

GERMANY MAY MAKE COMPLAINT

Calves Foreign Minister Landsdowne
Repudiates Responsibility for
Mr. Lee's Remarks.

THEY HAVE CREATED A STORM.

He Puts Out a Statement, Saying
That He Was Incorrectly
Reported.

London, Feb. 6.—The speech of Arthur Hamilton Lee, civil lord of the admiralty, at Buxton, Hampshire, on Feb. 5, has created a storm in Germany that the government organs here are endeavoring to allay by editorializing away its effect. Mr. Lee himself, in a communication to the Standard, makes a similar effort by declaring that he was incorrectly reported and giving what he calls a corrected version, which is so different from the original report as to be infinite credit to the ingenuity of English newspaper editors.

According to the Standard's Berlin dispatch, unless Foreign Minister Landsdowne promptly repudiates responsibility for Mr. Lee's alleged utterances the government will make a formal complaint.

Mr. Lee is quoted as having said in a speech on Feb. 3 that in the distribution of Great Britain's naval forces England has had not so much to keep her eye on France and the Mediterranean, but to look with anxiety to the North Sea; that the fleets had been so distributed as to enable them to deal with any danger in that direction, should it occur. Under existing conditions, he said, the British navy would give its blow in first, and he maintained that "by the recent naval reforms Great Britain's strength as a naval fighting power had been practically doubled during the last few months."

KILLED THE WOMAN.

Janitor Said that She Has Ruined
His Life.

New York, Feb. 5.—A young woman, described as Louise Schroeder and Louis Adams, was shot and killed today by Emil Bollinger, a janitor, who was arrested after being seriously injured in an attempt to escape. The shooting took place in a hotel on Third avenue. Bollinger would offer no explanation of the tragedy except to say that he had shot the woman because she had ruined his life. The police learned that Bollinger's wife is said to have left him two years ago on account of his attentions to the woman who was killed today.

Drowning in Delaware Bay.

Delaware, Feb. 5.—Thirty men narrowly escaped drowning today in the icy waters of the harbor of refuge at the Delaware breakwater, and after being rescued with the greatest difficulty by the crew of two tugs, they were forced to make their way ashore on foot, over the bay and beach with the Delaware river and bay in the background.

May Lead to Discovery of Man
Who Stole Money.

Pittsburg, Pa., Feb. 5.—Adams Express company officials here to find the man who removed \$5,000 from an express package in or near this city two weeks ago through a thumb print. In attempting to give the broken wax seal the appearance of not having been tampered with, a thumb was pressed against it. Every employee of the company who had handled the package has been compelled to appear at the express office and leave an imprint of his thumb. All of the employees thus far have come forward willingly and have no impressions taken.

C. K. BECKWITH DEAD.

Was President of Defunct Oberlin Citizens' Bank.

Oberlin, O., Feb. 5.—C. K. Beckwith, president of the defunct Citizens' National bank of this city, died at 10:45 A.M. tonight, after two days of unconsciousness during which death was expected at any moment. Only the family surrounded the deathbed of the banker. Mr. Beckwith was about 65 years of age.

On Dec. 14 last the federal grand jury in Cleveland returned five indictments against Beckwith upon the charges of violating the national banking laws in connection with the loans

made to Mrs. Cassie L. Chadwick by the Citizens' National bank of Oberlin, which had been the president.

From the day of his arrest Mr. Beckwith's health rapidly declined, as a result of worry over his troubles. He frequently declared during his illness that he wanted to die. For several days prior to his death he refused to take food in any form. Death resulted directly from heart trouble.

The death of President Beckwith may materially weaken the cases of forgery and conspiracy to misapply bank funds now charged against Mrs. Chadwick.

NATIONAL GRANGE WANTS A DAY SET APART

New York, Feb. 5.—A proclamation addressed "To the American People" will be promulgated tomorrow from the various state capitals under the auspices of the National Grange, Patrons of Husbandry and various national labor and agricultural organizations, declaring that Washington's birthday be observed as "Farm, Home and Poultry day."

It advises that upon this day the people concentrate their thoughts upon the conditions for the betterment of the home, farm and factory. The proclamation recites a number of reforms as the object of the movement, among them being government control over railroads "sufficient to abolish unjust rates and discrimination," a partial post permitting packages up to 11 pounds weight and a post check currency system.

The proclamation urges every one to communicate with his congressman in Washington in behalf of these measures. It is signed by Gov. Brooks of Wyoming, Gov. Herrick of Ohio, Gov. Elrod of South Dakota, who excludes parcels post from his approval; Aaron Jones, minister of the National Grange, and various officers of labor organizations.

