Muddy Valley, Nev., May 21-1 noticed an article in the Evening News several days ago stating that daily shipments of early garden stuff were coming in from early garden stuff were coming in from Las Vegas. I thought at the time that it was a mistake for we have not only been shipping garden stuff from here, the Mud-dy Valley, to Sait Lake City, since the middle of March, but have also been ship-ping two and three times a week to Las Vegas. I have taken time since reading the article to inquire into the matter and find that the stuff was shipped from Moa-pa on the Muddy, instead of Las Vegas. It might be buterosting to some of the early settlers of the Muddy Valley, as it is gratifying to the present ones to know that we can furnish Sait Lake City with first class garden products in better con-dition than, and it many instances, of a superior quality.
