## EARLY RELIEF FOR LADYSMITH

Winston Churchill Says This is Demanded in the Situation.

BULLER WILL TRY AGAIN.

Boer Position Well Fortified - Disappointment at Buller Being Superseded-The Fenlan Move.

London, Dec. 28 .- Winston Churchill's new arrival at Chieveley Camp is perhaps responsible for some over-coloring of the gravity of the situation, but all today's news conveys the impression that Buller may be intending another attack upon the Boer position.

Certainly, the Boers are not inactive. At both Modder river and the Tugela they are said to be strengthening their forces and extending defense works, which in both cases are seemingly almost impregnable.

As showing the difficulty of obtaining accurate information, a correspondent of the Daily News at Capetown, under date of December 21st, announces that Gen. Buller is coming to Capetown to meet Sir Charles Warren, and then both will go to Modder river. As five battalions of Gen. Warren's fifth-division are said to have gone to Natal, his arrival at Pietermaritzburg seemed

Dispatches from Chieveley indicate that Gen. Buller's forces will remobilize at Frere before attempting another advance. Doubtless, he would be glad to retrieve the Colenso reverse before the arrival of Lord Roberts, yet he is hardiy likely to attempt another frontal attack. It is more likely that he is preparing to strike should the Boers make any offensive movement. Mr. Churchill's reference to Lady-smith may imply that the situation of

the garrison is more desperate than had been supposed. The Boers continue fortifying the hills commanding the town. Gen. White, however, hellographs that all was well in Ladysmith December 26th. Competent military critics in London

regard the campaign as at a complete deadlock for the present owing to the dispersal of the British forces, and for the lack of adequate transport. It will weeks before Lord Roberts is able to reorganize and make an effective

The Boer trench work is so good that it enables the enemy to hold a long line with very few men, and to travel great distances under perfect cover so as rapidly to reinforce any point attacked. The Times, which comments editorially upon the severe strain, says: "It r troubles are due to the unreality of the presumedly practical lessons given in the maneuvers at Aldershot."
Dispatches from Modder river represent Dutch disaffection in Griquiland Vest as growing very serious. In some towns the entire Dutch population has joined the Boers

The rebels have formed a laager at a point about thirty miles west of Modder river camp.
It is also announced that the Boers

have raised the siege of Kuruman, and have all withdrawn to Magersfontein. A Capetown correspondent of Times, under date of Friday, December 22nd, says: "Anxiety regarding the at-titude of the Colonial Dutch is steadily growing. They make no effort to conceal their sympathy with the two republics, and the only question now is whether if the military situation is not changed they will keep from open re-

"Even in districts that have not been visited by the Boers in the eastern part of the province, the Dutch farmers are riding about armed. This is the case also in districts only fifty mlies from Capetown, where a seditious movement is busily propagated. The British forces are inadequate to guard 1,000 miles of communications.'

A dispatch to the Times from Mafe-king, dated Monday, December 11th, by way of Mechudi, Tuesday, December 19th, says that Lady Sarah Wilson, who was captured by the Boers, while acting as correspondent for a London paper, has arrived there, having been exchanged for Viljoen, a notorious borse thief and convict.

Morning Post has received the following from Mr. Churchill, under date of December 20th, telegraphed from Chieveley Camp, where he has ar-

"All ranks have complete confidence in Sir Redvers Buller, and there is a stern determination to succeed next time at all casts. A painful impression was caused by the announcement of the change of commander-in-chief, and the soldiers here are resolved to vindi-

cate their trusted leader. The situation, nevertheless, is difficult, the Boer position being one of extraordinary strength, with high hills, lined tier on tie with trenches and calleries, rising from an almost unford.

able river and with a smooth plain in "The enemy have all the ranges marked and many powerful guns dominate the various points of the river, while the drifts are commanded by converging musketry fire from prob-ably 12,000 Boers. There are sixteen miles of wild, unbroken country before

reaching Ladysmith, which demands early relief."
The Daily Chronicle publishes the following from Capetown: "Herr Schesan agent of the New York Equitable Assurance society, who has arrived here from Pretoria, says the

Boers possess immense stores of food imported by speculative capitalists under a belief that mining would be allowed during the war. "He says also that there were thousands of spectators at the Pretoria rallway station when the British, who were captured at Nicholson's Nek,

detrained. The people were ordered by the Boer commandant to bare their heads and they did so. The British, astonished, returned the salute."