CHARGES WERE FALSE.

Judge Irwin Was Not Drunk on
Bench but Sick.

Washington, Feb. 4.—The following statement regarding the charges against Judge Irwin of Oklahoma was made public today at the department of justice by Special Atty.-Gen. Charles W. Russell:

"Some time ago Milton B. Cope, a lawyer of El Reno, Okla., filed charges against Judge Irwin of the second judicial district of Oklahoma, charging him with drunkenness on the bench on a certain day and on information and belief, with various other offenses. Mr. Cope's charges were investigated, but was informed that unless he supported his charges with affidavits, none would be made. This he failed to do.

TOM JOHNSON THREATENED

Cleveland's Popular Mayor in Grave
Danger—Pneumonia Killing
Thousands.

Cleveland, Jan. 25.—Friends of Mayor "Tom" Johnson are alarmed today over his serious illness. He has taken a turn for the worse.

It is feared that the Mayor will develop pneumonia. He is under the care of Dr. H. H. Powell and two nurses. At the Johnson home today it was said his condition was critical.

WHAT JOHNSON NEEDS.

Here is a valuable life in danger. Mr. Johnson needs a lung remedy—not a cough syrup—very likely he tried something like that, soothed his cough a bit and the dander of pneumonia got on eating their way into his lungs. Every one who neglects a cough is laying his lungs open to the dread pneumonia and consumption germs that fill the air. Strong lungs throw out evil germs.

Beware the sary cough syrup. It soothes you a little and you continue neglecting your scarred, weak lungs. The best prescription of a famous English physician has been curing lungs for 50 years. Not a cough syrup, though it cures your cough and cold at once. It cures your lungs, has cured consumption and pneumonia. Take your case in hand now and be sure of perfect lungs. The sure cure for all lung troubles is Dr. Acker's English Remedy, sold by all druggists on a positive guarantee, cure or money back without a question. There is nothing else like it. We will gladly send you a sample bottle, quite free, if you write W. H. Hooper & Co., Buffalo, New York, Toronto, London.

ceived from Judge Irwin a statement, supported by affidavits of some of the very parties whom Mr. Cope referred to in support of his allegations, showing that the allegations had no basis in fact, and hence the department will take no further action in the premises. It appears that the judge was sick when he was supposed to have been drunk."

IN A PRISON CELL.

Lillian Russell's Son-in-Law Is
Locked Up.

Chicago, Feb. 4.—Abbott Lewis Einstein, the husband of Dorothy Russell, daughter of Lillian Russell, was locked in a cell at the Harrison street police station tonight, and unless he secures bail tomorrow, he will remain there until Monday.

His wife several days ago instituted proceedings against him for divorce and tonight Mrs. Einstein met her husband on the street and she says he made repeated threats to kill her. As soon as she could get away from him, Mrs. Einstein went to the Central police station and reported the threats made by her husband.

Lieut. Mcweeney instructed her to sign a criminal complaint, charging Einstein with threats to kill. Half an hour after this was done Einstein was arrested in the office of his attorney.

COAL MINERS' GRIEVANCES.

Mitchell Goes to Alabama to
Investigate Them.

Indianapolis, Ind., Feb. 5.—John Mitchell, national president of the United Mineworkers of America, left today for Birmingham, Ala., where he will investigate the grievances of the bituminous miners of the twentieth district, who have been out on strike since the disputed wage scale. There are 5,000 miners in the district and the difficulty is considered to be one of signal importance, as the men have been out since July.

"No, I am not going down to settle the difficulty," said President Mitchell, just before he left. "In fact, I know of no developments that are likely to come about soon. I have been very busy here for some time and this is really my first opportunity to make a personal study of the Alabama troubles. I will probably be gone for some time."

FIGHT AT A FUNERAL.

Butcher Boy and Pallbearers
Come to Blows.

Cincinnati, Feb. 5.—A fist fight yesterday morning between the driver of a butchery wagon and several of the pallbearers at the funeral of Felix Perrone, the commission merchant, was passing through the streets on its way to the Sacred Heart church, Broadway. The driver of a wagon tried to break through the line of carriages. Immediately several of the pallbearers jumped out of their carriages and tried to stop him. In the car, which followed the funeral procession, were struck, and the driver of the butchery wagon then concluded to wait until the cortege had passed.

High Duty on Tea Wanted.

New York, Feb. 4.—Re-enactment of the law which provides for a high duty on tea brought into this country from China, which was repealed by Congress some time ago, was advocated by President Thomas A. Phelan at the annual meeting of the National Tea association, which was held here today.

