

## STRIKING MOB HOLDS STREETS

Police Unable to Cope With Them  
For Many Hours.

### A SERGEANT USES BAYONET

Several Soldiers Struck by Missiles—  
Martial Law to be Declared  
In Norfolk, Va.

Norfolk, Va., March 4.—A mob of 200 strike sympathizers today held the streets of Norfolk on which the main line of the Norfolk Railway and Light company's cars are run, and the police were unable to cope with it from noon until after dark, when the cars, which were guarded by detachments of military, were hounded in the streets. Cars were repeatedly derailed, wagon loads of stones were piled on the tracks and free fights between the military guards and the crowd occurred at frequent intervals.

In the difficulty a sergeant ran a bayonet into the arm of H. H. Harman, a barber, Mrs. Harman, who was standing by her husband at the time, knocked the sergeant to the ground with both fists, and discolored the face of Lieut. E. R. Gale, who was near her. Several soldiers were struck by missiles thrown through the windows of cars. A number of arrests have been made, both by the police and military. Light companies of militia are on guard.

The police force of 100 men has been on duty for 48 hours, and is unable to meet the emergency. It is possible that the additional companies of the Seventy-first regiment and a battery of artillery will be called for in the morning to take charge of the streets.

Martial law will be declared in Norfolk in the morning. Four more infantry companies from Emporia, Suffolk, Smithfield and Franklin, making the entire Seventy-first regiment, have been ordered out.

The strikers tonight cut a mile of trolley wire in the city. The troops are now guarding the power plant. The detachment of a Newport News company is on duty.

At a meeting tonight the Central Labor union, boycott of the street cars, and the Common Councilman S. H. Kelly, also a leader of the strikers, offered a resolution at tonight's council meeting to revoke the street railway franchise for a period of two days in not running cars. The resolution was referred to a special committee.

Tonight six non-union men from Knoxville were held up. The strikers overpowered them. They bore arms and were arrested for carrying concealed weapons.

Minister Billy West's Will.

New York, March 4.—According to the will of William H. West, the well known minister who died recently in Chicago, practically all his personal property and one-third of his real estate are to go to his widow, Emma C. West. The will has just been filed for probate. Of the real estate two-thirds is to be divided among his brothers, Robert R. Flynn of Syracuse, his step-brother, John J. Fitzgerald of Auburn, and his sister, Margaret M. Peabody of Auburn. A clause in the will provides for the carrying on of a theatrical enterprise in which West was interested.

The estate is valued at half a million dollars.

Mas O'Reil Restored to Health.

New York, March 5.—Paul Blouet, better known as Mas O'Reil, the French journalist and lecturer, has so far recovered from his recent serious illness that he will sail for Europe next Wednesday to assume the position of leading editorial writer for the Figaro of Paris, and for the first time in four years expects to settle down there.

M. Blouet came to this country four months ago to deliver a course of 100 lectures. He delivered six and then broke down in health completely. He was operated upon for intestinal trouble and it was not until Feb. 1 that he was able to leave the hospital.

KILLED HIS GUARD.

And Now the Filipino Varnes Must Die for the Crime.

Washington, March 4.—This case should serve as an object lesson to all soldiers charged with the duties of sentinels or guards over prisoners, said Gen. Chaffee in reviewing a court-martial case in the Philippines, the record of which, along with those of several other cases, has been received at the war department.

A native named Varnes was held by the American forces as a prisoner on a charge of larceny of a small amount of clothing. He was sent out into the fields near Pangasinan, province, under the charge of Private John Carter, company L, Twelfth Infantry, to cut bamboo with a bolo furnished him for that purpose. While so engaged the native suddenly turned on the American and stabbed him to death with the bolo. Varnes was then taken to be hanged.

## PORRICAN LAWS REVISION.

Commission for That Purpose Submits Its Report.

### FOR MORE LOCAL AUTONOMY

Long Step in That Direction Taken—  
Innovation in Marriage and  
Divorce Laws.

Washington, March 4.—The commission to revise and compile the laws of Porto Rico, appointed by virtue of the act of April 12, 1900, has submitted its report to the attorney-general. The work undertaken was the revision and compilation of practically all the old Spanish laws.