A special correspondent of the Daily Chronicle telegraphing from Strek-strom, Cape Colony, Thursday, Decem-ber 21st, says: "Strong measures are necessary to check the hostile feeling among the Dutch colonists, whose sedition is shown in the removal of railway bolts, the obstruction of bridges and culverts and attacks upon horsemen. Disaffection is bound to increase, unless immediate reinforce ments are forthcoming. The loyal Dutch

and British settlers are becoming alarmingly impatient."
A dispatch to the Times from Pietermaritzburg, dated Thursday, December 21st, says: "A strong suspicion exists here that the ostansibly innocent bills of lading furnished by German steamers in Delagoa bay really conceal con-traband, and the local papers are urging more rigid examination of cargoes. A dispatch from Kimberley, dated ednesday. December 20th, eavs: "At half-past 2 o'clock this morning mount ed detachments under Col. Peakman, with three Maxims and three en-pounders, under Maj. May, reconnoit-

ered. Leaving the intrenchments, the

Boer pickets fired and our Maxime re-

British advanced on Toll Pan.

The

"Our guns then began to shell Toll Pan at a range of 2,000 yards. A Boor-gun dropped four shells near our men but did no damage. As the Boers were strongly entrenched, we withdrew."

New York, Dec. 27.—The work of enlisting men in this city to take the Boer side in the war is in charge of two agents who operate in a saloon near police headquarters. The leader in the movement is Charay Shaon. movement is Gustav Simon, a Boer re-cently arrived from the Transvaal. Associated with him is a young Ger-man, Henry Scharff, who has lived many years among the Boers, and who reached New York a week ago from

A number of people, chiefly young men, have gone to the Transvaal, some 290 left a week ago and sixty went just before Christmas.

Ever since the outbreak of the Trans-vaal war the British consulate in this city has received letters from persons eager to enlist in the British army. "I don't think it is any exaggeration to eay that we have received 5,000 letters from persons who want to enlist," said the British vice-consul today, "and besides these, a great many apply to us in person for help or advice in the matter. We are prevented by United States statutes from enlisting them, and we have to send them away. The only way they can get into the army is to go to England and enlist on their own responsibility. How many of them do this we have no way of knowing. I think, however, that a great many of them do enlist."

Relative to the attitude of the Irish revolutionary societies toward the gov-ernment of Great Britain at the present juncture of affairs, the Evening Post today quoted an officer of the Clan na

Gael as saying: "England can only be made to feel by physical force and we're now going to give her some Boer treatment. We did intend going out and sinking that first expedition from Canada to South Africa, but thought it better to walt a little. We can mobilize our men without much difficulty for an attack on Canada and we are fairly well armedas well as the United States troops in the Spanish war. We have lots of Springfield rifles and are handy with the bayonet.

"No decision has been arrived at yet. Everything will depend on the immediate future. We have either regiments or companies all over the country and are fairly well drilled and a great many of our men are in the militia. The Ancient Order of Hibernians has really nothing to do with this. It numbers about 250,000 and a majority of its members belong to our organization. All of its officers do, and so, of course, it will act with us. We have lots of men-in the regular army—camps or clubs in every post-and even if they were sent against us to stop us on the border, they would either march across with

us or give us blank cartridges.
"If it is decided to attack Canada, we shall do all in our power to keep matters so secret as not to embarrass on the border. The French population in Canada would be with us, and there are numbers of our own countrymen ready to welcome us. Canada would be an easy mark. We would have the

from Honolulu, confirms the report that bubonic plague exists in that city. There had been no new cases of the disease, however, from December 12 up to the time the transport saild, the 18th. The quarantine at the port was to be raised on the 19th. There was little anxiety ong the residents of Honolulu, according to Captain Eagles of the Centennial, as the plague was confined to the Chinese quarter of the city. That part of the city was under strict quarantine and no ingress or egress what-ever was allowed. Up to the time of the salling of the Centennial there had

been six deaths. The Centennial arrived at Honolulu from this port with horses on Dec. 15, but was not allowed to dock until the 16th. Even then none of the crew was permitted to land. All inter-island traffic was at a full stop, as no steamer could enter the port. The citizens have subscribed \$25,000 to fight the plague. The transport Newport has arrived from Manila in ballagt with no news of importance.

