Des Moines, Ia., April 2.-Three hunand Democrats attended the Jeffernian banquet tonight and the demand tickets could not be met. The andance was representative of the necratic party throughout the state. De principal speakers were W. J. an and former Vice President A. Stevenson. W. R. Mr. Stevenson, who spoke first, gave s views as to the proper policy for e Democratic party in the coming idential campaign. He said in

#### TIRED OUT.

There's many a farmer's wife sits on the porch in the growing shadows of a sum-mer evening, knowing to the full what it is to feel tired out; as if there was not another ounce of effort left in her. But she knows how

sound her slumber will be and how refreshed the morning will find her. That's

the tiredness of a healthy woman. it's another thing for the sick woman to feel tired out. Rest only seems / to increase her suffering. Just as in profound silence a discord jars the ear more forcibly, so now that she has stopped moving about.

this tired woman feels more acutely the aching back and throbbing nerves.
Sick women, hundreds of thousands of them, have been made well by the use of Dr. Pierce's Favorite Prescription. establishes regularity, dries weakening drains, heals inflammation and ulcera-

"I can't describe the miscry it was to be on my feel long at a time. I could not eat nor sleep. Often I wished to die. Then I saw Dr. Pierce's medicines advertised and thought I would try them. Had not taken one bottle till I was feeling well. After I had taken five bottles of 'Favorite Prescription' and one of 'Golden Medical Discovery' I was like a new woman, Could eat and sleep and do all my own work."

#### Successful Trial of the Pike.

San Francisco, April 3.—The second trial of the new Holland torpedo boat proved equally as successful as irst. She ran over a two mile course in Mission Bay with only her conning tower showing above water. Later she raced back and forth over the course totally submerged. The boat traveled 12 miles, coming up at the end of each two mile spurt. She averaged .5 knots during the entire trip.

Today the Grampus, a sister vessel of the Pike, will be given a surface trial and on Saturday will dive below.

#### TO DISSOLVE PARLIAMENT. Conservatives Will Go to the Country On Question of Irish Reforms.

London, April 30 .- The correspondent of the Daily Chronicle at Dublin claims to have the authority of a member of the present government for the statement that the government intends to dissolve parliament at the end of the present session, the general elections being in the autumn. The leading plank in the Conservative platform at the elections, affirms the correspondent, will be an enormous extension of local gov-ernment in Ireland providing for the establishment of a legislative council. There has been trouble between the two which will have the control of the Irish police. It is understood, further asserts the correspondent, that the colonial sec-retary, Mr. Chamberiain, warmly supports the government's project and that the economies Mr. Wyndham promised in connection with the Irish land bill largely depend upon its realization. Neither Gerald Balfour, president of the board of trade, nor the present war secretary, Mr. Brodrick, would be in-

cluded in the next cabinet.

According to the supposed plans of the government, the Dublin caamber consist of representatives of Irish county councils and will deal with local matters such as gas, water and

#### INTERESTING EXPERIMENTS. Signals and Speech Sent Through Ground Without Wires.

New York, April 3 .- An interesting series of demonstrations has been given at Alexandra palace of the appara-tus for transmission and reception of signals and speech through the ground signals and speech through the ground without the use of wires, says the London representative of the Tribune. The inventors, a young Swedish electrical engineer, trained in the United States, and a Devonshire electrician, were present, with Sir Girard Smith and other experts. The experiments were coner experts. The experiments were conducted without the pretense that a priected system of installation had been worked out and the practicability of dispensing with wires and masts and using earth currents of electricity for commercial, military and naval purposes was illustrated. A characteristic feature of the system was the peculiar combination of high potential dischargements. Experies and low tension currents. Experi-ments with bombs proved that explosives could be synchronized within the same radius, so that all could be fired same radius, so that all cond be measured and the simultaneously or each in turn by means of earth currents without wires. The value of these tests for practical warfare was conceded by the military experts. Other experiments liustrated the transmission of Morse dots and dashes and musical sounds by wireless telephone.

Senator Lodge Was the Guest of

WENT AFTER DEMOCRATS.

Republicans Deplore the Fact That Any Crueities Were Ever Committed by Americans in Philippines.

Boston, Masa., April 2 .- At the Home Market club banquet given here tonight Senator Lodge was the guest of honor. In the course of an address delivered by him he said:

"A fortnight since certain Democrats of this neighborhood held a continuous performance one day at Fancuil hall in regard to the Philippine islands. It is needless, because it is futile, to put the facts before the persons who cultivate this particular topic for political purposes. The facts go before them and the next day they tell the same old falsehoods, just as if there were no such things as facts in the world. The charge is that I have suppressed evidence and balked inquiry into affairs in the Philippines. My answer is a brief history of what has been done by the Republican party in the senate and

the Republican party in the senate and by the war department.

"We Republicans deeply deplore the fact that any cruelties were ever committed by any American officer or any American soldier upon anyone in the Philippines. We believe that any officer or man guilty of such conduct should be tried by court-martial, and we believe that that has been done. Fut we also believe that some consideration should be given to the circumation should be given to the circumstances under which these cruelties occurred. We remember their provocation. We deplore and censure the cruel-

they may have committed, but we do not forget, as the other side forgets, the cruelties that our men endured.