The commission, after an exhaustive study of the Spanish system, proceeded to make the most necessary changes, such as the reorganization of the judicial system and the system of local government, the revision of the laws of marriage and divorce and wills and intestates, and a number of other important branches of the civil and criminal laws.

The most important work of the commission was the revision of the organic act of Porto Rico, commonly known as the Foraker act. The system of local government proposed by the commission includes a county, city and village organization. Under Spanish rule the island was divided into sixty-seven districts, known as municipios, which were subjected to the strictest form of control by the central government. The mayors were appointed by the governor-general and the members of the town councils were elected by the people, in fact not in law. Local self-government was unknown.

The commission has taken a long step in the direction of local autonomy, but has placed sufficient power in the hands of the central government to guard against the dangers of local inexperience or incompetence. Briefly stated, the system proposed by the commission includes the management of local affairs, but prescribes a definite standard of efficiency in the most important services, such as sanitation, drainage, water supply, street cleaning, etc. If the local government fails to meet these standards the insular government is given sufficient power to meet every emergency.

The subject of marriage and divorce also is fully treated. The Spanish civil code does not recognize divorce, although a separation proceeding is provided for. This branch of the law has been brought into line with the system prevailing in such states as New York and Massachusetts.

In the matter of wills and intestates, the Spanish civil code leaves but little freedom to the testator. Here again the adaptation of the system prevailing in the United States has been made.

Monter Pillar of Granite.

New York, March 4.—A solid pillar of stone ever quarried for building purposes will be swung into its place today at 40 feet above the ground on the half completed Hall of Records, at Chambers and Center streets.

It is more than 30 feet long, four feet wide and two feet thick, and required nearly three days to carry it into place. The other stone pillars to be put in the building will be even larger. Each of the stones will cost \$5,000.

In Memory of Mr. McKinley.

Albany, N. Y., March 4.—The memory of the late President William McKinley was honored by the legislature of the state today. The exercises were held in the assembly chamber, and were presided over by Gov. Cornell. Seated on the platform were United States Senator Thomas C. Platt and the members of the legislative committee which arranged for the exercises. The chamber was appropriately decorated.

The opening prayer was delivered by Rt. Rev. William Brewster, D.D., Protestant Episcopal bishop of Albany, and the closing benediction was pronounced by Rt. Rev. T. M. A. Burke, Roman Catholic bishop of Albany. The choir of All Saints' Protestant Episcopal cathedral rendered the music.

Gov. Cornell introduced the speaker of the evening, Charles Emory Smith, formerly postmaster-general. The address was a careful review of the life and career of the late president, dwelling upon his noble qualities as a man and statesman, with more than passing reference to his home life and his devotion to his noble qualities as a man and statesman.

Milwaukee Gas Co. Mortgage.

Milwaukee, March 5.—The Milwaukee Gas company has filed with the register a deed in trust mortgage and deed of trust on all the property and franchises of the company. The mortgage is to cover an issue of \$10,000,000 bonds authorized by the board of directors on May 1, 1902. Of the issue \$5,000,000 will be delivered to the

## An Honest Tired Feeling

There is an "honest tired feeling," caused by necessary toil and cured by natural rest.

But very different is "that tired feeling," from which so many complain and which may even be classed as a disease.

That tired feeling takes you to bed tired and wakes you up tired. You have no appetite, have bilious taste, dull headache, are nervous and irritable, blue, weak and discouraged.

In such conditions Hood's Sarsaparilla does a world of good. It begins in the right place—in the blood, purifying it and imparting vitality, then its tonic effect is felt by the stomach, kidneys and liver; appetite comes back, all waste is removed naturally, headaches cease, that tired feeling departs and you feel like a new person.

This has been the experience of thousands.

It will be yours if you take

**Hood's Sarsaparilla**

Sold by all druggists. Prepared by C. I. Hood & Co., Lowell, Mass.

company at once, \$100.00 to be used to take up the loss of the land.