ON THE VERGE OF WAR. Russia and Japan Expected to be at Soon-Plague in Honelulu.

Victoria, B. C., Dec. 27.-The steamer Aoranga arrived tonight from Australia. She was not allowed to land at Honolulu, owing to the plague there. As far as could be ascertained the plague was introduced by sailors of a Japanese vessels, and there have been three deaths.

Russia and Japan are on the verge of war. All Japan is now of the opinion that hostilities will break out between these two nations in the spring. insular kingdom is buying up great quantities of rice, and even going so far as to make arrangements for transports to make a demonstration in Great activity prevails on all sides in Japanese naval circles.

A Shanghai report says that Russia has dispatched a fleet of three warships to Masampo, the bone of contention, which is now causing strained relations between the two nations.

Eruptions and skin diseases are a blot

These blots are actually blood blots. To cure them lotions and outward applications are useless. The blood must be cured, before the skin becomes clean.

That great medicine for the stomach and blood, Dr. Pierce's Golden Medical Discovery, is most effective in cleansing the complexion and healing diseases which defile and deface the skin. It acts directly upon the stomach and the organs of digestion and nutrition. It increases the action of the blood-making glands, and expels from the system the lurking poisons which defile the blood and through it deface the skin. No alcohol or other intoxicant, no

opium or other narcotic is contained in "Golden Medical Discovery." It may pay a dealer better to sell you a

substitute which is less popular but more profitable than the "Discovery." It won't pay you to buy it, if you want a

won't pay you to buy it, if you want a reliable remedy.

"For about one year and a half my face was very badly broken out," writes Miss Carrie Adams, of 116 West Main St., Battlecreek, Mich.
"I spent a great deal of money with doctors and for different kinds of medicine, but received no benefit. At last I read one of your advertisements in a part, and obtained a bottle of Dr. Pierce's Golden, Medical Discovery. Before I had taken one bottle of this medicine I noticed a change, and after taking three bottles I was entirely cured. I can well recommend Dr. Pierce's Golden Medical Discovery to any one similarly afficted."

## ANOTHER CREAT

CANAL SCHEME

A New Discovery, but Not a Patent Medi-Arrangement to Put the Panama Ditch Under American Control.

ONLY HOPE FOR THAT ROUTE

By the Transfer, the Panama Canal Would Get Equal Consideration With the Nicaragua Route.

New York, Dec. 28 .- The incorporation of the Panama Canal company of America is said to be the first move in a plan to transfer the Panama canal to Americans in order that it may have a better chance in the struggle with the Nicaraguan concessionaires. The banking houses and individuals who are understood to be interested are: August Belmont & Co., Kuhn, Loeb & Co., Levi P. Morton, Charles R. Flint, J. Edward Simons, president of the Fourth National bank; Edward Sweet & Co., Geo. Sheldon & Co., Baring, Magoun & Co., and George W. Young, president of the United States Mortgage and Trust

In addition to these, several banking houses in San Francisco and in cities in the South and West are interested

in the company.

The Herald says this incorporation of an American company is the result of negotiations between representatives of the French company, including Baron Oppenheim, who came to this city from Paris several months ago, and leading financiers of America. The representa-tive of the French company came to this country empowered to transfer the rights of the company to an American company and this company having now been incorporated the transfer will very shortly be effected, the transfer to be given formal approval by the share-holders in France. These shareholders will receive shares in the new Ameri-can company in proportion to their holding in the old.

This "Americanizing" of the Panama canal, as one of the gentlemen interested in the new company styled it yesterday, has been brought about in order to place the Panama canal on a footing in America more satisfactory to the French company and to place it on the same basis as the Nicaragua canal before the United States government.

An Isthmian canal commission, with Rear-Admiral Walker as chairman, is

Canadian loyalists on the run in a week."

Plague in Honolulu.

San Francisce, Dec. 28.—The transport Centennial, which has reached here from Honolulu, conducts the second secon report will undoubtedly be final, so far as the United States are concerned, as ties, both engineering and exploring, are now scattered over Central America obtaining material to assist the commission in forming conclusions.

