

SIX DIVORCES ARE GRANTED

Half a Dozen Decrees Entered by Judge Morse at Weekly Session.

COUPLE OF CONTEMPT CASES.

Two Defendants Fail to Pay Their Divorced Wives Alimony as Ordered by the Court.

Six decrees of divorce was the result of yesterday afternoon's session of Judge Morse's court. In addition to that the court had two orders to show cause in contempt cases to dispose of, wherein the defendants were up for contempt for failing to pay their divorced wives alimony as ordered by the court. Nels Anderson was ordered to pay his former wife Anna Anderson the sum of \$20 alimony by next Friday or appear before the court for sentence for contempt. The failure of Charles Baumann to pay his former wife Myrtle Baumann alimony was also investigated but the court will take some further testimony in the matter next week.

KISSED HER AND VANISHED.
For two years Harriet E. Brock has been waiting for her husband, R. S. Brock, to return to her but he has failed to do so, hence she was granted a divorce yesterday on the ground of desertion. Mrs. Brock testified that her husband kissed her good-bye when he left for Oregon about two years ago and informed her that he would return by midnight. He also telephoned to her from Ogden that he would return at that time, but he did not do so and she has never seen him since and does not know where he is. They were married on April 20, 1905. Mrs. Brock's former name, Harriet E. Pitts, was restored to her.

WISH NOT GRANTED.
Alice B. Clement was divorced from William M. Clement on the ground of cruelty. Mrs. Clement testified that she married the defendant on July 5, 1895 and that they have four children. She said that he cursed and abused her and on one occasion he drew out his watch and looking at it said: "I hope the Lord will strike you dead in two minutes." She is still alive, notwithstanding his wishes in the matter and was granted her divorce and the custody of their children.

TOO MUCH ALCOHOL.
Drunkness and non-support are the grounds on which Mary J. McDonough was granted a divorce from Peter J. McDonough, whom she married on Nov. 11, 1901. Plaintiff stated that her husband spent most of his time drinking instead of working to support his wife.

EVIDENCE FORTHCOMING.
Ruth V. Bigham, did not have sufficient evidence just week to prove desertion on the part of Frank H. Bigham, made up the deficiency yesterday and was granted her divorce.

GIRL WIFE.
Mary S. Livingston told the court that Robert W. Livingston, whom she married on March 3, 1895, when she was only 17 years of age, had deserted her in December, 1905, and she has not seen him since. She was granted a divorce.

HE DESERTED HER.
Desertion was also the ground on which Constance Annunzio was granted a divorce from Cleo A. Annunzio, whom she married on Nov. 2, 1894. Plaintiff said that her husband deserted her in October, 1905. She was awarded the custody of their children.

SHOT IN SELF-DEFENSE.

Verdict of Grand Jury in the Case of Fremont Cobb.

Self-defense was the verdict of the grand jury, which had under consideration the case of Fremont Cobb of this city, accused of murdering Jack Ward at Gold Butte, Nevada. The verdict was rendered at 10 o'clock on Wednesday of this week, and Cobb was at once set free. The two men had quarreled over some mining claims, and it is alleged that Ward made threats against Cobb. He went to Cobb's camp and invited his antagonist to shoot it out. The other man acquiesced and Ward was killed.

NOW FOR A VIADUCT.

Solution of Short Line Grade Problem On Fourth West.

As a solution of the problem of grades for the Short Line tracks at First South and Fourth West streets it is probable that a resolution will be introduced at the city council Monday night requiring the company to build a viaduct over the tracks running from Third to Fourth West street for the accommodation of vehicles and pedestrians.

Many protests have been received from the residents of the west side in regard to the new tracks of the company being placed above the grade of the street so that teams could not get over them. The council committee has been working on the problem for some time and it was thought that the tracks could be lowered but it is now probable that they will be allowed to remain where they are and the company will be required to build a viaduct over the tracks.

FOURTEEN FINED.

Judge Gowans Put a Check on Youthful Bike Riders.

Yesterday was a very busy day in the juvenile court as 14 boys were before Judge Gowans for various offenses. Ten of them were charged with riding their bicycles on the sidewalks in the restricted district and four were charged with firing off a gun in the city limits. Each of the youthful offenders was fined \$5 and in all probability they will be more careful in the future to obey the city ordinances in regard to such matters. The bicycle offenders are: William Moriarty, Neil Joseph, Thomas Bishop, Parley White, Thomas Fellows, Kenneth Miller, Vernon Calder, Melvin Schluter, Heber Nelson and Lewis H. Thorpe.

H. G. Hutebings, George E. Wells, A. T. Davis and L. R. Brewster are the boys who were discharging firearms inside the city limits and came very near shooting Officer Taylor. They were fined \$5 each.

LITERARY SALT LAKE.

Western World Gives Considerable Praise to Several Local Writers.