Chief Engineer Elmer A. Vail of the recently incorporated Nevada Midland has returned from his trip over the proposed route into the Tonopah district and is resting up preparatory to taking a party into the field. As there will be a surveying corps let out by the San Pedro company next week owing to the completion of their work, he expects to pick up several good men from their ranks.

Mr. Vail reports that all the time he was in Nevada it was storming and from advice received this morning the same condition of affairs prevails. Under the circumstances he says that active construction on widening the narrow gauge portion of the line at Austin Junction will be delayed for a few days. Another difficulty encountered is the scarcity of men and teams on the line, and it will be necessary to employ a number of outfits in Utah for the work which is expected to be started next week.

UNION DEPOT.

Citizens of Provo are Agitating the Matter Considerably.

Special Correspondence.

Provo, March 4.—The committee on street and alley, to whom the city council referred the proposition of the Rio Grande Western Railway company asking for a franchise to build a depot on a part of Sixth South street, have today reported to the council. It is expected that Superintendent Hancock, of the Oregon Short Line Railroad company will meet with the committee tomorrow afternoon for the purpose of presenting the objections of his company to granting the franchise, on the grounds previously stated in the "News," namely, that a building in the place contemplated would be an obstruction to travel and from the Oregon Short Line depot. Of course, it is not known what report the committee will make, although it is believed that, in case the companies cannot agree to build a union depot, that the committee will report favorably upon the application of the Rio Grande Western company. It is also reported that if the council grants the franchise for the Rio Grande Western company, the latter will endeavor to prevent its erection by legal proceedings on the grounds of it being an obstruction. Another rumor is to the effect that the Oregon Short Line company will, if the R. G. W. builds an independent depot in the location where it has asked for a franchise, build an independent depot on the south side of the R. G. W. new depot, where the O. S. L. company owns ground.

The general feeling among the citizens in favor of a union depot, but they realize that this is a business matter, and that the two railroad companies, and that they will probably not be able to reach a compromise. The king's health is reported to be excellent.

STEM-SETTERS BARRED.

Ban Placed on Some Watches by the Rio Grande.

A dispatch from Pueblo says: One of the most sweeping orders ever issued by the Rio Grande railway company was made here this afternoon. By its terms all stem-setters of watches, while engaged in running trains must, on the 15th of this month, discard stem-setting watches, no matter how valuable the timepiece may be. The company must pass muster by an official inspector and must be purchased by all employees in the operating department. The order is directed against engineers, firemen, brakemen or any employee whose duty might call him to flag a train.

The officials of the company take the position that stem-setting watches are not reliable timekeepers. The works in the new watch must be Jeweled, and will be supplied by the official inspector.

Many of the employees of the road are protesting against the order, for the reason that it will put them to a heavy expense in discarding the old watches and purchasing new ones.

## ENGINEER VAIL BACK FROM NEVADA

Will Start Out with Surveying Corps Next Week

### WHEN DIRT WILL ALSO FLY

Difficulty in Getting Men and Teams With Necessary Mining Them in Utah.

Chief Engineer Elmer A. Vail of the recently incorporated Nevada Midland has returned from his trip over the proposed route into the Tonopah district and is resting up preparatory to taking a party into the field. As there will be a surveying corps let out by the San Pedro company next week owing to the completion of their work, he expects to pick up several good men from their ranks.

Mr. Vail reports that all the time he was in Nevada it was storming and from advice received this morning the same condition of affairs prevails. Under the circumstances he says that active construction on widening the narrow gauge portion of the line at Austin Junction will be delayed for a few days. Many of the employees of the road are protesting against the order, for the reason that it will put them to a heavy expense in discarding the old watches and purchasing new ones.

ROUTES TO LOS ANGELES.

San Pedro and Oregon Short Line File Maps of Definite Location.

Los Angeles, Cal., March 4.—The Salt Lake road and the Oregon Short Line have filed maps in the United States land office showing the definite location of the line in this state, showing the road to be parallel the Santa Fe through that district.

None of these maps cover any territory inside of the great mountain range that the Salt Lake and the Oregon Short Line companies are endeavoring to cross, showing that the road is to be parallel the Santa Fe through that district.

The Oregon Short Line maps show that that road will cross the Santa Fe line between Needles and Mojave, near Newberry station, or just west of that point.