Mr. Phelan also voiced a protest against the way in which tea is delivered by the railroads which connect with the steamers on the Pacific. Under the present arrangement, he said, the railroads may deliver goods in an unmerchantable condition and no redress is afforded.

The association chose Thos. A. Phelan of New York as president. Among the vice presidents named is C. E. Platt of San Francisco. Among the directors named are M. J. Bradenstien, C. P. Platt and A. Schilling of San Francisco and J. N. Blake of Denver.

Fire in Birmingham, Ala.

Birmingham, Ala., Feb. 5.—Fire, which at one time threatened to destroy millions of dollars' worth of property, was extinguished early today after it had caused losses to the amount of \$300,000, divided among a score of firms in the principal business section of the city. Requests for assistance were made of the cities of Montgomery, Atlanta, Chattanooga and Gadsden, but later these requests were cancelled on account of the shifting of the wind and a heavy down-pour of rain. The fire was caused by a sale building, \$20,000, and the Earle building, \$20,000.

Homesick Porto Ricans.

St. Louis, Feb. 5.—Twenty Porto Rican girls departed tonight for their native island, making the last detachment to reach home of the 60 girls imported from there some time ago by a St. Louis manufacturing concern as employees. After being here a time all the girls, with few exceptions, became homesick and wanted to return. They ceased working and as they had no money, the King's Daughters organization took care of them until means could be provided for sending them home. Several who have decided to remain in the United States will take up the study of English, with the view of ultimately teaching in Porto Rico.

NON-UNION MINERS.

Sue Company for Being Discharged on Union's Demand.

Tuscaloosa, Ala., Feb. 5.—Twenty-one suits amounting to \$16,000, have been filed in the county court here. Each of the suits was for \$5,000. They were filed by the non-union miners at Blackwood, 16 miles north of Tuscaloosa, against the United Mineworkers of America, District No. 20 of that organization, and the local organization there. The plaintiffs allege that during the month of October last the local organization made a demand upon the Alabama Consolidated Iron and Coal company to dismiss from their mines all non-union workers, declaring that if the company should fail to grant their request a strike would be the result, and that on account of heavy contracts which the company was compelled to fill, knowing that a strike would greatly retard their output, they were compelled to act as the union miners demanded. They allege that from this reason on Nov. 1 they were turned out of their homes and many of them deprived of the bare necessities of life.

CHICAGO SLAYS.

They Organize to Aid Their
Countrymen in Revolution.

Chicago, Feb. 5.—At a stirring meeting Chicago Slays here organized today and their countrymen in the revolution which they declare will come in the Austrian empire.

Nearly 1,000 delegates from Slav organizations were present and listened to a revolutionary address made by Dr. Ante Tresica-Pavlica, deputy to the Austrian parliament from Dalmatia. When he completed his address (in some times) he was interrupted by a "Slav Liberty Federation," was announced. It is the plan to spread the organization to other American cities. Dr. Tresica-Pavlica made an impassioned address, telling of the financial wrongs he said had been committed and making an appeal to the people present to organize to strike a blow immediately, before the year could be renewed.

In a summary of the situation he said: "In my opinion Hungary came to the end of its aspirations in the elections last week. The extremists in the country do not recognize this and believe they can secure more concessions from the federated nation. If they

should demand more it means the dissolution of the empire. The dissolution of Austria-Hungary means the downfall of the imperialistic politics of Hungary. While this imperialism is founded on the support of the dynasty and the army, the Magyars, the Hungarians, will lose the support of the dynasty and the army, if they clamor for more than has been granted to them. In that case all nationalities will revolt. No country in these days will aid the oppressor, Hungary.

For these reasons I am glad that the opposition in Hungary was victorious at the polls, for every such victory hastens the dissolution of the Austria-Hungarian empire."

BIRDIE BROOKES ARRESTED.

Colored Girl Who Did a Successful Burglary Business.

Chicago, Feb. 6.—In the arrest of "Birdie" Brookes, alias Spears, a 15-year-old colored girl, the police believe they have solved most of the mysterious burglaries that have taken place in Hyde Park and Woodlawn residences this winter. The method used by the "woman burglar" was to hire out as a washerwoman for a few days until she had the "key of the land." The night after she left the house would be rifled of jewelry. In the room where the girl was found was a quantity of stolen property. With her occasional assistance for the claims she "can't remember" all the houses she robbed," the police have identified a number of stolen articles.

The biggest robbery that the police believe the girl was connected with, is that of the residence of Prof. Frederick Leonard of the Hyde Park high school. Wearing apparel, jewelry, old coins and silverware valued at \$1,000 were taken from this house on the night of Jan. 7.