In a consideration of Salt Lake as a literary center of the west, the "Western World" published at Denver gives considerable praise to a number of well known literary writers. The article reviewing literary life in this community is written by Hon. N. W. Senneker, and his preface is in the form of an address to the literary atmosphere of the Great Salt Lake valley. "There is probably no more interesting literary field in the country than Salt Lake City," he says. "Not because there is more of it, but because it is so new and so young, which will escape condemnation under the eyes of the fast, but rather because it is formative and volcanic in its action and results of literary literature there is not a little, for naturally,

where women are so religiously sought after one would expect much attention to be paid to belle-lettres. In every section of the world of letters there is much that is classic and more that is forceful in spite of its lack of erudition.

In spite of our vast Dead Sea and majestic mountains doubtless there are many who are mute and inglorious; but whether there are many who, in presences, are unimpressed or whether their magnificence urge them to cry aloud, the fact remains that every branch of expression is loaded with the blossom and fruit of literary endeavor in the tropic of literature.

Many who merely pass through our beautiful valley get the habit, for example take Capt. Bonneville's adventures as recounted by Washington Irving, Conan Doyle's study in Scarlet, Rudyard Kipling's "Notes on Salt Lake City," Wilson's "Lions of the Lord," and some of the work of Robert Louis Stevenson.

Passing on to local writers, the brilliance of Judge C. C. Goodwin is mentioned and he is given credit for the largest literary output. Of the hymns "My Father," by Eliza R. Snow, is given first mention as the most noted hymnical production, while P. P. Pratt, Chas. W. Penrose, Charles W. Stayner and Orson Pratt are mentioned as hymnists.

The literature in defense of Mormonism and that written against it is listed, after which the short story writers are mentioned. The writer on this point gives Miss Josephine Spencer of the "News" staff first place, in the following comment:

Among our short story writers and poets should be mentioned Miss Sarah E. Carmichael, Emily Hill Woodmansee, Valeria DeMude Kelsey, Kate Thomas and her sister, Blanche Thomas, Christine D. Young, Helene Mar Whitney, Dolores Watts, Alfred Lambourn, James Todwin Goodwin and Ruth May Fox. Annie Pike Greenwood has written a most highly considered and enterprising story, and short story of unusual excellence.

But among these writers Miss Josephine Spencer is entitled to first place. She edits one of the departments of the "News" and is most highly esteemed for her womanly qualities by a large circle of acquaintances. Her most studied efforts have appeared in a number of the best monthly magazines throughout the country.

Mrs. Emeline B. Wells and Susan Young Gates have long creditable records in periodical work and are looked upon as mothers of many of our literary aspirants.

SOCIAL AND PERSONAL.

They expect to spend six weeks in Italy before they return to the States.

From Italy they went through Switzerland and down the Rhine. They expect to join Miss Emma Lucy Gates in Berlin this month.

Last Tuesday Mrs. O. C. Beebe entertained at her home in honor of the birthday anniversary of Mrs. Louis R. Bell, the guests being chiefly the members of the general board of Primary associations. The rooms were beautifully decorated with lilacs of the valley and carnations, and a dinner to the guests of honor of a beautiful ring set with her birthday stone, emerald. The time was spent with music and games and the affair was in every way delightful.

At 5 o'clock the thermometer stood at 38 degrees. There was a slight breeze from the east, the sky being partially overcast with clouds. The wind soon changed into the south.

It started about one hour before the camp, writes Orson Pratt, "accompanied with guards. The large kind of wolves are very frequent in this country; we saw several this morning, and a lone wolf and buffalo. Traveled about seven miles, crossing the edge of the bluffs, which here make up to the river, but soon entered again the prairie bottoms.

In about one mile from this point we crossed a clear stream of water, (Spring Creek) about 15 feet wide, with a sandy hard bottom.

SELLS-FLOTO SHOWS

Water-Proof Tents—Rain Will Not Spoil the Exhibition.

A sudden downpour of rain or a long continued drizzle will have no effect on the patrons of the great Sells-Floto Shows when it exhibits here. The reason of this will be apparent to everyone who sees the huge tents that will be erected here for the performance. These are all constructed of "mercerized" ducking. This marvelous invention for the waterproofing of material has been in use for rain coats, but up to this year has never been used for tents. People who have used "mercerized" cloth know how it sheds water, and it was the knowledge of this that caused the Sells-Floto shows to have all their tents made out of this material. It is quite a stride in advance of other shows, but is only in keeping with the progressiveness of the management of these shows. Beneath these tents spectators can sit in comfort and ease during the heaviest of rains and be as dry as if in the finest theater in the country. This is only one of the many novelties that have been added to these shows this season.

It is respectfully suggested the children attend the afternoon exhibition, where ample time is given to view the large menagerie, likewise avoiding the night crowds. Uniformed ushers will attend every want of the little folks and the care and attention paid to ladies and children is the first consideration of the management.

The date is Wednesday, May 22.