## Spring Wretchedness, Misery and Suffering Permanently Banished When You Use

PAINE'S CELERY COMPOUND

A Cured and Grateful Farmer's Wife Declares that Paine's Celery Compound Almost Raised Her from the Grave.

A few words to weak, broken down, nervous, and sick women at this time, and the personal of Mrs. Shepherd's letter, will, we trust, kindly help and inspire fresh confidence in many a home where some loved mother, wife, or daughter is hovering between life and death. At this season, thousands are nearing the grave; all can be saved by the prompt use of Paine's Celery Compound. Mrs. Virginia Shepherd, Fowellton, W. Va., writes as follows:

"I had been sick for eight years, and no tongue can tell what I suffered. I would have spells of nervous headache when I would keep my bed five and six days, and could not raise my head off the pillow. Then I would get numb all over, and they would have to rub and work over me to keep me alive, and I would have sinking spells and palpitation of the heart, but thanks to Paine's Celery Compound, and I cannot praise it enough. I have not had a headache for six weeks, a thing I could not say before in eight years. My Compound has almost raised me from the grave. I had given up all hopes of this life until my husband read one of your pamphlets. After I had been using it I felt better than I had for three years."

OFFICERS IN CONTEMPT.

City Recorder Nystrom and Clerk Meeks Ordered Before Judge Diehl.

The seal question in Judge Diehl's court is not settled yet by any means. Upon the advice of the city attorney, Clerk Meeks, acting under the direction of Recorder Nystrom, used the seal on some papers contrary to the orders of Judge Diehl given in open court yesterday afternoon. When the court observed that his orders had been disobeyed, he ordered both Nystrom and Meeks to appear in court for contempt. This they will have to do tomorrow afternoon, when there promises to be some very warm developments.

Judge Diehl is determined that the objectionable seal shall not be used, while Nystrom says it shall be used. As Judge Diehl put it, it has come to a question of who is greater, the court or the recorder.

IN BEHALF OF JUDGE HAYES

Senator Kearns Calls at White House in His Interest.

[Special to the "News"]

Washington, D. C., March 5.—Senator Kearns called at the White House this morning and saw the president in the morning, and the president is endeavored to succeed Judge Hayes of Alaska, who was ordered to be removed. As Mr. Hayes was one of the earliest candidates for the position, the president had been very anxious to have him. The senator committee on military affairs will meet tomorrow and Senator Kearns will try to have the bill authorizing the rebuilding of Fort Douglas reported favorably.

Robert N. Ayres of Ogden has been appointed clerk in Smithsonian Institute here.

The comptroller of the currency has authorized the National Bank of Emmett, Idaho, to begin business, capital, \$25,000.

OLD VETERAN RELEASED.

George Moore Will be Sent to Soldiers Home in Ohio.

George Moore, the old soldier who has been waiting for the O. A. R. to raise funds to send him to the soldiers' home at Sandusky, Ohio, was released this morning by Judge Morse. Colonel Kaighn stated that the necessary funds had been raised by the lodge and the contribution made by the company commissioners, and, as the district attorney was willing that the old man should be released, he asked the court to allow him to go to the soldiers' home. Moore was arrested on the charge of petit larceny and pleaded guilty, and would have been sentenced to the penitentiary for the same offense. He was released on the condition that he should go to the soldiers' home at Sandusky, Ohio, and be cared for by the O. A. R.

SUES W. OF W.

Mrs. Sarah I. Goodwin Wants Judgment in Sum of \$3,000.

Sarah I. Goodwin today filed suit in the district court against the Head Camp Pacific Jurisdiction of Woodmen of the World, to recover \$3,000 insurance on the life of her husband, Arthur J. Goodwin, who died on Jan. 10, 1901. The complaint alleges that about Feb. 1, 1895, Goodwin became insane and during his insanity, destroyed his insurance certificates, and for that reason the plaintiff was unable to furnish said certificate to the clerk of the camp, after her husband's death. She claims that the lodge has refused to pay her claim, and asks judgment in the sum of \$3,000 and the interests and costs of suit.

Damage Suit.