"They get together and cry out againts the cruelties inflicted upon the Cillonness but they have no word for Flipinos, but they have no word for Private O'Hearn, roasted all day over a slow fire and hacked to death with a slow life and hacked to death with telos; no word of reprobation for the murderers of the wounded American sallor buried alive in the sands of Luzen; no thought of the men who assassinated little Noa, the midshipman, when he asked them for water. Why, when they are telling of events in the Philippines, did they pass by in silence the surprise and massages at Balland he surprise and massacre at Balin-

"The Republican party has passed, in both sessions of this Congress, wise, far-reaching legislation for the bene-fit of the Philippines. They will pass more in the years to come; but there is one thing that the Republican party the thing that the Republican party vill not do: it will not further seek to hound down officers and men of the army of the United States for events which happened two years ago, and which have been tried by the courts and before the country."

#### Gives Osiris Prize to Pasteur Institute

April 3.-The Figaro states that Dr. Emile Roux, the sub-director of the Pasteur institute, intends to donate the Osiris prize of \$20,000 which has just been awarded him, to the Pasteur institute. #### HOME GUARD ORGANIZATIONS Were Not Part of Army During the Civil War.

Duluth, Minn., April 3 .- Members of home guard organizations formed during the civil war were not part of the army of the United States, according to a decision which has just been announced by Secy. Hitchcock of the interior department. The question arose in the contested right of a member of the Missouri Home Guards to obtain the special privileges of a soldier, in entering government land, and the dectsion will affect many pieces of prop-erry on which proof has been made. Secy. Hitchcock holds that members of the home guard organizations were never mustered into the service of the general government, and could not be construed as part of the military organization of the United States. The effect of such a decision will be far reaching, not only in the Duluth

#### district, where the question arose, but in other land offices over the country. TRUSTIES SKIP OUT

From the State Penitentiary at Boise, Idaho.

Boise, Ida., April 2.-Two trusties at the state penitentiary, Charles Williams and A. Jensen, falled to respond to rell call this evening and are still missing from the institution. They were en-

from the institution. They were engaged in janitor work in the guard rooms and administration building and had but a short time to serve.

Williams was brought down from Lincoln county and Jensen from Kootenai, both convicted of larceny. Jensen was only recently made a trusty, but Williams had been one for

rusty, but williams had been one for several months.

The prison officials were prompt in getting after the runaways and expect to recapture them without difficulty.

Canadian Alaskan Staff Working New York, April 2.—The Canadian Alaska staff has quietly settled down to work, says a London dispatch to the Tribune. Minister Sifton and under-study Joseph Pope have been closely occupied with preliminary consulta-tions, in which their counsels and offitions, in which their codiness and on-ials of the foreign office took part. Their secretary, A. P. Collier, says a strong staff of men will be engaged for the next three months in working up the Canadian case for presentation to the Alaskan commission. There will be a thorough investigation of the records of the foreign office bearing upon the Anglo-Russian treaty of 1825, and no pains will be spared to establish the

#### Prominent Men and Women Cured by the Creat Kidney Remedy, Swamp-Root.

Washington, D. C., Dec. 11th, 1902. Having heard your Swamp-Root so alghly recommended for kidney and bladder complaints. I wrote you for a sample bottle which came promptly, for which bottle which came promptly, for which I thank you very much. So pleased was I with the sample that I bought from my druggist a supply, with the result that today my kidneys and bladder are as strong as any one's. The pain in my back left me and I feel like a new man.

I had been treated by doctors for uric acid and also forwhat they termed catarrh of the bladder and kidney trouble. As far as my own experience goes Dr. Kilmer's swamp-Root is a great boon to the human family and although not in the habit of recommending medicines I feel II my duty to add my testimonial to the thousands of others recommending Swamp-Root.

Capt Noveman Tilson No. 1220 H. St., N. W.

Weak and unhealthy kidneys are responsible for more sickness and suffering than any other disease, therefore, when through neglect or other causes, kidney trouble is permitted to continue, fatal results are sure to follow.

Your other organs may need attention-but your kidneys most, because they do most and need attention first. If you are sick o. "feel badly," begin taking the world-famous kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health.

Kidney trouble irritates the nerves, makes you dizzy, restless sleepless and irritable. Makes you pass water

New York City, Nov. 9th, 1902.

A little over a year ago I was taken with severe pains in my kidneys and biadder. They continued to give me trouble for over two months and I suffered untold misery. I became weak, emaciated and very much run down. I had great difficulty in retaining my urine, and was obliged to pass water very often night and day. After I had used a sample bottle of Dr. Kilmer's Swamp-Root, which you so kindly sent me on my request. I experienced great relief. I immediately bought of my druggist two large bottles and continued taking it regularly. I am pleased to say that Swamp-Root cured me entirely. I can now stand on my feet all day without having any bad symptoms whatever. You are at liberty to use this testimonial letter if you wish.

Gratefully yours, New York City, Nov. 9th, 1902. Gratefully yours,

Dover, N. J., Nov. 12th, 1902.

I had both liver and kidney trouble for over three years. I tried the best physicians in Washington, D. C., Pittsburgh, Cincinnati and Chicago, but received very little benefit until I commenced taking your great kidney, liver and biadder remedy, Swamp-Root. After taking the first bottle I noticed quite a change which satisfied me that at last I had found the right medicine. I continued right on with Swamp-Root tor four menths, and by this time noticed such a marked improvement in my health, in every way, that I feit satisfied that I was cured. But, to be positive beyond a question or doubt, when in Chicago during July, 1902. I went to the Columbus Medical Laboratory, No. 103 State St., and had them make a thorough and complete microscopical examination which showed my kidneys and liver to be perfectly well and healthy.