The French company realizing the importance of the commission's findings, has taken the steps which have been described, believing that the canal commission would naturally be enabled to judge more impartially between the two routes with both under American control. The gentlemen of the French company long since recognized that the undertaking of a canal across Nicara-gua, either by the United States or by private parties with the assistance or indorsement of the United States would be a most serious blow to their project, but the American financiers who have formed the new company now that the two routes are on an even footing, and that judgment will be made only on the grounds of engineering and general desirability. They argue that the "Americanizing" of Panama is the only way by which the four hundred shareholders can have any hope of any return from the \$200,000,000 which has gone out of France and into the canal, and they believe that this arrangement can produce only good feeling between the

two countries. Since 1894, when the French company was formed, there has been expended in work on the canal something like \$8,000,000. Several thousand men, mostly negroes from Jamaica, have been employed and experts declare that the money has been properly expended and that good progress has been made. There is a large number of men at work on the canal at the present time and this force will be found at work by the canal commission when it goes over the route, which will probably be during February. The canal is about two-fifths completed and the new American company estimates that the cost of com-pletion would be about \$100,000,000.

Discussing the Pacific Cable.

Chicago, Dec. 28 .- At meetings held simultaneously in Chicago and New York last evening papers on a Pacific cable as projected by the United States government were given before the eastern and western branches of the American Institute of Electrical Engineers. papers read before the New York and Chicago meetings were presented by Capt. Geo. O. Squier, of Washington. The papers were composed principally of the technical points of the several proposed routes across the Pacific ocean surveyed by this country and the Brit-ish government. The cardinal point for both the government cables as projected is that they touch nowhere but at possessions of the government control-ling them, which point was urged strongly by President McKinley in his last annual message.

Mr. Squier advocates a combination between the two powers, Great Britain and the United States, as to the proposed cables. Such plan would permit either to use the wires controlled by the other in case of an interruption.

Speaking of the recent government surveys, Captain Squier said: "As to the route westward from Hawaii to the Philippines, the preliminary survey the government is now making shows two unusual physical features. One is a submarine mountain rising from depth of 2,200 fathoms to within 82 fathoms of the surface and the other is one of the deepest abysses yet found in the world, situated 500 miles west of Guam and more than 4,900 fathoms in depth. These obstacles can both be

avoided by detours." Captain Squier said if a cable was laid the government ought to see that two complete repair ships were kept in Pacific waters. He said that if the whole of the required cable could not be made in the United States in a reasonable time it would be wise policy for the government to encourage a deep sea cable industry. In conclusion, he emphasized the commercial importance of the cable.

#### Supporter of Aguinaldo.

Sloux Falls, S. D., Dec. 27,-Under the direction of Senator R. F. Pettigrew about 200 fusionists met here tonight and organized an American league, as tarism and the control of all industriat institutions and government itself by organized capital." All the officers are fusionists and supporters of Mr. Pettigrew in his fight for re-election. Gov. A. E. Lee spoke briefly against trusts. Senator Pettigrew made the principal

### INTENSE SUFFERING

FROM DYSPEPSIA AND STOMACH TROUBLE.

Instantly Relieved and Permanently Cured by Stuart's Dyspepsia Tablets.

Dr. Redwell relates an interesting ac-count of what he considers a remark-able case of acute stomach trouble and chronic dyspepsia by the use of the new discovery, Stuart's Dyspepsia Tablets. He says: The patient was a man who had suffered, to my knowledge, for years with dyspepsia. Everything he ate seemed to sour and create gases in the stomach. He had pains like rheumatism in the back, shoulder blades and limbs fullness and distress after eating, poor appetite and loss of flesh; the heart became affected, causing pai-

"I gave him powerful nerve tonics and blood remedies, but to no purpose. As an experiment I finally bought a 50 cent package of Stuart's Dyspepsia Tablets at a drug store and gave them to him. Almost immediate relief was given, and after he had used four boxes he was to all appearances fully cured. "There was no more addity or sour.

pitation and sleeplessness at night.

watery risings, no bleating after meals, the appetite was vigorous and he has gained between 10 and 12 pounds in weight of solid healthy fiesh.

"Although Stuart's Dyspepsia Tablets are advertised and sold in drug stores, yet I consider them a most valuable addition to any physician's line of remedies, as they are perfectly harmless and can be given to children or invalids or in any condition of the stomach with perfect safety, being harmless and con-taining nothing but fruit and vegetable essences, pure pepsin and Golden

"Without any question they are the safest, most effective cure for indigestion, biliousness, constipation and all derangements of the stomach, however

Stuart's Dyspepsia Tables are made by the F. A. Stuart Co., of Marshall, Mich., and are sold by druggists everywhere at 50 cents per package.