Another damage suit against the Highland Hry Mining company and Robert T. White, similar to the one recently filed, was filed today in the district court by Henry Chisholm. Mr. Chisholm claims that the smoke and gases from the engine house of the company, which is situated on the land and ruins his crops and vegetation, for which he asks damages in the sum of \$1,000.

## It's Coming.

Spring time with its inevitable house cleaning. Look up your old furniture and have it re-upholstered. We have a splendid stock of coverings and a staff of experienced upholsters who can make your old furniture as good as new.

Now is the time to attend to this.

Rob Street Car.

The 10:30 street car on the Jordan Bridge line was held up last night and the car men forced to hold up their hands while the robbers relieved the conductor of his cash. The two daring highwaymen secured from Conductor Leaker \$7 in nickels and dimes and made good their escape. The police have no clue or they would be in hot pursuit.

The story related by the car men is that they had barely reached the end of the line when two masked men carrying revolvers, jumped on the car and thrusting the weapons in their faces, commanded them to "reach for the stars." The command was instantly obeyed and the robbers took all the money Conductor Leaker had, and also relieved Motorcar Corbin of his gold watch. Corbin begged the men to return his watch which they did after some hesitation. The robbers then left the car and disappeared in the darkness. The matter was at once reported to the railway officials and to the police.

This morning Superintendent Read called at the police station and gave the officers some additional information relative to the description of the hold ups.

MORMONS IN GERMANY.

How They are Treated as a Result of American Hospitality.

A Salt Lake citizen, native of the "Fatherland," writes to the "News": "It is pleasing to note the friendly spirit and feeling between our country and that of Germany, as has been shown during the visit of Prince Henry of Prussia, the brother of the German emperor. We people, the 'Mormons,' who have many missionaries abroad in the German empire, are gratified to learn of the change of sentiment towards the since they knew of the warm reception given to the prince. In the early sixties when the first branches of the Church were established in Baden and Wittenberg under the direction of Elder John L. Smith and other Utah Elders, assisted by local Elders, the latter were arrested and imprisoned for days to time, and were absolutely forbidden to promulgate their religion, even among their own relatives. But things have changed, for in these localities the Elders have the protection of the police in distributing tracts and in holding open public meetings. As a result many honest souls are being gathered into the fold, and Elders are in demand everywhere in the empire of Germany."

The work of our Elders therefore will have a far reaching effect. The poorer classes, the people who generally are prejudiced against the Mormons, are engaged in the work of reciprocity, and we hope the spread of this spirit will be profitable, in a national sense, to both nations."

ANOTHER MAN POISONED.

Impure Sausage Nearly Causes Death of George Hackett of Riverton.

George Hackett of Riverton was the victim of ptomaine poisoning yesterday afternoon and not until Drs. Beer and Benedict had worked over him for several hours, was it sure that his life could be saved. Hackett says he ate some purplish pork sausage at one of the restaurants in Riverton, and with him, but could not eat the meat because of the peculiar taste, which neither of them understood at the time. Hackett was taken home last night, but before going he expressed his intention to prosecute the proprietors of the restaurant.

DEATH OF MRS. C. C. SHAW.

Many friends of Mr. C. C. Shaw in this city and throughout the state will be pained to learn that he has just lost his wife, she having passed away Tuesday at her home in Hyrum. Mrs. Shaw, who was 65 years of age, had been given strength to sustain him in his hour of affliction.

WILL ENTERTAIN SINGERS.

Prest, Shurtliff Will Give Reception To Ogden Tabernacle Choir.

[Special to the "News"]

Ogden, March 5.—President L. W. Shurtliff of the Weber Stake will entertain the Tabernacle choir at his home on Twenty-fourth street on Thursday evening. Mr. Shurtliff is the president of the choir organization and therefore takes much pride in it. Prof. Joseph Ballantyne, who is the director of the choir, desires all the lady members of the choir to be ready for an evening performance at 7 o'clock, and the male members at 7:45, as until that time the exercises will be rendered by the lady members only. After the usual rehearsal the choir will march in a body to the home of Prest. Shurtliff.

BUSINESS NOTES.
