202 conta-No. 2, 27% No. 3 fard, 5% 0ats-May, 35% July, 45% 246%.