Little book on stomach diseases mailed free. Address F. A. Stuart Co., Marshall, Mich.

speech. He said: "If I were a Filipino I would fight until I was gray, if I was not killed sooner." He declared the pending currency bill as the greatest outrage of this generation, and de-clared that the Republican senators were so completely under the adminis. tration's whip and lash that his resolution for information about the alleged calutation of the Filipino flag by Admiral Dewey was tabled. Before the meeting adjourned a resolution of sympathy for the Boers and calling on the administration to offer its good offices to stop the war in South Africa was

Bryan and a Panther.

Austin, Tex., Dec. 27.-Hon. William J. Bryan was the central figure in a big panther hunt in the mountains near this city. The hunt had been especially arranged for him, and something like 500 sportsmen, headed by Mr. Bryan and Ex-Gov. Hogg left the city early this morning for the scene of the proposed hunt. They returned this evening with a live panther in their posses-sion, having captured the animal during the day.

Payor Arizona and New Mexico. Phoeenix, Ariz., Dec. 28.-Senator

George L. Shoup, chairman of the Sencommittee on Territories, Senator C. D. Clark, Wyoming, Binger Her-mann, commissioner of the general land office, Gen. F. K. Ainsworth, in charge of pension records in the war depart-ment, in company with Governor Murphy, arrived in Phoenix last night after visiting various towns in New Mexico and Northern Arizona to acquaint themselves with the qualifications of the two Territories for becoming States. At a reception the visitors expressed themselves as surprised by the wonderful resources of Arizona and declared strongly in favor of admitting both Arizona and New Mexico.

Hfton Gallery to be Sold. New York, Dec. 28.—The gallery of paintings collected by the late Judge Hilton is about to be sold at auction. It is composed of nearly 200 paintings mostly by modern French artists, and is valued at more than \$500,000. Among

the masters represented are Meissonier Corot, Daubigny, Gerome, Vibert, Makart, Munkacsy, Bourgereau and Tissot The Objects de Art of the estate also are to be disposed of. They included a collection of silverware—early English, French, and American-second only in importance to the silver in the famous Morgan collection. The examples of Sevres porcelain, which are part of the collection to be sold, comprise a pair of vases for which Judge Hilton paid \$15,000. Indeed, the Sevres are said to second to none in this country and to be the most important ever included in an auction sale.

Schools for Indian Territory.

Jefferson City, Mo., Dec. 27 .- The Missouri State Teachers' association, in session with 1,000 teachers present, to day unanimously adopted a memorial to Congress to establish in the Indian Territory a system of free public schools, to be administered by the proper authority at Washington and sup-ported by the United States treasury until conditions shall permit the people to do so by the taxation of real and

But Dr. Kennedy's Favorite Remedy Will Cure You If You Suffer From Disease of the Kidneys, Liver, Bladder or Blood.

Thirty Years of Cures to Its Credit-Trial Bottle Free.

Kidney diseases should be attended to at once, for almost 90 per cent of our unexpected deaths of today are from that cause. Dr. David Kennedy's Favorite Remedy is the only sure cure known for diseases of the Kidneys, Liver, Bladder, and Blood, Rheumatism, Dyspepsia and Chronic Constipation. It is marvelous how it stops that pain in the back, relieves the necessity of urinating so often at night, drives away that scalding pain in passing water, corrects the bad effects of whiskey and beer and shows its beneficial effects on the system in an incredible short time. It is sold by all drug stores at \$1.00 a bottle,

You can tell just as well as a physician whether your Kidneys are diseased or healthy. Fill a tumbler with urine and let it stand 24 hours; if it has a sediment, if it is milky or cloudy, discolored or pale; if it is ropy or stringy, your Kidneys and Bladder are in a dangerous condition and you do not need a physician to tell you so. If you would like to test Favorite Remedy free of all charge, send your full name and post office address to the Dr. David Kennedy, Corporation, Rondout, N. Y., and a free trial bottle to-gether with a pamphlet of valuable medical advice, will be sent you postpaid, providing you mention this per when you write.
